

A nighttime photograph of Cologne, Germany. On the left, the illuminated spires of Cologne Cathedral rise against a dark blue sky. To the right, the Hohenzollern Bridge, a large steel arch bridge, is brightly lit with warm yellow lights. The bridge's reflection is visible in the calm water of the Rhine river in the foreground. The overall scene is a mix of warm and cool tones, with the blue of the sky and water contrasting with the yellow lights of the buildings and bridge.
