

# Be ready when and where you need it

## Now is the time to upgrade to HeartStart Intrepid

As a loyal customer, you know the value of Philips when it matters most. Ensure you are benefiting from the best innovations for emergency care responders by upgrading to the Philips HeartStart Intrepid monitor/defibrillator with Emergency Care Informatics Suite. HeartStart Intrepid helps responders provide emergency care, including world-class defibrillation therapy. Emergency Care Informatics Suite provides a range of data management services. Both together provide clinical and operational efficiency features to provide a comprehensive end-to-end solution.

### Philips HeartStart Intrepid

Philips HeartStart Intrepid monitor/defibrillator features world-class defibrillation therapy and advanced patient monitoring measurements, this complete solution offers clinical and operational efficiency for prehospital response teams.

- Philips HeartStart Intrepid is more than a device – it's a comprehensive, end-to-end solution.
- It delivers world-class defibrillation and monitoring technology
- It is robust, flexible, reliable and easy to use.

### Emergency Care Informatics Suite

HeartStart Intrepid monitor/defibrillator securely sends data to the Emergency Care Informatics Suite, making it available for records integration and post-event analysis. This allows users to review patient case data, including 12-lead ECG, vital sign measurements and event summaries.

- Easily exports data to remote care providers and for post-event review
- Intrepid with Emergency Care Informatics Suite supports device management via a browser-based Device Readiness dashboard
- Emergency Care Informatics Suite is cloud-based for high availability and security, no infrastructure overhead, access remotely and on-the-move
- Supports QA/QI initiatives with post event review tools
