Philips OBL and ASC Solutions

SymphonySuite

When it comes to opening and upgrading an OBL or ASC, SymphonySuite is the one convenient solution that takes you from passion to possible.

Why consider opening an OBL or ASC?

Cases are moving to the outpatient landscape as patients are seeking more convenient and comfortable care options for outpatient services closer to home, with shorter wait times and a more personalized experience.

Office-based labs (OBL) or ambulatory surgery centers (ASC) provide many benefits for patients but also for physicians:

- Autonomy and freedom to treat more patients in less time and in an optimal care setting
- Financial opportunities and cost-of-care reductions through efficiency
- Ability to provide specialized procedures and interventions to under-served, remote or high-demand areas
- Greater flexibility in work/life balance

Ready to begin your journey?

Partner with Philips OBL and ASC Solutions – SymphonySuite – for a one-stop place for expertise and customized packages tailored to your needs. You are one stop away from passion to possible.

Philips SymphonySuite is the industry leader in opening and expanding OBLs and ASCs

SymphonySuite uniquely offers:

Convenience

Philips SymphonySuite has more of what doctors need to open and expand an OBL or ASC in one convenient place. This includes a full range of high-performing, specialized equipment and industry-leading devices with unique rewards programs¹ that save them money so they can grow their business with confidence. We orchestrate the details including financing options, site-planning, equipment, business solutions, guidance on construction partnerships and more.

Experience

Philips SymphonySuite is the industry leader in working with physicians to open or expand OBLs and ASCs. Our team of industry experts have successfully helped open and grow more than 200 labs since our program inception. Customers trust our advice and support.

Cost savings

Philips SymphonySuite offers financial benefits to help doctors pay down their equipment loans through the use of our industry-leading devices.¹ We offer a full range of high-performing, specialized equipment and devices with unique programs that help doctors reinvest in their lab by minimizing their capital costs.

Freedom

Philips SymphonySuite orchestrates the many details of opening and expanding an OBL and ASC from financing and equipment to devices and operational support, freeing doctors to spend their time on patient care and on finding a better work-life balance.

The right package makes your OBL or ASC possible

Philips SymphonySuite customizes packages for equipment and devices depending on your goals and needs for minimally invasive procedures in the outpatient setting.

Personalized solutions for your OBL or ASC
