Veterans Affairs

Going further for you

The Philips Respironics RIST facility, located 20 miles east of Pittsburgh, PA, is home to our sleep and home respiratory division. This 172,000-square-foot greenfield facility was awarded LEED Gold certification in 2009 and was chosen by Assembly Magazine as the Assembly Plant of the Year.* Our USA-based team takes pride in their work because they know there's always a way to make life better for all of our customers – including veterans like you.

*As awarded by Assembly Magazine – September 26, 2011.

¹When used in accordance with all instructions and conditions outlined in the SimplyGo Mini user manual.

²Battery Duration times are based on new, fully charged batteries used with a new SimplyGo Mini system. Battery duration times will degrade with battery age, environmental operating conditions, use over time, and operational condition of the concentrator.

A veterans guide to oxygen treatment

SimplyGo Mini

Lightweight portable oxygen concentrator

Our smallest and lightest oxygen concentrator ever

But, don't let its size fool you. SimplyGo Mini is tough. At just five pounds, it's built to withstand almost anything you can throw at it – from drops, to falls, to rain showers and extreme temperatures.

Count on it night and day

SimplyGo Mini gives you the oxygen therapy you need, wherever and whenever you need it – 24 hours a day, 7 days a week. It has been shown to be as effective as continuous flow liquid oxygen in keeping oxygen levels at 90% or above.¹

Up to 9 hours of battery² operation

From a walk in the park, to a car ride – or even traveling by airplane – SimplyGo Mini offers lithium Ion battery options with standard AC/DC power cords that add convenience and flexibility for when and where you need it the most.

SimplyGo

Portable and stationary oxygen concentrator

The all-in-one oxygen concentrator

SimplyGo is the only continuous flow oxygen concentrator to weigh in at ten pounds – more than twice the oxygen output of any POC weighing 10 pounds or less. Includes easily changed lightweight and compact lithium ion battery.

Transportable and powerful oxygen therapy

SimplyGo's easy-to-carry design makes it the right oxygen concentrator to take anywhere you go. And SimplyGo is the only continuous flow oxygen concentrator to weigh in at 10 pounds – more than twice the oxygen output of any POC weighing 10 pounds or less.

Our new standard in durability

SimplyGo was built with a long-life compressor, quality parts, oversized cart wheels and a high-impact-resistant design that sets our new standard in ruggedness.

EverFlo

Stationary oxygen concentrator

Lightweight for easy transport

The EverFlo Oxygen concentrator weighs in at only 31 pounds, making it easy to move around and reducing the risk of injury.

Compact design

EverFlo's ergonomic design takes up less space and doesn't draw as much attention by looking less like a medical machine.

Low maintenance

Its lower power consumption uses less electricity and produces less heat and its low maintenance with no filter changes and includes a durable metal cannula connection.
