

**PHILIPS**

OBL and ASC  
Solutions

SymphonySuite

Trade-in program

Trade in.  
Trade up.

## Take patient care to the next level with the latest innovations

We're dedicated to helping you and your office-based lab (OBL) or ambulatory surgery center (ASC) stay at the forefront of innovation with the Philips SymphonySuite trade-in program.

We offer competitive trade-in values for Philips and non-Philips products<sup>1</sup> to upgrade your existing equipment to the latest in clinical technology and workflow enhancements for your OBL or ASC. We will handle the administrative hassles to save you time and money, so you can focus on your patients.

### Trade in, trade up and experience more

- Advances in dose management
- Improved clinical and workflow experience for seamless productivity
- State-of-the-art equipment
- Protected by the latest security measures

# Support a circular economy

At Philips, we want to contribute to making the world more sustainable by driving a circular economy, which aims to minimize waste and make the most of resources in a continuous loop.

When you trade in your equipment, we either refurbish it and re-use it, or we dismantle and dispose of the system in an eco-friendly way. This allows us to reduce waste and take a significant step towards realizing a smart and sustainable future.

**When you decide to have your equipment replaced by a new Philips system, we take care of the complete removal of your old system.**

## Partner with Philips to elevate patient care

### Eligible products<sup>1</sup>:

- Mobile C-arms
- Image-guided therapy systems
- Hemodynamic systems
- Diagnostic ultrasound systems
- Central monitoring systems
- Patient monitoring systems

Contact your Philips SymphonySuite Business Development Manager to learn how you can trade in your existing equipment for the latest technology.

1. Certain conditions are required and not all products will qualify.
