Gouda Hospital

Groene Hart Ziekenhuis – the Netherlands

Questionnaire Manager - Questlink
Covid-19 Screening and Follow up

- Hospital and GP's with a population of 220K patients

- Deployed Philips VitalHealth Covid application last week of March 2020

- All supported by 2 people internal call center

- Patients appreciated 'somebody looking over their shoulder while recovering at home'

- Unnecessary visits reduced and MD's / GP's could focus on severe patients

- Future use: follow-up Covid patients and keep available for possible next wave
