

PHILIPS

SymphonySuite

Trade-in program

Trade in.
Trade up.

Move up to the latest innovations

We're dedicated to investing in our relationship with existing or new Philips SymphonySuite customers, helping you stay at the forefront of innovation. With the Philips trade-in program, now is the perfect time to upgrade your current equipment to the latest clinical and workflow technology for your office-based lab or ambulatory surgery center.

We offer competitive trade-in values for Philips and non-Philips products.¹ Trade in, trade up, and start experiencing more. We will handle the administrative hassles saving you time and money, so you can focus on your patients.

Why settle for this?

When you can have this?

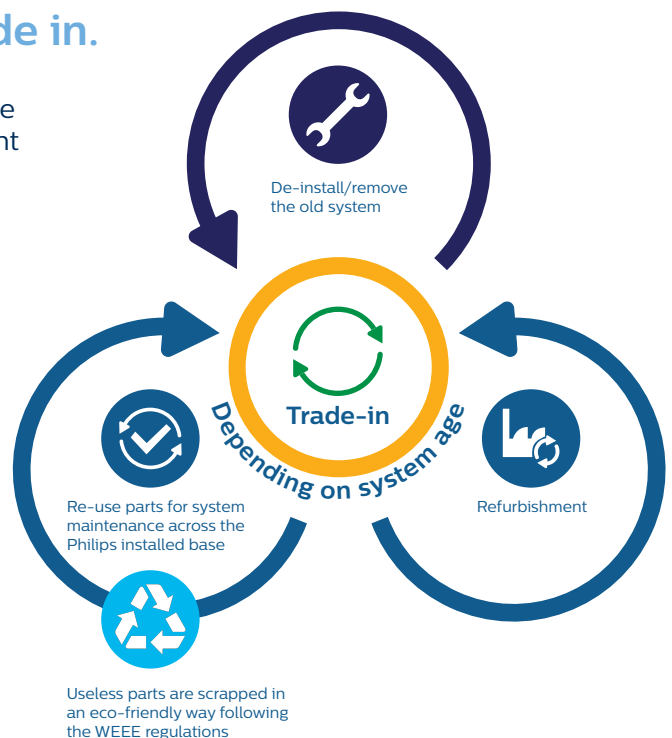

| | | |
|--|---|---|
| Aging equipment | ➔ | State-of-the-art equipment from a comprehensive portfolio to meet needs now and in the future – protected by the latest security measures |
| Dose concerns | ➔ | Advances in dose management |
| Less than optimal workflow experience for clinicians and technologists | ➔ | Improved clinical and workflow experience for seamless productivity |

Optimize. Enhance. Transform. Trade in.

At Philips, we want to contribute to making the world more sustainable, and driving a circular economy is an important part of that. A circular economy aims to minimize waste and make the most of resources in a continuous loop.

When you trade in your equipment, we either refurbish it and re-use it, or we dismantle and dispose of the system in an eco-friendly way. This allows us to reduce waste and take a significant step towards realizing a smart and sustainable future.

When you decide to have your equipment replaced by a new Philips system, we take care of the complete removal of your old system.

Philips is a trusted trade in partner with 20+ years of trade in experience

Eligible products¹:

- Mobile C-arms
- Image-guided therapy systems
- Hemodynamic systems
- Diagnostic ultrasound systems
- Central monitoring systems
- Patient monitoring systems

Contact your Philips SymphonySuite Business Development Manager to learn how you can trade in your older equipment for the latest technology.
