End-to-end value through
optimized performance

Patient-centric system
of engagement

Tasy AI
Virtual Assistant

“We managed to have **more effective and clearer communication** about bed scheduling, hygiene control, and hospital discharge. Now, management is integrated, so that the front desk knows which bed the patient has been assigned to as soon as they arrive at the hospital.”

Jamile Damasceno, Nursing Coordinator of Bed Management and Hospital Regulation
Hospital Martagão Gesteira, Salvador, Brazil

“The Philips Tasy EMR is part of the institution’s digital transformation program. With the installation of the HTML5 version, we **see the possibility of exploring more technologies** such as IoT, artificial intelligence, big data, analytics, and mobility.”

Helmar Almeida, CIO – Tecnologia da Informação e Inovação
Santa Casa de Misericórdia de Porto Alegre, Porto Alegre, Brazil

“The standardization of the system, the involvement of top management, the teams from each unit, and the direct relationship between SPDM and Philips led to a **rapid and efficient development in the implementation of the Tasy system.**”

Nacime Salomão Mansur, Superintendente da SPDM Associadas
SPDM - São Paulo Association for the Development of Medicine,
Sao Paulo, Brazil

“It is practically impossible to manage an operator without a robust system like Tasy. Among other things, it centralizes regulatory rules, which **represents a great contribution to the business**, as in case of any mistake, there are penalties with fines from regulatory agencies.”

Paulo Ferla, Gerente da Operadora
Operadora da Santa Casa de Misericórdia de Ponta Grossa,
Ponta Grossa, Brazil

“We believe that the results achieved were **only possible through the synergy between the Tasy software and management**, in the alliance between the Lean3 methodology and the resources offered by Tasy. We would not have achieved these results if we did not have a process management strategy working and measuring based on data and indicators from Tasy and vice versa.”

Jonathan de Carvalho, Especialista em Processos Lean da Perinatal
Hospital Perinatal, Rio de Janeiro, Laranjeiras e Barra da Tijuca, Brazil
