

PHILIPS

Ultrasound

Royal Brompton & Harefield 
NHS Foundation Trust

The **Royal Brompton** Department of **Echocardiography** Function to perfusion workshop

Date: 8th July 2019

Venue: Royal Brompton Hospital, London, SW3 6NP

Cost: £150 for Doctors, £100 for Physiologists

A one day live case workshop looking at stress echo with DSE and MCE for the assessment of CAD

- Understand the physical properties of contrast ultrasound agents.
- Appreciate the benefits of using contrast ultrasound agents in clinical practice.
- Gain knowledge of the clinical role of stress echocardiography.
- Gain insight into the assessment of myocardial perfusion using contrast agents.
- Develop a strategy for setting up a stress/contrast echo service.

Faculty:

Prof. Roxy Senior
Consultant Cardiologist,
Director of Echocardiography, RBH

Dr. Raj Khattar
Consultant Cardiologist, Consultant in
Echocardiography, RBH

Dr. Nav Chahal
Consultant in Echocardiography, RBH

Cathy West
Senior Chief Sonographer, RBH

Time	Title	Speaker
10.00	Registration & Refreshments	
10.15	Introduction	Prof. Roxy Senior
	Basic principles and clinical use of US contrast agents	Cathy West
10.30	Stress echocardiography in clinical practice	Dr. Raj Khattar
11.15	Live case demonstration: Stress/contrast echo	Dr. Raj Khattar & Dr Nav Chahal
12.00	Case studies	Dr. Raj Khattar & Dr Nav Chahal
12.30	Lunch	
13:15	Contrast echocardiography for the assessment of myocardial perfusion - how does it work?	Prof. Roxy Senior
14:00	How to perform myocardial contrast echocardiography	Dr. Nav Chahal
14:30	Live case demonstration: Myocardial and Contrast	Dr. Raj Khattar & Dr. Nav Chahal
15:15	Refreshments	
15:30	Case studies	Dr. Raj Khattar & Dr. Nav Chahal
16:00	How to set up a stress/contrast echo service	Dr. Raj Khattar
16:30	Close
