Technology Maximizer

IGT Systems - Fixed

Keep your IGT system up-to-date and clinically advanced with enhanced security

Ensuring that your imaging systems remain up-to-date, compliant and protected can be challenging. Safe, secure and timely upgrades are vital to maintaining and maximizing the performance and operational value of your systems. Technology Maximizer is a cost effective and easy-to-use upgrade service, available across selected parts of the interventional lab.

At an organizational level, Technology Maximizer benefits include:

Stay clinically advanced

Get system upgrades and innovations as soon as they're released and enhance workflows while keeping systems state-of-art.

Enhance cybersecurity

Get essential cybersecurity updates and avoid weak links and vulnerabilities created by out-of-date or obsolete software.

Improve staff experience

Empower employees with the latest technology and help drive better outcomes.

Predict and deliver cost savings

Keep your costs predictable, avoid repeated capital investments and multiple approvals and save on upgrade fees over your system's lifecycle.

How Technology Maximizer for Image Guided Therapy (Fixed) works

Technology Maximizer provides upgrades to core system functionality, cybersecurity controls, operating system, purchased clinical applications as well as new clinical innovations. Depending on the plan selected, upgrades and trainings can include:

- System upgrade to latest, from Azurion Release 1.2 to Azurion Release 2.2
- Clinical application upgrade to latest, i.e. from StentBoost Live Release 1.1 to StentBoost Live Release 2.1
- Promotions to receive future clinical innovation i.e. Caterpillar for Neuro suite
- Advanced Clinical Training

Maximize your imaging investments with Technology Maximizer

Designed to boost the clinical capability and operational performance of your imaging equipment, Technology Maximizer will keep your imaging system up-to-date with a full system upgrade.
