

The right fit, the first time¹

*Revolutionize your mask fitting process
with the Philips Respironics Mask Selector*

Say goodnight to refits with data-driven mask selection and fitting

Results from a 2019 Philips Respironics clinical study with 310 patients¹:

Right fit

At initial setup

9 out of 10

patients needed **only one mask fitting** with Mask Selector at initial setup¹

48% of patients

were more likely to wear the first recommended mask through the first 90 days of compliance²

When fit using Mask Selector

Patients had a **lower average mask leak rate** vs. those fit using traditional methods³

Patients report being **more confident** they will continue to use their recommended mask⁴

Feel confident that you're setting your patients – and your business – up for long-term success with the Philips Respironics Mask Selector.

*Tablet not required. Software and camera are compatible with PC laptops and desktops. Camera sold separately.
