PAP device
DreamStation 2

Integrated cell modem and Bluetooth

Colour touchscreen

Integrated humidifier

On/Off therapy button
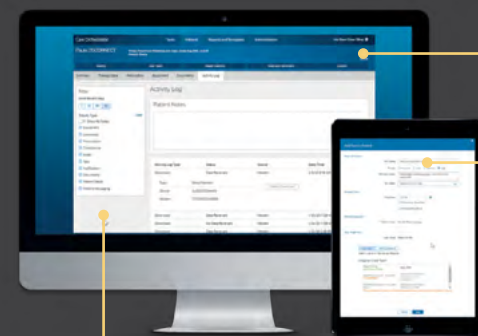

Web platform
Care Orchestrator

Change of prescription and data report exportable on demand

Patient therapy data available immediately on your smartphone, tablet or PC

New user friendly interface, intuitive and customisable, alert protocols

Smooth integration :
Care Orchestrator integrates sleep and respiratory patient information with hospital EMRs, insurance claims, and billing systems

Ordering information

DreamStation 2

Part Number	Description (Package Label)
GBX420H15C	DS2 Adv CPAP w/Humid cell/BT, GB
GBX520H15C	DS2 Adv Auto CPAP w/Humid cell/BT, GB

DreamStation 2 accessories

Part Number	Description (Package Label)
1146072	DS2 Humidifier Water Tank No Lid, RP
1146073	DS2 Humidifier Lid only, RP
1142832	DS2 Water Tank with Lid
1142836	DS2 Inlet/Outlet Seal, RP
1142687	DS2 Reusable Pollen Filter, RP – 1 pack
1142828	DS2 Disposable Ultra-Fine Filter, RP – 1 pack
1142829	DS2 Disposable Ultra-Fine Filter, RP – 2 pack
1142831	DS2 Disposable Ultra-Fine Filter, RP – 6 pack
1144877	3150 BLE Wrist Ox
1147077	Soft Reusable Finger Sensor, WristOx, SM
1147178	Soft Reusable Finger Sensor, WristOx, M
1147179	Soft Reusable Finger Sensor, WristOx, L
1147180	PC USB Interface Cable, WristOx 3150 BLE
1142834	DS2 Carrying Case
1145156	DS2 Roll Stand

DreamStation 2 and DreamStation 1 accessories

Part Number	Description (Package Label)
HT15	15 mm Heated Tube, RP
PR15	15 mm Standard Tube, RP
PR12	12 mm Micro-Flexible Tube, RP
1032907	22 mm Performance Tube
1147466	12 mm Tube Device Adapter w/OIS
1128074	12 mm Mask Adaptor
1145085	Philips RI SD Card – 1 pack
1063859	Philips RI SD Cards – 10 pack
1120746	Shielded DC Cord – DreamStation
1120747	Shielded DC Cord System – DreamStation
1144267	Philips 80W CPAP Power Supply
1038928	Power Cord W/C7-I END-USA/CAN 5 FT
532209	DC Battery Adapter Cable
1124009	PAP Lithium Ion Battery Kit, NA
1121736	Lithium Ion Battery, PAP Device Cable
1126947	Lithium Ion Battery Case
342077	Bacteria/viral filters – 10 pack
302418	Pressure Valve
312710	O_2 Enrichment Attachment

Journal of Sleep Disorders & Therapy. 06. 10.4172/2167-0277.1000268. 6. 29% smaller than DreamStation, 32.5% lighter than DreamStation (with power supply included) 7. Based on 2020 study (n=160 patients) where patients tested DreamStation 2 devices that have either prescribed Philips DreamStation devices or ResMed AirSense10 devices. 8. Retrospective analysis conducted between March 2013 and January 2016, on a group of just under 173,000 US patients from the Philips Respironics EncoreAnywhere database to determine whether possession of the DreamMapper app resulted in a difference in CPAP treatment adherence rate compared to patients without DreamMapper.

*MND 2.2.2.12 Engineering Design Document (PRD Line 276 –Pinnacle platform will provide CPAP therapy while automatically adjusting the pressure level). Auto Algorithms Critical Algorithms Document (CAD), ER-2200380.

PHILIPS
OSA therapy

DreamStation 2
Advanced care designed to meet your patient's needs
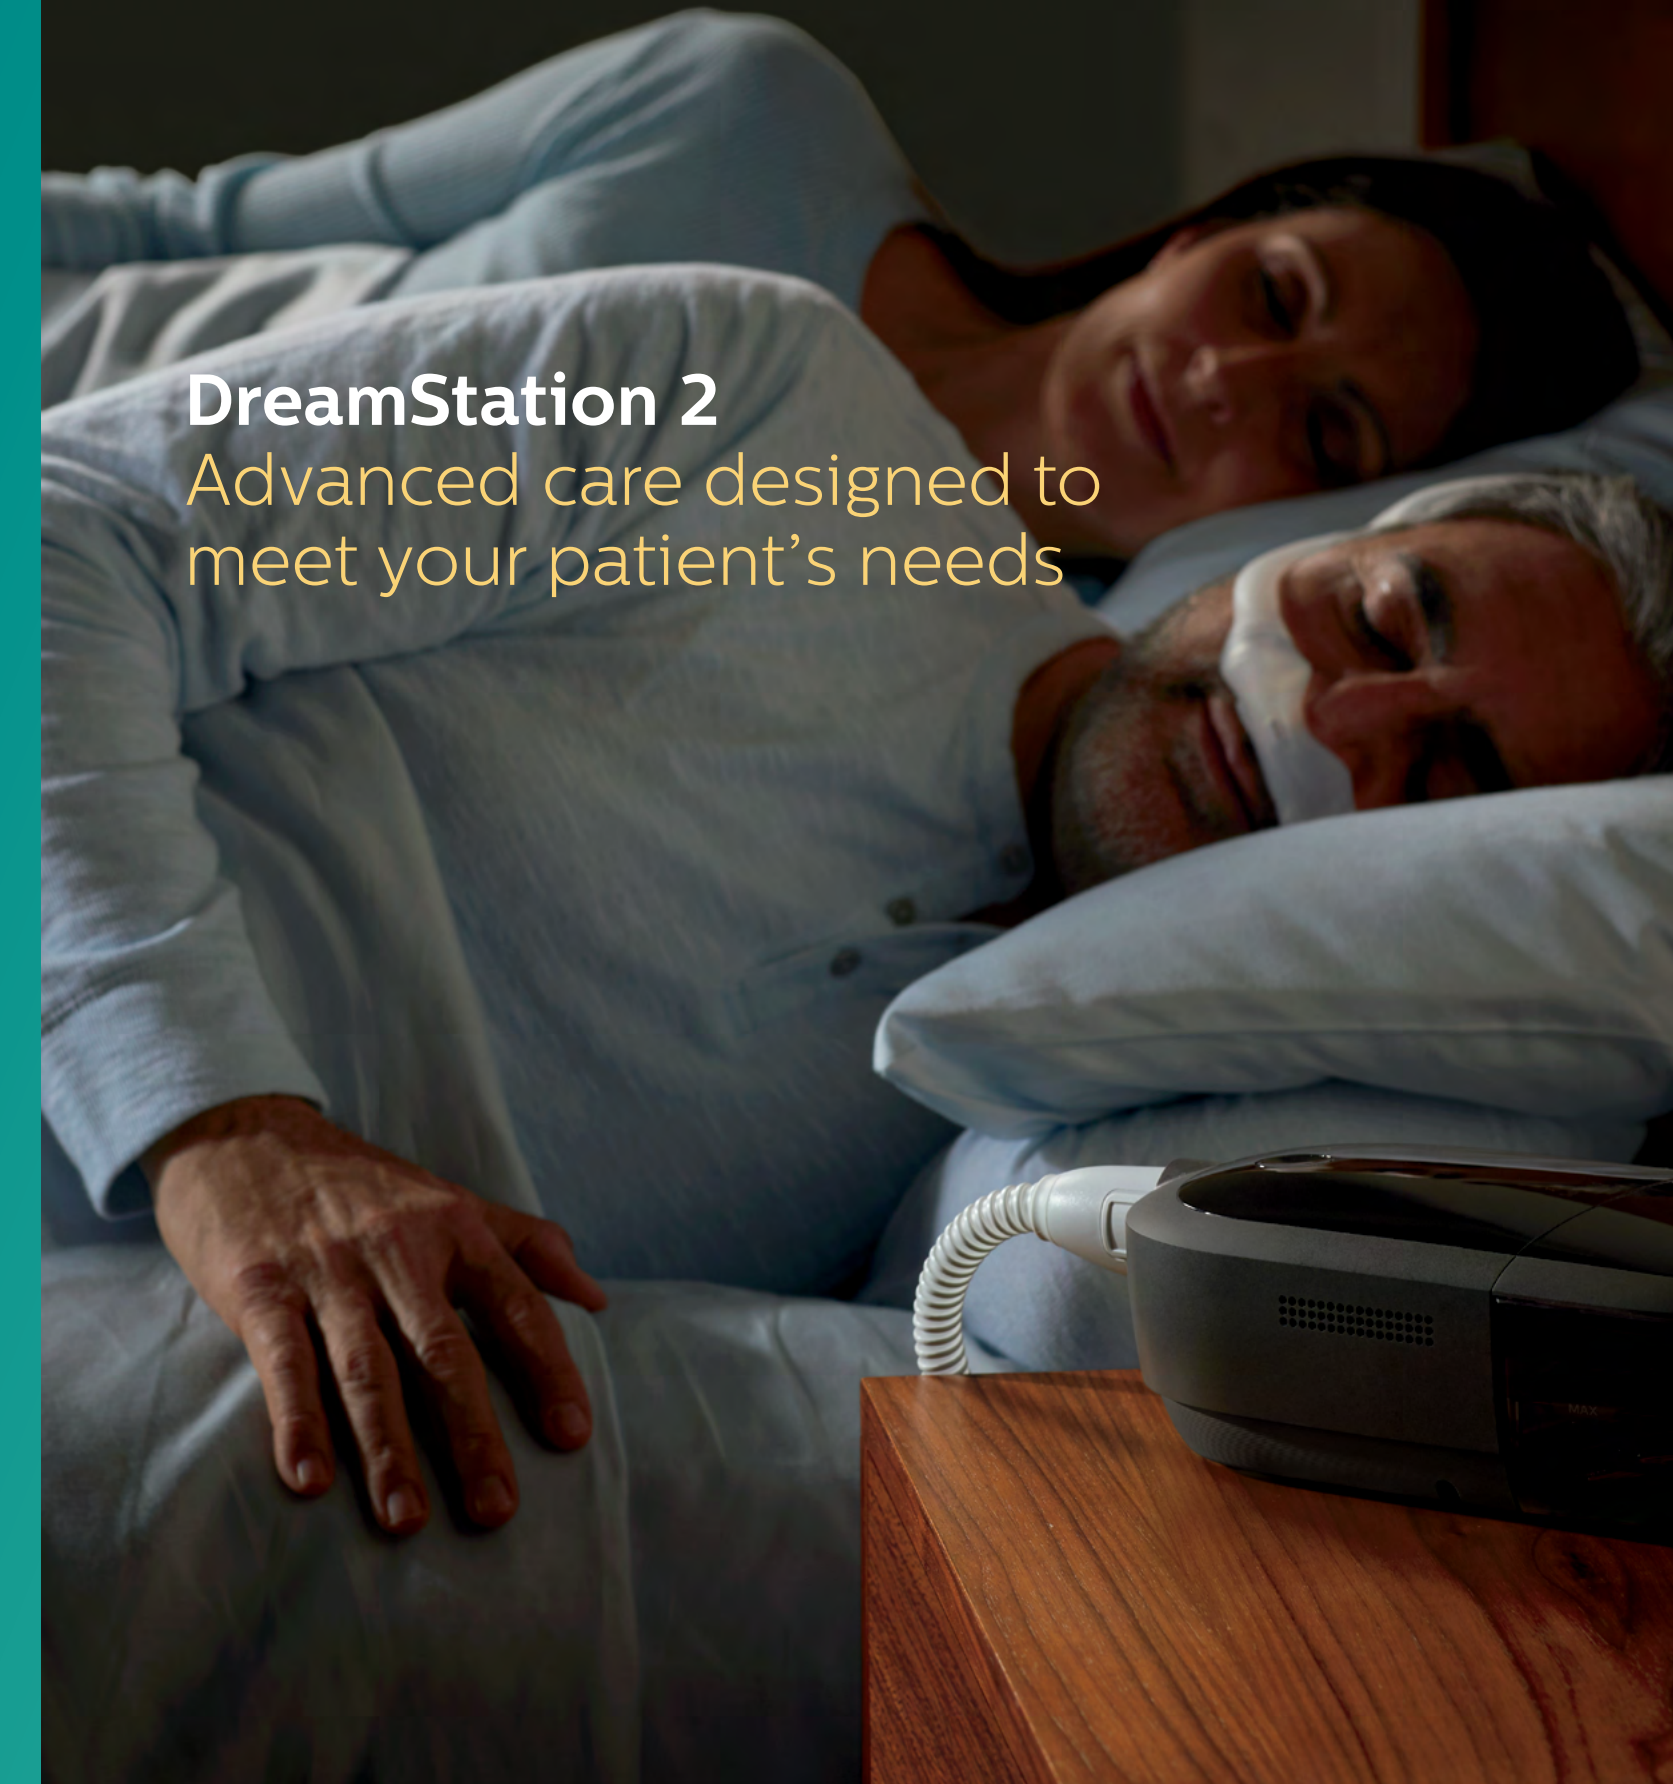

Evolving to enhanced support across the entire OSA management journey

There is a clear need for simplified, connected and customised solutions that help you get patients started on sleep therapy quickly, safely and comfortably.

Dreamstation 2 is designed to help you provide your patients with optimised therapy and enhanced connectivity, with intuitive navigation of comfort features and settings to help reduce callbacks, clinically proven[2,3,4,5] algorithms which automatically adjust pressure and connectivity with Philips Care Orchestrator for remote patient monitoring helping to prioritize those in need of support.

The OSA Journey

Patient setup and training | **Initiation** | **Ongoing compliance**

| Device distribution and setup | Patient and staff training | Mask fitting | Initial patient experience | Patient management and compliance |

Philips DreamStation 2
Advanced care designed to meet your patient's needs

Simplified.
Personalised.
Connected.

Designed to customise care and optimise therapy, Philips **DreamStation 2** has been developed to provide personalized therapy and adjust to meet your patient's needs*.

Patient setup and training

Efficient setup: Flexibility in the setup process allows you to choose what is best for your own organisation.

1. Out-of-the-box, remote setup[1]
   - Accept data-driven defaults
   - Personalise remotely with Care Orchestrator

2. Streamlined, quick guided setup on the device

Simplified training and education: Easy handling of the device.
   - Unique On/Off therapy button
   - Color touchscreen
   - Intuitive navigation

Initiation

**Facilitate acceptance and integration in patient's everyday-life:**

Smaller, Lighter[6] | More silent[7] | Micro-circuit PR12 | Ramp+

Optimize PAP therapy comfort and adherence by decreasing pressure intolerance with unique clinically validated algorithm[2]

EZ Start[3] | Proactive Search[4] | FLEX Comfort[5]

Ongoing compliance

Enhanced connectivity: Integrated cell modem with simplified Bluetooth pairing enables remote setup and easy access to data for both your care team and your patients.
   - On-demand prescription changes
   - Remote troubleshooting through Performance Check
   - Modem call triggered at each pluggin

Philips Care Orchestrator:
   - Drive collaboration among your team with patient insights delivered straight to smartphones, tablets or PCs.
   - Designed to help you in long-term patient support and follow-up

DreamMapper app
+1h compliance per night[8]

This mobile and web application can help you support your patients by actively involving them in their therapy, by providing them with maintenance instructions and educational videos that show the benefits of CPAP therapy compliance.

Available on the **App Store** | GET IT ON **Google Play**
