

A photograph of a middle-aged man with grey hair and a goatee, wearing a white lab coat over a light blue button-down shirt. He is smiling and looking towards another man whose profile is visible on the right side of the frame. The background is bright and out of focus, suggesting an indoor setting with large windows.

PHILIPS

OBL and ASC Solutions

SymphonySuite

**The expert you need,
the partner you trust
for OBLs and ASCs**

Expand access to care with an OBL or ASC

More cases are being performed in out-of-hospital care sites to help increase access to quality care and provide financial and operational benefits for the healthcare system.

Opening a cardiovascular OBL or ASC can be challenging, especially if you have never owned a business. While the autonomy of owning your own practice is inviting, going it alone is not. You need a partner you can trust.

Ready to begin your journey?

Partner with Philips OBL and ASC Solutions – SymphonySuite – the one convenient solution you can trust when looking to provide optimal patient care in an out-of-hospital setting,

Philips OBL and ASC Solutions

SymphonySuite

The one trusted, convenient partner to work with as you open or expand your OBL or ASC.

Devices

IVUS, physiology, specialty balloons, atherectomy and more for cardiovascular care
