While it is the intention of the Issuer in respect of any Notes which are categorised as “Green Bonds” or “Social Bonds” to apply an amount equivalent to the proceeds of any such Notes to Eligible Projects in, or substantially in, the manner described in the Final Terms relating to any Notes, there can be no assurance that the relevant project(s) or use(s) the subject of, or related to, any Eligible Projects will be capable of being implemented in or substantially in such manner and/or in accordance with any timing schedule and that accordingly such amount equivalent to the proceeds of such Notes will be totally or partially disbursed for the specified Eligible Projects, nor can there be any assurance that such Eligible Projects will be completed within any specified period or at all or with the results or outcome (whether or not related to the environment) as originally expected or anticipated by the Issuer. Any such event or failure by the Issuer will not constitute an Event of Default under the Notes.

The Arranger and the Dealers do not accept any responsibility for any green, social, environmental and sustainability assessment of any Notes issued as Green Bonds or Social Bonds or make any representation or warranty or assurance whether such Notes will meet any investor expectations or requirements regarding such “green”, “social”, “environmental”, “sustainable” or similar labels (including in relation to Regulation (EU) 2020/852 on the establishment of a framework to facilitate sustainable investment (the “**EU Taxonomy Regulation**”) and any related technical screening criteria, Regulation (EU) 2023/2631 on European Green Bonds and optional disclosures for bonds marketed as environmentally sustainable and for sustainability-linked bonds (the “**EU Green Bond Regulation**”), Regulation (EU) 2019/2088 on sustainability-related disclosures in the financial services sector (“**SFDR**”) and any implementing legislation and guidelines, or any similar legislation in the United Kingdom) or any requirements of such labels as they may evolve from time to time. None of the Arranger or the Dealers are responsible for the use or allocation of proceeds for Green Bonds or Social Bonds, nor the impact or monitoring of such use of proceeds. Neither the Arranger nor the Dealers undertake to ensure that there are at any time sufficient Eligible Projects to allow for allocation of a sum equal to the net proceeds of the issue of such Green Bonds or Social Bonds in full.

Application may be made for a Series of Green Bonds or Social Bonds to be displayed on the Luxembourg Green Exchange and no representation or assurance is given by the Issuer, the Arranger, the Dealers, or any other person that such display satisfies, whether in whole or in part, any present or future investor expectations or requirements as regards any investment criteria or guidelines with which such investor or its investments are required to comply. Furthermore, it should be noted that the criteria for any such display may vary from one stock exchange or securities market to another and may be subject to change. In addition, no representation or assurance is given or made by the Issuer, the Arranger, the Dealers or any other person that such display will be maintained during the life of any such Green Bonds or Social Bonds.

INFORMATION RELATING TO “SUSTAINABILITY-LINKED NOTES”

The Issuer may also issue Notes which are categorised as “Sustainability-Linked Notes” (as defined in Condition 5.4 (*Sustainability-Linked Notes*)) if the Step Up Option, the Step Down Option or, the Redemption Premium Option is specified as applicable in the relevant Final Terms. Unlike Green Bonds and Social Bonds, Sustainability-Linked Notes are not intended by the Issuer to be applied for the purposes of financing and/or refinancing, in whole or in part, “green”, “social” or other equivalently-labelled projects but will be used for general corporate purposes. In such circumstances, prospective investors should have regard to the information set out under, or referred to in, Condition 5.4 (*Sustainability-Linked Notes*) and the relevant Final Terms and must determine for themselves the relevance of such information, together with any other investigation such investors deem necessary, for the purpose of any investment in such Notes and their suitability also in light of their own circumstances.

None of the Issuer, the Arranger nor any Dealer makes any representation as to the sustainability-linked nature of any Sustainability-Linked Notes issued under the Programme. Neither the Arranger nor any Dealer has undertaken, nor is it responsible for, any assessment or verification of the Key Performance Indicator(s) or the Sustainability Performance Target(s) selected by the Issuer or if such indicators are relevant for the Issuer's business nor if they are challenging enough for the Issuer and their impact, or for monitoring the Issuer's performance in connection with such Key Performance Indicator(s) or such Sustainability Performance Target(s) selected by the Issuer for any such Sustainability-Linked Notes. Moreover, none of the Issuer, the Arranger or the Dealers makes any representation or warranty or assurance whether any Sustainability-Linked Notes will meet any investor expectations or requirements regarding assets with sustainability characteristics (including in relation to the EU Taxonomy Regulation and any related technical screening criteria, the EU Green Bond Regulation, the SFDR and any implementing legislation and guidelines, or any similar legislation in the United Kingdom).

Application may be made for a Series of Sustainability-Linked Notes to be displayed on the Luxembourg Green Exchange and no representation or assurance is given by the Issuer, the Arranger, the Dealers, or any other person that such display satisfies, whether in whole or in part, any present or future investor expectations or requirements as regards any investment criteria or guidelines with which such investor or its investments are required to comply. In addition, no representation or assurance is given or made by the Issuer, the Arranger, the Dealers or any other person that such display will be maintained during the life of any such Sustainability-Linked Notes.

INFORMATION RELATING TO THE SUSTAINABLE FINANCE FRAMEWORK AND SECOND PARTY OPINION

In connection with the issue of “Green Bonds”, “Social Bonds” and “Sustainability-Linked Notes”, the Issuer has prepared and published its Sustainable Finance Framework dated March 2024 which is available on the Issuer's website: <https://www.philips.com/c-dam/corporate/about-philips/investors/debt-info/events/Philips-Sustainable-Finance-Framework-March-2024.pdf> (as amended, supplemented and/or replaced from the time to time, the “**Sustainable Finance Framework**”). The Issuer has appointed a sustainability specialist, Moody's Investor Services (the “**Second Party Opinion Provider**”), to issue a second party opinion (the “**Second Party Opinion**”) to confirm the Sustainable Finance Framework's alignment with the ICMA Green Bond Principles 2021, including the updated appendix I of June 2022, the ICMA Social Bond Principles 2023 and the ICMA Sustainability-Linked Bond Principles

2023. The Second Party Opinion is available on the Issuer's website: https://www.philips.com/c-dam/assets/corporate/global/investor/Second_Party_Opinion-Royal-Philips.pdf.

The Issuer expects to review the Sustainable Finance Framework on a periodic basis to ensure that it is in line with market expectations, voluntary standards such as the ICMA Sustainability-Linked Bond Principles and any relevant principle or regulatory developments that may emerge in the future. The Issuer also may review the Sustainable Finance Framework in case of a Recalculation Event (as defined below) which may, in the Issuer's sole discretion, result in the Sustainable Finance Framework being updated and amended. The updates, if not minor in nature, are expected to be presented for approval to the Second Party Opinion Provider or any such other qualified provider of a second party opinion. Any such updated Sustainable Finance Framework will be made available on the Issuer's website at: <https://www.philips.com/a-w/about/investor.html>.

In addition, in connection with the issue of any Sustainability-Linked Notes under the Programme, the Issuer will engage an External Verifier (as defined in Condition 5.4 (*Sustainability-Linked Notes*)) to carry out the relevant assessments required for the purposes of providing an Assurance Report and an SPT Verification Assurance Certificate (both as further described and defined in Condition 5.4 (*Sustainability-Linked Notes*)) in relation to the Sustainability-Linked Notes which will be accessible through the Issuer's website at: <https://www.philips.com/a-w/about/investor.html>.

The Sustainable Finance Framework, the Second Party Opinion, any information on, or accessible through, the Issuer's website and the information in such opinions or report or any past or future Assurance Report or SPT Verification Certificate does not form part of, nor is incorporated by reference in, this Base Prospectus and should not be relied upon in connection with making any investment decision with respect to any Notes to be issued under the Programme.

The Second Party Opinion is not, nor should it be deemed to be, a recommendation by the Issuer, the Arranger or any Dealer or any other person to buy, sell or hold any Green Bonds, Social Bonds or Sustainability-Linked Notes.

The Second Party Opinion provides an opinion on certain green, social, environmental and related considerations and is not intended to address any credit, market or other aspects of an investment in any Green Bonds, Social Bonds or Sustainability-Linked Notes, including without limitation market price, marketability, investor preference or suitability of any security. The Second Party Opinion is a statement of opinion, not a statement of fact.

No representation or assurance is given by the Arranger or the Dealers as to the suitability or reliability for any purpose whatsoever of the Second Party Opinion or any opinion, report or certification of any third party made available in connection with an issue of Green Bonds, Social Bonds or Sustainability-Linked Notes. The Second Party Opinion and any other such opinion or certification is not, nor should be deemed to be, a recommendation by the Arranger or the Dealers, or any other person to buy, sell or hold any Green Bonds, Social Bonds or Sustainability-Linked Notes and is current only as of the date it is issued. The criteria and/or considerations that formed the basis of the Second Party Opinion or any such other opinion or certification may change at any time and the Second Party Opinion may be amended, updated, supplemented, replaced and/or withdrawn. Prospective investors must determine for themselves the relevance of any such opinion or certification and/or the information contained therein. None of the Arranger or the Dealers are responsible for the assessment of the Sustainable Finance Framework including the assessment of the applicable eligibility criteria in relation to Green Bonds, Social Bonds or Sustainability-Linked Notes set out in therein.

See also "*Risk Factors—Risks related to the characteristics of Notes issued as Green Bonds, Social Bonds or Sustainability-Linked Notes*".

IMPORTANT – EEA RETAIL INVESTORS - If the Final Terms in respect of any Notes includes a legend entitled "Prohibition of Sales to EEA Retail Investors", the Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the EEA. For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of MiFID II; or (ii) a customer within the meaning of Directive (EU) 2016/97 (as amended, the "**Insurance Distribution Directive**"), where that customer would not qualify as a professional client as defined in point (10) of

Article 4(1) of MiFID II. Consequently no key information document required by Regulation (EU) No 1286/2014 (as amended, the “**PRIIPs Regulation**”) for offering or selling the Notes or otherwise making them available to retail investors in the EEA has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the EEA may be unlawful under the PRIIPs Regulation.

IMPORTANT - UK RETAIL INVESTORS – If the Final Terms in respect of any Notes includes a legend entitled “Prohibition of Sales to UK Retail Investors”, the Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the UK. For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client, as defined in point (8) of Article 2 of Regulation (EU) No 2017/565 as it forms part of domestic law by virtue of the EUWA; or (ii) a customer within the meaning of the provisions of the Financial Services and Markets Act 2000, as amended (the “**FSMA**”) and any rules or regulations made under the FSMA to implement Directive (EU) 2016/97, where that customer would not qualify as a professional client, as defined in point (8) of Article 2(1) of Regulation (EU) No 600/2014 as it forms part of domestic law by virtue of the EUWA. Consequently no key information document required by Regulation (EU) No 1286/2014 as it forms part of domestic law by virtue of the EUWA (the “**UK PRIIPs Regulation**”) for offering or selling the Notes or otherwise making them available to retail investors in the UK has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the UK may be unlawful under the UK PRIIPs Regulation.

MiFID II PRODUCT GOVERNANCE / TARGET MARKET - The Final Terms in respect of any Notes may include a legend entitled “MiFID II Product Governance” which will outline the target market assessment in respect of the Notes and which channels for distribution of the Notes are appropriate. Any person subsequently offering, selling or recommending the Notes (a “**distributor**”) should take into consideration the target market assessment; however, a distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the target market assessment) and determining appropriate distribution channels. A determination will be made in relation to each issue about whether, for the purpose of the MiFID Product Governance rules under EU Delegated Directive 2017/593 (the “**MiFID Product Governance Rules**”), any Dealer subscribing for any Notes is a manufacturer in respect of such Notes, but otherwise neither the Arranger nor any of the Dealers nor any of their respective affiliates will be a manufacturer for the purpose of the MiFID Product Governance Rules.

UK MiFIR PRODUCT GOVERNANCE / TARGET MARKET - The Final Terms in respect of any Notes may include a legend entitled “UK MiFIR Product Governance” which will outline the target market assessment in respect of the Notes and which channels for distribution of the Notes are appropriate. Any distributor should take into consideration the target market assessment; however, a distributor subject to the UK MiFIR Product Governance Rules is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the target market assessment) and determining appropriate distribution channels. A determination will be made in relation to each issue about whether, for the purpose of the UK MiFIR product governance rules set out in the FCA Handbook Product Intervention and Product Governance Sourcebook (the “**UK MiFIR Product Governance Rules**”), any Dealer subscribing for any Notes is a manufacturer in respect of such Notes, but otherwise neither the Arranger nor the Dealers nor any of their respective affiliates will be a manufacturer for the purpose of the UK MiFIR Product Governance Rules.

PRODUCT CLASSIFICATION PURSUANT TO SECTION 309B OF THE SECURITIES AND FUTURES ACT - The relevant Final Terms in respect of any Notes may include a legend entitled “Singapore Securities and Futures Act Product Classification” which will state the product classification of the Notes pursuant to section 309B(1) of the Securities and Futures Act 2001 of Singapore (as modified or amended from time to time, the “**SFA**”). If appropriate, the Issuer will make a determination and provide the appropriate written notification to “relevant persons” in relation to each issue about the classification of the Notes being offered for purposes of section 309B(1)(a) and Section 309B(1)(c) of the SFA.

IN CONNECTION WITH THE ISSUE OF THE NOTES, THE DEALER OR DEALERS (IF ANY) NAMED AS THE STABILISING MANAGER(S) (OR PERSONS ACTING ON BEHALF OF ANY STABILISING MANAGER(S)) MAY OVER-ALLOT NOTES OR EFFECT TRANSACTIONS WITH A VIEW TO

SUPPORTING THE MARKET PRICE OF THE NOTES AT A LEVEL HIGHER THAN THAT WHICH MIGHT OTHERWISE PREVAIL. HOWEVER, STABILISATION MAY NOT NECESSARILY OCCUR. ANY STABILISATION ACTION MAY BEGIN ON OR AFTER THE DATE ON WHICH ADEQUATE PUBLIC DISCLOSURE OF THE TERMS OF THE OFFER OF THE NOTES IS MADE AND, IF BEGUN, MAY CEASE AT ANY TIME, BUT IT MUST END NO LATER THAN THE EARLIER OF 30 DAYS AFTER THE ISSUE DATE OF THE NOTES AND 60 DAYS AFTER THE DATE OF THE ALLOTMENT OF THE NOTES. ANY STABILISATION ACTION OR OVER-ALLOTMENT MUST BE CONDUCTED BY THE RELEVANT STABILISING MANAGER(S) (OR PERSONS ACTING ON BEHALF OF ANY STABILISING MANAGER(S)) IN ACCORDANCE WITH ALL APPLICABLE LAWS AND RULES.

- (i) have sufficient knowledge and experience to make a meaningful evaluation of the Notes, the merits and risks of investing in the Notes and the information contained or incorporated by reference in this Base Prospectus or any applicable supplement;

This Base Prospectus contains certain forward-looking statements with respect to the financial condition, results of operations and business of the Group and certain of the plans and objectives of the Group with respect to these items. Examples of forward-looking statements include, but are not limited to, statements made about the Group's strategy, estimates of sales growth, future Adjusted EBITA, future restructuring and acquisition-related charges and other costs, future developments in the Group's organic business and the completion of acquisitions and divestments. Forward-looking statements can be identified generally as those containing words such as "anticipates", "assumes", "believes", "estimates", "expects", "should", "will", "will likely result", "forecast", "outlook", "projects", "may" or similar expressions. By their nature, these statements involve risk and uncertainty because they relate to future events and circumstances and there are many factors that could cause actual results and developments to differ materially from those expressed or implied by these statements.

These factors include but are not limited to: the Group's ability to gain leadership in health informatics in response to developments in the health technology ("**HealthTech**") industry; the Group's ability to keep pace with the changing HealthTech environment; macroeconomic and geopolitical changes; integration of acquisitions and their delivery on business plans and value creation expectations; securing and maintaining the Group's intellectual property rights, and unauthorised use of third party intellectual property rights; ability to meet expectations with respect to environmental, social and governance ("**ESG**") related matters; failure of products and services to meet quality or security standards, adversely affecting patient safety and customer operations; breach of cybersecurity; challenges in simplifying the Group's organisation and its ways of working; the resilience of the Group's supply chain; attracting and retaining personnel; challenges in driving operational excellence and speed in bringing innovations to market; compliance with regulations and standards including quality, product safety and (cyber) security; compliance with business conduct rules and regulations including privacy and upcoming ESG disclosure and due diligence requirements; treasury and financing risks; tax risks; reliability of internal controls, financial reporting and management process and global inflation. As a result, the Group's actual future results may differ materially from the plans, goals and expectations set forth in such forward-looking statements.

Due to such uncertainties and risks, investors are cautioned not to place undue reliance on these forward-looking statements, which speak only as at the date of this Base Prospectus. Investors are urged to read the sections of this Base Prospectus entitled "*Risk Factors*" and "*Description of the Issuer and the Group*" for a more detailed discussion of the factors that could affect future performance and the industry in which the Group operates. In light of these risks, uncertainties and assumptions, the forward-looking events described in this Base Prospectus may not occur. Moreover, the Group operates in a competitive and rapidly changing environment. New risks may be faced from time to time, and it is not possible to predict all such risks; nor can the impact of all such risks on the Group's business be assessed or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statement. Given these risks and uncertainties, investors should not place undue reliance on forward-looking statements as a prediction of actual results.

The forward-looking statements are based on plans, estimates and projections as they are currently available to management. The Issuer undertakes no obligation, and does not expect, to publicly update or publicly revise any forward-looking statement, whether as a result of new information, future events or otherwise, save as required by applicable law or regulation. Although the Issuer believes that the expectations reflected in such forward-looking statements are reasonable, it can give no assurance that such expectations will prove to be correct. All subsequent written and oral forward-looking statements attributable to the Issuer or to persons acting on its behalf are expressly qualified in their entirety by the cautionary statements referred to above and contained elsewhere in this Base Prospectus.

RISK FACTORS

Any investment in the Notes is subject to a number of risks. Prior to investing in the Notes, prospective investors should carefully consider risk factors associated with any investment in the Notes, the business of the Issuer and the Group and the industries in which they operate together with all other information contained in this Base Prospectus, including, in particular the risk factors described below.

The Issuer believes that the factors described below may, individually or cumulatively, affect its ability to fulfil its obligations under the Notes. All of these factors are contingencies which may or may not occur and the Issuer is not in a position to express a view on the likelihood of any such contingency occurring. The Issuer believes that the factors described below represent the principal risks inherent in investing in the Notes, but additional risks and uncertainties relating to the Issuer that are not currently known to the Issuer or that it currently deems immaterial, may individually or cumulatively also have a material adverse effect on the business, prospects, results of operations and/or financial position of the Issuer and, if any such risk should occur, the price of the Notes may decline and investors could lose all or part of their investment. Investors should consider carefully whether an investment in the Notes is suitable for them in light of the information in this Base Prospectus and their personal circumstances.

Words and expressions defined in “Terms and Conditions of the Notes” shall have the same meanings in these risk factors.

Factors which may affect the Issuer’s ability to fulfil its obligations under the Notes

Strategic risks

The Group’s global operations are exposed to geopolitical and macroeconomic changes

The Group’s business environment can be adversely impacted by macroeconomic and geopolitical conditions in global and individual markets. In 2023, mature geographies accounted for 72 per cent. of the Group’s revenues, while growth geographies accounted for the remaining 28 per cent. Mature economies are currently the main source of the Group’s revenues, while growth economies are an increasing source of revenues. The Group produces, sources and designs its products and services mainly from the US, the European Union (the “EU”) (primarily the Netherlands) and China, and the majority of the Group’s assets are located in these geographies. Changes in politics and monetary, trade and tax policies in the US, the EU and China may trigger reactions and countermeasures and may also have an adverse impact on other economies and international markets in which the Group is active. The Issuer continues to expect global market conditions to remain highly uncertain and volatile due to geopolitical and macroeconomic factors, whether or not they are related to or caused by the Russia-Ukraine war and/or the current situation in Israel and the larger Middle East region.

The Group observes a trend of geopolitical tensions and deglobalisation which intensifies protectionism. Examples of protectionism measures are trade policies, tariffs, sanctions, local value creation and production requirements to obtain market access, custom duties, taxation, technology and data restrictions, cyber-attacks, import or export controls, talent mobility restrictions, nationalisation of assets and restrictions on repatriation of returns from foreign investments. In addition, there is general uncertainty on the development of local regulations and compliance thereto. The Issuer observes this trend in the major markets in which it operates and has a particular concern on the development of the US-China relationship and China’s drive to expand its global political footprint and become self-sufficient in critical technologies, including health-related ones.

If this trend continues, geopolitical relations deteriorate and economies decouple, it is expected that existing global trade and investment restrictions will remain, and further regulatory and compliance challenges for doing business globally may emerge, resulting in continued pressure on market growth and investments.

Uncertainty and challenges regarding various global macroeconomic factors continue to persist. Examples of general factors are an overall weakening economic growth outlook, reduced government spending, declining customer and

consumer confidence and spending, high inflation and interest rates, and the emergence of economic impacts related to the climate crisis. Although the ability to manage pandemics (such as resurgences of COVID-19 or mutations thereof) has improved, pandemics may continue to affect the Group's operations in the future. Examples of healthcare-specific potential factors include rising uncertainty over the future direction of public healthcare policy and the risk of declining public investment in healthcare ecosystems.

The Russia-Ukraine war has increased global economic and political uncertainty. Governments in the US, the UK, the EU, Canada, and Japan have each imposed export controls on certain products and sanctions on certain industry sectors and institutions in Russia, and additional controls and sanctions could be enacted in the future. Similarly, the conflict in Israel will further increase economic and political uncertainty and may affect the Group's results of operations, financial position and cash flows. The Group is present in Israel with several subsidiaries, mainly in Diagnosis & Treatment and Connected Care, that are primarily involved in manufacturing and research and development ("R&D") activities. Upcoming elections in the US, the UK and the EU could also have an impact on the course of these conflicts. The ongoing conflicts may heighten the impact of other risks factors described herein, including but not limited to: volatility in prices for transportation, energy, commodities and other raw materials; disruptions in the global supply chain; decreased customer and consumer confidence and spending; increased cyberattacks; intensified protectionism; political and social instability; increased exposure to foreign currency fluctuations; rising inflation and interest rates; and constraints, volatility or disruptions in the credit and capital markets. It is possible that the conflict in Ukraine may escalate or expand and current or future sanctions and resulting geopolitical and macroeconomic disruptions could be significant. The Group cannot predict the impact the conflict may have on the global economy in the future.

Changes in geopolitical and macroeconomic conditions are difficult to predict, and the factors described above, or other factors, may lead to adverse impacts on global trade levels and flows, economic growth, and financial market and political stability, all of which could adversely affect the demand for, and supply of, the Group's products and services. This may result in a material adverse impact on the Group's business, financial condition, and operating results. These factors could also make it more difficult to budget and to make reliable financial forecasts or could have a negative impact on the Group's access to funding.

The Group may be unable to keep pace with the changing HealthTech environment

With the Group's focus on HealthTech, its business model is transforming from transactional, product-focused business models to customer and patient-centric, outcome-oriented business models, with multi-year customer partnerships enabled by a portfolio of innovative devices, solutions, platforms, insights and value-added services. If this transformation is made too slowly or is not successful, the Group may not meet the expectations of patients and other stakeholders in the HealthTech business environment. It may face a loss of customer relevance, fail to capture growth and lose market share. In addition, because of the Group's HealthTech focus, it may have a reduced ability to offset potential negative impacts (including, but not limited to, impacts on sales, operating results, liabilities, compliance and financing) on its HealthTech business by other businesses through a more diversified portfolio. As a result of its focus on HealthTech, the Group is deepening customer engagement and entering into long-term solutions and services business arrangements and, as a result, is becoming more dependent on a number of key customers for long-term recurring revenues, thus increasing the risk that the loss of, or a significant reduction in, orders from one or more of its key customers could cause a significant decline in its revenues. As the Group looks to increase its use of indirect sales channels, it will increasingly rely on successfully leveraging new and existing partners to support end customers and patients. Any of these factors may have a material adverse impact on the Group's brand value and reputation, business, financial condition, and operating results.

The Group may be unable to gain leadership in health informatics

New digital technologies and ways of conducting business are fundamentally changing the HealthTech industry, and thus the Group's competitive business environment. A key trend, which started in radiology, is the application of artificial intelligence ("AI") and machine learning to drive quality and efficiency in clinical and operational workflows. Customers need workflow-aware solutions that convert data from the Group's imaging and monitoring systems into actionable insights. Another trend, accelerated by the pandemic, is the shift toward cloud-based software as a service business models and remotely upgradable and serviceable systems with suites of applications. These new

types of offerings are enabled by hybrid cloud/on-premise digital platforms. The Group's informatics and systems businesses may fall behind established and new 'born digital' competitors if it fails to, in a timely way, develop the requisite capabilities, adjust its business models, and find ways to globally commercialise new products and services at scale. This could result in an inability to satisfy customer and patient needs, thereby missing out on revenue and margin growth opportunities, which may have a material adverse impact on the Group's business, financial condition and operating results.

Acquisitions could fail to deliver on the Group's business plans and value creation expectations, and it may not be able to successfully integrate acquired operations

Although the Group focuses on organic growth to deliver patient and people-driven innovation at scale, selected acquisitions remain part of the Group's growth strategy. The Group may not be able to integrate acquisitions successfully or efficiently with its existing operations, culture and systems, which may expose the Group to risks in areas such as sales and service, logistics, quality, regulatory compliance, legal claims, information technology ("IT") and finance. Integration challenges may adversely impact the realisation of value creation expectations. Transactions may incur significant costs, result in unforeseen operating difficulties, divert management attention from other business priorities, and may ultimately be unsuccessful. Cost savings expected to be implemented, or other assumptions underlying the business case relating to a particular acquisition, may not be realised. If the Group is unable to accomplish any of its objectives in respect of any of its new acquisitions, it may not realise the anticipated benefits of such acquisitions and it may experience lower than anticipated profits, or even incur losses. Acquisitions may also lead to a substantial increase in long-lived assets, including goodwill, which may later be subject to write-down if an acquired business does not perform as expected, which may have a material adverse effect on the Group's earnings.

The Group may be unable to meet internal or external aims or expectations with respect to ESG-related matters

ESG factors may directly and indirectly impact the business environment in which the Group operates. The Group may, from time to time, disclose ESG-related initiatives or aims in connection with the conduct of its business and operations (for example, with respect to reducing greenhouse gas emissions in its supply chain). However, there is no guarantee that the Group will be able to implement such initiatives or meet such aims within anticipated timeframes, or at all. In addition, there is an increasing focus from the Group's stakeholders including customers, employees, regulators, and investors on ESG matters, and those stakeholders may also have ESG-related expectations with respect to the Group's business and operations. For example, customers may focus on ESG-related criteria in buying the Group's products, and any inability by the Group to address concerns about ESG-related matters could negatively impact sentiment towards the Group and its products and brands. There are an increasing number of regulatory and legislative initiatives in the EU and other jurisdictions to address ESG issues, which will (once implemented) require the Group to significantly increase the scope of mandatory ESG disclosures, including the Corporate Sustainability Reporting Directive (the "CSRD"), European Sustainability Reporting Standards ("ESRS") and the Securities and Exchange Commission's proposed climate disclosure rules. They will introduce or extend a duty of care, requiring the Group to identify and act on adverse environmental and human rights impacts across the organisation and potentially the entire value chain, beyond or different from its current efforts. These regulatory and legislative initiatives, in turn, could also affect how customers or other stakeholders perceive the Group's products or business operations. If the Group's products or business operations do not meet the criteria for sustainability according to, for example, the EU Taxonomy Regulation (including the related delegated regulations) or any other similar regulations, this may negatively affect how customers or other stakeholders view the Group. The Group may fail to fulfil internal or external ESG-related initiatives, aims or expectations, or be perceived to do so, or it may fail to report performance or developments adequately or accurately with respect to such initiatives, aims or expectations. In addition, the Group could be criticised or held responsible for the scope of its initiatives or goals regarding ESG matters. Any of these factors may have an adverse impact on the Group's reputation and brand value, or on the Group's business, financial condition and operating results.

The Group may be unable to secure and maintain intellectual property rights for its products and services or may infringe others' intellectual property rights

The Group is dependent on its ability to obtain and maintain licences and other intellectual property (“IP”) rights covering its products and services and its design and manufacturing processes. The IP portfolio is the result of an extensive IP generation process that could be influenced by a number of factors, including innovation and acquisitions. The value of the IP portfolio is dependent on the successful promotion and market acceptance of standards (co-) developed by the Group. This is particularly applicable to the segment ‘Other’, where licences from the Group to third parties generate IP royalties and are important to the Group’s results of operations. The timing of licences from the Group to third parties and associated revenues from IP royalties are uncertain and may vary significantly from period to period. Additionally, royalties are often based on sales by third parties, creating an exposure to macroeconomic effects and continuity of these third parties. A loss or impairment in connection with such licences to third parties could have a material adverse impact on the Group’s financial condition and operating results. The Group is also exposed to the risk that a third party may claim to own IP rights to technology applied in the Group’s products and services. If any such claims of infringement of these IP rights are successful, the Group may be required to pay damages to such third parties or may incur other costs or losses.

Operational risks

Products and services may fail quality or security standards, which could adversely affect patient safety or customer operations

The safety of patients and the Group’s brand reputation depends on the safety and quality of its products and services. Failure to meet product quality and security standards may cause patient harm, negatively impact customer operations and their ability to provide healthcare, provide unauthorised access to patient records and medical devices through cybersecurity incidents, and damage the Group’s reputation and brand.

As a HealthTech innovator, the Group’s products and services must comply with rules and regulations that govern its operations, processes and ways of working. Risks associated with non-compliance with quality, regulatory, and security assessments apply to pre-market activities (such as product design, production and supplier quality activities) and post-market activities. There are risks involving hardware, software and human error, spanning across the lifecycle, and involving third party suppliers and components. Many of the Group’s products have multiple third party software components, which may be exposed to security threats. The Group is subject to risk from known issues and emerging potential issues. Potential consequences of these risks include damage to the Group’s brand reputation, competitive disadvantage, consent decrees (for example, the proposed Philips Respironics (“**Respironics**”) consent decree as disclosed in the notes to the consolidated financial statements as of and for the year ended 31 December 2023 incorporated by reference herein), and losing its licences to operate in specific markets, all of which may have a material adverse impact on the Group’s business, financial condition and operating results.

The Group may be unable to ensure a resilient supply chain

Most of the Group’s operations are conducted internationally, which exposes the Group to supply chain challenges and uncertainties. The Group produces and procures products and parts in various countries globally. The production and shipping of products and parts, whether from the Group or from third parties, could be interrupted and may face increasing costs by various external factors, such as regional conflicts (such as the Middle East region), natural disasters, extreme weather events (the effects of which may be exacerbated by climate change) and geopolitics.

While macro trends around materials availability have improved in 2023, the Group’s medical systems stay in production for longer periods than the lifecycle of their semi-conductors and require continuous rejuvenation of their electronic components. The Group may fail to timely obtain or replace such components from existing supplies, and alternative sources of components could involve significant costs and regulatory challenges and may not be available to the Group on reasonable terms, adversely affecting the Group’s business and financial performance.

The Group’s suppliers and its third party service providers may also be exposed to labour shortages and potentially worsening macroeconomic and geopolitical trends. These factors may cause increased lead times and adversely impact the Group’s production capacity, which may negatively affect the delivery of products and services to customers, for

example the postponement of equipment installations in hospitals. If the Group is not able to respond swiftly to those factors, this may result in an inability to deliver on customer needs, ultimately resulting in loss of revenue and margin.

The Group purchases raw materials, including rare-earth metals, copper, steel, aluminium, noble gases and oil-related products. While the macroeconomic trend of improved materials availability also positively impacts the raw materials and energy cost compared to 2022, there is no assurance that these raw materials will be available for purchase in the future or available at current costs.

Commodities have been subject to volatile markets, and such volatility is expected to continue and costs to increase. Costs may also increase as a result of stricter climate-change-related laws and regulations. Such legislation could require investments in technology to reduce energy use and greenhouse gas emissions, beyond what the Group expects in its existing plans, or could result in additional and increased carbon pricing. If the Group is not able to compensate for increased costs of energy, (sub-)components, (raw) materials, and transportation – either by reducing reliance thereon or passing on increased costs to customers – then price increases could have a material adverse impact on the Group’s business, financial condition, and operating results.

The Group may increase its dependency on a concentration of external suppliers, as a result of the continuing process of creating a leaner supply base and launching initiatives to replace internal capabilities with less costly outsourced products and services. These initiatives also need to be balanced with local-market value-creation requirements, including those relating to local manufacturing and data storage.

Although the Group works closely with its suppliers to avoid supply discontinuities, there can be no assurance that it will not encounter future supply issues, causing disruptions or unfavourable conditions. Furthermore, while the materials supply has improved in 2023, the challenges in the Group’s capability for the planning and synchronisation of supply with demand continue, which combined with a drive for inventory reduction and cash flow improvements, can lead to further materials running out of stock, which could have a material adverse impact on the Group’s business, financial condition and operating results.

The Group may face challenges in simplifying the organisation and the ways of working

As announced in January 2023, a simplified, more agile operating model is a priority to improve the execution of the Group’s strategy. If the Group does not effectively simplify the organisation and its ways of working, which changes include, but are not limited to, changes in governance, roles, processes and IT landscape and architecture, this may result in limiting the Group’s ability to fully realise its business ambitions with respect to delivering sustainable impact, meeting critical patient and customer needs, delivering integral value proposition, growing the business, and/or maintaining business continuity. While the Group has implemented a new operating model to simplify the organisation and improve its ways of working, it may need to undertake further changes and related restructuring in the future if the operating model ultimately proves to be wholly or partly unsuccessful.

To simplify ways of working and improve performance, the Group continuously seeks to create a more open, standardised, and cost-effective IT landscape. Approaches include outsourcing, offshoring, integration and consolidation of IT systems. These changes may elevate third party dependency risks regarding the delivery of IT services, the availability of IT systems, and the functionality offered by IT systems. Although the Group has sought to strengthen security measures and quality controls related to these systems, these measures may prove to be insufficient or unsuccessful, which may lead to a material adverse impact on the Group’s business, financial condition, and operating results.

The Group is dependent on its people for leadership and specialised skills and may be unable to attract and retain personnel

The attraction and retention of talented employees is critical to the Group’s success, and the loss of employees with specialised skills could result in business interruptions. There is strong competition for talent in key capability segments, and the Group needs to attract and retain critical talent. If employees perceive the workload following the

recent operating model transformation and workforce reduction to be overly burdensome or prefer more flexibility than offered by the Group's hybrid working policies, to mention two, employees may choose to terminate their employment with the Group. In this case, efficiencies in workflow may be impacted, or the Group may experience employee unrest, slowdowns, stoppages or other demands, such as overburden of the remaining employees. The Group is competing for the best talent and most sought-after skills, and there is no assurance of succeeding compared to other companies in attracting and retaining the highly qualified employees needed in the future. Wage inflation is increasing the competition for talent as well as the cost of labour. This may negatively impact the Group's ability to realise its plan for creating value with sustainable impact, and if the Group is unable to offset the increased costs of labour through higher selling prices and increased productivity, then rising costs could also have a material adverse impact on the Group's business, financial condition and operating results.

The Group could be exposed to a significant enterprise cybersecurity breach

The Group relies on IT to operate and manage its businesses, as well as store and process confidential data (relating to patients, employees, customers, intellectual property, suppliers and other partners). The Group's products, solutions and services increasingly contain sophisticated and complex IT. The healthcare industry is subject to strict privacy, security and safety regulations with regard to a wide range of health information. At the same time, geopolitical conflicts and criminal activity continue to drive increases in the number, severity, and sophistication of cyberattacks globally. Considering the general increase in cybercrime, the Group's customers and other stakeholders are becoming more demanding regarding the cybersecurity of its products and services. As a global HealthTech company, the Issuer is inherently and increasingly exposed to the risk of cyberattacks and potential impact of attacks on its suppliers. Information systems may be damaged, disrupted (including the provision of services to customers), or shut down due to cyberattacks. In addition, breaches in the security of the Group's systems (or the systems of its customers, suppliers, or other partners) could result in the misappropriation, destruction or unauthorised disclosure of confidential information (including intellectual property) or personal data belonging to the Group or its employees, customers, suppliers or other partners. These risks are particularly significant with respect to patient medical records. Cyberattacks may result in substantial costs and other negative consequences, which may include, but are not limited to, lost revenues, reputational damage, remediation and enhancement costs, penalties, and other liabilities to regulators, customers and other partners. The Group has not encountered any material breaches or other significant cybersecurity incidents in 2023. While the Group deals with the operational threat of cybercrime on a continuous basis and has so far been able to prevent significant damage or significant monetary cost in taking corrective action, there can be no assurance that future cyber-attacks will not result in significant or other consequences than as described above, which may result in a material adverse impact on the Group's business, financial condition and operating results.

The Group may face challenges to drive excellence and speed in bringing innovations to market

To gain sustainable competitive advantage and create value with sustainable impact, the Group aims to deliver scalable, people-centric and patient-centric innovations. It is important that the Group continues to innovate and delivers these innovations in close collaboration with its customers on a timely basis and at scale. The emergence of new low-cost competitors, particularly in Asia, the rise of AI and data driven solutions, and the increasing importance of product and cybersecurity, further underlines the importance of improvements in the innovation process. Success in launching innovations depends on a number of factors, including development of value propositions, architecture and platform creation, product development, market acceptance, production, and delivery ramp-up. It is also dependent on addressing potential quality issues or other defects in the early stages of introduction, and on attracting and retaining skilled employees. Costs of developing new products and solutions may partially be reflected on the Group's balance sheet and may be subject to write-down or impairment depending on the performance of such products or services. The significance and timing of such write-downs or impairments are uncertain, as is the ultimate commercial success of new product introductions. Accordingly, the Group cannot determine in advance the ultimate effect that innovations will have on its financial condition and operating results. If the Group fails to create and commercialise its innovations at scale, it may lose market share and competitiveness, which could have a material adverse effect on its financial condition and operating results.

Financial risks

The Group is exposed to a variety of treasury and financing risks, including liquidity, currency, credit and country risk

Negative developments impacting the liquidity of global capital markets could affect the Group's ability to raise or re-finance debt in the capital markets or could lead to significant increases in the cost of such borrowing in the future. If the markets expect a downgrade by the rating agencies, or if such a downgrade has actually taken place, this could increase the cost of borrowing, reduce the Group's potential investor base and adversely affect its business.

The Group operates in over 100 countries and its reported earnings and equity are therefore inevitably exposed to fluctuations in the exchange rates of foreign currencies against the euro. The Group's sales and net investments in its foreign subsidiaries are sensitive in particular to movements in the US dollar, Japanese yen, Chinese renminbi, and a wide range of other currencies from developed and emerging economies. The Group's sourcing and manufacturing spend is concentrated in the EU, the US and China. Income from operations is particularly sensitive to movements in currencies of countries where the Group has no or very small-scale manufacturing/local sourcing activities but significant sales of its products or services, such as Japan, Canada, Australia, the UK, and a range of emerging markets, such as South Korea, Indonesia, India and Brazil. In view of the long lifecycle of HealthTech solution sales and long-term strategic partnerships, the financial risk of counterparties with outstanding payment obligations creates exposure risks for the Group, particularly in relation to accounts receivable from customers, liquid assets, and the fair value of derivatives and insurance contracts with financial counterparties. A default by counterparties in such transactions can have a material adverse effect on the Group's financial condition and operating results.

Contingent liabilities may have a significant impact on the Group's consolidated financial position, results of operations and cash flows.

The Group is exposed to tax risks which could have a significant adverse financial impact

The Group is exposed to tax risks that could result in double taxation, penalties and interest payments. The source of the risks could originate from local tax laws and regulations as well as international and EU regulatory frameworks. These include transfer pricing risks on internal cross-border deliveries of goods and services, as well as tax risks relating to changes in the transfer pricing model. Examples of initiatives that may result in changing tax rules include, but are not limited to, the plans adopted by the Dutch parliament to abolish the tax exemption for dividend withholding tax on share buy-backs with effect from 2025 and the Organisation for Economic Cooperation and Development ("OECD")/G20 Inclusive Framework to address the allocation of income to user markets ("**Pillar One**") and a 15 per cent. minimum corporate income tax rate ("**Pillar Two**"). The formal adoption of Council Directive (EU) 2022/2523 (the "**Pillar Two Directive**") in December 2022 aims to achieve a coordinated implementation of Pillar Two in EU Member States. The Dutch government adopted the Minimum Tax Rate Act 2024 (*Wet minimumbelasting 2024*) ("**MTR Act**") in December 2023 and the Pillar Two legislation will be applicable in local law with effect from 2024. As for Pillar One, it is too early to assess the potential impact. The Group is closely following the developments of this initiative.

As the Group maintains substance in the form of relevant assets and personnel in the countries in which it operates, and with the recently provided transitional safe harbour rules (based on country-by-country report) enacted by the OECD, the Group currently expects to have limited exposure to taxation under Pillar Two. Pillar Two may still impose an additional tax burden on a jurisdiction-by-jurisdiction basis (which do not meet the transitional safe harbour rules) and increase the Group's tax compliance burden significantly.

Furthermore, the Group is exposed to tax risks related to acquisitions and divestments, permanent establishments, tax loss, interest and tax credits carried forward, and potential changes in tax law that could result in higher tax expenses and payments. The risks may have a significant impact on local financial tax results, which could adversely affect the Group's financial condition and operating results. The value of the deferred tax assets, such as tax losses carried forward, is subject to the availability of sufficient taxable income within the tax loss-carry-forward period. The ultimate realisation of the Issuer's deferred tax assets is uncertain. Accordingly, there can be no absolute assurance that all deferred tax assets, such as (net) tax losses and credits carried forward, will be realised.

Flaws in internal controls could adversely affect the Group's financial reporting and management process

Accurate disclosures provide investors and other market professionals with significant information for a better understanding of the Group's businesses. Failures in internal controls or other issues with respect to the Group's public disclosures, including disclosures with respect to cybersecurity risks and incidents, could create market uncertainty regarding the reliability of the information (including financial data) presented. This could have a negative impact on the price of the Group's securities. In addition, the reliability of revenue and expenditure data is key for steering the businesses and for managing top-line and bottom-line growth. The long lifecycle of HealthTech solution sales, from order acceptance to accepted installation and servicing, together with the complexity of the accounting rules recognising revenue in the accounts, presents a challenge in terms of ensuring consistent and correct application of the accounting rules throughout the Group's global business. Significant changes in the way of working, such as the changes made to the Group's operating model, restructurings and shifting processes to remote Global Business Services locations, may have an adverse impact on the environment under which controls are executed, monitored, reviewed and tested. Any flaws in internal controls, or regulatory or investor actions in connection with flaws in internal controls, could have a material adverse effect on the Group's business, financial condition, operation results, reputation and brand.

Global inflation could materially adversely impact the Group's business and results of operations

Changes in macroeconomic conditions, supply chain constraints, labour shortages, the conflict in Ukraine, and steps taken by governments and central banks, including in response to the COVID-19 pandemic as well as recent stimulus and spending programs, have led to higher inflation, which is likely, in turn, to lead to increased interest rates and adverse changes in the availability and cost of capital. These inflationary pressures could affect the Group's manufacturing costs, operating expenses (including wages), and other expenses. The Group may not be able to compensate for increased costs by driving productivity to reduce costs and by passing these cost increases on through price measures in a timely manner, if at all, which could have an impact on its gross margins and profitability. The Group's businesses also operate in certain countries that have experienced hyperinflation, including Argentina and Turkey, and hyperinflationary conditions in any of the markets in which the Group operates may have a material adverse effect on the Group's business, result of operations and financial condition. Inflation may also cause the Group's customers to reduce or delay orders for its products, which could have a material adverse effect on the Group's business, results of operations, and cash flows.

Compliance risks

The Group's products and services may be exposed to the risk of non-compliance with various regulations and standards involving quality, safety and security

The Group's reputation and licence to operate depends on its compliance with global regulations and standards. Operating in a highly regulated HealthTech industry, the Group's products and services, including parts and materials from suppliers, are subject to regulation by various government and regulatory agencies, such as the Food and Drug Administration ("FDA") (US), European Medicines Agency (Europe), National Medical Products Administration (China), Medicines and Healthcare Products Regulatory Authority (UK), L'Agence nationale de sécurité du médicament et des produits de santé (France), Bundesinstitut für Arzneimittel und Medizinprodukte (Germany), and Inspectie voor de Gezondheidszorg (the Netherlands). In the EU, the Medical Device Regulation became effective in May 2021 and imposes significant additional pre-market and post-market requirements. Examples of other product-related regulations are the EU's Waste from Electrical and Electronic Equipment, Restriction of Hazardous Substances, Registration, Evaluation, Authorisation and Restriction of Chemicals and Energy-using Products regulations. The Group is subject to various European, US, domestic and foreign environmental laws and regulations, which are continuing to develop. Any failure to comply with such laws and regulations could jeopardise product quality, safety, and security or expose the Group to lawsuits, administrative penalties and civil remedies, all of which may have a material adverse impact on the Group's business, financial condition and operating results.

The Group has observed an increase in safety and security requirements in a variety of new and upcoming legislation dealing with market access of consumer goods, medical devices, information and communication technology products, cloud services, and specific areas such as data protection, cybersecurity, AI and supply chain.

Both regulators and customers require the Group to demonstrate legal compliance and adequate security management using national and international standards and associated certifications. Non-compliance with conditions imposed by regulatory authorities, including in connection with the proposed Respiroics consent decree relating to the Respiroics recall or any similar regulatory undertakings, could result in product recalls, a temporary ban on products, stoppages at production facilities, remediation costs, fines, disgorgements of profits, and/or claims for damages. Product safety incidents or user concerns could jeopardise patient safety and/or trigger inspections by the FDA or other regulatory agencies, which, depending on the results of such inspections, could trigger the impacts described above, as well as other consequences. These issues could adversely impact the Group's financial condition or operating result through lost revenue and cost of any required remedial actions, penalties or claims for damages. They could also negatively impact the Group's reputation, brand, relationship with customers and market share. In particular, the Group is exposed to the ongoing impact of the Respiroics voluntary recall/field action and related matters.

The Group is exposed to the risks of non-compliance with business conduct rules and regulations, including privacy and upcoming ESG disclosure and due diligence requirements

In the execution of its strategy, the Group could be exposed to the risk of non-compliance with business conduct rules and regulations and its general business principles, including, but not limited to, patient safety, quality, anti-bribery, healthcare compliance, privacy and data protection, as well as upcoming ESG disclosure requirements and due diligence requirements. This risk is heightened in growth geographies, as the legal and regulatory environment is less developed compared to mature geographies. Examples of compliance risk areas include commission payments to third parties and remuneration payments to agents, distributors, consultants and similar entities, as well as the acceptance of gifts, which may be considered in some markets to be normal local business practice. The ongoing digitalisation of the Group's products and services, including its processing of personal data, increases the importance of compliance with privacy, data protection and similar laws. These risks could adversely affect the Group's financial condition, reputation and brand and trigger the additional risk of exposure to governmental investigations, inquiries and legal proceedings and fines. In various jurisdictions, ESG disclosure requirements are currently being drafted. In Europe, the CSRD and ESRS have been approved. The latter will significantly increase the scope of mandatory ESG disclosures. The Group needs to report over full year 2024 in line with the requirements of the CSRD and the ESRS. In addition, the proposed European Corporate Sustainability Due Diligence Directive and similar regulations and directives or other rules will (if implemented) require companies to identify and act on adverse environmental and human rights impacts across their organisation, and potentially their entire value chain. Failure to meet these requirements could trigger the additional risk of exposure to inquiries from supervisory bodies and adversely affect the Group's reputation and brand, or could adversely impact its financial condition or operating result through lost revenue and cost of any required remedial actions, penalties or claims for damages.

Factors which are material for the purpose of assessing the risks associated with the Notes

Risks related to the structure of a particular issue of Notes

A range of Notes may be issued under the Programme. A number of these Notes may have features which contain particular risks for potential investors. Set out below is a description of the most common such features:

The Notes are subject to interest rate risks

Investment in any Fixed Rate Notes, which bear a fixed rate of interest, involves the risk that if market interest rates subsequently increase above the rate paid on any Fixed Rate Notes, this will adversely affect the value of any Fixed Rate Notes. While the nominal interest rate of a security with a fixed interest rate is fixed during the life of such security or during a certain period of time, market interest rates typically change on a daily basis. As market interest rates change, the price of such security typically changes in the opposite direction. If market interest rates increase, the price of such security typically falls, until the yield of such security is approximately equal to the prevailing market

interest rate. Conversely, if market interest rates fall, the price of a security with a fixed interest rate typically increases, until the yield of such security is approximately equal to the prevailing market interest rate. Investors should be aware that the market price of any Fixed Rate Notes may vary as a result of movements in market interest rates.

Similarly, investment in any Floating Rate Notes involves the risk that subsequent changes in market interest rates may adversely affect the value of any Floating Rate Notes. A key difference between the Floating Rate Notes and any Fixed Rate Notes is that interest income on any Floating Rate Notes cannot be anticipated. Due to varying interest income, investors are not able to determine a definite yield of any Floating Rate Notes at the time they purchase them, so their return on investment cannot be compared with that of investments having longer fixed interest periods.

The Notes may be redeemed prior to maturity

The relevant Final Terms of any particular Tranche of Notes may specify that the Notes contain an optional redemption feature, as set out in Condition 7.3 (*Redemption at the option of the Issuer*) of the Notes. An optional redemption feature of Notes is likely to limit their market value. During any period when the Issuer may elect to redeem the Notes, the market value of such Notes generally will not rise substantially above the price at which they can be redeemed. This also may be true prior to any redemption period.

The Issuer may be expected to redeem the Notes when its cost of borrowing is lower than the interest rate on the Notes. At those times, an investor generally would not be able to reinvest the redemption proceeds at an effective interest rate as high as the interest rate on the Notes being redeemed and may only be able to do so at a significantly lower rate.

In addition, in the event that as a result of a change in, or amendment to, the laws or regulations, the Issuer would be obliged to increase the amounts payable in respect of any Notes due to any withholding or deduction for, or on account of, any present or future taxes, duties, assessments or governmental charges of whatsoever nature imposed, levied, collected, withheld or assessed by or on behalf of the Netherlands or any political subdivision thereof or any authority therein or thereof having power to tax, the Issuer may redeem all outstanding Notes in accordance with the Notes.

If the Issuer calls and redeems Notes in the circumstances mentioned above, the Noteholders may not be able to reinvest the redemption proceeds in securities offering a comparable yield. Potential investors should consider reinvestment risk in light of other investments available at that time.

The market continues to develop in relation to risk-free rates (including overnight rates) as reference rates for Floating Rate Notes

The use of risk-free rates, including those such as SONIA, SOFR and €STR, as reference rates for Eurobonds continues to develop. This relates not only to the substance of the calculation and the development and adoption of market infrastructure for the issuance and trading of bonds referencing such rates, but also how widely such rates and methodologies might be adopted.

The market or a significant part thereof may adopt an application of risk-free rates that differs significantly from that set out in the terms and conditions of the Notes and used in relation to Notes that reference risk-free rates issued under this Programme. The Issuer may in the future also issue Notes referencing SONIA, SOFR or €STR that differ materially in terms of interest determination when compared with any previous Notes issued by it under this Programme. The development of risk-free rates for the Eurobond markets could result in reduced liquidity or increased volatility, or could otherwise affect the market price of any Notes that reference a risk-free rate issued under this Programme from time to time.

In addition, the manner of adoption or application of risk-free rates in the Eurobond markets may differ materially compared with the application and adoption of risk-free rates in other markets, such as the derivatives and loan markets. Investors should carefully consider how any mismatch between the adoption of such reference rates in the

bond, loan and derivatives markets may impact any hedging or other financial arrangements which they may put in place in connection with any acquisition, holding or disposal of Notes referencing such risk-free rates.

In particular, investors should be aware that several different methodologies have been used in risk-free rate notes issued to date. No assurance can be given that any particular methodology, including the compounding formula in the terms and conditions of the Notes, will gain widespread market acceptance. In addition, market participants and relevant working groups are still exploring alternative reference rates based on risk-free rates, including various ways to produce term versions of certain risk-free rates (which seek to measure the market's forward expectation of an average of these reference rates over a designated term, as they are overnight rates) or different measures of such risk-free rates. If the relevant risk-free rates do not prove to be widely used in securities like the Notes, the trading price of such Notes linked to such risk-free rates may be lower than those of Notes referencing indices that are more widely used.

Investors should consider these matters when making their investment decision with respect to any Notes which reference SONIA, SOFR or €STR.

Investors should also bear in mind that the above factors highlighted in relation to SONIA, SOFR and €STR may apply equally to the use of any other risk-free rates used by the Issuer.

Risk-free rates may differ from LIBOR and other inter-bank offered rates in a number of material respects and have a limited history

Risk-free rates may differ from The London Interbank Offered Rate (“LIBOR”) and other inter-bank offered rates in a number of material respects. These include (without limitation) being backwards-looking, in most cases, calculated on a compounded or weighted average basis, risk-free (in the sense such rates do not include the credit risks of commercial banks), overnight rates and, in the case of SOFR, secured, whereas such interbank offered rates are generally expressed on the basis of a forward-looking term, are unsecured and include a risk-element based on interbank lending. As such, investors should be aware that risk-free rates may behave materially differently to interbank offered rates as interest reference rates for the Notes including, without limitation, as a result of changes in interest and yield rates in the market, market volatility or global or regional economic, financial, political, regulatory, judicial or other events. Furthermore, SOFR is a secured rate that represents overnight secured funding transactions, and therefore will perform differently over time to an unsecured rate. For example, since publication of SOFR began on 3 April 2018, daily changes in SOFR have, on occasion, been more volatile than daily changes in comparable benchmarks or other market rates.

Risk-free rates offered as alternatives to interbank offered rates also have a limited history. For that reason, future performance of such rates may be difficult to predict based on their limited historical performance. The level of such rates during the term of the Notes may bear little or no relation to historical levels. Prior observed patterns, if any, in the behaviour of market variables and their relation to such rates such as correlations, may change in the future. Investors should not rely on historical performance data as an indicator of the future performance of such risk-free rates nor should they rely on any hypothetical data.

Furthermore, interest on Notes which reference a backwards-looking risk-free rate is only capable of being determined immediately prior to the relevant Interest Payment Date. It may be difficult for investors in Notes which reference such risk-free rates reliably estimate the amount of interest which will be payable on such Notes, and some investors may be unable or unwilling to trade such Notes without changes to their IT systems, both of which could adversely impact the liquidity of such Notes. In addition, since SONIA, SOFR and €STR are relatively new reference rates, Floating Rate Notes referencing SONIA, SOFR or €STR may have no established trading market when issued, and an established trading market may never develop or may not be very liquid. Further, in contrast to Notes linked to interbank offered rates, if Notes referencing backwards-looking rates become due and payable as a result of an Event of Default under Condition 10 (*Events of Default*), or are otherwise redeemed early on a date which is not an Interest Payment Date, the final Rate of Interest Rate payable in respect of such Notes shall be determined by reference to a shortened period ending immediately prior to the date on which the Notes become due and payable or are scheduled for redemption.

The administrator of SONIA, SOFR or €STR may make changes that could change the value of SONIA, SOFR or €STR or discontinue SONIA, SOFR or €STR

The Issuer has no control over the determination, calculation or publication of SONIA, SOFR, €STR or any other risk free rate (including an overnight rate). The Bank of England, the Federal Reserve or the Bank of New York, the European Central Bank (or their successors) as administrators of SONIA, SOFR or €STR, respectively, may make methodological or other changes that could change the value of these risk-free rates and/or indices, including changes related to the method by which such risk-free rate is calculated, eligibility criteria applicable to the transactions used to calculate SONIA, SOFR or €STR or timing related to the publication of SONIA, SOFR or €STR. In addition, the administrator may alter, discontinue or suspend calculation or dissemination of SONIA, SOFR or €STR or any related index (in which case a fallback method of determining the interest rate on the Notes will apply). The administrator has no obligation to consider the interests of Noteholders when calculating, adjusting, converting, revising or discontinuing any such risk-free rate.

The regulation and reform of “benchmarks” may adversely affect the value of Notes linked to or referencing such “benchmarks”

Interest rate, equity, commodity, foreign exchange rate and other types of indices which are deemed to be “benchmarks” (including EURIBOR) are the subject of ongoing national, international and other regulatory guidance and proposals for reform. Some of these reforms are already effective whilst others are still to be implemented. These reforms may cause such “benchmarks” to perform differently than in the past, or to disappear entirely, or have other consequences which cannot be predicted. Any such consequence could have a material adverse effect on any Floating Rate Notes.

The Benchmark Regulation was published in the Official Journal of the EU on 29 June 2016 and has applied since 1 January 2018. Regulation (EU) 2016/1011 as it forms part of UK domestic law by virtue of the EUWA and as amended by the Benchmarks (Amendment and Transitional Provision) (EU Exit) Regulations 2019 has applied in the UK since the end of the Brexit transition period on 31 December 2020 (the “**UK Benchmark Regulation**”). The Benchmark Regulation and the UK Benchmark Regulation apply to the provision of benchmarks, the contribution of input data to a benchmark and the use of a benchmark within the EU and the UK respectively. The Benchmark Regulation and the UK Benchmark Regulation, among other things, (i) require benchmark administrators to be authorised or registered (or, if non-EU-based or non-UK-based, respectively to be subject to an equivalent regime or otherwise recognised or endorsed) and (ii) prevent certain uses by, respectively, EU or UK supervised entities of “benchmarks” of administrators that are not authorised or registered (or, if non-EU or non-UK based, respectively, not deemed equivalent or recognised or endorsed).

The Benchmark Regulation and/or the UK Benchmark Regulation could have a material impact on any Floating Rate Notes, including in any of the following circumstances:

- a rate which is a “benchmark” could not be used as such if its administrator does not obtain authorisation or is based in a jurisdiction outside of the EU or the UK which does not satisfy the “equivalence” conditions, is not “recognised” pending such a decision and is not “endorsed” for such purpose. In such event, any Floating Rate Notes could be de-listed, adjusted, redeemed prior to maturity or otherwise impacted; and
- the methodology or other terms of the “benchmark” could be changed in order to comply with the terms of the Benchmark Regulation and/or the UK Benchmark Regulation, and such changes could have the effect of reducing or increasing the rate or level or affecting the volatility of the published rate or level, and could lead to adjustments to the terms of any Floating Rate Notes, including the Principal Paying Agent’s determination of the rate or level in its discretion.

The Benchmark Regulation and the UK Benchmark Regulation and any of the international, national or other proposals for reform or the general increased regulatory scrutiny of “benchmarks” could increase the costs and risks of administering or otherwise participating in the setting of a “benchmark” and complying with any such regulations

or requirements. Such factors may have the effect of discouraging market participants from continuing to administer or contribute to certain “benchmarks”, trigger changes in the rules or methodologies used in certain “benchmarks” or lead to the disappearance of certain “benchmarks”. The disappearance of a “benchmark” or changes in the manner of administration of a “benchmark” could result in adjustment to the terms and conditions of the Notes, early redemption, discretionary valuation by the Principal Paying Agent, delisting or other consequence in relation to any Floating Rate Notes. Any such consequence could have a material adverse effect on the value of and return on any Floating Rate Notes.

As an example of such benchmark reforms, on 21 September 2017, the European Central Bank announced that it would be part of a new working group tasked with the identification and adoption of a “risk free overnight rate” which can serve as a basis for an alternative to current benchmarks used in a variety of financial instruments and contracts in the euro area. On 13 September 2018, the working group on Euro risk-free rates recommended the new Euro short-term rate (“€STR”) as the new risk-free rate for the euro area. The €STR was published for the first time on 2 October 2019. Although EURIBOR has been reformed in order to comply with the terms of the Benchmark Regulation, it remains uncertain as to how long it will continue in its current form, or whether it will be further reformed or replaced with €STR or an alternative benchmark.

It is not possible to predict with certainty whether, and to what extent, EURIBOR will continue to be supported going forwards. This may cause EURIBOR to perform differently than it has done in the past and may have other consequences which cannot be predicted. Such factors may have (without limitation) the following effects on certain benchmarks: (i) discouraging market participants from continuing to administer or contribute to a benchmark; (ii) triggering changes in the rules or methodologies used in the benchmark and/or (iii) leading to the disappearance of the benchmark. Any of the above changes or any other consequential changes as a result of international or national reforms or other initiatives or investigations, could have a material adverse effect on the value of and return on any Notes linked to, referencing, or otherwise dependent (in whole or in part) upon, a benchmark.

Fall-back arrangements in the event of a Benchmark Event

If a Benchmark Event (as defined in Condition 5.2(m) (*Benchmark Discontinuation (Independent Adviser)*)) (which, amongst other events, includes the permanent discontinuation of an Original Reference Rate (as defined in Condition 5.2(m) (*Benchmark Discontinuation (Independent Adviser)*)) occurs, the Issuer shall use its reasonable endeavours to select and appoint an Independent Adviser (as defined in Condition 5.2(m) (*Benchmark Discontinuation (Independent Adviser)*)), to determine a Successor Rate or Alternative Reference Rate and an Adjustment Spread (if any) (as defined in Condition 5.2(m) (*Benchmark Discontinuation (Independent Adviser)*)) to be used in place of the Original Reference Rate. Where the Original Reference Rate is SOFR, the Benchmark Replacement (as defined in Condition 5.2(f)(ii) (*Interest—Floating Rate Notes referencing SOFR*)) will replace the Original Reference Rate for all purposes relating to the Notes.

The use of any such Successor Rate or Alternative Reference Rate and an Adjustment Spread (if any), or the use of such Benchmark Replacement, to determine the Rate of Interest will result in Notes linked to or referencing the Original Reference Rate performing differently (which may include payment of a lower Rate of Interest) than they would do if the Original Reference Rate were to continue to apply in its current form.

Furthermore, if a Successor Rate or Alternative Reference Rate and an Adjustment Spread (if any) for the Original Reference Rate is determined by the Independent Adviser, the terms and conditions of the Notes provide that the Issuer may vary the terms and conditions of the Notes, as necessary to ensure the proper operation of such Successor Rate or Alternative Reference Rate and an Adjustment Spread (if any), without any requirement for consent or approval of the Noteholders. Where Condition 5.2(f)(ii) (*Interest—Floating Rate Notes referencing SOFR*) applies, the Issuer may vary the terms and conditions of the Notes if the Issuer considers that it may be necessary to make Benchmark Replacement Conforming Changes, without any requirement for the consent or approval of Noteholders.

If a Successor Rate or Alternative Reference Rate is determined by the Independent Adviser, the terms and conditions of the Notes also provide that an Adjustment Spread (as defined in Condition 5.2(m) (*Benchmark Discontinuation (Independent Adviser)*)) may be determined by the Independent Adviser and applied to such Successor Rate or

Alternative Reference Rate. The aim of the Adjustment Spread is to reduce or eliminate, to the extent reasonably practicable, any economic prejudice or benefit (as the case may be) to Noteholders and Couponholders as a result of the replacement of the Original Reference Rate with the Successor Rate or the Alternative Reference Rate. However, it may not be possible to determine or apply an Adjustment Spread and even if an Adjustment Spread is applied, such Adjustment Spread may not be effective to reduce or eliminate economic prejudice to Noteholders and Couponholders. If no Adjustment Spread can be determined, a Successor Rate or Alternative Reference Rate may nonetheless be used to determine the Rate of Interest. The use of any Successor Rate or Alternative Reference Rate (including with the application of an Adjustment Spread) will still result in Notes linked to or referencing the Original Reference Rate performing differently (which may include payment of a lower Rate of Interest) than they would if the Original Reference Rate were to continue to apply in its current form.

The Issuer may be unable to select and appoint an Independent Adviser or the Independent Adviser may not be able to determine a Successor Rate or Alternative Reference Rate in accordance with the Terms and Conditions of the Notes

Where the Issuer is unable to appoint an Independent Adviser in a timely manner, or the Independent Adviser is unable to determine a Successor Rate or Alternative Reference Rate before the next Interest Determination Date (as specified in the applicable Final Terms), the Rate of Interest for the next succeeding Interest Period will be the Rate of Interest applicable as at the last preceding Interest Determination Date before the occurrence of the Benchmark Event, or, where the Benchmark Event occurs before the first Interest Determination Date, the Rate of Interest will be the initial Rate of Interest. Applying the initial Rate of Interest, or the Rate of Interest applicable as at the last preceding Interest Determination Date before the occurrence of the Benchmark Event, will result in Notes linked to or referencing the relevant benchmark performing differently (which may include payment of a lower Rate of Interest) than they would do if the Original Reference Rate were to continue to apply, or if a Successor Rate or Alternative Reference Rate could be determined.

If the Issuer is unable to appoint an Independent Adviser, or the Independent Adviser fails to determine a Successor Rate or Alternative Reference Rate for the life of the relevant Notes, the initial Rate of Interest, or the Rate of Interest applicable as at the last preceding Interest Determination Date before the occurrence of the Benchmark Event, will continue to apply to maturity. This will result in any Floating Rate Notes, in effect, becoming fixed rate Notes.

Where ISDA Determination is specified as the manner in which the Rate of Interest in respect of Floating Rate Notes is to be determined, the terms and conditions of the Notes provide that the Rate of Interest in respect of the Notes shall be determined by reference to the relevant Floating Rate Option in the 2006 ISDA Definitions, or if “ISDA 2021 Definitions” are specified as being applicable in the relevant Final Terms, the latest version of ISDA 2021 Interest Rate Derivatives Definitions. Where the Floating Rate Option specified is an “IBOR” Floating Rate Option, the Rate of Interest may be determined by reference to the relevant screen rate or the rate determined on the basis of quotations from certain banks. If the relevant IBOR is permanently discontinued and the relevant screen rate or quotations from banks (as applicable) are not available, the operation of these provisions may lead to uncertainty as to the Rate of Interest that would be applicable, and may, adversely affect the value of, and return on, the Floating Rate Notes.

Risks related to the characteristics of Notes issued as Green Bonds, Social Bonds or Sustainability-Linked Notes

The Notes may not be a suitable investment for all investors seeking exposure to green and/or sustainable assets

The applicable Final Terms may provide that the Issuer will use an amount equal to the net proceeds of the offer (as at the date of issuance of such Notes) to allocate an equivalent amount of funding specifically to “**Eligible Projects**” (as defined below, and each such Note a “**Green Bond**” or a “**Social Bond**”), as further described in the Issuer’s Sustainable Finance Framework.

If the use of proceeds of the Notes is a factor in a prospective investor's decision to invest in the Notes, they should consider the disclosure in “*Use of Proceeds*” below and in the applicable Final Terms and consult with their legal or other advisers before making an investment in the Notes and must determine for themselves the relevance of such

information for the purpose of any investment in such Green Bond or Social Bond together with any other investigation such investor deems necessary.

In particular no assurance is given by the Issuer or any of the Dealers that the use of such proceeds for any Eligible Projects will meet the requirements set out in the Group's Sustainable Finance Framework, whether in whole or in part, or any present or future investor expectations or requirements as regards any investment criteria or guidelines with which such investor or its investments are required to comply, whether by any present or future applicable law or regulations or by its own articles of association or other governing rules or investment mandates (in particular with regard to any direct or indirect environmental, sustainability or social impact of any projects or uses, the subject of or related to, any of the businesses and projects funded with the proceeds from any particular Green Bond or Social Bond). The Sustainable Finance Framework is available on the Issuer's website: <https://www.philips.com/c-dam/corporate/about-philips/investors/debt-info/events/Philips-Sustainable-Finance-Framework-March-2024.pdf>. The Sustainable Finance Framework is not, and shall not be deemed to be, incorporated into and/or form part of this Base Prospectus.

No assurance can be given that Eligible Projects will meet investor expectations or requirements regarding such "green", "sustainable", "social" or similar labels (including in relation to the EU Taxonomy Regulation and any related technical screening criteria, the EU Green Bond Regulation, SFDR, and any implementing legislation and guidelines, or any similar legislation in the United Kingdom) or any requirements of such labels as they may evolve from time to time. Any Green Bonds or Social Bonds issued under the Programme will not be compliant with the EU Green Bond Regulation and are only intended to comply with the requirements and processes in the Sustainable Finance Framework. It is not clear if the establishment of the "European Green Bond" label and the optional disclosures regime for bonds issued as "environmentally sustainable" under the EU Green Bond Regulation could have an impact on investor demand for, and pricing of, green use of proceeds bonds that do not comply with the requirements of the European Green Bond label or the optional disclosures regime, such as the Green Bonds or Social Bonds issued under this Programme. It could result in reduced liquidity or lower demand or could otherwise affect the market price of any Green Bonds or Social Bonds issued under this Programme that do not comply with those standards proposed under the EU Green Bond Regulation.

Accordingly, no assurance is or can be given to investors that any projects or uses the subject of, or related to, any of the businesses and projects funded with the proceeds from any particular Green Bond or Social Bond will meet any or all investor expectations or requirements regarding such 'green', 'social', 'sustainable' or other equivalently-labelled performance objectives (including those outlined in the EU Taxonomy Regulation or the EU Taxonomy Regulation as it forms part of domestic law in the UK by virtue of the EUWA) or that any adverse environmental, social and/or other impacts will not occur during the implementation of any projects or uses the subject of, or related to, any Eligible Projects.

Furthermore, there is no contractual obligation to allocate the proceeds of the Notes to finance eligible businesses and projects as described in "Use of Proceeds" below and/or and in the applicable Final Terms. The Issuer's failure to allocate the proceeds of any particular Green Bond or Social Bond to finance an Eligible Project, respectively, the failure of any of the Eligible Projects to meet any or all investor expectations regarding such 'green', 'social', 'sustainable' or other equivalently-labelled performance objectives, or the failure of an independent external review provider with environmental or social expertise to issue a second party opinion on the allocation of the bond proceeds, will not constitute an Event of Default (as defined in Condition 10 (*Events of Default*)) or breach of contract with respect to any particular Green Bond or Social Bond and may affect the value of any particular Green Bond or Social Bond and/or have adverse consequences for certain investors with portfolio mandates to invest in green, social or sustainable assets.

If any particular Green Bond or Social Bond is at any time displayed on the Luxembourg Green Exchange or any other dedicated 'green', 'social', 'sustainable' or other equivalently-labelled segment of any stock exchange or securities market (whether or not regulated), no representation or assurance is given by the Issuer, the Arranger, any of the Dealers, the Trustee or any other person that such listing or admission satisfies, whether in whole or in part, any present or future investor expectations or requirements as regards any investment criteria or guidelines with which such investor or its investments are required to comply, whether by any present or future applicable law or regulations

or by its own articles of association or other governing rules or investment mandates (in particular with regard to any direct or indirect environmental, sustainability or social impact of any projects or uses, the subject of or related to, any of the businesses and projects funded with the proceeds from any particular Green Bond or Social Bond). Furthermore, it should be noted that the criteria for any such listings or admission to trading may vary from one stock exchange or securities market to another. Nor is any representation or assurance given or made by the Issuer, the Arranger, the Trustee, any of the Dealers or any other person that any such listing or admission to trading will be obtained in respect of any particular Green Bond or Social Bond or, if obtained, that any such listing or admission to trading will be maintained during the life of any particular Green Bond or Social Bond.

Sustainability-Linked Notes may not be a suitable investment for all investors seeking exposure to assets with sustainability characteristics

If so specified in the relevant Final Terms, the Issuer may issue Notes which are characterised as “Sustainability-Linked Notes”. Any such Notes may not satisfy an investor’s requirements or any current or future legal, quasi-legal or market standards or taxonomies for investment in assets with green, social, sustainability or sustainability-linked characteristics, even though the Rate of Interest (or the applicable Margin, in the case of Floating Rate Notes) payable on the Sustainability-Linked Notes may be increased by the Step Up Margin(s), and, if applicable, subsequently decreased by the Step Down Margin(s) and/or, if applicable, the Redemption Premium Amount(s) may be payable on redemption of the relevant Sustainability-Linked Notes (all as described in Condition 5.4 (*Sustainability-Linked Notes*)).

Sustainability-Linked Notes will not be marketed as “green bonds”, “social bonds” or “sustainability bonds” as the net proceeds of the issue of any such Notes will be used for the Group’s general corporate purposes and will therefore not necessarily be used for the financing or refinancing of green, social or sustainable assets or projects. Accordingly, the Issuer does not commit to (i) allocating the net proceeds of an issue of Sustainability-Linked Notes specifically to projects or business activities meeting sustainability criteria or (ii) being subject to any other limitations or requirements regarding the use of proceeds that may be associated with green bonds, social bonds or sustainability bonds.

In addition, the upward adjustment to the Rate of Interest (or the applicable Margin, in the case of Floating Rate Notes) by way of the Step Up Margin(s) and, if applicable, any downward adjustment to the Adjusted Rate of Interest and/or, if applicable, the payment of the Redemption Premium Amount(s) as contemplated in the terms and conditions of the Notes will depend on the Group’s satisfaction of the relevant sustainability performance targets contained in the Sustainable Finance Framework (“SPTs”) which may be inconsistent with, or insufficient to, satisfy investor targets, requirements or expectations. Prospective investors in any Sustainability-Linked Notes should review the information set out herein and must determine for themselves the relevance of such information for the purposes of any investment in Sustainability-Linked Notes, together with any other investigation such investor deems necessary.

The Issuer targets SPTs relating to the following key performance indicators (“KPIs”): (i) KPI 1 Absolute Scope 1 and 2 GHG Emissions; (ii) KPI 2 Absolute Scope 3 GHG Emissions; (iii) KPI 3 Circular Revenues; (iv) KPI 4 Lives Improved; and (v) KPI 5 Female Leadership, each as defined in Condition 5.4 (*Sustainability-Linked Notes*).

The Issuer’s KPIs and related SPTs are specifically tailored to the Group’s business, operations and capabilities and may not be appropriate to benchmark against similar sustainability performance targets, and the related performance, of other issuers. No assurance is or can be given to investors by the Issuer, the Arranger, the Dealers, the Second Party Opinion Provider or any External Verifier (as defined in the terms and conditions of the Notes) or any other person that any Sustainability-Linked Notes issued under the Programme will meet any or all investor expectations regarding such Notes or any SPT or KPI of the Issuer qualifying as “sustainability-linked” or that any adverse environmental, social and/or other impacts will not occur in connection with the Issuer striving to achieve any SPT or the use of the net proceeds from the offering of any Sustainability-Linked Notes issued under the Programme.

No assurance or representation is given as to the suitability or reliability for any purpose whatsoever of any opinion (including the Second Party Opinion), report, certification or validation of any third party in connection with the offering of any Sustainability-Linked Notes

The Issuer has obtained, in connection with its Sustainable Finance Framework, a Second Party Opinion (as defined herein). The Second Party Opinion may not reflect the potential impact of all risks related to the structure, market, additional risk factors discussed above and other factors that may affect the value of Sustainability-Linked Notes issued under the Programme, nor imply that the Notes issued under the Programme would meet the EU Taxonomy Regulation criteria in force from time to time.

Furthermore, although the Issuer expects to review and update the Sustainable Finance Framework in certain circumstances as described in the section headed “*Information Relating to the Sustainable Finance Framework and Second Party Opinion*” above and may, in certain cases, present such updates for approval to the Second Party Opinion Provider, it does not assume any obligation or responsibility to update or revise the Sustainable Finance Framework to reflect events or circumstances after the date of its publication nor does it assume any obligation to request an update or revision of the Second Party Opinion from the Second Party Opinion Provider. Moreover, the Second Party Opinion Provider and providers of similar opinions and certifications are not currently subject to any specific regulatory or other regime or oversight. Any such opinion or certification is not, nor should be deemed to be, a recommendation by the Issuer, the Arranger, the Dealers, the Second Party Opinion Provider, the External Verifier (as defined in Condition 5.4 (*Sustainability-Linked Notes*)) or any other person to buy, sell or hold Sustainability-Linked Notes. Noteholders have no recourse against the Issuer, any of the Dealers or the provider of any such opinion or certification for the contents of any such opinion or certification, which is only current as at the date it was initially issued. Prospective investors must determine for themselves the relevance of any such opinion or certification and/or the information contained therein and/or the provider of such opinion or certification for the purpose of any investment in the Sustainability-Linked Notes. Any withdrawal of any such opinion or certification or any such opinion or certification attesting that the Group is not complying in whole or in part with any matters for which such opinion or certification is opining on or certifying on may have a material adverse effect on the value of the Sustainability-Linked Notes and/or result in adverse consequences for certain investors with portfolio mandates to invest in securities to be used for a particular purpose.

Failure to satisfy the relevant SPT may have a material impact on the market price of any Sustainability-Linked Notes issued under the Programme and could expose the Group to financial and reputational risks

Although the Issuer aims to meet its SPTs in accordance with its Sustainable Finance Framework, there can be no assurance of the extent to which it will be successful in doing so, that the Issuer may decide not to continue with achieving such SPTs or that any future investments it makes in furtherance of these targets will meet investor expectations or any binding or non-binding legal standards regarding sustainability performance, whether by any present or future applicable law or regulations or by its own by-laws or other governing rules or investment portfolio mandates, in particular with regard to any direct or indirect environmental, sustainability or social impact.

Any of the above could adversely impact the trading price of Sustainability-Linked Notes and the price at which a holder of Sustainability-Linked Notes will be able to sell its Sustainability-Linked Notes in such circumstance prior to maturity may be at a discount, which could be substantial, from the issue price or the purchase price paid by such Noteholder (see also “*Sustainability-Linked Notes may not be a suitable investment for all investors seeking exposure to assets with sustainability characteristics*” above).

In addition, a failure to satisfy the relevant SPT, or any such similar sustainability performance targets the Group may choose to include in any future financings, would not only result in increased interest payments under Sustainability-Linked Notes issued under the Programme or other relevant financing arrangements, but could also harm the Group’s reputation. Furthermore, the Issuer may need to expend significant economic resources in order to achieve the relevant SPT and/or otherwise for purposes of pursuing the Sustainability Finance Framework from time to time. If capital expenditures are substantially higher than anticipated in order to achieve such SPTs, the Group’s financial and competitive position may be adversely impacted.

Each of such circumstances could have a material adverse effect on the Group, its business prospects, its financial condition or its results of operations.

The Issuer has the ability and autonomy to calculate its KPIs and the calculation and reporting of KPIs may change over time including due to a change in standards and guidelines or due to a Recalculation Event

Each KPI is calculated internally by the Issuer. In the case of KPI 1 Absolute Scope 1 and 2 Emissions and KPI 2 Absolute Scope 3 Emissions, these calculations are based on broadly accepted industry standards and guidelines, as set out in the Sustainable Finance Framework, as well as the Group's internal methodologies which are available on the Issuer's website. These standards, guidelines and methodologies may change over time, which may affect the way in which the Issuer calculates such KPIs. The standards and guidelines continue to be reviewed by expert groups and include contributions from industry bodies, which may change going forward. The calculation of KPI 3 Circular Revenues, KPI 4 Lives Improved and KPI 5 Female Leadership are carried out based on the Group's internal methodologies, which in the case of KPI 4 Lives Improved are available on the Issuer's website. The Issuer does not intend to publish separate methodologies for KPI 3 Circular Revenues and KPI 5 Female Leadership on its website. The Group's internal methodologies may also change over time, which may affect the way in which the Issuer calculates such KPIs.

The occurrence of any event which may lead the Issuer to recalculate, redefine, revise or replace the relevant SPT, KPI or the relevant KPI baseline, including following a structural change in the Group including as a result of acquisitions or mergers, and/or any other event (such event referred to in the terms and conditions of the Notes as a Recalculation Event) may result in a change of the Issuer's SPTs, KPIs and/or KPI baselines. Any such recalculation, redefinition, revision or replacement may be made without any requirement for consent or approval of, or prior consultation with, the Noteholders, as further specified in Condition 5.4 (*Sustainability-Linked Notes*) and may then result in any such change being considered for the purpose of ascertaining whether or not a Step Up Trigger Event, a Step Down Trigger Event or a Redemption Premium Trigger Event, as the case may be, has occurred in respect of the Sustainability-Linked Notes. As a consequence, any of these changes to the standards, guidelines or in the calculation methodology may not be in line with investors' expectations.

The occurrence of a Recalculation Event may impact, positively or negatively, the ability of the Issuer to satisfy the relevant SPT, which could in turn adversely affect the market value of the Notes.

The Issuer expects to report on an annual basis on progress on its Key Performance Indicators but any failure to do so will not constitute a default or an Event of Default under the Notes or any other agreement.

A portion of the Group's indebtedness through the issuance of Sustainability-Linked Notes may include certain triggers linked to sustainable key performance indicators

A portion of the Group's indebtedness may include certain triggers linked to sustainable key performance indicators (see "*Sustainability-Linked Notes may not be a suitable investment for all investors seeking exposure to assets with sustainability characteristics*" above) which must be complied with by the Issuer, and in respect of which a Step Up Option and/or a Redemption Premium Option applies, if applicable in the relevant Final Terms. The failure to meet any such sustainable key performance indicators will result in increased interest amounts under such Notes and/or in the payment of a Redemption Premium Amount, if applicable, which would increase the Group's cost of funding and which could have a material adverse effect on the Group, its business prospects, its financial condition or its results of operations.

Risks related to Notes generally

Set out below is a description of material risks relating to the Notes generally:

The Terms and Conditions of the Notes may be modified and/or the Issuer may be substituted

The terms and conditions of the Notes contain provisions for calling meetings of the Noteholders to consider matters affecting their interests generally. These provisions permit defined majorities to bind all Noteholders including

Noteholders who did not attend and vote at the meeting and Noteholders who voted in a manner contrary to the majority.

The terms and conditions of the Notes also provide that the Trustee may, without the consent of the Noteholders, agree to (i) certain modifications of, or to the waiver or authorisation of any breach or proposed breach of, any of the provisions of Notes, the Trust Deed or the Agency Agreement, or (ii) determine without the consent of the Noteholders that any Event of Default or potential Event of Default shall not be treated as such, in the circumstances described in Condition 14 (*Meetings of Noteholders, Modification, Waiver, Authorisation and Determination, Substitution*) of the Notes.

The terms and conditions of the Notes also provide for the substitution of another entity in place of the Issuer without the consent of the Noteholders (subject to certain conditions as referred to therein). See Condition 14 (*Meetings of Noteholders, Modification, Waiver, Authorisation and Determination, Substitution*) of the Notes.

The Notes do not restrict the amount of debt which the Issuer may incur

The terms and conditions of the Notes do not contain any restriction on the amount of indebtedness which the Issuer and its subsidiaries may from time to time incur. In the event of any insolvency or winding-up of the Issuer, the Notes will rank equally with the Issuer's other unsecured senior indebtedness and, accordingly, any increase in the amount of the Issuer's unsecured senior indebtedness in the future may reduce the amount recoverable by Noteholders. In addition, the Notes are unsecured and, save as provided in Condition 4 (*Negative Pledge*) of the Notes, do not contain any restriction on the giving of security by the Issuer and its subsidiaries over present and future indebtedness. Where security has been granted over assets of the Issuer to secure indebtedness, in the event of any insolvency or winding-up of the Issuer, subject to Condition 4 (*Negative Pledge*) of the Notes, such indebtedness will rank in priority over the Notes and other unsecured indebtedness of the Issuer in respect of such assets. In relation to the assets and indebtedness of the Issuer's subsidiaries, see also "*The Issuer is a holding company*" below.

The Issuer is a holding company

The Issuer is a holding company and the operations of the Group are carried out through its subsidiaries and, to such extent, the Issuer depends on the earnings and cash flows of, and the distribution of funds from, these subsidiaries to meet its debt obligations, including its obligations with respect to the Notes. Generally, creditors of a subsidiary, including trade creditors, secured creditors and creditors holding indebtedness and guarantees issued by the subsidiary, will have a claim over the assets of that subsidiary before any of those assets can be distributed to shareholders upon liquidation or winding up. As a result, the Issuer's obligations in respect of Notes issued under the Programme will, to the extent described above, effectively be subordinated to the prior payment of all the debts and other liabilities of the Issuer's direct and indirect subsidiaries, including the rights of trade creditors, secured creditors and creditors holding indebtedness and guarantees issued by the subsidiaries, all of which could be substantial.

Because the Global Notes are held by or on behalf of Euroclear and Clearstream, Luxembourg, investors will have to rely on their procedures for transfer, payment and communication with the Issuer

Notes issued under the Programme may be represented by one or more Global Notes. If the relevant Final Terms specify that the New Global Note form ("**NGN Form**") is not applicable, such Global Note will be deposited with a common depositary for Euroclear and/or Clearstream, Luxembourg. If the relevant Final Terms specify that the new global note form is applicable, such Global Note will be deposited with a common safekeeper for Euroclear and/or Clearstream, Luxembourg. Except in certain limited circumstances described in the Permanent Global Note, investors will not be entitled to receive Definitive Notes. Euroclear and/or Clearstream, Luxembourg will maintain records of the beneficial interests in the Global Notes and, while the Notes are represented by the Global Notes, investors will be able to trade their beneficial interests only through Euroclear and Clearstream, Luxembourg.

While the Notes are represented by one or more Global Notes, the Issuer will discharge its payment obligations under the Notes by making payments to or to the order of the common depositary (in the case of Global Notes which are not

in the NGN form) or, as the case may be, to or to the order of the common safekeeper (in the case of Global Notes in NGN form) for Euroclear and Clearstream, Luxembourg for distribution to their account holders. A holder of a beneficial interest in a Global Note must rely on the procedures of Euroclear and Clearstream, Luxembourg to receive payments under the Notes. The Issuer has no responsibility or liability for the records relating to, or payments made in respect of, beneficial interests in the Global Notes.

Holders of beneficial interests in any Global Notes will not have a direct right to vote in respect of the Notes. Instead, such holders will be permitted to act only to the extent that they are enabled by Euroclear and Clearstream, Luxembourg to appoint appropriate proxies.

Denominations involve integral multiples: Definitive Notes

In relation to any issue of Notes which have denominations consisting of a minimum Specified Denomination plus one or more higher integral multiples of another smaller amount, it is possible that the Notes may be traded in amounts in excess of the minimum Specified Denomination that are not integral multiples of such minimum Specified Denomination. In such a case a holder who, as a result of trading such amounts, holds an amount which is less than the minimum Specified Denomination in his account with the relevant clearing system would not be able to sell the remainder of such holding without first purchasing a principal amount of Notes at or in excess of the minimum Specified Denomination such that its holding amounts to a Specified Denomination. Further, a holder who, as a result of trading such amounts, holds an amount which is less than the minimum Specified Denomination in his account with the relevant clearing system at the relevant time may not receive a Definitive Note in respect of such holding (should definitive Notes be printed) and would need to purchase a principal amount of Notes at or in excess of the minimum Specified Denomination such that its holding amounts to a Specified Denomination.

If such Notes in definitive form are issued, holders should be aware that Definitive Notes which have a denomination that is not an integral multiple of the minimum Specified Denomination may be illiquid and difficult to trade.

Risks related to the market generally

Set out below is a description of material market risks, including liquidity risk, exchange rate risk, and credit risk:

The Notes are subject to exchange rate risks and may become subject to exchange controls

The Issuer will pay principal and interest on the Notes in the Specified Currency (as defined in the terms and conditions of the Notes). This presents certain risks relating to currency conversions if an investor's financial activities are denominated principally in a currency or currency unit (the “**Investor's Currency**”) other than the euro. These include the risk that exchange rates may significantly change (including changes due to devaluation of the Specified Currency or revaluation of the Investor's Currency) and the risk that authorities with jurisdiction over the Investor's Currency may impose or modify exchange controls. An appreciation in the value of the Investor's Currency relative to the euro would decrease (i) the Investor's Currency-equivalent yield on the Notes, (ii) the Investor's Currency-equivalent value of the principal payable on the Notes, and (iii) the Investor's Currency-equivalent market value of the Notes.

Government and monetary authorities may impose (as some have done in the past) exchange controls that could adversely affect an applicable exchange rate and, as a result, investors may receive less interest or principal than expected, or no interest or principal.

An active secondary market in respect of the Notes may never be established or may be illiquid and this would adversely affect the value at which an investor could sell its Notes

Notes may be issued under the Programme in different Series with different terms and in amounts that are to be determined. There is no assurance that the prices at which the Notes will sell in the market after their initial offering will not be lower than the initial offering price or that an active trading market for the Notes will develop and continue after such offering. If the Notes are traded after their initial issuance, they may trade at a discount to their initial

offering price, depending upon prevailing interest rates, the market for similar securities, general economic conditions and the financial condition of the Issuer. Although applications have been made for the Notes issued under the Programme to be admitted to listing on the Official List of the Luxembourg Stock Exchange and to trading on the Luxembourg Stock Exchange's regulated market, there is no assurance that an active trading market will develop, and if a market does develop, it may not be liquid. Therefore, investors may not be able to sell their Notes easily or at prices that will provide them with a yield comparable to similar investments that have a developed secondary market. In addition, liquidity may be limited if the Notes are allocated to a limited number of investors.

Changes in the Group's credit ratings and/or the credit ratings assigned to the Notes could adversely affect the value of the Notes

Any of the rating agencies that rate the debt of the Group has the ability to lower the ratings currently assigned to that debt as a result of its views about the Group's current or future business, financial condition, results of operations or other matters. Any ratings decline could adversely affect the value of the Notes. In addition, one or more independent credit rating agencies may assign credit ratings to the Notes. Such credit ratings are intended to reflect the Issuer's ability to meet its repayment obligations in respect of the Notes, and may not reflect the potential impact of all risks related to the structure, the market, the Group and other factors on the value of the Notes. A credit rating is not a recommendation to buy, sell or hold securities and may be subject to revision or withdrawal at any time by the assigning rating organisation. Each rating should be evaluated independently of any other rating.

PRESENTATION OF FINANCIAL INFORMATION

Presentation of Financial Information

The audited consolidated financial statements of the Group as of and for the financial years ended 31 December 2023 and 2022 are incorporated by reference herein, as described under “*Information Incorporated by Reference*” and have been prepared in accordance with International Financial Reporting Standards (“**IFRS**”) as endorsed by the EU and with the statutory provisions of Part 9 of Book 2 of the Dutch Civil Code.

No other information in this Base Prospectus has been audited.

Alternative Performance Measures (or “Non-IFRS Financial Measures”)

In this Base Prospectus, the Issuer presents certain financial measures when discussing the Group’s performance that are not measures of financial performance or liquidity under IFRS (“**non-IFRS**”). These non-IFRS measures (also known as non-GAAP or alternative performance measures) are presented because management considers them important supplemental measures of the Group’s performance and believes that they are widely used in the industry in which the Group operates as a means of evaluating a company’s operating performance and liquidity. The Group believes that an understanding of its sales performance, profitability, financial strength and funding requirements is enhanced by reporting the following non-IFRS measures:

- Comparable sales growth;
- EBITA;
- Adjusted EBITA;
- Adjusted EBITDA;
- Adjusted income from continuing operations attributable to shareholders;
- Adjusted income from continuing operations attributable to shareholders per common share (in EUR) – diluted (Adjusted EPS);
- Free cash flow;
- Net debt : group equity ratio; and
- Organic Return on Invested Capital (“**Organic ROIC**”).

Non-IFRS measures do not have standardised meanings under IFRS and not all companies calculate non-IFRS measures in the same manner or on a consistent basis. As a result, these measures may not be comparable to measures used by other companies that have the same or similar names. Accordingly, undue reliance should not be placed on the non-IFRS measures contained in this Base Prospectus and they should not be considered as substitutes for sales, net income, net cash provided by operating activities or other financial measures computed in accordance with IFRS.

This section contains the definitions of the non-IFRS measures used in this Base Prospectus as well as reconciliations from the most directly comparable IFRS measures. These non-IFRS measures should not be viewed in isolation or as alternatives to equivalent IFRS measures and should be used in conjunction with the most directly comparable IFRS measures.

The non-IFRS financial measures presented are not measures of financial performance or liquidity under IFRS, but measures used by management to monitor the underlying performance of the Group's business and operations and, accordingly, they have not been audited or reviewed by the Group's external auditors.

Additionally, the Group provides forward-looking targets for comparable sales growth, adjusted EBITA margin improvement, free cash flow and Organic ROIC, which are non-IFRS financial measures. The Group has not provided a quantitative reconciliation of these targets to the most directly comparable IFRS measures because certain information needed to reconcile these non-IFRS financial measures to the most comparable IFRS financial measures are dependent on specific items or impacts which are not yet determined, are subject to uncertainty and variability in timing and amount due to their nature, are outside of the Group's control, or cannot be predicted, including items and impacts such as currency exchange rates, acquisitions and disposals, legal and tax gains and losses and pension settlements, charges and costs such as impairments, restructuring and acquisition-related charges, amortisation of intangible assets and net capital expenditures. Accordingly, reconciliations of these non-IFRS forward looking financial measures to the most directly comparable IFRS financial measures are not available without unreasonable effort. Such unavailable reconciling items could significantly impact the Group's results of operations and financial condition.

Comparable sales growth

Comparable sales growth represents the period-on-period growth in sales excluding the effects of currency movements and changes in consolidation. As indicated in "General information to the Consolidated financial statements" in the Group's audited consolidated financial statements as of and for the financial year ended 31 December 2023, incorporated by reference herein, foreign currency sales and costs are translated into the Group's presentation currency, the euro, at the exchange rates prevailing at the respective transaction dates. As a result of significant foreign currency sales and currency movements during the periods presented, the effects of translating foreign currency sales amounts into euros could have a material impact on the comparability of sales between periods. Therefore, these impacts are excluded when presenting comparable sales in euros by translating the foreign currency sales of the previous period and the current period into euros at the same average exchange rates. In addition, the years presented were affected by a number of acquisitions and divestments, as a result of which various activities were consolidated or deconsolidated. The effect of consolidation changes has also been excluded in arriving at the comparable sales. For the purpose of calculating comparable sales, when a previously consolidated entity is sold or control is lost, relevant sales of that entity for the corresponding prior year period are excluded. Similarly, when an entity is acquired and consolidated, relevant sales of that entity for the current year period are excluded.

Comparable sales growth is presented for the Group, operating segments and geographic area. The Group believes that the presentation of comparable sales growth is meaningful for investors to evaluate the performance of the Group's business activities over time. Comparable sales growth may be subject to limitations as an analytical tool for investors, because comparable sales growth figures are not adjusted for other effects, such as increases or decreases in prices or quantity/volume. In addition, interaction effects between currency movements and changes in consolidation are not taken into account.

EBITA and Adjusted EBITA

The term Adjusted EBITA is used to evaluate the performance of the Group and its segments. EBITA represents Income from operations excluding amortisation and impairment of acquired intangible assets and impairment of goodwill. Adjusted EBITA represents EBITA excluding gains or losses from restructuring costs, acquisition-related charges and other items.

Restructuring costs are defined as the estimated costs of initiated reorganisations, the most significant of which have been approved by the Group's executive committee (the "**Executive Committee**"), and which generally involve the realignment of certain parts of the industrial and commercial organisation.

Acquisition-related charges are defined as costs that are directly triggered by the acquisition of a company, such as transaction costs, purchase accounting related costs and integration-related expenses.

Other items are defined as any individual item with an income statement impact (loss or gain) that is deemed by management to be both significant and incidental to normal business activity. This includes the following: litigation costs and settlements in favour of (or against) the Group, gains (or losses) on the sale of businesses or assets, remediation costs, impairment of assets, portfolio realignment charges, environmental charges and other items which are individually above an amount of €20 million in a quarter, or an individual item which is above €40 million across multiple quarters.

The Group considers the use of Adjusted EBITA appropriate as the Group uses it as a measure of segment performance and as one of its strategic drivers to increase profitability through re-allocation of its resources towards opportunities offering more consistent and higher returns. This is done with the aim of making the underlying performance of the businesses more transparent.

EBITA excludes amortisation and impairment of acquired intangible assets and impairment of goodwill, which primarily relates to brand names, customer relationships and technology, as the Group believes that such amounts are inconsistent in amount and frequency, are significantly impacted by the timing and/or size of acquisitions and do not factor into its decisions on allocation of its resources across segments. Although the Group excludes amortisation and impairment of acquired intangible assets from the Adjusted EBITA measure, the Group believes that it is important for investors to understand that these acquired intangible assets contribute to revenue generation.

The Group believes Adjusted EBITA is useful to evaluate financial performance on a comparable basis over time by factoring out restructuring costs, acquisition-related charges and other incidental items which are not directly related to the operational performance of the Group or its segments.

Adjusted EBITA may be subject to limitations as an analytical tool for investors, as it excludes restructuring costs, acquisition-related charges and other incidental items and therefore does not reflect the expense associated with such items, which may be significant and have a significant effect on the Group's net income.

Adjusted EBITA margin refers to Adjusted EBITA divided by sales expressed as a percentage.

Adjusted EBITA is not a recognised measure of financial performance under IFRS. The reconciliation of Adjusted EBITA to the most directly comparable IFRS measure, Net income, for the years indicated is presented in the following table. Net income is not allocated to segments as certain income and expense line items are monitored on a centralised basis, resulting in them being shown on a Group level only.

Adjusted EBITDA

Adjusted EBITDA is defined as Income from operations excluding amortisation and impairment of intangible assets, impairment of goodwill, depreciation and impairment of property, plant and equipment, restructuring costs, acquisition-related charges and other items.

The Group understands that Adjusted EBITDA is broadly used by analysts, rating agencies and investors in their evaluation of different companies because it excludes certain items that can vary widely across different industries or among companies within the same industry. The Group considers Adjusted EBITDA useful when comparing its performance to other companies in the HealthTech industry. However, Adjusted EBITDA may be subject to limitations as an analytical tool because of the range of items excluded and their significance in a given reporting period. Furthermore, comparisons with other companies may be complicated due to the absence of a standardised meaning and calculation framework. The Group's management compensates for the limitations of using Adjusted EBITDA by using this measure to supplement IFRS results to provide a more complete understanding of the factors and trends affecting the business rather than IFRS results alone. In addition to the limitations noted above, Adjusted EBITDA excludes items that may be recurring in nature and should not be disregarded in the evaluation of performance. However, the Group believes it is useful to exclude such items to provide a supplemental analysis of current results and trends compared to other periods. This is because certain excluded items can vary significantly depending on specific underlying transactions or events. Also, the variability of such items may not relate specifically to ongoing operating results or trends and certain excluded items, while potentially recurring in future periods and may not be indicative of future results. Net income, for the years indicated is included in the following table. Net income is not allocated to segments as certain income and expense line items are monitored on a centralised basis, resulting in them being shown on a Group level only.

Adjusted income from continuing operations attributable to shareholders

The term Adjusted income from continuing operations attributable to shareholders represents income from continuing operations less continuing operations non-controlling interests, amortisation and impairment of acquired intangible assets, impairment of goodwill, excluding gains or losses from restructuring costs and acquisition-related charges, other items, adjustments to net finance expenses, adjustments to investments in associates and adjustments to tax expense. Shareholders refers to shareholders of the Issuer.

Restructuring costs, acquisition-related charges and other items are all defined in the EBITA and Adjusted EBITA section above.

Net finance expenses are defined as either the financial income or expense component of an individual item already identified to be excluded as part of the Adjusted income from continuing operations, fair value movements of equity investments in limited life funds recognised at fair value through profit or loss or a financial income or expense component with an income statement impact (gain or loss) that is deemed by management to be both significant and incidental to normal business activity.

The adjustments to tax expense include the tax impact of the adjustments to income from continuing operations as well as tax only adjusting items and uses the weighted average statutory tax rate plus any recurring tax costs or benefits.

The Group considers the use of Adjusted income from continuing operations attributable to shareholders appropriate as it uses it as the basis for the Adjusted income from continuing operations attributable to shareholders per common share (in EUR) - diluted, a non-IFRS measure.

Adjusted income from continuing operations attributable to shareholders may be subject to limitations as an analytical tool for investors, as it excludes certain items and therefore does not reflect the expense associated with such items, which may be significant and have a significant effect on the Group's net income. Net income for the years indicated is included in the following table. Net income is not allocated to segments as certain income and expense line items are monitored on a centralised basis, resulting in them being shown on a Group level only.

Adjusted income from continuing operations attributable to shareholders is not a recognised measure of financial performance under IFRS. The reconciliation of Adjusted income from continuing operations attributable to shareholders to the most directly comparable IFRS measure, Net income, for the years indicated is included in the table below.

Adjusted income from continuing operations attributable to shareholders per common share (in EUR) – diluted (Adjusted EPS)

Adjusted income from continuing operations attributable to shareholders per common share (in EUR) - diluted is calculated by dividing the Adjusted income from continuing operations attributable to shareholders by the diluted weighted average number of shares (after deduction of treasury shares) outstanding during the period, as defined in “Notes to the Consolidated financial statements – Earnings per share” of the Group's audited consolidated financial statements as of and for the financial year ended 31 December 2023, incorporated by reference herein.

The Group considers the use of Adjusted income from continuing operations attributable to shareholders per common share (in EUR) - diluted appropriate as it is a measure that is useful when comparing its performance to other companies in the HealthTech industry. However, it may be subject to limitations as an analytical tool for investors, as it uses Adjusted income from continuing operations attributable to shareholders which has certain items excluded.

Adjusted income from continuing operations attributable to shareholders per common share (in EUR) - diluted is not a recognised measure of financial performance under IFRS. The most directly comparable IFRS measure, income

Free cash flow

Free cash flow is defined as net cash flows from operating activities minus net capital expenditures. Net capital expenditures are comprised of the purchase of intangible assets, expenditures on development assets, capital expenditures on property, plant and equipment and proceeds from sales of property, plant and equipment.

The Group discloses free cash flow as a supplemental non-IFRS financial measure, as the Group believes it is a meaningful measure to evaluate the performance of its business activities over time. The Group understands that free cash flow is broadly used by analysts, rating agencies and investors in assessing its performance. The Group also believes that the presentation of free cash flow provides useful information to investors regarding the cash generated by the Group's operations after deducting cash outflows for purchases of intangible assets, capitalisation of product development, expenditures on development assets, capital expenditures on property, plant and equipment and proceeds from disposal of property, plant and equipment. Therefore, the measure gives an indication of the long-term cash generating ability of the business. In addition, because free cash flow is not impacted by purchases or sales of

businesses and investments, it is generally less volatile than the total of net cash provided by (used for) operating activities and net cash provided by (used for) investing activities.

Free cash flow may be subject to limitations as an analytical tool for investors, as free cash flow is not a measure of cash generated by operations available exclusively for discretionary expenditures and the Group requires funds in addition to those required for capital expenditures for a wide variety of non-discretionary expenditures, such as payments on outstanding debt, dividend payments or other investing and financing activities. In addition, free cash flow does not reflect cash payments that may be required in future for costs already incurred, such as restructuring costs.

Net debt : group equity ratio

Net debt : group equity ratio is presented to express the financial strength of the Group. Net debt is defined as the sum of long- and short-term debt minus cash and cash equivalents. Group equity is defined as the sum of shareholders' equity and non-controlling interests. This measure is used by the Group's Treasury management and investment analysts to evaluate financial strength and funding requirements. This measure may be subject to limitations because cash and cash equivalents are used for various purposes, not only debt repayment. The net debt calculation deducts all cash and cash equivalents whereas these items are not necessarily available exclusively for debt repayment at any given time.

Organic ROIC

Organic ROIC is defined as organic return which includes income from operations for the year excluding the impact of: income or loss from operations of businesses acquired in the five year period prior to the measurement date; certain tax gains and losses determined by management to be material in nature and require separate disclosure and; certain other items; and tax effects of the other adjustments (calculated at Group effective tax rate) divided by average of the Net operating capital at the end of each of the five quarters ending on the relevant measurement date excluding the

average Net operating capital at the end of each of the five quarters ending on the relevant measurement date of the businesses acquired in the five year period prior to the measurement date, expressed as a percentage.

Net operating capital is defined as tangible fixed assets, intangible fixed assets, including goodwill, inventories and receivable balances, minus payable balances and provisions, all as further defined below. Net operating capital is adjusted to exclude assets and liabilities of businesses acquired in the five year period prior to the relevant measurement date, and adjustments determined by management to be necessary for comparability.

Other items are defined as material in nature and require separate disclosure and have the same nature as the items excluded from Adjusted EBITA. In the years 2020 to 2022 these other items included legal provisions, pension settlements, results of divestments, remediation costs, impairment of assets and portfolio realignment charges. Organic ROIC is calculated after taxes.

The term Organic ROIC is used by management to evaluate the Group's efficiency at allocating the capital under its control to profitable investments and how well the Group uses capital to generate returns. The Issuer believes that Organic ROIC provides useful information to investors because it excludes the impact of recently acquired businesses, giving a more accurate representation of how the Group's business system is leveraged to drive operational excellence and removes irregularity caused by various operating models of recently acquired businesses. The Issuer also believes that excluding certain items determined by management to be material in nature and requiring separate disclosure enhances comparability across several periods. Organic ROIC may be subject to limitations as an analytical tool for investors, as it excludes income or loss from operations of acquired businesses and tax gains and losses and certain other items, which may have a significant effect on ROIC. Organic ROIC is not a recognised measure of financial performance under IFRS.

The most comparable IFRS measure to Organic ROIC is Return on total assets, calculated as Income from operations for the year divided by total assets as of the end of the year. Return on total assets as of the balance sheet date for the years ended 31 December 2023 and 2022 is included in the following table.

**Return on total assets

FORMS OF THE NOTES

Each Tranche of Notes will initially be in the form of either a temporary global note (the “**Temporary Global Note**”), without interest coupons (“**Coupons**”), or a permanent global note (the “**Permanent Global Note**”), without Coupons, in each case as specified in the relevant Final Terms. Each Temporary Global Note or, as the case may be, Permanent Global Note (each a “**Global Note**”) which is not intended to be issued in NGN form, as specified in the relevant Final Terms, will be deposited on or around the issue date of the relevant Tranche of the Notes with a depositary or a common depositary for Euroclear, and/or Clearstream, Luxembourg, and/or any other relevant clearing system. Each Global Note which is intended to be issued in NGN form, as specified in the relevant Final Terms, will be deposited on or around the issue date of the relevant Tranche of the Notes with a common safekeeper for Euroclear and/or Clearstream, Luxembourg.

Where the Global Notes issued in respect of any Tranche are in NGN form, Euroclear and Clearstream, Luxembourg will be notified whether or not such Global Notes are intended to be held in a manner which would allow Eurosystem eligibility. Any indication that the Global Note is to be so held does not necessarily mean that the Notes of the relevant Tranche will be recognised as eligible collateral for Eurosystem monetary policy and intra-day credit operations by the Eurosystem either upon issue or at any times during their life as such recognition depends upon satisfaction of the Eurosystem eligibility criteria.

On 13 June 2006, the European Central Bank (the “**ECB**”) announced that Notes in NGN form are in compliance with the “Standards for the use of EU securities settlement systems in ESCB credit operations” of the central banking system for the euro (the “**Eurosystem**”), provided that certain other criteria are fulfilled. At the same time the ECB also announced that arrangements for Notes in NGN form will be offered by Euroclear and Clearstream, Luxembourg as of 30 June 2006 and that debt securities in global bearer form issued through Euroclear and Clearstream, Luxembourg after 31 December 2006 will only be eligible as collateral for Eurosystem operations if the NGN form is used.

The relevant Final Terms will also specify whether US Treasury Regulation §1.163-5(c)(2)(i)(C) (the “**TEFRA C Rules**”) or US Treasury Regulation §1.163-5(c)(2)(i)(D) (the “**TEFRA D Rules**”) are applicable in relation to the Notes or, if the Notes do not have a maturity of more than 365 days, that neither the TEFRA C Rules nor the TEFRA D Rules are applicable.

Temporary Global Note exchangeable for Permanent Global Note

If the relevant Final Terms specify the form of Notes as being “Temporary Global Note exchangeable for a Permanent Global Note”, then the Notes will initially be in the form of a Temporary Global Note which will be exchangeable, in whole or in part, for interests in a Permanent Global Note, without Coupons, not earlier than 40 days after the issue date of the relevant Tranche of the Notes upon certification as to non-U.S. beneficial ownership. No payments will be made under the Temporary Global Note unless exchange for interests in the Permanent Global Note is improperly withheld or refused. In addition, interest payments in respect of the Notes cannot be collected without such certification of non-U.S. beneficial ownership.

Whenever any interest in the Temporary Global Note is to be exchanged for an interest in a Permanent Global Note, the Issuer shall procure (in the case of first exchange) the prompt delivery (free of charge to the bearer) of such Permanent Global Note, duly authenticated and, in the case of a NGN, effectuated, to the bearer of the Temporary Global Note or (in the case of any subsequent exchange) an increase in the principal amount of the Permanent Global Note in accordance with its terms against:

- (i) presentation and (in the case of final exchange) presentation and surrender of the Temporary Global Note at the specified office of the Principal Paying Agent; and
- (ii) receipt by the Principal Paying Agent from Euroclear and/or Clearstream, Luxembourg of a certificate or certificates of non-U.S. beneficial ownership, within seven days of the bearer requesting such exchange.

The principal amount of Notes represented by the Permanent Global Note shall be equal to the aggregate of the principal amounts specified in the certificates of non-U.S. beneficial ownership; provided, however, that in no circumstances shall the principal amount of Notes represented by the Permanent Global Note exceed the initial principal amount of Notes represented by the Temporary Global Note.

The Permanent Global Note will be exchangeable in whole, but not in part, for Notes in definitive form (“**Definitive Notes**”):

- (i) on the expiry of such period of notice as may be specified in the relevant Final Terms; or
- (ii) at any time, if so specified in the relevant Final Terms; or
- (iii) if the relevant Final Terms specify “in the limited circumstances specified in the Permanent Global Note”, then if (a) Euroclear or Clearstream, Luxembourg or any other relevant clearing system is closed for business for a continuous period of 14 days (other than by reason of legal holidays) or announces an intention permanently to cease business or (b) any of the circumstances described in Condition 10 (*Events of Default*) occurs and is continuing.

The Permanent Global Note will also become exchangeable, in whole but not in part and at the option of the Issuer, for Definitive Notes if, by reason of any change in the laws of The Netherlands, the Issuer is or will be required to make any withholding or deduction from any payment in respect of the Notes which would not be required if the Notes were in definitive form.

Whenever the Permanent Global Note is to be exchanged for Definitive Notes, the Issuer shall procure the prompt delivery (free of charge to the bearer) of such Definitive Notes, duly authenticated and with Coupons and Talons attached (if so specified in the relevant Final Terms), in an aggregate principal amount equal to the principal amount of the Permanent Global Note to the bearer of the Permanent Global Note against the surrender of the Permanent Global Note at the specified office of the Principal Paying Agent within 60 days of the bearer requesting such exchange.

Temporary Global Note exchangeable for Definitive Notes

If the relevant Final Terms specify the form of Notes as being “Temporary Global Note exchangeable for Definitive Notes” and also specify that the TEFRA C Rules are applicable or that neither the TEFRA C Rules nor the TEFRA D Rules are applicable, then the Notes will initially be in the form of a Temporary Global Note which will be exchangeable, in whole but not in part, for Definitive Notes not earlier than 40 days after the issue date of the relevant Tranche of the Notes.

If the relevant Final Terms specify the form of Notes as being “Temporary Global Note exchangeable for Definitive Notes” and also specify that the TEFRA D Rules are applicable, then the Notes will initially be in the form of a Temporary Global Note which will be exchangeable, in whole or in part, for Definitive Notes not earlier than 40 days after the issue date of the relevant Tranche of the Notes upon certification as to non-U.S. beneficial ownership. Interest payments in respect of the Notes cannot be collected without such certification of non-U.S. beneficial ownership.

Whenever the Temporary Global Note is to be exchanged for Definitive Notes, the Issuer shall procure the prompt delivery (free of charge to the bearer) of such Definitive Notes, duly authenticated and with Coupons and Talons attached (if so specified in the relevant Final Terms), in an aggregate principal amount equal to the principal amount of the Temporary Global Note to the bearer of the Temporary Global Note against the surrender of the Temporary Global Note at the specified office of the Principal Paying Agent within 60 days of the bearer requesting such exchange.

Permanent Global Note exchangeable for Definitive Notes

If the relevant Final Terms specify the form of Notes as being “Permanent Global Note exchangeable for Definitive Notes”, then the Notes will initially be in the form of a Permanent Global Note which will be exchangeable in whole, but not in part, for Definitive Notes:

- (i) on the expiry of such period of notice as may be specified in the relevant Final Terms; or
- (ii) at any time, if so specified in the relevant Final Terms; or
- (iii) if the relevant Final Terms specify “in the limited circumstances described in the Permanent Global Note”, then if (a) Euroclear or Clearstream, Luxembourg or any other relevant clearing system is closed for business for a continuous period of 14 days (other than by reason of legal holidays) or announces an intention permanently to cease business or (b) an Event of Default occurs and is continuing.

The Permanent Global Note will also become exchangeable, in whole but not in part and at the option of the Issuer, for Definitive Notes if, by reason of any change in the laws of The Netherlands, the Issuer is or will be required to make any withholding or deduction from any payment in respect of the Notes which would not be required if the Notes were in definitive form.

Whenever the Permanent Global Note is to be exchanged for Definitive Notes, the Issuer shall procure the prompt delivery (free of charge to the bearer) of such Definitive Notes, duly authenticated and with Coupons and Talons attached (if so specified in the relevant Final Terms), in an aggregate principal amount equal to the principal amount of the Permanent Global Note to the bearer of the Permanent Global Note against the surrender of the Permanent Global Note at the specified office of the Principal Paying Agent within 60 days of the bearer requesting such exchange.

Terms and Conditions applicable to the Notes

The terms and conditions applicable to any Definitive Note will be endorsed on that Note and will consist of the terms and conditions set out under “*Terms and Conditions of the Notes*” below and the provisions of the relevant Final Terms which complete those terms and conditions.

Legend concerning United States persons

In the case of any Tranche of Notes having a maturity of more than one year, the Notes in global form, the Notes in definitive form and any Coupons and Talons appertaining thereto will bear a legend to the following effect:

“Any United States person who holds this obligation will be subject to limitations under the United States income tax laws, including the limitations provided in Sections 165(j) and 1287(a) of the Internal Revenue Code.”

The sections referred to in such legend provide that a United States person who holds a Note, Coupon or Talon will generally not be allowed to deduct any loss realised on the sale, exchange or redemption of such Note, Coupon or Talon and any gain (which might otherwise be characterised as capital gain) recognised on such sale, exchange or redemption will be treated as ordinary income.

TERMS AND CONDITIONS OF THE NOTES

The following are the Terms and Conditions of the Notes which will be incorporated by reference into each Global Note (as defined in this section “Terms and Conditions of the Notes”) and each definitive Note, in the latter case only if permitted by the relevant stock exchange (if any) and agreed by the Issuer and the relevant Dealer at the time of issue but, if not so permitted and agreed, such definitive Note will have endorsed thereon or attached thereto such Terms and Conditions. The applicable Final Terms in relation to any Tranche of Notes shall complete the following Terms and Conditions for the purpose of such Notes. The applicable Final Terms (or the relevant provisions thereof) will be endorsed upon, or attached to, each Global Note and definitive Note. Reference should be made to the “Form of Final Terms” for a description of the content of the Final Terms which will specify which of such terms are to apply in relation to the relevant Notes.

Koninklijke Philips N.V. (the “**Issuer**”) has established a Euro Medium Term Note Programme (the “**Programme**”) for the issue of up to €10,000,000,000 in aggregate principal amount of notes (the “**Notes**”) on the terms set out in these Conditions and in the Trust Deed (as defined below).

Notes issued under the Programme are issued in series (each a “**Series**”) and each Series may comprise one or more tranches (each a “**Tranche**”) of Notes. Each Tranche is the subject of final terms (the “**Final Terms**”) which complete these terms and conditions (the “**Conditions**”). The terms and conditions applicable to any particular Tranche of Notes are these Conditions as completed by the relevant Final Terms.

The Notes are constituted by, are subject to and have the benefit of a trust deed dated 9 March 2020 as amended and restated on 8 March 2024 (as amended and/or restated and/or supplemented from time to time, the “**Trust Deed**”) made between the Issuer and Citicorp Trustee Company Limited as trustee (the “**Trustee**”, which expression shall include its successor(s) as trustee for the holders of the Notes (the “**Noteholders**”) and the holders of the interest coupons appertaining thereto (the “**Couponholders**” and the “**Coupons**” respectively) and are the subject of an agency agreement dated 9 March 2020 as amended and restated on 8 March 2024 (as amended or supplemented from time to time, the “**Agency Agreement**”) made between the Issuer, Citibank, N.A., London Branch as principal paying agent (the “**Principal Paying Agent**” and, together with any other agents appointed in accordance with such agreement, the “**Paying Agents**”, which expression shall include any successor(s)), Citibank, N.A., London Branch as calculation agent (the “**Calculation Agent**” and, together with the Paying Agents, the “**Agents**”)), and the Trustee.

All subsequent references in these Conditions to “**Notes**” are to the Notes of the relevant Series. Copies of the relevant Final Terms are available for inspection and may be obtained during normal business hours at the registered office of the Trustee and the specified office of the Principal Paying Agent.

Certain provisions of these Conditions are summaries of, and are subject to, the detailed provisions of and definitions in the Trust Deed and the Agency Agreement. The Noteholders and the Couponholders are entitled to the benefit of, are bound by, and are deemed to have notice of, all the provisions of the Trust Deed and the Agency Agreement applicable to them.

Copies of the Trust Deed and the Agency Agreement are available for inspection during normal business hours by the Noteholders and the Couponholders at the principal office for the time being of the Trustee, being at the date of issue of the Notes at Citigroup Centre, Canada Square, Canary Wharf, London E14 5LB, United Kingdom and at the specified office of each of the Paying Agents.

2. **Form, Denomination and title**

The Notes are in bearer form and, in the case of definitive Notes, serially numbered, in the Specified Currency and in the Specified Denomination(s) and, if interest-bearing (in the case of definitive Notes), with Coupons and, if specified in the relevant Final Terms, Talons attached at the time of issue. In the case of a Series of Notes with more than one Specified Denomination, Notes of one Specified Denomination will not be exchangeable for Notes of another Specified Denomination. Subject as set out below, title to the Notes and the Coupons will pass by delivery. The Issuer, the Paying Agents and the Trustee will (except as otherwise required by law) deem and treat the bearer of any Note or Coupon as the absolute owner thereof (whether or not it is overdue and regardless of any notice of ownership, trust or any other interest therein, any writing thereon or any notice of any previous loss or theft thereof) for all purposes and shall not be liable to any Person for so treating such bearer, but in the case of a Note in global form (a “**Global Note**”) without prejudice to the provisions set out in the next succeeding paragraph.

For so long as any of the Notes is represented by a Global Note held on behalf of Euroclear Bank SA/NV (“**Euroclear**”) and/or Clearstream Banking S.A. (“**Clearstream, Luxembourg**”), each Person (other than Euroclear or Clearstream, Luxembourg) who is for the time being shown in the records of Euroclear or of Clearstream, Luxembourg as the holder of a particular principal amount of such Notes (in which regard any certificate or other document issued by Euroclear or Clearstream, Luxembourg as to the principal amount of such Notes standing to the account of any Person shall be conclusive and binding for all purposes save in the case of manifest error) shall be treated by the Issuer, the Paying Agents and the Trustee as the holder of such principal amount of such Notes for all purposes other than with respect to the payment of principal or interest on such principal amount of such Notes, for which purpose the bearer of the relevant Global Note shall be treated by the Issuer, any Paying Agent and the Trustee as the holder of such principal amount of such Notes in accordance with and subject to the terms of the relevant Global Note and the expressions “**Noteholder**” and “**holder of Notes**” and related expressions shall be construed accordingly. In determining whether a particular Person is entitled to a particular principal amount of Notes as aforesaid, the Trustee may rely on such evidence and/or information and/or certification as it shall, in its absolute discretion, think fit and, if it does so rely, such evidence and/or information and/or certification shall, in the absence of manifest error, be conclusive and binding on all concerned. Payment in respect of Notes represented by a Global Note will only be made in accordance with the rules and procedures for the time being of Euroclear or Clearstream, Luxembourg, as the case may be.

Notes which are represented by a Global Note will be transferable only in accordance with the rules and procedures for the time being of Euroclear and Clearstream, Luxembourg, as the case may be.

References to Euroclear and/or Clearstream, Luxembourg shall, whenever the context so permits, be deemed to include a reference to any additional or alternative clearing system specified in the relevant Final Terms or as may otherwise be approved by the Issuer, the Paying Agents and the Trustee.

3. Status

The Notes and the Coupons are direct, unconditional and (subject to the provisions of Condition 4 (*Negative Pledge*)) unsecured obligations of the Issuer and (subject as aforesaid) rank and will rank *pari passu*, without any preference among themselves, with all other outstanding unsecured and unsubordinated obligations of the Issuer, present and future, but, in the event of insolvency, only to the extent permitted by applicable laws relating to creditors' rights.

4. Negative Pledge

So long as any Note remains outstanding (as defined in the Trust Deed), the Issuer shall not create or permit to subsist any mortgage, charge, pledge, lien or other security interest upon the whole or any part of its present or future undertaking, assets or revenues (including uncalled capital) to secure any Relevant Indebtedness (as defined below) or any guarantee of Relevant Indebtedness, without:

- (a) at the same time or prior thereto ensuring that the Issuer's obligations under the Notes are secured equally and rateably therewith to the satisfaction of the Trustee; or
- (b) providing such other guarantee or other arrangement (whether or not comprising security) as the Trustee may in its absolute discretion consider to be not materially less beneficial to the interests of the Noteholders or as may be approved by an Extraordinary Resolution (as defined in the Trust Deed).

5. Interest

5.1 Fixed Rate Note Provisions

(a) Application

This Condition 5.1 (*Fixed Rate Note Provisions*) is applicable to the Notes only if the Fixed Rate Note Provisions are specified in the relevant Final Terms as being applicable.

(b) Accrual of interest

The Notes bear interest from the Interest Commencement Date at the Rate of Interest payable in arrear on each Interest Payment Date, subject to Condition 6 (*Payments*). Each Note will cease to bear interest from the due date for final redemption unless, upon due presentation, payment of the Redemption Amount is improperly withheld or refused, in which case it will continue to bear interest in accordance with this Condition 5.1 (*Fixed Rate Note Provisions*) (as well after as before judgment) until whichever is the earlier of (i) the day on which all sums due in respect of such Note up to that day are received by or on behalf of the relevant Noteholder and (ii) the day which is seven days after the Principal Paying Agent or as the case may be the Trustee has notified the Noteholders that it has received all sums due in respect of the Notes up to such seventh day (except to the extent that there is any subsequent default in payment).

(c) Fixed Coupon Amount and Broken Amount

If the Notes are in definitive form, except as provided in the relevant Final Terms, the amount of interest payable in respect of each Note for any Interest Period shall be the relevant Fixed Coupon Amount. If the Notes are in definitive form, if so specified in the relevant Final Terms, the amount of interest payable on

any Interest Payment Date shall be the Broken Amount so specified. The amount of interest payable shall be the product of the Fixed Coupon Amount or, as the case may be, the Broken Amount and the amount by which the Calculation Amount is multiplied to reach the Specified Denomination.

(d) *Calculation of Interest Amount*

Except in the case of Notes in definitive form where an applicable Fixed Coupon Amount or an applicable Broken Amount is specified in the relevant Final Terms, interest shall be calculated in respect of any period by applying the Rate of Interest to:

- (i) in the case of Notes which are represented by a Global Note, the aggregate outstanding principal amount of the Fixed Rate Notes represented by such Global Note; or
- (ii) in the case of Notes in definitive form, the Calculation Amount;

and, in each case, multiplying such product by the applicable Day Count Fraction, and rounding the resultant figure to the nearest Sub-Unit of the relevant Specified Currency, half of any such Sub-Unit being rounded upwards or otherwise in accordance with applicable market convention. The amount of interest payable shall be the product of the amount (determined in the manner provided above) for the Calculation Amount and the amount by which the Calculation Amount is multiplied to reach the Specified Denomination, without any further rounding.

“Day Count Fraction” means, in respect of the calculation of an amount of interest in accordance with this Condition 5.1 (*Fixed Rate Note Provisions*):

- (i) if **“Actual/Actual (ICMA)”** is specified in the relevant Final Terms:
 - (A) in the case of Notes where the number of days in the relevant period from (and including) the most recent Interest Payment Date (or, if none, the Interest Commencement Date) to (but excluding) the relevant payment date (the **“Accrual Period”**) is equal to or shorter than the Determination Period during which the Accrual Period ends, the number of days in such Accrual Period divided by the product of (I) the number of days in such Determination Period and (II) the number of Interest Determination Dates (as specified in the relevant Final Terms) that would occur in one calendar year; or
 - (B) in the case of Notes where the Accrual Period is longer than the Determination Period during which the Accrual Period ends, the sum of:
 - (1) the number of days in such Accrual Period falling in the Determination Period in which the Accrual Period begins divided by the product of (x) the number of days in such Determination Period and (y) the number of Interest Determination Dates that would occur in one calendar year; and
 - (2) the number of days in such Accrual Period falling in the next Determination Period divided by the product of (x) the number of days in such Determination Period and (y) the number of Interest Determination Dates that would occur in one calendar year; and
- (ii) if **“30/360”** is specified in the relevant Final Terms, the number of days in the period from (and including) the most recent Interest Payment Date (or, if none, the Interest Commencement Date) to (but excluding) the relevant payment date (such number of days being calculated on the basis of a year of 360 days with 12 30-day months) divided by 360.

5.2 Floating Rate Note Provisions

(a) *Application*

This Condition 5.2 (*Floating Rate Note Provisions*) is applicable to the Notes only if the Floating Rate Note Provisions are specified in the relevant Final Terms as being applicable.

(b) *Accrual of interest*

The Notes bear interest from the Interest Commencement Date at the Rate of Interest payable in arrear on each Interest Payment Date, subject as provided in Condition 6 (*Payments*). Each Note will cease to bear interest from the due date for final redemption unless, upon due presentation, payment of the Redemption Amount is improperly withheld or refused, in which case it will continue to bear interest in accordance with this Condition 5.2 (*Floating Rate Note Provisions*) (as well after as before judgment) until whichever is the earlier of (i) the day on which all sums due in respect of such Note up to that day are received by or on behalf of the relevant Noteholder and (ii) the day which is seven days after the Principal Paying Agent or as the case may be the Trustee has notified the Noteholders that it has received all sums due in respect of the Notes up to such seventh day (except to the extent that there is any subsequent default in payment).

(c) *Screen Rate Determination*

If Screen Rate Determination is specified in the relevant Final Terms as the manner in which the Rate(s) of Interest is/are to be determined, the Rate of Interest applicable to the Notes for each Interest Period will be (other than in respect of Notes for which SONIA, SOFR and/or €STR is specified as the Reference Rate in the relevant Final Terms) determined, subject to Condition 5.2(m) (*Benchmark Discontinuation (Independent Adviser)*), by the Calculation Agent on the following basis:

- (i) if the Reference Rate is a composite quotation or customarily supplied by one entity, the Calculation Agent will determine the Reference Rate which appears on the Relevant Screen Page as of the Relevant Time on the relevant Interest Determination Date;
- (ii) if Linear Interpolation is specified as applicable in respect of an Interest Period in the applicable Final Terms, the Rate of Interest for such Interest Period shall be calculated by the Calculation Agent by straight-line linear interpolation by reference to two rates which appear on the Relevant Screen Page as of the Relevant Time on the relevant Interest Determination Date, where:
 - (A) one rate shall be determined as if the relevant Interest Period were the period of time for which rates are available next shorter than the length of the relevant Interest Period; and
 - (B) the other rate shall be determined as if the relevant Interest Period were the period of time for which rates are available next longer than the length of the relevant Interest Period; **provided, however, that** if no rate is available for a period of time next shorter or, as the case may be, next longer than the length of the relevant Interest Period, then Calculation Agent shall determine such rate at such time and by reference to such sources as it determines appropriate;

in any other case, the Calculation Agent will determine the arithmetic mean of the Reference Rates which appear on the Relevant Screen Page as of the Relevant Time on the relevant Interest Determination Date;

- (iii) if, in the case of (i) above, such rate does not appear on that page or, in the case of (ii) above, fewer than two such rates appear on that page or if, in either case, the Relevant Screen Page is unavailable, the Issuer will:

- (A) request the principal Relevant Financial Centre office of each of the Reference Banks to provide a quotation of the Reference Rate at approximately the Relevant Time on the Interest Determination Date to prime banks in the Relevant Financial Centre inter-bank market in an amount that is representative for a single transaction in that market at that time; and
 - (B) provide such quotations to the Calculation Agent who shall determine the arithmetic mean of such quotations; and
- (iv) if fewer than two such quotations are provided as requested, the Calculation Agent will determine the arithmetic mean of the rates (being the nearest to the Reference Rate, as determined by the Principal Paying Agent) quoted by major banks in the Principal Financial Centre of the Specified Currency, requested and selected by the Issuer, at approximately 11.00 a.m. (local time in the Principal Financial Centre of the Specified Currency) on the first day of the relevant Interest Period for loans in the Specified Currency to leading European banks for a period equal to the relevant Interest Period and in an amount that is representative for a single transaction in that market at that time, and the Rate of Interest for such Interest Period shall be the sum of the Margin (as specified in the Final Terms) and the rate or (as the case may be) the arithmetic mean so determined; **provided, however, that** if the Calculation Agent is unable to determine a rate or (as the case may be) an arithmetic mean in accordance with the above provisions in relation to any Interest Period, the Rate of Interest applicable to the Notes during such Interest Period will be the sum of the Margin and the rate or (as the case may be) the arithmetic mean last determined in relation to the Notes in respect of the preceding Interest Period.
- (d) *ISDA Determination*

If ISDA Determination is specified in the relevant Final Terms as the manner in which the Rate(s) of Interest is/are to be determined, the Rate of Interest applicable to the Notes for each Interest Period will be the sum of the Margin and the relevant ISDA Rate where:

“**ISDA Rate**” in relation to any Interest Period means a rate equal to the Floating Rate (as defined in the ISDA Definitions) that would be determined by the Calculation Agent under an interest rate swap transaction if the Calculation Agent were acting as Calculation Agent (as defined in the ISDA Definitions) for that interest rate swap transaction under the terms of an agreement incorporating the ISDA Definitions and under which:

 - (i) the Floating Rate Option (as defined in the ISDA Definitions) is as specified in the relevant Final Terms;
 - (ii) the Designated Maturity (as defined in the ISDA Definitions) is a period specified in the relevant Final Terms;
 - (iii) the relevant Reset Date (as defined in the ISDA Definitions) is either (A) the first day of that Interest Period or (B) in any other case, as specified in the relevant Final Terms;
 - (iv) if applicable, the “Applicable Benchmark”, “Fixing Day”, “Fixing Time” and/or any other items specified in the relevant Final Terms are as specified in the relevant Final Terms; and
 - (v) if Linear Interpolation is specified as applicable in respect of an Interest Period in the applicable Final Terms, the Rate of Interest for such Interest Period shall be calculated by the Calculation Agent by straight-line linear interpolation by reference to two rates based on the relevant Floating Rate Option, where:

- (A) one rate shall be determined as if the Designated Maturity were the period of time for which rates are available next shorter than the length of the relevant Interest Period; and
 - (B) the other rate shall be determined as if the Designated Maturity were the period of time for which rates are available next longer than the length of the relevant Interest Period; **provided, however, that** if there is no rate available for a period of time next shorter than the length of the relevant Interest Period or, as the case may be, next longer than the length of the relevant Interest Period, then the Rate of Interest for such Interest Period shall be calculated as if Linear Interpolation were not applicable.
- (e) *Interest – Floating Rate Notes referencing SONIA*
- (i) This Condition 5.2(e) (*Interest – Floating Rate Notes referencing SONIA*) is applicable to the Notes only if the Floating Rate Note Provisions are specified in the relevant Final Terms as being applicable and the “Reference Rate” is specified in the relevant Final Terms as being “SONIA”. Where “SONIA” is specified as the Reference Rate in the Final Terms, the Rate of Interest for each Interest Period will, subject as provided below, be Compounded Daily SONIA plus or minus (as specified in the relevant Final Terms) the Margin, all as determined by the Calculation Agent.

For the purposes of this Condition 5.2(e) (*Interest – Floating Rate Notes referencing SONIA*):

“**Compounded Daily SONIA**”, with respect to an Interest Period, will be calculated by the Calculation Agent on each Interest Determination Date in accordance with the following formula, and the resulting percentage will be rounded, if necessary, to the fourth decimal place, with 0.00005 being rounded upwards:

$$\left[\prod_{i=1}^{d_o} \left(1 + \frac{SONIA_{i-pLBD} \times n_i}{365} \right) - 1 \right] \times \frac{365}{d}$$

“**d**” means the number of calendar days in:

- (i) where “Lag” is specified as the Observation Method in the relevant Final Terms, the relevant Interest Period; or
- (ii) where “Observation Shift” is specified as the Observation Method in the relevant Final Terms, the relevant Observation Period;

“**d_o**” means the number of London Banking Days in:

- (i) where “Lag” is specified as the Observation Method in the relevant Final Terms, the relevant Interest Period; or
- (ii) where “Observation Shift” is specified as the Observation Method in the relevant Final Terms, the relevant Observation Period;

“**I**” means a series of whole numbers from one to d_o, each representing the relevant London Banking Day in chronological order from, and including, the first London Banking Day in:

- (i) where “Lag” is specified as the Observation Method in the relevant Final Terms, the relevant Interest Period; or

- (ii) where “Observation Shift” is specified as the Observation Method in the relevant Final Terms, the relevant Observation Period;

to, and including, the last London Banking Day in such period;

“**Interest Determination Date**” means, in respect of any Interest Period, the date falling p London Banking Days prior to the Interest Payment Date for such Interest Period (or the date falling “p” London Banking Days prior to such earlier date, if any, on which the Notes are due and payable).

“**London Banking Day**” or “**LBD**” means any day on which commercial banks are open for general business (including dealing in foreign exchange and foreign currency deposits) in London;

“**ni**” for any London Banking Day “i”, in the relevant Interest Period or Observation Period (as applicable) is the number of calendar days from, and including, such London Banking Day “i” up to, but excluding, the following London Banking Day;

“**Observation Period**” means, in respect of an Interest Period, the period from, and including, the date falling “p” London Banking Days prior to the first day of such Interest Period (and the first Interest Period shall begin on and include the Interest Commencement Date) and ending on, but excluding, the date which is “p” London Banking Days prior to the Interest Payment Date for such Interest Period (or the date falling “p” London Banking Days prior to such earlier date, if any, on which the Notes become due and payable);

“**p**” for any Interest Period or Observation Period (as applicable), means the number of London Banking Days specified as the “Lag Period” or the “Observation Shift Period” (as applicable) in the relevant Final Terms;

“**SONIA Reference Rate**” means, in respect of any London Banking Day, a reference rate equal to the daily Sterling Overnight Index Average (“**SONIA**”) rate for such London Banking Day as provided by the administrator of SONIA to authorised distributors and as then published on the Relevant Screen Page (or if the Relevant Screen Page is unavailable, as otherwise is published by such authorised distributors) on the London Banking Day immediately following such London Banking Day; and

“**SONIAi**” means the SONIA Reference Rate for:

- (i) where “Lag” is specified as the Observation Method in the relevant Final Terms, the London Banking Day falling “p” London Banking Days prior to the relevant London Banking Day “i”; or
- (ii) where “Observation Shift” is specified as the Observation Method in the relevant Final Terms; the relevant London Banking Day “i”;

For the avoidance of doubt, the formula for the calculation of Compounded Daily SONIA only compounds the SONIA Reference Rate in respect of any London Banking Day. The SONIA Reference Rate applied to a day that is a non-London Banking Day will be taken by applying the SONIA Reference Rate for the previous London Banking Day but without compounding.

- (ii) If, in respect of any London Banking Day in the relevant Interest Period or Observation Period (as applicable), the SONIA Reference Rate is not available on the Relevant Screen Page or has not otherwise been published by the relevant authorised distributors, such SONIA Reference Rate shall, subject to Condition 5.2(m) (*Benchmark Discontinuation (Independent Adviser)*), be:

- (A) the Bank of England's Bank Rate (the “**Bank Rate**”) prevailing at close of business on the relevant London Banking Day; plus (B) the mean of the spread of the SONIA Reference Rate to the Bank Rate over the previous five London Banking Days on which a SONIA Reference Rate has been published, excluding the highest spread (or, if there is more than one highest spread, one only of those highest spreads) and lowest spread (or, if there is more than one lowest spread, one only of those lowest spreads) to the Bank Rate; or
 - (B) if the Bank Rate is not published by the Bank of England at close of business on the relevant London Banking Day, the SONIA Reference Rate published on the Relevant Screen Page (or otherwise published by the relevant authorised distributors) for the first preceding London Banking Day on which the SONIA Reference Rate was published on the Relevant Screen Page (or otherwise published by the relevant authorised distributors).
- (iii) Subject to Condition 5.2(m) (*Benchmark Discontinuation (Independent Adviser)*), if the Rate of Interest cannot be determined in accordance with the foregoing provisions of this Condition 5.2(e) (*Interest – Floating Rate Notes referencing SONIA*), the Issuer shall give notice thereof to the Agents, the Trustee and the Noteholders in accordance with Condition 13 (*Notices*) no later than the Determination Cut-off Date and the Rate of Interest shall be (A) that determined as at the last preceding Interest Determination Date (though substituting, where a different Margin is to be applied to the relevant Interest Period from that which applied to the last preceding Interest Period, the Margin relating to the relevant Interest Period, in place of the Margin relating to that last preceding Interest Period) or (B) if there is no such preceding Interest Determination Date, the initial Rate of Interest which would have been applicable to the Notes for the first Interest Period had the Notes been in issue for a period equal in duration to the scheduled first Interest Period but ending on (and excluding) the Interest Commencement Date (but applying the Margin applicable to the first Interest Period), in each case as determined by the Calculation Agent.
- (f) *Interest – Floating Rate Notes referencing SOFR*
- (i) This Condition 5.2(f) (*Interest – Floating Rate Notes referencing SOFR*) is applicable to the Notes only if the Floating Rate Note Provisions are specified in the relevant Final Terms as being applicable and the “Reference Rate” is specified in the relevant Final Terms as being “SOFR”. Where “SOFR” is specified as the Reference Rate in the Final Terms, the Rate of Interest for each Interest Period will, subject as provided below, be the Benchmark plus or minus (as specified in the relevant Final Terms) the Margin, all as determined by the Calculation Agent on each Interest Determination Date.

For the purposes of this Condition 5.2(f) (*Interest – Floating Rate Notes referencing SOFR*):

“**Benchmark**” means Compounded SOFR, which is a compounded average of daily SOFR, as determined for each Interest Period in accordance with the specific formula and other provisions set out in this Condition 5.2(f) (*Interest – Floating Rate Notes referencing SOFR*).

Daily SOFR rates will not be published in respect of any day that is not a U.S. Government Securities Business Day, such as a Saturday, Sunday or holiday. For this reason, in determining Compounded SOFR in accordance with the specific formula and other provisions set forth herein, the daily SOFR rate for any U.S. Government Securities Business Day that immediately precedes one or more days that are not U.S. Government Securities Business Days will be multiplied by the number of calendar days from and including such U.S. Government Securities Business Day to, but excluding, the following U.S. Government Securities Business Day.

If the Issuer determines that a Benchmark Transition Event and its related Benchmark Replacement Date have occurred in respect of Compounded SOFR (or the daily SOFR used in the calculation

hereof) prior to the relevant SOFR Determination Time, then the provisions under Condition 5.2(f)(i) to (iv) below will apply.

“Business Day” means any weekday that is a U.S. Government Securities Business Day and is not a legal holiday in New York and each (if any) Additional Business Centre(s) and is not a date on which banking institutions in those cities are authorised or required by law or regulation to be closed;

“Compounded SOFR” with respect to any Interest Period, means the rate of return of a daily compound interest investment computed in accordance with the following formula (and the resulting percentage will be rounded, if necessary, to the nearest one hundred-thousandth of a percentage point, with 0.000005 being rounded upwards to 0.00001):

$$\left[\prod_{i=1}^{d_o} \left(1 + \frac{SOFR_i \times n_i}{360} \right) - 1 \right] \times \frac{360}{d}$$

“d” is the number of calendar days in:

- (i) where “Lag” is specified as the Observation Method in the relevant Final Terms, the relevant Interest Period; or
- (ii) where “Observation Shift” is specified as the Observation Method in the relevant Final Terms, the relevant Observation Period.

“d_o” is the number of U.S. Government Securities Business Days in:

- (i) where “Lag” is specified as the Observation Method in the relevant Final Terms, the relevant Interest Period; or
- (ii) where “Observation Shift” is specified as the Observation Method in the relevant Final Terms, the relevant Observation Period.

“I” is a series of whole numbers from one to “d_o”, each representing the relevant U.S. Government Securities Business Day in chronological order from, and including, the first U.S. Government Securities Business Day in:

- (i) where “Lag” is specified as the Observation Method in the relevant Final Terms, the relevant Interest Period; or
- (ii) where “Observation Shift” is specified as the Observation Method in the relevant Final Terms, the relevant Observation Period,

to and including the last US Government Securities Business Day in such period;

“Interest Determination Date” means, in respect of any Interest Period, the date falling “p” U.S. Government Securities Business Days prior to the Interest Payment Date for such Interest Period (or the date falling “p” U.S. Government Securities Business Days prior to such earlier date, if any, on which the Notes are due and payable);

“ni” for any U.S. Government Securities Business Day “i” in the relevant Interest Period or Observation Period (as applicable), is the number of calendar days from, and including, such U.S. Government Securities Business Day “i” to, but excluding, the following U.S. Government Securities Business Day (“i+1”);

“Observation Period” in respect of an Interest Period means the period from, and including, the date falling “p” U.S. Government Securities Business Days preceding the first day in such Interest Period (and the first Interest Period shall begin on and include the Interest Commencement Date) to, but excluding, the date falling “p” U.S. Government Securities Business Days preceding the Interest Payment Date for such Interest Period (or the date falling “p” U.S. Government Securities Business Days prior to such earlier date, if any, on which the Notes become due and payable);

“p” for any Interest Period or Observation Period (as applicable) means the number of U.S. Government Securities Business Days specified as the “Lag Period” or the “Observation Shift Period” (as applicable) in the relevant Final Terms;

- (ii) Subject to Condition 5.2(f)(ii) below, if the rate specified in (i) above does not so appear, the Secured Overnight Financing Rate as published in respect of the first preceding U.S. Government Securities Business Day for which the Secured Overnight Financing Rate was published on the SOFR Administrator's Website;

- (ii) If the Issuer or, at the Issuer’s request, the Independent Adviser determines on or prior to the relevant Reference Time that a Benchmark Transition Event and its related Benchmark Replacement Date (each as defined below) have occurred with respect to the then-current Benchmark, the Benchmark Replacement will replace the then-current Benchmark for all purposes relating to the Notes in respect of all determinations on such date and for all determinations on all subsequent dates. In connection with the implementation of a Benchmark Replacement, the Issuer will have the right to make Benchmark Replacement Conforming Changes from time to time. If the Issuer exercises its right to make Benchmark Replacement Conforming Changes at any time, at the request and expense of the Issuer, but subject to receipt by the Trustee and the Paying Agents of a certificate signed by two Authorised Signatories of the Issuer pursuant to the below, the Trustee, without any requirement

for the consent or approval of the Noteholders, and the Paying Agents shall concur with the Issuer in effecting any Benchmark Replacement Conforming Changes required to these Conditions, the Trust Deed and/or the Agency Agreement (regardless of whether or not the effecting of such Benchmark Replacement Conforming Changes would constitute a Basic Terms Modification (as defined in the Trust Deed) or one or more provisos under Condition 14 (*Meetings of Noteholders, Modification, Waiver, Authorisation and Determination, Substitution*) and neither the Trustee nor the Paying Agents shall be liable to any party for any consequences thereof. Notwithstanding the above, neither the Trustee nor the Paying Agents shall be obliged so to concur if in its reasonable opinion doing so would have the effect of (i) imposing more onerous obligations upon it or exposing it to any additional duties, responsibilities or liabilities or reducing or amending the rights and/or protective provisions afforded to it in these Conditions, the Trust Deed or the Agency Agreement (including, for the avoidance of doubt, any supplemental trust deed or agency agreement) in any way or (ii) exposing the Trustee to any liabilities against which it has not been indemnified and/or prefunded and/or secured to their satisfaction.

Any determination, decision or election that may be made by the Issuer or the Independent Adviser, as the case may be pursuant to this section, including any determination with respect to a tenor, rate or adjustment or of the occurrence or non-occurrence of an event, circumstance or date and any decision to take or refrain from taking any action or any selection: (i) will be conclusive and binding absent manifest error; (ii) if made by the Issuer, will be made in the sole discretion of the Issuer; and (iii) if made by the Independent Adviser, will be made after consultation with the Issuer and the Independent Adviser will not make any such determination, decision or election to which the Issuer reasonably objects; and (iv) notwithstanding anything to the contrary in the documentation relating to the Notes, shall become effective without consent from the holders of the Notes or any other party.

For the purposes of this Condition 5.2(f)(ii):

“**Benchmark**” means, initially, Compounded SOFR, as such term is defined above; *provided that* if the Issuer determines on or prior to the Reference Time that a Benchmark Transition Event and its related Benchmark Replacement Date have occurred with respect to Compounded SOFR (or the published daily SOFR used in the calculation thereof) or the then-current Benchmark, then “**Benchmark**” shall mean the applicable Benchmark Replacement.

“**Benchmark Replacement**” means the first alternative set forth in the order below that can be determined by the Issuer or the Independent Adviser, as the case may be, as of the Benchmark Replacement Date:

- (i) the sum of: (A) the alternate rate of interest that has been selected or recommended by the Relevant Governmental Body as the replacement for the then-current Benchmark and (B) the Benchmark Replacement Adjustment;
- (ii) the sum of: (A) the ISDA Fallback Rate and (B) the Benchmark Replacement Adjustment;
or
- (iii) the sum of: (A) the alternate rate of interest that has been selected by the Issuer or the Independent Adviser, as the case may be, as the replacement for the then-current Benchmark giving due consideration to any industry-accepted rate of interest as a replacement for the then-current Benchmark for U.S. dollar-denominated floating rate notes at such time and (B) the Benchmark Replacement Adjustment;

“**Benchmark Replacement Adjustment**” means the first alternative set forth in the order below that can be determined by the Issuer or the Independent Adviser, as the case may be, as of the Benchmark Replacement Date:

- (i) the spread adjustment, or method for calculating or determining such spread adjustment, (which may be a positive or negative value or zero) that has been selected or recommended by the Relevant Governmental Body for the applicable Unadjusted Benchmark Replacement;
- (ii) if the applicable Unadjusted Benchmark Replacement is equivalent to the ISDA Fallback Rate, the ISDA Fallback Adjustment; or
- (iii) the spread adjustment (which may be a positive or negative value or zero) that has been selected by the Issuer or the Independent Adviser, as the case may be, giving due consideration to any industry-accepted spread adjustment, or method for calculating or determining such spread adjustment, for the replacement of the then-current Benchmark with the applicable Unadjusted Benchmark Replacement for U.S. dollar-denominated floating rate notes at such time;

“Benchmark Replacement Conforming Changes” means, with respect to any Benchmark Replacement, any technical, administrative or operational changes (including changes to the timing and frequency of determining rates and making payments of interest, rounding of amounts or tenors, and other administrative matters) that the Issuer or the Independent Adviser, as the case may be, decides may be appropriate to reflect the adoption of such Benchmark Replacement in a manner substantially consistent with market practice (or, if the Issuer or the Independent Adviser, as the case may be, decides that adoption of any portion of such market practice is not administratively feasible or if the Issuer determines that no market practice for use of the Benchmark Replacement exists, in such other manner as the Issuer or the Independent Adviser, as the case may be, determines is reasonably necessary);

“Benchmark Replacement Date” means the earliest to occur of the following events with respect to the then-current Benchmark (including the daily published component used in the calculation thereof):

- (i) in the case of clause (i) or (ii) of the definition of “Benchmark Transition Event”, the later of (a) the date of the public statement or publication of information referenced therein and (b) the date on which the administrator of the Benchmark permanently or indefinitely ceases to provide the Benchmark (or such component); or
- (ii) in the case of clause (iii) of the definition of “Benchmark Transition Event”, the date of the public statement or publication of information referenced therein.

For the avoidance of doubt, if the event that gives rise to the Benchmark Replacement Date occurs on the same day as, but earlier than, the Reference Time in respect of any determination, the Benchmark Replacement Date will be deemed to have occurred prior to the Reference Time for such determination;

“Benchmark Transition Event” means the occurrence of one or more of the following events with respect to the then-current Benchmark (including the daily published component used in the calculation thereof):

- (i) a public statement or publication of information by or on behalf of the administrator of the Benchmark (or such component) announcing that such administrator has ceased or will cease to provide the Benchmark (or such component), permanently or indefinitely, provided that, at the time of such statement or publication, there is no successor administrator that will continue to provide the Benchmark (or such component); or

- (ii) a public statement or publication of information by the regulatory supervisor for the administrator of the Benchmark (or such component), the central bank for the currency of the Benchmark (or such component), an insolvency official with jurisdiction over the administrator for the Benchmark (or such component), a resolution authority with jurisdiction over the administrator for the Benchmark (or such component) or a court or an entity with similar insolvency or resolution authority over the administrator for the Benchmark, which states that the administrator of the Benchmark (or such component) has ceased or will cease to provide the Benchmark (or such component) permanently or indefinitely, provided that, at the time of such statement or publication, there is no successor administrator that will continue to provide the Benchmark (or such component); or
- (iii) a public statement or publication of information by the regulatory supervisor for the administrator of the Benchmark announcing that the Benchmark is no longer representative;

“ISDA Fallback Rate” means the rate that would apply for derivatives transactions referencing the ISDA Definitions to be effective upon the occurrence of an index cessation date with respect to the Benchmark for the applicable tenor excluding the applicable ISDA Fallback Adjustment;

“Reference Time” with respect to any determination of the Benchmark means (i) if the Benchmark is Compounded SOFR, the SOFR Determination Time, and (ii) if the Benchmark is not Compounded SOFR, the time determined by the Issuer or the Independent Adviser, as the case may be, after giving effect to the Benchmark Replacement Conforming Changes;

“Relevant Governmental Body” means the Federal Reserve Board and/or the Federal Reserve Bank of New York, or a committee officially endorsed or convened by the Federal Reserve Board and/or the Federal Reserve Bank of New York or any successor thereto; and

“Unadjusted Benchmark Replacement” means the Benchmark Replacement excluding the Benchmark Replacement Adjustment.

- (iii) Any Benchmark Replacement, Benchmark Replacement Adjustment and the specific terms of any Benchmark Replacement Conforming Changes, determined under Condition 5.2(f)(ii) above will be notified promptly, but in any event no later than the Determination Cut-off Date (as defined below), by the Issuer to the Trustee, the Paying Agents and, in accordance with Condition 13 (*Notices*), the Noteholders. Such notice shall be irrevocable and shall specify the effective date on which such changes take effect.

No later than notifying the Trustee and the Paying Agents of the same, the Issuer shall deliver to the Trustee and the Paying Agents a certificate signed by two Authorised Signatories of the Issuer:

- (A) confirming (x) that a Benchmark Transition Event and its related Benchmark Replacement Date have occurred, (y) the relevant Benchmark Replacement and, (z) where applicable, any Benchmark Replacement Adjustment and/or the specific terms of any relevant Benchmark Replacement Conforming Changes, in each case as determined in accordance with the provisions of this Condition 5.2(f)(ii); and

- (B) certifying that the relevant Benchmark Replacement Conforming Changes are necessary to ensure the proper operation of such Benchmark Replacement and/or Benchmark Replacement Adjustment.

The Trustee and the Paying Agents shall be entitled to rely on such certificate (without enquiry or liability to any person) as sufficient evidence thereof. The Benchmark Replacement and the Benchmark Replacement Conforming Changes (if any) specified in such certificate will (in the absence of manifest error and without prejudice to the Trustee's or the Paying Agent's ability to rely on such certificate as aforesaid) be binding on the Trustee, the Paying Agents and the Noteholders.

- (iv) If the Rate of Interest cannot be determined in accordance with the foregoing provisions of this Condition 5.2(f) (*Interest – Floating Rate Notes referencing SOFR*), the Issuer shall give notice thereof to the Agents, the Trustee and the Noteholders in accordance with Condition 13 (*Notices*) no later than the Determination Cut-off Date and the Rate of Interest shall be (A) that determined as at the last preceding Interest Determination Date (though substituting, where a different Margin is to be applied to the relevant Interest Period from that which applied to the last preceding Interest Period, the Margin relating to the relevant Interest Period, in place of the Margin relating to that last preceding Interest Period) or (B) if there is no such preceding Interest Determination Date, the initial Rate of Interest which would have been applicable to the Notes for the first Interest Period had the Notes been in issue for a period equal in duration to the scheduled first Interest Period but ending on (and excluding) the Interest Commencement Date (but applying the Margin applicable to the first Interest Period).

- (g) *Interest – Floating Rate Notes referencing €STR*

- (i) This Condition 5.2(g) (*Interest – Floating Rate Notes referencing €STR*) is applicable to the Notes only if the Floating Rate Note Provisions are specified in the relevant Final Terms as being applicable and the “Reference Rate” is specified in the relevant Final Terms as being “€STR”. Where “€STR” is specified as the Reference Rate in the Final Terms, the Rate of Interest for each Interest Period will, subject as provided below, be Compounded Daily €STR plus or minus (as specified in the relevant Final Terms) the Margin, all as determined by the Calculation Agent on each Interest Determination Date.

For the purposes of this Condition 5.2(g) (*Interest – Floating Rate Notes referencing €STR*):

“**Compounded Daily €STR**” means, with respect to any Interest Period, the rate of return of a daily compound interest investment (with the daily euro short-term rate as reference rate for the calculation of interest) as calculated by the Calculation Agent as at the relevant Interest Determination Date in accordance with the following formula (and the resulting percentage will be rounded if necessary to the nearest fifth decimal place, with 0.000005 being rounded upwards):

$$\left[\prod_{i=1}^{d_o} \left(1 + \frac{\text{€STR}_i \times n_i}{D} \right) - 1 \right] \times \frac{D}{d}$$

where:

“**d**” means the number of calendar days in:

- (i) where “Lag” is specified as the Observation Method in the relevant Final Terms, the relevant Interest Period; or

the “**€STR reference rate**”, in respect of any TARGET Settlement Day, is a reference rate equal to the daily euro short-term rate (“**€STR**”) for such TARGET Settlement Day as provided by the European Central Bank as the administrator of €STR (or any successor administrator of such rate) on the website of the European Central Bank (or, if no longer published on its website, as otherwise published by it or provided by it to authorised distributors and as then published on the Relevant Screen Page or, if the Relevant Screen Page is unavailable, as otherwise published by such authorised distributors) on the TARGET Settlement Day immediately following such TARGET Settlement Day (in each case, at the time specified by, or determined in accordance with, the applicable methodology, policies or guidelines, of the European Central Bank or the successor administrator of such rate);

“**€STR_i**” means the €STR reference rate for:

- (i) where “Lag” is specified as the Observation Method in the relevant Final Terms, the TARGET Settlement Day falling “*p*” TARGET Settlement Days prior to the relevant TARGET Settlement Day “*i*”; or

“**i**” is a series of whole numbers from one to “*do*”, each representing the relevant TARGET Settlement Day in chronological order from, and including, the first TARGET Settlement Day in:

- (i) where “Lag” is specified as the Observation Method in the relevant Final Terms, the relevant Interest Period; or
- (ii) where “*Observation Shift*” is specified as the Observation Method in the relevant Final Terms, the relevant Observation Period;

to, and including, the last TARGET Settlement Day in such period;

“***n_i***” for any TARGET Settlement Day “*i*” in the relevant Interest Period or Observation Period (as applicable), means the number of calendar days from (and including) such TARGET Settlement Day “*i*” up to (but excluding) the following TARGET Settlement Day;

“**Observation Period**” means, in respect of any Interest Period, the period from (and including) the date falling “*p*” TARGET Settlement Days prior to the first day of the relevant Interest Period (and the final Interest Period shall begin on and include the Interest Commencement Date) to (but excluding) the date falling “*p*” TARGET Settlement Days prior to (A) (in the case of an Interest Period) the Interest Payment Date for such Interest Period or (B) such earlier date, if any, on which the Notes become due and payable;

“p” for any latest Interest Period or Observation Period (as applicable), means the number of TARGET Settlement Days specified as the “Lag Period” or the “Observation Shift Period” (as applicable) in the relevant Final Terms; and

“**Target Settlement Day**” means a day on which T2, is operating credit or transfer instructions in respect of payments in euro.

(ii) Subject to Condition 5.2(m) (*Benchmark Discontinuation (Independent Adviser)*), if, where any Rate of Interest is to be calculated pursuant to the foregoing provisions of this Condition 5.2(g) (*Interest – Floating Rate Notes referencing €STR*), in respect of any TARGET Settlement Day in respect of which an applicable €STR reference rate is required to be determined, such €STR reference rate is not made available on the Relevant Screen Page or has not otherwise been published by the relevant authorised distributors, then the €STR reference rate in respect of such TARGET Settlement Day shall be the €STR reference rate for the first preceding TARGET Settlement Day in respect of which €STR reference rate was published by the European Central Bank on its website, as determined by the Calculation Agent.

(iii) Subject to Condition 5.2(m) (*Benchmark Discontinuation (Independent Adviser)*), if the Rate of Interest cannot be determined in accordance with the foregoing provisions of this Condition 5.2(g) (*Interest – Floating Rate Notes referencing €STR*), the Rate of Interest shall be (A) that determined as at the last preceding Interest Determination Date (though substituting, where a different Margin is to be applied to the relevant Interest Period from that which applied to the last preceding Interest Period, the Margin relating to the relevant Interest Period, in place of the Margin relating to that last preceding Interest Period) or (B) if there is no such preceding Interest Determination Date, the initial Rate of Interest which would have been applicable to the Notes for the first Interest Period had the Notes been in issue for a period equal in duration to the scheduled first Interest Period but ending on (and excluding) the Interest Commencement Date (but applying the Margin applicable to the first Interest Period).

(h) *Maximum or Minimum Rate of Interest*

If any Maximum Rate of Interest or Minimum Rate of Interest is specified in the relevant Final Terms, then the Rate of Interest shall in no event be greater than the maximum or be less than the minimum so specified.

(i) *Calculation of Interest Amount*

The Calculation Agent will, as soon as practicable after the time at which the Rate of Interest is to be determined in relation to each Interest Period, calculate the Interest Amount payable in respect of each Note for such Interest Period by applying the Rate of Interest to:

(A) in the case of Notes which are represented by a Global Note, the aggregate outstanding principal amount of the Notes represented by such Global Note; or

(B) in the case of Notes in definitive form, the Calculation Amount;

and, in each case, multiplying such sum by the applicable Day Count Fraction, and rounding the resultant figure to the nearest Sub-Unit of the relevant Specified Currency, half of any such Sub-Unit being rounded upwards or otherwise in accordance with applicable market convention. Where the Specified Denomination of a Note in definitive form is a multiple of the Calculation Amount, the Interest Amount payable in respect of such Note shall be the product of the amount (determined in the manner provided above) for the Calculation Amount and the amount by which the Calculation Amount is multiplied to reach the Specified Denomination, without any further rounding.

(j) *Calculation of other amounts*

If the relevant Final Terms specifies that any other amount is to be calculated by the Calculation Agent, the Calculation Agent will, as soon as practicable after the time or times at which any such amount is to be determined, calculate the relevant amount. The relevant amount will be calculated by the Calculation Agent in the manner specified in the relevant Final Terms.

For the avoidance of doubt, in no event shall the Calculation Agent be responsible for determining any Successor Rate, Alternative Reference Rate, Adjustment Spread, Benchmark Replacement, Benchmark Replacement Adjustment or any Benchmark Replacement Conforming Changes. The Calculation Agent will be entitled to conclusively rely on any determinations made by the Issuer or the Independent Adviser and in the absence of fraud, negligence or bad faith, will have no liability for such actions taken at the direction of the Issuer or the Independent Adviser.

(k) *Publication*

Subject to Condition 5.2(m) (*Benchmark Discontinuation (Independent Adviser)*), the Calculation Agent will cause each Rate of Interest and Interest Amount determined by it, together with the relevant Interest Payment Date, and any other amount(s) required to be determined by it together with any relevant payment date(s) to be notified to the Paying Agents and each listing authority and stock exchange (if any) by which the Notes have then been admitted to listing and/or trading as soon as practicable after such determination but (in the case of each Rate of Interest, Interest Amount and Interest Payment Date) in any event not later than the first day of the relevant Interest Period. Notice thereof shall also promptly be given to the Noteholders. The Calculation Agent will be entitled to recalculate any Interest Amount (on the basis of the foregoing provisions) without notice in the event of an extension or shortening of the relevant Interest Period.

(l) *Notifications etc.*

All notifications, determinations, certificates, calculations, quotations and decisions given, expressed, made or obtained for the purposes of this Condition 5.2 (*Floating Rate Note Provisions*) by the Calculation Agent will (in the absence of manifest error) be binding on the Issuer, the Trustee, the Paying Agents, the Noteholders and the Couponholders and no liability to any such Person will attach to the Calculation Agent in connection with the exercise or non-exercise by it of its powers, duties and discretions for such purposes.

(m) *Benchmark Discontinuation (Independent Adviser)*

Notwithstanding the provisions of Condition 5.2 (*Floating Rate Note Provisions*) above, and other than in the case of a U.S. dollar-denominated floating rate Note for which the Reference Rate is specified in the relevant Final Terms as being “SOFR”, if the Issuer determines that a Benchmark Event has occurred when any Rate of Interest (or the relevant component part thereof) remains to be determined by such Reference Rate (the “**Original Reference Rate**”), then the following provisions shall apply:

- (i) the Issuer shall notify the Calculation Agent and shall use reasonable endeavours to select and appoint, as soon as reasonably practicable, an Independent Adviser to determine (acting in good faith and in a commercially reasonable manner), no later than 5 Business Days prior to the relevant Interest Determination Date relating to the next succeeding Interest Period (the “**Determination Cut-off Date**”), a Successor Rate (as defined below) or, alternatively, if there is no Successor Rate, an Alternative Reference Rate (as defined below) for purposes of determining the Rate of Interest (or the relevant component part thereof) applicable to the Notes;

- (ii) if a Successor Rate or, failing which, an Alternative Reference Rate (as applicable) is determined in accordance with the preceding provisions, such Successor Rate or, failing which, an Alternative Reference Rate (as applicable) shall be the Reference Rate for each of the future Interest Periods (subject to the subsequent operation of, and to adjustment as provided in, this Condition 5.2(m) (*Benchmark Discontinuation (Independent Adviser)*)); **provided, however, that** if the Independent Adviser is unable to or does not determine a Successor Rate or an Alternative Reference Rate prior to the relevant Interest Determination Date, the Rate of Interest applicable to the next succeeding Interest Period shall be equal to the Rate of Interest last determined in relation to the Notes in respect of the preceding Interest Period (or alternatively, if there has not been a first Interest Payment Date, the rate of interest shall be the initial Rate of Interest) (subject, where applicable, to substituting the Margin or Maximum or Minimum Rate of Interest that applied to such preceding Interest Period for the Margin or Maximum or Minimum Rate of Interest that is to be applied to the relevant Interest Period); for the avoidance of doubt, the proviso in this sub-paragraph (ii) shall apply to the relevant Interest Period only and any subsequent Interest Periods are subject to the subsequent operation of, and to adjustment as provided in, this Condition 5.2(m) (*Benchmark Discontinuation (Independent Adviser)*);
- (iii) if the Independent Adviser (in consultation with the Issuer) determines (acting in good faith and in a commercially reasonable manner) that an Adjustment Spread (as defined below) is required to be applied to the Successor Rate or the Alternative Reference Rate (as applicable) and determines the quantum of, or a formula or methodology for determining, such Adjustment Spread, then such Adjustment Spread shall be applied to the Successor Rate or the Alternative Reference Rate (as applicable). If the Independent Adviser is unable to determine the quantum of, or a formula or methodology for determining, such Adjustment Spread, then such Successor Rate or Alternative Reference Rate (as applicable) will apply without an Adjustment Spread;
- (iv) if the Independent Adviser (in consultation with the Issuer) determines (acting in good faith and in a commercially reasonable manner) a Successor Rate or an Alternative Reference Rate (as applicable) and/or an Adjustment Spread in accordance with the above provisions, the Independent Adviser, may (acting in good faith and in a commercially reasonable manner) also specify changes to these Conditions, the Trust Deed, and/or the Agency Agreement, including but not limited to the Day Count Fraction, Relevant Screen Page, Business Day Convention, Business Days, Interest Determination Date, and/or the definition of Reference Rate applicable to the Notes, and the method for determining the fallback rate in relation to the Notes, which are necessary in order to ensure the proper operation of such Successor Rate or the Alternative Reference Rate (as applicable) and/or Adjustment Spread, which changes shall apply to the Notes for all future Interest Periods (subject to the subsequent operation of, and to adjustment as provided in, this Condition 5.2(m) (*Benchmark Discontinuation (Independent Adviser)*)) (each of the changes described above, a “**Benchmark Amendment**” and together, the “**Benchmark Amendments**”). For the avoidance of doubt, at the request and expense of the Issuer and subject to receipt by the Trustee and the Paying Agents of a certificate signed by two Authorised Signatories of the Issuer pursuant to sub-paragraph (v) below, the Trustee, without any requirement for the consent or approval of the Noteholders, and the Paying Agents shall concur with the Issuer in effecting any Benchmark Amendments to the Trust Deed, the Agency Agreement and these Conditions as the Issuer determines and certifies to the Trustee and the Paying Agents are required to be made in order to give effect to this Condition 5.2(m) (*Benchmark Discontinuation (Independent Adviser)*) regardless of whether or not giving effect to such Benchmark Amendments would constitute a Basic Terms Modification (as defined in the Trust Deed) or one or more provisos under Condition 14 (*Meetings of Noteholders, Modification, Waiver, Authorisation and Determination, Substitution*), **provided, however**, that neither the Trustee nor the Paying Agents (as applicable) shall be obliged so to concur if in the opinion of the Trustee and/or the Paying Agents (as applicable), doing so would (i) impose more onerous obligations upon it or expose it to any additional duties, responsibilities or liabilities or reduce or amend the protective provisions afforded to the Trustee and/or the Paying Agents (as applicable) in these Conditions, the Trust Deed (including, for the avoidance of doubt, any supplemental trust deed) or the Agency

Agreement or (ii) expose the Trustee and/or the Paying Agents (as applicable) to any additional liabilities against which it has not been indemnified and/or secured and/or prefunded to its satisfaction. Noteholder approval or consent shall not be required in connection with effecting the Successor Rate or Alternative Reference Rate (as applicable), any Adjustment Spread or such other changes, including for the execution of any documents or other steps by the Trustee or Paying Agents (if required);

- (v) the Issuer shall promptly, but in any event no later than the Determination Cut-Off Date, following the determination of any Successor Rate or Alternative Reference Rate (as applicable) or Adjustment Spread, give notice thereof and of any changes pursuant to sub-paragraph (iv) above to the Trustee, the Paying Agents and the Noteholders in accordance with Condition 13 (*Notices*), which shall specify the effective date(s) for such Successor Rate or Alternative Reference Rate or Adjustment Spread (as applicable) and any Benchmark Amendments required to be made to these Conditions, the Trust Deed and/or the Agency Agreement. No later than notifying the Trustee and the Paying Agents of the same, which shall not be less than the Determination Cut-Off Date, the Issuer shall deliver to the Trustee and the Paying Agent a certificate signed by two Authorised Signatories (as defined in the Trust Deed) of the Issuer:
 - (A) confirming (i) that a Benchmark Event has occurred, (ii) the Successor Rate or, as the case may be, Alternative Reference Rate and (iii) where applicable, any Adjustment Spread and/or the specific terms of any Benchmark Amendments, in each case as determined in accordance with the provision of this Condition 5.2(m) (*Benchmark Discontinuation (Independent Adviser)*); and
 - (B) certifying that the Benchmark Amendments are necessary to ensure the proper operation of such Successor Rate, Alternative Reference Rate, and/or any Adjustment Spread, as the case may be.

The Trustee and the Paying Agents shall be entitled to rely on such certificate (without liability to any person) as sufficient evidence thereof. The Successor Rate or Alternative Reference Rate (as applicable), the Adjustment Spread (if any), and the Benchmark Amendments (if any) determined in accordance with this Condition 5.2(m) (*Benchmark Discontinuation (Independent Adviser)*) and specified in such certificate will (in the absence of manifest error or negligence in the determination of the Successor Rate or Alternative Reference Rate (as applicable), the Adjustment Spread (if any) and the Benchmark Amendments (if any) and without prejudice to the Trustee's and/or the Principal Paying Agent's ability to rely on such certificate as aforesaid) be binding on the Issuer, the Trustee, the Paying Agents and the Noteholders;

- (vi) an Independent Adviser appointed pursuant to this Condition 5.2(m) (*Benchmark Discontinuation (Independent Adviser)*) shall act in good faith and in a commercially reasonable manner and in consultation with the Issuer and (in the absence of bad faith, fraud or negligence) shall have no liability whatsoever to the Trustee, the Paying Agents or the Noteholders for any determination made by it pursuant to this Condition 5.2(m) (*Benchmark Discontinuation (Independent Adviser)*); and
- (vii) *Calculation Agent*: notwithstanding any other provision of this Condition 5.2(m) (*Benchmark Discontinuation (Independent Adviser)*), if following the determination of any Successor Rate, Alternative Reference Rate, Adjustment Spread or Benchmark Amendments, in the Calculation Agent's opinion there is any uncertainty between two or more alternative courses of action in making any determination or calculation under this Condition 5.2(m) (*Benchmark Discontinuation (Independent Adviser)*), the Calculation Agent shall promptly notify the Issuer thereof and the Issuer shall direct the Calculation Agent in writing as to which alternative course of action to adopt. If the Calculation Agent is not promptly provided with such direction, or is otherwise unable (other than due to its own gross negligence, wilful default, or fraud) to make such calculation or determination

for any reason it shall notify the Issuer thereof and the Calculation Agent shall be under no obligation to make such calculation or determination and (in the absence of such gross negligence, wilful default, or fraud) shall not incur any liability for not doing so.

For the purposes of this Condition 5.2(m) (*Benchmark Discontinuation (Independent Adviser)*):

“Adjustment Spread” means a spread (which may be positive or negative) or formula or methodology for calculating a spread, which the Independent Adviser (in consultation with the Issuer), determines (acting in good faith and in a commercially reasonable manner) is required to be applied to the relevant Successor Rate or the relevant Alternative Reference Rate (as applicable) in order to reduce or eliminate, to the extent reasonably practicable in the circumstances, any economic prejudice or benefit (as the case may be) to Noteholders and Couponholders as a result of the replacement of the Reference Rate with the Successor Rate or the Alternative Reference Rate (as applicable) and is the spread, formula or methodology which:

- (i) in the case of a Successor Rate, is formally recommended in relation to the replacement of the Reference Rate with the Successor Rate by any Relevant Nominating Body; or
- (ii) in the case of a Successor Rate for which no such recommendation has been made or in the case of an Alternative Reference Rate, the Independent Adviser (in consultation with the Issuer) determines (acting in good faith and in a commercially reasonable manner) is recognised or acknowledged as being in customary market usage in international debt capital markets transactions which reference the Reference Rate where such rate has been replaced by the Successor Rate or the Alternative Reference Rate (as applicable); or
- (iii) if no such customary market usage is recognised or acknowledged, the Independent Adviser (in consultation with the Issuer) in its discretion determines (acting in good faith and in a commercially reasonable manner) to be appropriate;

5.4 Sustainability-Linked Notes:

This Condition 5.4 (*Sustainability-Linked Notes*) applies to Notes in respect of which the relevant Final Terms indicate that the Sustainability-Linked Note provisions are applicable, in which case the relevant Final Terms shall specify whether a Step Up Option, a Step Down Option and/or a Redemption Premium Option is applicable (the “**Sustainability-Linked Notes**”).

(a) *Step Up Option*

Where the Step Up Option is specified as being applicable in the relevant Final Terms and a Step Up Trigger Event occurs, the Rate of Interest or the applicable Margin, in the case of Floating Rate Notes, shall be increased by the Step Up Margin(s) specified in the relevant Final Terms (the Rate of Interest or, in the case of Floating Rate Notes, the applicable Margin as so adjusted, the “**Adjusted Rate of Interest**”).

However, if so specified in the relevant Final Terms, a Series of Sustainability-Linked Notes may have one or more additional Step Up Margin(s) where more than one Step Up Trigger Event is specified in the Final Terms, in which case the Rate of Interest (or the applicable Margin, in the case of Floating Rate Notes) may be increased more than once during the term of the Sustainability-Linked Notes.

occurrence of a new Step Up Trigger Event, if any, or (b) the date of redemption of the Sustainability-Linked Notes.

For the avoidance of doubt, the Step Down Trigger Event will correspond to the equivalent Step Up Trigger Event specified in the relevant Final Terms and any decrease to the Adjusted Rate of Interest may occur no more than once in respect of any Series of Sustainability-Linked Notes as a result of the relevant Step Down Trigger Event specified in the Final Terms. However, if a Series of Sustainability-Linked Notes has more than one Step Up Trigger Event specified in the relevant Final Terms, the relevant Final Terms may also specify more than one Step Down Trigger Event, in which case the Adjusted Rate of Interest may be decreased by the applicable Step Down Margin more than once during the term of the Sustainability-Linked Notes, provided that any such Adjusted Rate of Interest applicable in respect of any Interest Period shall not be lower than the Initial Rate of Interest (or the initial Margin, in the case of Floating Rate Notes) for such Series of Sustainability-Linked Notes.

The “**Adjusted Final Redemption Amount**” will be equal to the sum of the Final Redemption Amount (or, as the case may be, the Redemption Amount), and the applicable Redemption Premium Amount, in each case as specified in the relevant Final Terms.

In the case where a Series of Sustainability-Linked Notes has more than one Redemption Premium Trigger Event, as specified in the Final Terms, the Final Redemption Amount (or as the case may be, the Redemption Amount) may include more than one Redemption Premium Amount.

(d) *Notification of Step Up Trigger Event, Step Down Trigger Event or Redemption Premium Trigger Event*

Neither the Trustee nor the Principal Paying Agent shall be obliged to monitor or inquire as to whether a Step Up Trigger Event, Step Down Trigger Event or Redemption Premium Trigger Event has occurred or have any liability in respect thereof and the Trustee and the Principal Paying Agent shall be entitled to rely absolutely on any notice given to it by the Issuer pursuant to this Condition 5.4(d) (*Notification of Step Up Trigger Event, Step Down Trigger Event or Redemption Premium Trigger Event*) without further enquiry or liability.

Payments of principal in respect of Notes represented by any Global Note will be made in the manner specified in relation to definitive Notes or otherwise in the manner specified in the relevant Global Note, where applicable, against presentation or surrender, as the case may be, of such Global Note at the specified office of any Paying Agent outside the United States. A record of each payment made, distinguishing between any payment of principal and any payment of interest, will be made either on such Global Note by the Paying Agent to which it was presented or in the records of Euroclear and Clearstream, Luxembourg, as applicable.

6.2 Interest

Payments of interest in respect of definitive Notes shall, subject to Condition 6.7 (*Unmatured coupons void*) below, be made only against presentation and (**provided that** payment is made in full) surrender of the appropriate Coupons at the specified office of any Paying Agent outside the United States in the manner described in Condition 6.1 (*Principal*) above. A record of each payment made, distinguishing between any payment of principal and any payment of interest, will be made either on such Global Note by the Paying Agent to which it was presented or in the records of Euroclear and Clearstream, Luxembourg, as applicable.

6.3 General provisions applicable to payments

The holder of a Global Note shall be the only person entitled to receive payments in respect of Notes represented by such Global Note and the Issuer will be discharged by payment to, or to the order of, the holder of such Global Note in respect of each amount so paid. Each of the persons shown in the records of Euroclear or Clearstream, Luxembourg as the beneficial holder of a particular principal amount of Notes represented by such Global Note must look solely to Euroclear or Clearstream, Luxembourg, as the case may be, for his share of each payment so made by the Issuer or to the order of, the holder of such Global Note.

6.4 Payments in New York

Payments of principal or interest may be made at the specified office of a Paying Agent in New York if (i) the Issuer has appointed Paying Agents outside the United States with the reasonable expectation that such Paying Agents will be able to make payment of the full amount of the interest on the Notes in the currency in which the payment is due when due, (ii) payment of the full amount of such interest at the offices of all such Paying Agents is illegal or effectively precluded by exchange controls or other similar restrictions and (iii) payment is permitted by applicable United States law.

6.6 Deductions for unmatured Coupons

In the case of definitive Notes, if the relevant Final Terms specify that the Fixed Rate Note Provisions are applicable and a Note is presented without all unmatured Coupons relating thereto:

- (i) if the aggregate amount of the missing Coupons is less than or equal to the amount of principal due for payment, a sum equal to the aggregate amount of the missing Coupons will be deducted from the amount of principal due for payment; **provided, however, that** if the gross amount available for payment is less than the amount of principal due for payment, the sum deducted will be that proportion of the aggregate amount of such missing Coupons which the gross amount actually available for payment bears to the amount of principal due for payment;
- (ii) if the aggregate amount of the missing Coupons is greater than the amount of principal due for payment:
 - (A) so many of such missing Coupons shall become void (in inverse order of maturity) as will result in the aggregate amount of the remainder of such missing Coupons (the “**Relevant Coupons**”) being equal to the amount of principal due for payment; **provided, however, that** where this sub- paragraph (ii) would otherwise require a fraction of a missing Coupon to become void, such missing Coupon shall become void in its entirety; and
 - (B) a sum equal to the aggregate amount of the Relevant Coupons (or, if less, the amount of principal due for payment) will be deducted from the amount of principal due for payment; **provided, however, that**, if the gross amount available for payment is less than the amount of principal due for payment, the sum deducted will be that proportion of the aggregate amount of the Relevant Coupons (or, as the case may be, the amount of principal due for payment) which the gross amount actually available for payment bears to the amount of principal due for payment.

Each sum of principal so deducted shall be paid in the manner provided in Condition 6.1 (*Principal*) above against presentation and (**provided that** payment is made in full) surrender of the relevant missing Coupons within a period of ten years from the Relevant Date for the payment of such principal.

6.7 Unmatured Coupons void

In the case of definitive Notes, if the relevant Final Terms specify that the Floating Rate Note Provisions are applicable, on the due date for final redemption of any Note or early redemption of such Note pursuant to Condition 7.2 (*Redemption for Taxation Reasons*), Condition 7.3 (*Redemption at the option of the Issuer*), Condition 7.5 (*Redemption at the option of the Holders upon a Change of Control Put Event*) or Condition 10 (*Events of Default*), all unmatured Coupons relating thereto (whether or not still attached) shall become void and no payment will be made in respect thereof.

6.8 Payments on business days

If the due date for payment of any amount in respect of any Note or Coupon is not a Payment Business Day in the place of presentation, the holder shall not be entitled to payment in such place of the amount due until the next succeeding Payment Business Day in such place and shall not be entitled to any further interest or other payment in respect of any such delay.

6.9 Payments other than in respect of matured Coupons

Payments of interest other than in respect of matured Coupons shall be made only against presentation of the relevant Notes at the specified office of any Paying Agent outside the United States (or in New York if permitted by Condition 6.4 (*Payments in New York*) above).

Upon the due date for redemption of any Note, any unexchanged Talon relating to such Note shall become void and no Coupon will be delivered in respect of such Talon.

7. REDEMPTION AND PURCHASE

7.1 Redemption at Maturity

Unless previously redeemed or purchased and cancelled as provided below, the Issuer will redeem the Notes at their Final Redemption Amount specified in the applicable Final Terms on the Maturity Date.

7.2 Redemption for Taxation Reasons

The Issuer may at its option, subject to giving notice to the Trustee in accordance with this Condition 7.2 (*Redemption for Taxation Reasons*), and on giving not less than 30 nor more than 60 days' notice to the Noteholders in accordance with Condition 13 (*Notices*) (which notice shall be irrevocable and specify the date fixed for redemption), redeem all the Notes, but not some only:

- (i) at any time (if the Floating Rate Note Provisions are not specified in the relevant Final Terms as being applicable); or
- (ii) on any Interest Payment Date (if the Floating Rate Note Provisions are specified in the relevant Final Terms as being applicable),

at their principal amount together with interest accrued to but excluding the date of redemption, if:

- (a) as a result of any change in, or amendment to, the laws or regulations of a Relevant Jurisdiction, or any change in the application or official interpretation of the laws or regulations of a Relevant Jurisdiction, which change or amendment becomes effective after the date of the agreement to issue

the first Tranche of the Notes, on the next Interest Payment Date, the Issuer would be required to pay additional amounts as provided or referred to in Condition 8 (*Taxation*); and

- (b) the requirement cannot be avoided by the Issuer taking reasonable measures available to it,

provided that no such notice of redemption shall be given earlier than 90 days (or, if the Floating Rate Note Provisions are specified in the relevant Final Terms as being applicable, a number of days which is equal to the aggregate of the number of days falling within the then current interest period applicable to such Notes plus 60 days) prior to the earliest date on which the Issuer would be obliged to pay such additional amounts, were a payment in respect of the relevant Notes then due.

Prior to the publication of any notice of redemption pursuant to this paragraph, the Issuer shall deliver to the Trustee (i) a certificate signed by two Authorised Signatories (as defined in the Trust Deed) of the Issuer stating that the Issuer is entitled to effect such redemption, and setting forth a statement of facts showing that the conditions precedent as set out in this Condition 7.2 (*Redemption for Taxation Reasons*) to the right of the Issuer so to redeem have occurred and (ii) an opinion of independent legal advisers of recognised standing to the effect that the Issuer has or will become obliged to pay such additional amounts as a result of the change or amendment referred to above. The Trustee shall be entitled to accept the certificate and opinion as sufficient evidence of the satisfaction of the conditions precedent set out in paragraphs (a) and (b) above, in which event they shall be conclusive and binding on the Noteholders and the Couponholders and the Trustee shall be entitled to rely on such certificate and opinion without further enquiry and without liability to any person.

7.3 Redemption at the option of the Issuer

Issuer Maturity Par Call

If the Issuer Maturity Par Call is specified as being applicable in the relevant Final Terms, the Issuer may at its option, having given not less than 10 nor more than 30 days' notice (or such other period of notice as is specified in the relevant Final Terms) to the Noteholders in accordance with Condition 13 (*Notices*) (which notice shall be irrevocable and shall specify the date fixed for redemption and, for the avoidance of doubt, may be subject to one or more conditions precedent), redeem the Notes then outstanding in whole, but not in part, at any time during the period commencing on (and including) the Par Call Commencement Date (as specified in the relevant Final Terms) to (but excluding) the Maturity Date at their Final Redemption Amount specified in the applicable Final Terms, together (if appropriate) with interest accrued but unpaid to (but excluding) the date fixed for redemption.

Make-Whole Redemption by the Issuer

If so specified in the relevant Final Terms, the Issuer may at its option, subject to compliance with all relevant laws, regulations and directives and on giving not less than 10 nor more than thirty (30) days' notice (or such other period of notice as is specified in the relevant Final Terms) to the Noteholders in accordance with Condition 13 (*Notices*) (which notice shall be irrevocable and specify the date fixed for redemption, and, for the avoidance of doubt, may be subject to one or more conditions precedent), redeem in whole or in part the Notes at any time prior to the Maturity Date (the "**Make-Whole Redemption Date**") at the Make-Whole Redemption Amount.

The "**Make-Whole Redemption Amount**" will be calculated by the Make-Whole Calculation Agent and will be an amount in the Specified Currency rounded to the nearest Sub-Unit (with half a Sub-Unit rounded upwards) and equal to the greater of:

- (a) 100 per cent. of the principal amount of the Note; or

- (b) the sum of the then current values of the remaining scheduled payments of principal and interest (including, with respect to Sustainability-Linked Notes for which the Final Terms indicate that the Step Up Option is applicable, the applicable Step Up Margin from (and including) the Interest Payment Date immediately following the occurrence of a Step Up Trigger Event, on the assumption that the relevant Step Up Trigger Event will occur, unless the relevant Sustainability Performance Target has been achieved for the applicable Target Observation Date prior to the notice of Make-Whole Redemption for which an Assurance Report is available (as set out in such Assurance Report and as confirmed by an SPT Verification Assurance Certificate), in which case if the Sustainability Performance Target specified in the relevant Final Terms has been satisfied, no Step Up Margin shall be taken into account) on such Note to the Maturity Date (or, if a Par Call Commencement Date is specified in the relevant Final Terms, to the Par Call Commencement Date) (not including any interest accrued on the Note to, but excluding, the Make-Whole Redemption Date) discounted to the relevant Make-Whole Redemption Date on an annual basis at the Make-Whole Redemption Rate (as specified in the relevant Final Terms and as determined three Business Days prior to the Make-Whole Redemption Date) plus a Make-Whole Redemption Margin (as specified in the relevant Final Terms), plus in each case, any interest accrued on the Notes to, but excluding, the Make-Whole Redemption Date.

In respect of Sustainability-Linked Notes where the Redemption Premium Option is specified as applicable in the relevant Final Terms, if a Redemption Premium Trigger Event(s) has/have occurred prior to the Make-Whole Redemption Date, the Make-Whole Redemption Amount shall be increased by the applicable Redemption Premium Amount or, in the case of a partial redemption of the Notes, by the corresponding part of the applicable Redemption Premium Amount.

“Make-Whole Calculation Agent” means the international credit institutions or financial services institution or any other competent entity of recognised standing with appropriate expertise appointed by the Issuer prior to the giving of any notice referred to above in connection with the exercise of the Make-Whole Redemption in accordance with this Condition 7.3 (*Redemption at the option of the Issuer—Make-Whole Redemption by the Issuer*).

Issuer Residual Call

If Issuer Residual Call is specified as being applicable in the applicable Final Terms and, at any time, the outstanding aggregate nominal amount of the Notes is 25 per cent. or less of the aggregate nominal amount of the Series issued (other than as a result of the exercise by the Issuer of its redemption right under this Condition 7.3 (*Redemption at the option of the Issuer*) to redeem some but not all of the Notes at the Make-Whole Redemption Amount), the Notes may be redeemed at the option of the Issuer in whole, but not in part, at any time (if the Floating Rate Note Provisions are specified in the relevant Final Terms as not being applicable) or on any Interest Payment Date (if the Floating Rate Note Provisions are specified in the relevant Final Terms as being applicable), on giving not less than 10 nor more than 30 days’ notice (or such other period of notice as is specified in the relevant Final Terms) to the Noteholders in accordance with Condition 13 (*Notices*) (which notice shall be irrevocable and shall specify the date fixed for redemption) at the Residual Call Early Redemption Amount together, if appropriate, with interest accrued to (but excluding) the date of redemption.

7.4 Partial Redemption

If the Notes are to be redeemed in part only on any date in accordance with Condition 7.3 (*Redemption at the option of the Issuer*), the Notes to be redeemed shall be selected:

- (a) (if the Notes are in definitive form) by the drawing of lots in such place as the Trustee approves and in such manner as the Trustee considers appropriate, subject to compliance with applicable law, the rules of each competent authority, stock exchange and/or quotation system (if any) by which the Notes have then been admitted to listing, trading and/or quotation and the notice to Noteholders

If any Maximum Redemption Amount or Minimum Redemption Amount is specified in the relevant Final Terms, then the Make-Whole Redemption Amount shall in no event be greater than the maximum or be less than the minimum so specified.

7.5 Redemption at the option of the Holders upon a Change of Control Put Event

If Change of Control Put is specified as being applicable in the relevant Final Terms, upon the occurrence of a Change of Control Put Event, unless the Issuer has exercised its right to redeem the Notes in accordance with Condition 7.2 (*Redemption for Taxation Reasons*) or Condition 7.3 (*Redemption at the option of the Issuer*), each Noteholder shall have the option to require the Issuer to redeem or, at the Issuer's option, purchase (or procure the purchase of) that Note on the Put Date (as defined below) at its principal amount together with interest accrued to but excluding the Put Date.

Within 60 days following the date upon which the Change of Control Put Event has occurred, the Issuer shall give notice to the Noteholders in accordance with Condition 13 (*Notices*) of the occurrence of a Change of Control Put Event and shall, in the notice, specify a date being not less than 30 nor more than 60 days after the date on which the notice was given as the **"Put Date"**.

To exercise such option, the Noteholder must deliver such Note to be redeemed or purchased, together with all Coupons relating to it maturing after the Put Date, to the specified office of the Principal Paying Agent at any time during normal business hours together with a duly completed notice of exercise in the form obtainable from the specified office of the Principal Paying Agent (a **"Change of Control Put Notice"**), not less than 15 nor more than 30 days before the Put Date. If the Notes are in global form, the Noteholder must specify in the Change of Control Put Notice the principal amount of Notes in respect of which such option is being exercised. A Change of Control Put Notice, once given, shall be irrevocable.

If 75 per cent. or more in aggregate principal amount of the Notes then outstanding have been redeemed or purchased pursuant to the foregoing provisions of this Condition 7.5 (*Redemption at the option of the Holders upon a Change of Control Put Event*), the Issuer may, having given not less than 30 nor more than 60 days' notice to the Noteholders (such notice being given within 30 days after the Put Date) in accordance with Condition 13 (*Notices*), redeem or purchase (or procure the purchase of), at its option, all (but not some only) of the remaining Notes at their principal amount together with interest accrued to but excluding the date fixed for such redemption or purchase.

operation of the Issuer's Supervisory Board, Board of Management or the Issuer's general meeting of shareholders, as applicable, and, in each case, if required, of any preference shares in the Issuer's share capital to the foundation Stichting Preferente Aandelen Philips or its successor; or (ii) if the event which would otherwise have constituted a Change of Control occurs or is carried on terms previously approved by the Trustee or by an Extraordinary Resolution.

Notwithstanding the foregoing, no Change of Control Put Event will be deemed to have occurred in connection with any particular Change of Control unless and until such Change of Control has actually been consummated.

- (ii) the product of the Accrual Yield (compounded annually) being applied to the Reference Price from (and including) the Issue Date to (but excluding) the date fixed for redemption or (as the case may be) the date upon which the Note becomes due and payable.

Where such calculation is to be made for a period which is not a whole number of years, the calculation in respect of the period of less than a full year shall be made on the basis of such Day Count Fraction as may be specified in the Final Terms for the purposes of this Condition 7.6 (*Early redemption of Zero Coupon Notes*) or, if none is so specified, a Day Count Fraction of 30E/360.

All payments in respect of the Notes and the Coupons by or on behalf of the Issuer shall be made free and clear of, and without withholding or deduction for, or on account of, any present or future taxes, duties, assessments or governmental charges of whatever nature (“**Taxes**”), unless the withholding or deduction of the Taxes is required by law. In the event of Tax imposed or levied by or on behalf of any Relevant Jurisdiction, the Issuer will pay such additional amounts as may be necessary in order that any amount received by the Noteholders or Couponholders after the withholding or deduction is equal to the amount that would have been received in respect of the Notes or, as the case may be, Coupons, in the absence of the withholding or deduction; except that no additional amounts shall be payable in relation to any payment in respect of any Note or Coupon:

- (a) the holder or beneficial owner (for the purposes of the relevant Tax) of which is liable for Tax in respect of such Note or Coupon by reason of having or having had a present or former connection with the Relevant Jurisdiction other than a mere holding of the Notes or Coupons; or
- (b) presented for payment in the Netherlands where such withholding or deduction would not have been required had such Note or Coupon not been presented in the Netherlands; or

The Issuer will have no obligation to pay additional amounts or otherwise indemnify an investor for any such FATCA Withholding deducted or withheld by the Issuer, any Paying Agent or any other party.

For the avoidance of doubt, the obligation of the Issuer to pay additional amounts in respect of Taxes will not apply to (i) any estate, inheritance, gift, sales, transfer, personal property or any similar tax, duty, assessment or other governmental charge or (ii) any Taxes payable otherwise than by deduction or withholding from payments of principal of, or interest on, the Notes or, as the case may be, Coupons.

8.2 Additional Amounts

Any reference in these Conditions to any amounts in respect of the Notes shall be deemed also to refer to any additional amounts which may be payable under this Condition 8 (*Taxation*) or under any undertakings given in addition to, or in substitution for, this Condition pursuant to the Trust Deed.

11. ENFORCEMENT

11.1 Enforcement by the Trustee

The Trustee may at any time, at its discretion and without notice, take such proceedings and/or other steps or action (including lodging an appeal in any proceedings) against or in relation to the Issuer as it may think fit to enforce the provisions of the Trust Deed, the Notes and the Coupons or otherwise, but it shall not be bound to take any such proceedings or other steps or action unless (a) it has been so directed by an Extraordinary Resolution of the Noteholders or so requested in writing by the holders of at least one-quarter in principal amount of the Notes then outstanding and (b) it has been indemnified and/or secured and/or pre-funded to its satisfaction against all liabilities to which it may thereby render itself liable or which it may incur by so doing and provided that the Trustee shall not be liable for the consequences of taking any such action and may take such action without having regard to the effect of such actions on individual Noteholders or Couponholders.

11.2 Limitation on Trustee actions

The Trustee may refrain from taking any action in any jurisdiction if the taking of such action in that jurisdiction would, in its opinion based upon legal advice in the relevant jurisdiction, be contrary to any law of that jurisdiction. Furthermore, the Trustee may also refrain from taking such action if it would otherwise render it liable to any person in that jurisdiction or if, in its opinion based upon such legal advice, it would not have the power to do the relevant thing in that jurisdiction by virtue of any applicable law in that jurisdiction or if it is determined by any court or other competent authority in that jurisdiction that it does not have such power.

11.3 Enforcement by the Noteholders

No Noteholder or Couponholder shall be entitled to (i) take any steps or action against the Issuer to enforce the performance of any of the provisions of the Trust Deed, the Notes or the Coupons or (ii) take any other proceedings (including lodging an appeal in any proceedings) in respect of or concerning the Issuer, in each case unless the Trustee, having become bound so to take any such action, steps or proceedings, fails so to do within a reasonable period and such failure shall be continuing.

12. REPLACEMENT OF NOTES AND COUPONS

Should any Note or Coupon be lost, stolen, mutilated, defaced or destroyed it may be replaced subject to applicable laws, regulations and stock exchange or other relevant authority regulations, at the specified office of the Principal Paying Agent upon payment by the claimant of the expenses incurred in connection with the replacement and on such terms as to evidence and indemnity as the Issuer may reasonably require. Mutilated or defaced Notes or Coupons must be surrendered before replacements will be issued.

13. NOTICES

13.1 Notices to the Noteholders

All notices to the Noteholders will be valid if published in a leading English language daily newspaper published in London and, so long as the Notes are admitted to listing on the Official List and to trading on the regulated market of the Luxembourg Stock Exchange and the rules of that exchange so require, a daily newspaper of general circulation in Luxembourg or the website of the Luxembourg Stock Exchange (at <https://www.luxse.com/>). It is expected that publication in a newspaper will normally be made in the *Financial Times* in London and the *Luxemburger Wort* in Luxembourg. Any such notice will be deemed to have been given on the date of the first publication or, where required to be published in more than one newspaper, on the date of the first publication in all required newspapers. If publication as provided above is not practicable, notice will be given in such other manner, and shall be deemed to have been given on such date, as the Trustee may approve. Couponholders will be deemed for all purposes to have notice of the contents of any notice given to the Noteholders in accordance with this paragraph.

Until such time as any definitive Notes are issued, there may, so long as any Global Notes representing the Notes are held in their entirety on behalf of Euroclear and/or Clearstream, Luxembourg, be substituted for such publication in such newspaper(s) the delivery of the relevant Notice to Euroclear and/or Clearstream, Luxembourg for communication by them to the holders of the Notes and, in addition, for so long as any Notes are listed on a stock exchange or are admitted to trading by another relevant authority and the rules of that stock exchange or relevant authority so require, such notice will be published in a daily newspaper of general circulation in the place or places required by those rules. Any such notice shall be deemed to have been given to the holders of the Notes on the day after the day on which the said notice was given to Euroclear and/or Clearstream, Luxembourg.

13.2 Notices from the Noteholders

Notices to be given by any Noteholder shall be in writing and given by lodging the same, together with the relative Note or Notes, with the Principal Paying Agent or, if the Notes are held in a clearing system, may be given through the clearing system in accordance with its standard rules and procedures.

14. MEETINGS OF NOTEHOLDERS, MODIFICATION, WAIVER, AUTHORISATION AND DETERMINATION, SUBSTITUTION

14.1 Meetings of Noteholders

The Trust Deed contains provisions for convening meetings of the Noteholders to consider any matter affecting their interests, including the modification of any of these Conditions or any of the provisions of the Trust Deed. Any such modification may be made if sanctioned by an Extraordinary Resolution. Such a meeting may be convened by the Issuer or the Trustee and shall be convened by the Trustee (subject to it being indemnified and/or secured and/or prefunded to its satisfaction) upon the request in writing of the Noteholders holding not less than one-quarter of the aggregate principal amount of the outstanding Notes.

The quorum at any meeting convened to vote on an Extraordinary Resolution will be one or more persons present holding or representing more than 50 per cent. in principal amount of the Notes for the time being outstanding, or at any adjourned such meeting one or more persons present whatever the principal amount of the Notes held or represented by him or them, except that, at any meeting the business of which includes any matter defined in the Trust Deed as a Basic Terms Modification, including the modification of certain of the provisions of these Conditions and certain of the provisions of the Trust Deed (including the date of maturity of the Notes or any date for payment of interest thereon, reducing or cancelling the amount of principal or interest payable in respect of the Notes, altering the currency of payment of the Notes, altering the method of calculating the amount of any payment in respect of the Notes or changing the quorum requirements relating to meetings or the majority required to pass an Extraordinary Resolution), the necessary quorum required to pass an Extraordinary Resolution will be one or more persons present holding or representing not less than two-thirds, or at any adjourned such meeting not less than one-third, of the principal amount of the Notes for the time being outstanding.

In addition, the Trust Deed provides that a resolution in writing signed by or on behalf of the holders of not less than two-thirds in principal amount of the Notes for the time being outstanding or consent given by way of electronic consents through the relevant clearing system(s) by or on behalf of the holders of not less than two-thirds in principal amount of the Notes for the time being outstanding, shall, in each case, be effective as an Extraordinary Resolution of the Noteholders. An Extraordinary Resolution passed by the Noteholders will be binding on all Noteholders whether or not they are present at any meeting and whether or not they voted on the resolution, and on all Couponholders.

14.2 Modification, Waiver, Authorisation and Determination

The Trustee may agree, without the consent of the Noteholders or Couponholders (i) (other than in relation to any Basic Terms Modification (as defined in the Trust Deed)) to any modification of, or to the waiver or authorisation of any breach or proposed breach of, any of these Conditions or any of the provisions of the Trust Deed or the Agency Agreement, or determine, without any such consent as aforesaid, that any Event of Default or Potential Event of Default (as defined in the Trust Deed) shall not be treated as such (provided that, in any such case, it is not, in the opinion of the Trustee, materially prejudicial to the interests of the Noteholders), or (ii) to any modification which, in its opinion, is of a formal, minor or technical nature or to correct a manifest error or an error which is, in the opinion of the Trustee, proven or to comply with mandatory provisions of law. In addition, the parties to the Agency Agreement may agree to modify any provision thereof, save the Trustee shall only agree without the consent of the Noteholders to such modification if, in the opinion of the Trustee, such modification is not materially prejudicial to the interests

of the Noteholders. Any such modification, authorisation, determination or waiver shall be binding on the Noteholders and Couponholders.

Additionally, the Issuer may, subject to Condition 5.2(m) (*Benchmark Discontinuation (Independent Adviser)*) and Condition 5.2(f) (*Interest – Floating Rate Notes referencing SOFR*), vary or amend these Conditions, the Trust Deed and/or the Agency Agreement to give effect to certain amendments without any requirement for the consent or approval of Noteholders of the relevant Notes or Coupons, as described in Condition 5.2(m) (*Benchmark Discontinuation (Independent Adviser)*) and the Trustee and the Paying Agents shall concur to such Benchmark Amendments and/or Benchmark Replacement Conforming Changes (as applicable) on the basis set out in Condition 5.2(m) (*Benchmark Discontinuation (Independent Adviser)*) and Condition 5.2(f) (*Interest – Floating Rate Notes referencing SOFR*).

14.3 Trustee to have Regard to Interests of Noteholders as a Class

In connection with the exercise by it of any of its trusts, powers, authorities and discretions (including, without limitation, any modification, waiver, authorisation or determination), the Trustee shall have regard to the general interests of the Noteholders as a class but shall not have regard to any interests arising from circumstances particular to individual Noteholders or Couponholders (whatever their number) and, in particular but without limitation, shall not have regard to the consequences of any such exercise for individual Noteholders or Couponholders (whatever their number) resulting from their being for any purpose domiciled or resident in, or otherwise connected with, or subject to the jurisdiction of, any particular territory or any political sub-division thereof and the Trustee shall not be entitled to require, nor shall any Noteholder or Couponholder be entitled to claim, from the Issuer, the Trustee or any other person any indemnification or payment in respect of any tax consequence of any such exercise upon individual Noteholders or Couponholders except to the extent already provided for in Condition 8 (*Taxation*) and/or any undertaking given in addition to, or in substitution for, Condition 8 (*Taxation*) pursuant to the Trust Deed.

14.4 Notification to the Noteholders

Any modification, abrogation, waiver, authorisation or determination shall be binding on the Noteholders and the Couponholders and, unless the Trustee agrees otherwise, any modification shall be notified by the Issuer to the Noteholders as soon as practicable thereafter in accordance with Condition 13 (*Notices*).

14.5 Substitution

The Trustee may agree, without the consent of the Noteholders or the Couponholders, to the substitution of (i) any Subsidiary of the Issuer or (ii) any company which directly or indirectly owns 100 per cent. of the shares or other equity interests (as the case may be) carrying the right to vote in the Issuer in place of the Issuer as issuer and principal debtor under the Trust Deed, the Notes and the Coupons; provided that the Notes are unconditionally and irrevocably guaranteed by the Issuer and certain other conditions specified in the Trust Deed are fulfilled. Any such substitution shall be binding on the Noteholders and Couponholders and shall be notified to the Noteholders within 14 days thereafter.

15. INDEMNIFICATION AND PROTECTION OF THE TRUSTEE AND ITS CONTRACTING WITH THE ISSUER

15.1 Indemnification and protection of the Trustee

The Trust Deed contains provisions for the indemnification of the Trustee and for its relief from responsibility and liability towards the Issuer, the Noteholders and the Couponholders, including (i) provisions relieving it from taking action unless indemnified and/or secured and/or pre-funded to its satisfaction and (ii) provisions limiting or excluding its liability in certain circumstances.

15.2 Trustee Contracting with the Issuer

The Trust Deed also contains provisions pursuant to which the Trustee is entitled, *inter alia*, (a) to enter into business transactions with the Issuer and/or any of the Issuer's Subsidiaries and to act as trustee for the holders of any other securities issued or guaranteed by, or relating to, the Issuer and/or any of the Issuer's Subsidiaries, (b) to exercise and enforce its rights, comply with its obligations and perform its duties under or in relation to any such transactions or, as the case may be, any such trusteeship without regard to the interests of, or consequences for, the Noteholders or Couponholders, and (c) to retain and not be liable to account for any profit made or any other amount or benefit received thereby or in connection therewith.

16. FURTHER ISSUES

The Issuer may from time to time without the consent of the Noteholders or Couponholders create and issue further notes, having terms and conditions the same as those of the Notes, or the same except for the amount and date of the first payment of interest, which may be consolidated and form a single series with the outstanding Notes. Any further notes or bonds which are to form a single series with the outstanding notes or bonds of any series (including the Notes) constituted by the Trust Deed or any supplemental deed shall, and any other further notes or bonds may (with the consent of the Trustee), be constituted by a deed supplemental to the Trust Deed. The Trust Deed contains provisions for convening a single meeting of the Noteholders and the holders of notes or bonds of other series in certain circumstances where the Trustee so decides.

17. GOVERNING LAW AND SUBMISSION TO JURISDICTION

17.1 Governing Law

The Trust Deed, the Notes and the Coupons and any non-contractual obligations arising out of or in connection with the Trust Deed, the Notes and the Coupons are governed by, and construed in accordance with, English law.

17.2 Submission to Jurisdiction

- (a) Subject to Condition 17.2(c) below, the English courts have exclusive jurisdiction to settle any dispute arising out of or in connection with the Trust Deed, the Notes or the Coupons, including any dispute as to their existence, validity, interpretation, performance, breach or termination or the consequences of their nullity and any dispute relating to any non-contractual obligations arising out of or in connection with the Trust Deed, the Notes or the Coupons (a “**Dispute**”) and each of the Issuer, the Trustee and any Noteholders or Couponholders in relation to any Dispute submits to the exclusive jurisdiction of the English courts.
- (b) For the purposes of this Condition 17.2 (*Submission to Jurisdiction*), the Issuer waives any objection to the English courts on the grounds that they are an inconvenient or inappropriate forum to settle any Dispute.
- (c) To the extent allowed by law, the Issuer, the Trustee, the Noteholders and the Couponholders may, in respect of any Dispute or Disputes, take (i) proceedings in any other court with jurisdiction and (ii) concurrent proceedings in any number of jurisdictions.

17.3 Appointment of Process Agent

The Issuer irrevocably appoints Philips Electronics UK Limited (Attention: Company Secretary), Ascent 1 Aerospace Boulevard, Farnborough, England, GU14 6XW as its agent for service of process in any proceedings before the English courts in relation to any Dispute and agrees that, in the event of Philips

Electronics UK Limited being unable or unwilling for any reason so to act, it will immediately appoint another person approved by the Trustee as its agent for service of process in England in respect of any Dispute. The Issuer agrees that failure by a process agent to notify it of any process will not invalidate service. Nothing in this Condition 17.3 (*Appointment of Process Agent*) shall affect the right to serve process in any other manner permitted by law.

17.4 Other Documents

The Issuer has in the Agency Agreement and the Trust Deed submitted to the jurisdiction of the English courts and appointed an agent in England for service of process, in terms substantially similar to those set out above.

18. RIGHTS OF THIRD PARTIES

No rights are conferred on any person under the Contracts (Rights of Third Parties) Act 1999 to enforce any term of this Note, but this does not affect any right or remedy of any person which exists or is available apart from that Act.

DESCRIPTION OF THE ISSUER AND THE GROUP

History and Development

The Issuer is a public limited liability company (*naamloze vennootschap*) organised under the laws of the Netherlands and is the parent company of the Group, headquartered in Amsterdam, the Netherlands. The Issuer, which started as a limited partnership with the name Philips & Co in Eindhoven, the Netherlands, on 15 May 1891, was converted into a company with limited liability with the name N.V. Philips' Gloeilampenfabrieken on 11 September 1912. The Issuer's legal and commercial name was changed to Philips Electronics N.V. on 6 May 1994, to Koninklijke Philips Electronics N.V. on 1 April 1998 and to Koninklijke Philips N.V. on 15 May 2013. Its shares have been listed on the Amsterdam Stock Exchange, Euronext Amsterdam, since 1912. The shares have been traded in the United States since 1962 and have been listed on the New York Stock Exchange since 1987. The Issuer's corporate seat (*statutaire zetel*) is in Eindhoven, the Netherlands, and the executive offices of the Issuer are located at the Philips Center, Amstelplein 2, 1096 BC Amsterdam, the Netherlands.

The Issuer is registered with the Dutch Chamber of Commerce with number 17001910. Its telephone number is +31 20 59 77 777.

The Issuer is managed by the members of the Executive Committee (comprising the board of management ("**Board of Management**") and certain key officers) under the supervision of the supervisory board ("**Supervisory Board**"). The Executive Committee operates under the chairmanship of the Chief Executive Officer ("**CEO**") and shares responsibility for the deployment of the Group's strategy and policies, and the achievement of its objectives and results.

In 2014, the Issuer announced its plan to sharpen its strategic focus by establishing two standalone companies focused on the HealthTech and Lighting opportunities respectively. After establishing a standalone structure for the lighting activities within the Group, Philips Lighting (renamed Signify in 2018) was listed and started trading on Euronext in Amsterdam under the symbol 'LIGHT' on 27 May 2016. Through a series of accelerated bookbuilt offerings (in total five) and open market sales in the course of 2017, 2018 and 2019, the Issuer's shareholding in Signify was reduced to nil in September 2019.

In January 2020, the Issuer announced that it would review options for future ownership of its Domestic Appliances business, part of the Personal Health segment. After a separate legal structure for this business was created within the Group, the sale of the Domestic Appliances business was completed on 1 September 2021.

On 14 August 2023, the Issuer and Exor N.V. ("**Exor**") announced that they have entered into a relationship agreement, as a result of which Exor acquired a 15 per cent. shareholding in the Issuer. The relationship agreement includes Exor's commitment to be a long-term minority investor and the right to propose one member to the Supervisory Board, as well as several other customary rights and conditions. The relationship agreement provides for Exor, at its discretion, to increase its participation to a maximum limit of 20 per cent. of the Issuer's outstanding ordinary share capital.

The Issuer's existing long-term debt is rated Baa1 by Moody's, BBB+ by Fitch and BBB+ by S&P.

The Issuer's website can be accessed at: <https://www.philips.com/a-w/about/investor.html>. The information on the website does not form part of this Base Prospectus except to the extent that information is incorporated by reference into this Base Prospectus.

Material Contracts

Royal Philips Revolving Credit Facility

On 12 April 2017 and as amended and restated on 26 January 2022, the Issuer entered into a €1 billion revolving credit facility (“**RCF**”) with a consortium of international banks. The interest rate under the RCF will be partially dependent on the Issuer’s year-on-year sustainability performance improvement. This innovative construction was created by the Issuer in collaboration with ING as the ‘Sustainability Coordinator’ of the RCF and supported by the banks in the consortium. The RCF was refinanced on 23 March 2022 and does not have a material adverse change event of default and has no financial maintenance covenants or credit rating-related acceleration possibilities.

The RCF matures on 23 March 2028 and can be used for general corporate purposes. As of 31 December 2023, the Issuer has no amounts outstanding under the RCF.

TAXATION

Taxation in the Netherlands

This section outlines the principal Dutch tax consequences of the acquisition, holding, settlement, redemption and disposal of the Notes. It does not present a comprehensive or complete description of all aspects of Dutch tax law which could be of relevance to Noteholders. For the purpose of this section, the term “Notes” also refers to Coupons, and the term “Noteholders” also refers to Couponholders.

For Dutch tax purposes, a Noteholder may include an individual, or an entity, that does not hold the legal title to the Notes, but to whom or to which nevertheless the Notes are, or their income from the Notes is, attributed based either on this individual or entity owning a beneficial interest in the Notes or based on specific statutory provisions. These include statutory provisions under which Notes are attributed to an individual who is, or who has directly or indirectly inherited from a person who was, the settlor, grantor or similar originator of a trust, foundation or similar entity that holds the Notes.

This section is intended as general information only. A prospective Noteholder should consult his own tax adviser regarding the tax consequences of any acquisition, holding or disposal of Notes.

This section is based on Dutch tax law as applied and interpreted by Dutch tax courts and as published and in effect on the date of this Base Prospectus, including, for the avoidance of doubt, the tax rates applicable on that date, without prejudice to any amendments introduced at a later date and implemented with or without retroactive effect.

Any reference in this section made to Dutch taxes, Dutch tax or Dutch tax law must be construed as a reference to taxes of whatever nature levied by or on behalf of the Netherlands or any of its subdivisions or taxing authorities or to the law governing such taxes, respectively. The Netherlands means the part of the Kingdom of the Netherlands located in Europe.

Any reference made to a treaty for the avoidance of double taxation concluded by the Netherlands includes the Tax Regulation for the Kingdom of the Netherlands (*Belastingregeling voor het Koninkrijk*), the Tax Regulation for the State of the Netherlands (*Belastingregeling voor het land Nederland*), the Tax Regulations for the Netherlands and Curaçao (*Belastingregeling Nederland Curacao*), the Tax Regulations for the Netherlands and St. Maarten (*Belastingregeling Nederland Sint Maarten*) and the Agreement between the Taipei Representative Office in the Netherlands and the Netherlands Trade and Investment Office in Taipei for the avoidance of double taxation.

This section does not describe the possible Dutch tax considerations or consequences that may be relevant to a Noteholder:

- (i) who is an individual and for whom the income or capital gains derived from the Notes are attributable to employment activities, the income from which is taxable in the Netherlands;
- (ii) which has a substantial interest (*aanmerkelijk belang*) or a fictitious substantial interest (*fictief aanmerkelijk belang*) in the Issuer within the meaning of Chapter 4 of the Dutch Income Tax Act 2001 (*Wet inkomstenbelasting 2001*). Generally, a Noteholder has a substantial interest in the Issuer if the Noteholder, alone or, in the case of an individual, together with a partner for Dutch tax purposes, or any relative by blood or by marriage in the ascending or descending line (including foster-children) of the Noteholder or the partner, owns or holds, or is deemed to own or hold any shares or certain rights to any shares, including rights to directly or indirectly acquire shares, directly or indirectly representing 5 per cent. or more of the Issuer’s issued capital as a whole or for any class of shares or profit participating certificates (*winstbewijzen*) relating to 5 per cent. or more of the Issuer’s annual profits or 5 per cent. or more of the Issuer’s liquidation proceeds;
- (iii) that is an entity that, although it is in principle subject to Dutch corporate income tax under the Dutch Corporate Income Tax Act 1969 (*Wet op de vennootschapsbelasting 1969*) (the “CITA”), is not subject to

Dutch corporate income tax or is in full or in part exempt from Dutch corporate income tax (such as a qualifying pension fund) as described in Section 5 CITA and a tax exempt investment fund (*vrijgestelde beleggingsinstelling*) as described in Section 6a CITA), or is an entity that is not tax resident in the Netherlands and functions in a manner that is comparable to a tax exempt investment fund (*vrijgestelde beleggingsinstelling*) as described in Section 6a CITA;

- (iv) that is an investment institution (*beleggingsinstelling*) as described in Section 28 CITA or is an entity that is not tax resident in the Netherlands and functions in a manner that is comparable to an investment institution (*beleggingsinstelling*) as described in Section 28 CITA;
- (v) that is an entity that is related (*gelieerd*) to the Issuer within the meaning of the Withholding Tax Act 2021 (*Wet bronbelasting 2021*). An entity is considered related if (i) it holds, directly or indirectly, a Qualifying Interest in the Issuer, (ii) the Issuer, directly or indirectly, holds a Qualifying Interest in the Noteholder, or (iii) a third party holds, directly or indirectly, a Qualifying Interest in both the Issuer and the Noteholder. An entity is also considered related to the Issuer if the entity is part of a collaborating group (*samenwerkende groep*) of entities that jointly directly or indirectly holds a Qualifying Interest in the Issuer. The term Qualifying Interest means a directly or indirectly held interest – either by an entity individually or jointly if an entity is part of a collaborating group – that enables such entity or such collaborating group to exercise a definite influence over another entities' decisions, such as the Issuer or the Noteholder as the case may be, and allows it to determine the other entities' activities; or
- (vi) that is part of a multinational enterprise group or large-scale domestic group within the meaning of the Dutch Minimum Tax Act 2024 (*Wet minimumbelasting 2024*; the Dutch implementation of Directive (EU) 2022/2523 of 14 December 2022 on ensuring a global minimum level of taxation for multinational enterprise groups and large-scale domestic groups in the European Union (the "**Pillar 2 Directive**")).

Withholding Tax

Any payments made under the Notes will not be subject to withholding or deduction for, or on account of, any Dutch taxes.

Taxes on Income and Capital Gains

Residents of the Netherlands

The description of certain Dutch tax consequences in this paragraph is only intended for the following Noteholders:

- (i) individuals who are resident or deemed to be resident in the Netherlands ("**Dutch Individuals**"); and
- (ii) entities or enterprises that are subject to the CITA and are resident or deemed to be resident in the Netherlands ("**Dutch Corporate Entities**").

Dutch Individuals engaged or deemed to be engaged in an enterprise or in miscellaneous activities

Dutch Individuals engaged or deemed to be engaged in an enterprise or in miscellaneous activities (*resultaat uit overige werkzaamheden*) are generally subject to income tax at statutory progressive rates with a maximum of 49.50 per cent. with respect to any benefits derived or deemed to be derived from the Notes, including any capital gains realised on their disposal, that are attributable to:

- (i) an enterprise from which a Dutch Individual derives profits, whether as an entrepreneur (*ondernemer*) or pursuant to a co-entitlement (*medegerechtigde*) to the net worth of this enterprise other than as an entrepreneur or a shareholder; or

- (ii) miscellaneous activities, including, without limitation, activities which are beyond the scope of active portfolio investment activities (*meer dan normaal vermogensbeheer*).

Dutch Individuals not engaged or deemed to be engaged in an enterprise or in miscellaneous activities

Generally, the Notes held by a Dutch Individual who is not engaged or deemed to be engaged in an enterprise or in miscellaneous activities, or who is so engaged or deemed to be engaged but the Notes are not attributable to that enterprise or miscellaneous activities, will be subject to an annual income tax imposed on a fictitious yield on the fair market value of the Notes on 1 January of each calendar year under the regime for savings and investments (*inkomen uit sparen en beleggen*). Irrespective of the actual income or capital gains realised, the annual taxable benefit from a Dutch Individual's assets and liabilities taxed under this regime, including the Notes, is based on fictitious percentages applied to the fair market value of (i) bank savings, (ii) other assets, including the Notes, and (iii) liabilities.

Taxation only occurs if and to the extent the sum of the fair market value of bank savings and other assets minus the fair market value of the liabilities exceeds a certain threshold (*heffingsvrij vermogen*). The tax rate under the regime for savings and investments is a flat rate of 36 per cent.

For the calendar year 2024, the fictitious percentages applicable to the first and third categories set out above (bank savings and liabilities) have not yet been determined. The fictitious yield percentage applicable to the second category mentioned above (other assets, including the Notes) is 6.04 per cent. for the calendar year 2024.

Certain transactions that have the effect of reducing the fictitious yield by shifting net wealth between the aforementioned categories (i) and (ii) or increasing liabilities in any three months period starting before and ending after 1 January of the relevant year will for this purpose be ignored unless the Noteholder can demonstrate that such transactions are implemented for other reasons than tax reasons.

The fictitious percentages referred to above are considered by the Dutch government to be in compliance with a decision of the Dutch Supreme Court of 24 December 2021 (ECLI:NL:HR:2021:1963) regarding the incompatibility of the previous regime for savings and investments with the European Convention on Human Rights (the “**Convention**”). Noteholders are nevertheless advised to consult their tax advisor on whether any tax levied under the current regime for savings and investments, including in respect of the Notes, is in accordance with the Convention.

Dutch Corporate Entities

Dutch Corporate Entities are generally subject to corporate income tax at statutory rates up to 25.8 per cent. with respect to any benefits derived or deemed to be derived from the Notes, including any capital gains realised on their disposal.

Non-residents of the Netherlands

The description of certain Dutch tax consequences in this paragraph is only intended for the following Noteholders:

- (i) individuals who are not resident and not deemed to be resident in the Netherlands (“**Non-Dutch Individuals**”); and
- (ii) entities that are not resident and not deemed to be resident in the Netherlands (“**Non-Dutch Corporate Entities**”).

Non-Dutch Individuals

A Non-Dutch Individual will not be subject to any Dutch taxes on income or capital gains in respect of the purchase, ownership and disposal or transfer of the Notes, unless:

- (i) the Non-Dutch Individual derives profits from an enterprise, whether as entrepreneur or pursuant to a co-entitlement to the net worth of this enterprise other than as an entrepreneur or a shareholder, which enterprise is, in whole or in part, carried on through a permanent establishment (*vaste inrichting*) or a permanent representative (*vaste vertegenwoordiger*) in the Netherlands, to which the Notes are attributable;
- (ii) the Non-Dutch Individual derives benefits from miscellaneous activities carried on in the Netherlands in respect of the Notes, including (without limitation) activities which are beyond the scope of active portfolio investment activities; or
- (iii) the Non-Dutch Individual is entitled to a share in the profits of an enterprise, other than by way of securities, which enterprise is effectively managed in the Netherlands and to which enterprise the Notes are attributable.

Non-Dutch Corporate Entities

A Non-Dutch Corporate Entity will not be subject to any Dutch taxes on income or capital gains in respect of the purchase, ownership and disposal or transfer of the Notes, unless:

- (i) the Non-Dutch Corporate Entity derives profits from an enterprise, which enterprise is, in whole or in part, carried on through a permanent establishment or a permanent representative in the Netherlands, to which the Notes are attributable; or
- (ii) the Non-Dutch Corporate Entity is entitled to a share in the profits of an enterprise or a co-entitlement to the net worth of an enterprise, other than by way of securities, which enterprise is effectively managed in the Netherlands and to which enterprise the Notes are attributable.

Under certain specific circumstances, treaties for the avoidance of double taxation may restrict the extent to which Non-Dutch Individuals and Non-Dutch Corporate Entities are subject to Dutch taxes in connection with the acquisition, holding, settlement, redemption, and transfer of the Notes.

Dutch Gift Tax or Inheritance Tax

No Dutch gift tax or inheritance tax is due in respect of any gift of the Notes by, or inheritance of the Notes on the death of, a Noteholder, unless:

- (i) at the time of the gift or death of the Noteholder, the Noteholder is resident, or is deemed to be resident, in the Netherlands;
- (ii) the Noteholder dies within 180 days after the date of the gift of the Notes and was, or was deemed to be, resident in the Netherlands at the time of his death but not at the time of the gift; or
- (iii) the gift of the Notes is made under a condition precedent and the Noteholder is resident, or is deemed to be resident, in the Netherlands at the time the condition is fulfilled.

Other Taxes and Duties

No other Dutch taxes, including taxes of a documentary nature, such as capital tax, stamp or registration tax or duty, are payable by the Issuer or by, or on behalf of, the Noteholders by reason only of the issue, acquisition or transfer of the Notes.

Residency

A Noteholder will not become resident, or deemed resident, in the Netherlands by reason only of holding the Notes. Subject to the exceptions above, a Noteholder will not become subject to Dutch taxes by reason only of the Issuer's

performance, or the Noteholder's purchase (by way of issue or transfer to the Noteholder), ownership or disposal of the Notes.

The proposed financial transactions tax

On 14 February 2013, the European Commission published a proposal (the "**Commission's Proposal**") for a Directive for a common financial transactions tax ("**FTT**") in Austria, Belgium, France, Germany, Greece, Italy, Portugal, Slovakia, Slovenia, Spain (the "**participating Member States**") and Estonia. However, Estonia has since stated that it will not participate.

The Commission's Proposal has very broad scope and could, if introduced in its current form, apply to certain dealings in the Notes (including secondary market transactions) in certain circumstances. Primary market transactions referred to in Article 5(c) of Regulation (EC) No. 1287/2006 are expected to be exempt.

Under the Commission's Proposal, the FTT could apply in certain circumstances to persons both within and outside of the participating Member States. Generally, it would apply to certain dealings in the Notes where at least one party is a financial institution, and at least one party is established in a participating Member State. A financial institution may be, or be deemed to be, "established" in a participating Member State in a broad range of circumstances, including (a) by transacting with a person established in a participating Member State or (b) where the financial instrument that is subject to the dealings is issued in a participating Member State.

The Commission's Proposal remains subject to negotiation among the participating Member States. It may therefore be altered prior to any implementation, the timing of which remains unclear. Additional EU Member States may decide to participate and/or certain of the participating Member States may decide to withdraw.

Prospective Noteholders are advised to seek their own professional advice in relation to the FTT.

SUBSCRIPTION AND SALE

Notes may be issued from time to time by the Issuer to any one or more of the Dealers specified under “*Overview of the Programme*”, and any additional Dealer appointed under the Programme from time to time by the Issuer (each, a “Dealer” and together, the “**Dealers**”). The arrangements under which Notes may from time to time be agreed to be issued by the Issuer to, and subscribed by, Dealers are set out in a dealer agreement dated 8 March 2024 (the “**Dealer Agreement**”) and made among the Issuer and the Dealers. Any such agreement will, *inter alia*, make provision for the form and terms and conditions of the relevant Notes, the price at which such Notes will be subscribed by the Dealers and the commissions or other agreed deductibles (if any) payable or allowable by the Issuer in respect of such subscription. The Dealer Agreement makes provision for the resignation or termination of appointment of existing Dealers and for the appointment of additional or other Dealers either generally in respect of the Programme or in relation to a particular Tranche of Notes.

United States of America

Regulation S Category 2; TEFRA D or TEFRA C as specified in the relevant Final Terms or neither if TEFRA is specified as not applicable in the relevant Final Terms.

The Notes have not been and will not be registered under the Securities Act and may not be offered or sold within the United States or to, or for the account or benefit of, U.S. persons except in certain transactions exempt from the registration requirements of the Securities Act. Terms used in this paragraph have the meanings given to them by Regulation S under the Securities Act.

The Notes are subject to U.S. tax law requirements and may not be offered, sold or delivered within the United States or its possessions or to a United States person, except in certain transactions permitted by U.S. tax regulations. Terms used in this paragraph have the meanings given to them by the United States Internal Revenue Code and regulations thereunder.

Each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that it will not offer, sell or deliver Notes, (i) as part of their distribution at any time or (ii) otherwise until 40 days after the later of the issue date and completion of the distribution of all the Notes comprising the relevant Tranche, as certified to the Principal Paying Agent or the Issuer by such Dealer (or, in the case of a sale of a Tranche of Notes to or through more than one Dealer, by each of such Dealers as to the Notes of such Tranche purchased by or through it, in which case the Principal Paying Agent or the Issuer shall notify each such Dealer when all such Dealers have so certified) within the United States or to, or for the account or benefit of, U.S. persons, and that such Dealer will send to each dealer to which it sells any Notes during the distribution compliance period relating thereto a confirmation or other notice setting forth the restrictions on offers and sales of the Notes within the United States or to, or for the account or benefit of, U.S. persons. Terms used in this paragraph have the meanings given to them by Regulation S under the Securities Act.

In addition, until 40 days after the commencement of the offering of Notes comprising any Tranche, any offer or sale of Notes within the United States by any dealer (whether or not participating in the offering) may violate the registration requirements of the Securities Act.

Prohibition of Sales to EEA Retail Investors

If the Final Terms in respect of any Notes includes a legend titled “Prohibition of Sales to EEA Retail Investors”, each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that it has not offered, sold or otherwise made available and will not offer, sell or otherwise make available any Notes which are the subject of the offering contemplated by this Base Prospectus as completed by the Final Terms in relation thereto to any retail investor in the EEA. For the purposes of this provision:

- (a) the expression “**retail investor**” means a person who is one (or more) of the following:

- (i) a retail client as defined in point (11) of Article 4(1) of MiFID II; or
 - (ii) a customer within the meaning of the Insurance Distribution Directive, where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; and
- (b) the expression an “**offer**” includes the communication in any form and by any means of sufficient information on the terms of the offer and the Notes to be offered so as to enable an investor to decide to purchase or subscribe the Notes.

If the Final Terms in respect of any Notes does not include a legend titled “Prohibition of Sales to EEA Retail Investors” then, in relation to each Member State of the EEA (each a “**Relevant State**”), each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that it has not made and will not make an offer of Notes which are the subject of the offering contemplated by this Base Prospectus as completed by the Final Terms in relation thereto to the public in that Relevant State, except that it may make an offer of such Notes to the public in that Relevant State:

- (a) at any time to any legal entity which is a qualified investor as defined in the Prospectus Regulation;
- (b) at any time to fewer than 150 natural or legal persons (other than qualified investors as defined in the Prospectus Regulation) subject to obtaining the prior consent of the relevant Dealer or Dealers nominated by the Issuer for any such offer; or
- (c) at any time in any other circumstances falling within Article 1(4) of the Prospectus Regulation,

provided that no such offer of Notes referred to in (a) to (c) above shall require the Issuer or any Dealer to publish a prospectus pursuant to Article 3 of the Prospectus Regulation or supplement a prospectus pursuant to Article 23 of the Prospectus Regulation.

For the purposes of this provision, the expression an “**offer of Notes to the public**” in relation to any Notes in any Relevant State means the communication in any form and by any means of sufficient information on the terms of the offer and the Notes to be offered so as to enable an investor to decide to purchase or subscribe the Notes.

Prohibition of Sales to UK Retail Investors

If the Final Terms in respect of any Notes includes a legend titled “Prohibition of Sales to UK Retail Investors”, each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that it has not offered, sold or otherwise made available and will not offer, sell or otherwise make available any Notes which are the subject of the offering contemplated by this Base Prospectus as completed by the Final Terms in relation thereto to any retail investor in the UK.  - (ii) a customer within the meaning of the provisions of the FSMA and any rules or regulations made under the FSMA to implement Directive (EU) 2016/97, where that customer would not qualify as a professional client, as defined in point (8) of Article 2(1) of Regulation (EU) No 600/2014 as it forms part of domestic law by virtue of the EUWA; and
- (b) the expression an “**offer**” includes the communication in any form and by any means of sufficient information on the terms of the offer and the Notes to be offered so as to enable an investor to decide to purchase or subscribe the Notes.

If the Final Terms in respect of any Notes does not include the legend “Prohibition of Sales to UK Retail Investors”, each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that it has not made and will not make an offer of Notes which are the subject of the offering contemplated by this Base Prospectus as completed by the Final Terms in relation thereto to the public in the UK except that it may make an offer of such Notes to the public in the UK:

- (a) at any time to any legal entity which is a qualified investor as defined in Article 2 of the UK Prospectus Regulation;

- (c) at any time in any other circumstances falling within section 86 of the FSMA,

provided that no such offer of Notes referred to (a) to (c) above shall require the Issuer or any Dealer to publish a prospectus pursuant to section 85 of the FSMA or supplement a prospectus pursuant to Article 23 of the UK Prospectus Regulation.

For the purposes of this provision, the expression an “**offer of Notes to the public**” in relation to any Notes means the communication in any form and by any means of sufficient information on the terms of the offer and the Notes to be offered so as to enable an investor to decide to purchase or subscribe for the Notes and the expression “**UK Prospectus Regulation**” means Regulation (EU) 2017/1129 as it forms part of domestic law by virtue of the EUWA.

United Kingdom

Each Dealer has represented and agreed that:

- (a) (i) it is a person whose ordinary activities involve it in acquiring, holding, managing or disposing of investments (as principal or agent) for the purposes of its business and (ii) it has not offered or sold and will not offer or sell the Notes other than to persons whose ordinary activities involve them in acquiring, holding, managing or disposing of investments (as principal or as agent) for the purposes of their businesses or who it is reasonable to expect will acquire, hold, manage or dispose of investments (as principal or agent) for the purposes of their businesses where the issue of the Notes would otherwise constitute a contravention of Section 19 of the FSMA by the Issuer;
- (b) it has only communicated or caused to be communicated and will only communicate or cause to be communicated an invitation or inducement to engage in investment activity (within the meaning of Section 21 of the FSMA) received by it in connection with the issue or sale of any Notes in circumstances in which Section 21(1) of the FSMA does not apply to the Issuer; and

Yield

In relation to any Tranche of Fixed Rate Notes, an indication of the yield in respect of such Notes will be specified in the relevant Final Terms. The yield is calculated at the Issue Date of the Notes on the basis of the relevant Issue Price (including, as the case may be, a Step Up Margin). The yield indicated will be calculated as the yield to maturity as at the Issue Date of the Notes and will not be an indication of future yield.

Interest of natural and legal persons

Certain of the Dealers and their affiliates (including their parent companies) have engaged, and may in the future engage, in financing, in investment banking and/or commercial banking transactions with, and may perform services for, the Issuer and its affiliates in the ordinary course of business.

In addition, in the ordinary course of their business activities, the Dealers and their affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers. Such investments and securities activities may involve securities and/or instruments of the Issuer or Issuer’s affiliates. Certain of the Dealers or their affiliates that have a lending relationship with the Issuer routinely hedge their credit exposure to the

Issuer consistent with their customary risk management policies. Typically, such Dealers and their affiliates would hedge such exposure by entering into transactions which consist of either the purchase of credit default swaps or the creation of short positions in securities, including potentially the Notes issued under the Programme. Any such short positions could adversely affect future trading prices of Notes issued under the Programme. The Dealers and their affiliates may also make investment recommendations and/or publish or express independent research views in respect of such securities or financial instruments and may hold, or recommend to clients that they acquire, long and/or short positions in such securities and instruments, or the creation of short positions in securities, including potentially the Notes issued under the Programme. Any such short positions could adversely affect future trading prices of Notes issued under the Programme. The Dealers and their affiliates may also make investment recommendations and/or publish or express independent research views in respect of such securities or financial instruments and may hold, or recommend to clients that they acquire, long and/or short positions in such securities and instruments. For the purpose of this paragraph the term “affiliates” include also parent companies.

Validity of Base Prospectus and Base Prospectus supplements

For the avoidance of doubt, the Issuer shall have no obligation to supplement this Base Prospectus in the event of significant new factors, material mistakes or material inaccuracies after the end of its 12-month validity period on 8 March 2025.
