

A photograph of two men in business attire. The man on the left is older, with grey hair, wearing a white lab coat over a light blue shirt and tie. The man on the right is younger, with brown hair, wearing a grey blazer over a blue and white checkered shirt. They are both looking at a large document on a table, with the younger man smiling and pointing at it with a yellow highlighter. The background is a bright, out-of-focus office setting.

PHILIPS

SymphonySuite

One stop from passion to possible

Office-based lab and
ambulatory surgery center solutions

Philips SymphonySuite

When it comes to opening and upgrading an OBL or ASC, **SymphonySuite** is the one convenient solution that takes you from passion to possible.

Philips SymphonySuite is **the industry leader** in opening and expanding OBLs and ASCs

SymphonySuite uniquely offers:

Convenience

Philips SymphonySuite has more of what doctors need to open and expand an OBL or ASC in one convenient place, including a full range high-performing, specialized equipment and industry-leading devices with unique rewards programs¹ that save them money so they can grow their business with confidence.

Experience

Philips SymphonySuite is the industry leader in working with physicians to open OBLs and ASCs. We orchestrate the details including financing options, site-planning, equipment, business solutions, guidance on construction partnerships and more.

Cost savings

Philips SymphonySuite offers financial benefits to help doctors pay down their equipment loans through the use of our industry-leading devices.¹ We offer a full range of high-performing, specialized equipment and devices with unique programs that help doctors reinvest in their lab by minimizing their capital costs.

Freedom

Philips SymphonySuite orchestrates the many details of opening and expanding an OBL and ASC from financing and equipment to devices and operational support, freeing doctors to spend their time on patient care and on finding a better work-life balance.

The right package makes your OBL or ASC possible

Philips SymphonySuite customizes packages for equipment and devices depending on your goals and needs for minimally invasive procedures in the outpatient setting.

Personalized solution for your OBL or ASC
