

PHILIPS

IntelliSpace Cardiovascular

Enhance your Cardiovascular IT solution by upgrading to the latest IntelliSpace Cardiovascular* version

IntelliSpace Cardiovascular 6.1

What's new?

- Expanding the web-based Echo Module to include fetal reporting workflow (single fetus)
- Enhanced accuracy and precision when performing measurements with the ability to configure units and number of decimals
- Extended browser support with Microsoft Edge (Edge Chromium)⁽¹⁾
- Support of DICOMWeb Server (Read Workflow) for enhanced interoperability and security
- Further enhancements based on customer feedback

Clinical benefits

Provides a single point of access to images and information anytime and virtually anywhere⁽²⁾. Perform comprehensive analysis, quantification and reporting for fast, informed clinical decision making.

Operational benefits

Provides interoperable access to a variety of systems and applications from a single location, allowing you to analyze data to streamline efficiency.

Financial benefits

Decreases deployment costs and time while interfacing to existing systems through zero-footprint technology.

Augmented security

Best-practice industry standards to combat the evolving cyber security threats in Healthcare. Enhanced security and Enterprise protocols. Operating System required: Windows 10 and higher.

* Note that availability of IntelliSpace Cardiovascular varies per market, please contact your Philips representative for more information.

⁽¹⁾ Please note that with IntelliSpace Cardiovascular 6.1 onwards, Internet Explorer 11 is no longer supported.

⁽²⁾ It is the user's responsibility to ensure that Philips network performance requirements (such as performance, VPN) for IntelliSpace Cardiovascular are met.
