

## **Philips Ultinon Pro6000 Standard Road-Legal LED Retrofit Bulbs Now Available for H4 headlights**

**Frankfurt, Germany – September 10<sup>th</sup>, 2024** – The Philips Ultinon Pro6000 Standard range gains the H4-LED type so its road-legal performance can be available to more vehicles. This new LED bulb, developed by Lumileds, has been approved for road use in several European Union countries<sup>1</sup> offers high performance and durability at a pocket-friendly price.

### **Road-legal LED bulbs accredited by automotive experts**

Our Philips Ultinon Pro6000 Standard H4-LED bulb has undergone extensive testing by independent experts to confirm its high performance and compliance with road traffic regulations. It has met the licensing standards in Germany and many countries where road homologation is required. Consequently, Philips Ultinon Pro6000 LED bulbs can safely replace halogen bulbs for a wide range of vehicle models, ensuring the safety of all road- users.

The Philips Ultinon Pro6000 Boost H4-LED bulb features a compact footprint allowing fitment in a wide range of vehicles including cars, motorhomes, vans, and motorcycles. Our LED bulb works for both high- and low-beam functions.

### **Remarkable LED brightness on the road**

Now, drivers can get more brightness from the same light output. This bulb stands out with impressive brightness and accurate colors. It combines the best LED technology with exclusive automotive components, resulting in a remarkable +220% homogeneous brightness<sup>2</sup>. This guarantees clearer vision on the road.

Its 5800 K color spectrum enhances the view of the road and signs ahead, making it easier and faster to spot obstacles. The Philips Ultinon Pro6000 Standard H4-LED bulbs effectively improve driver comfort and visibility.

### **Reliable Philips technology**

The Philips Ultinon Pro6000 Standard LED range has undergone extensive testing and quality control to ensure its long-term durability and performance. Designed specifically to perform in real-world conditions, the Philips Ultinon Pro6000 Standard LED bulbs offer drivers four times the operating life of equivalent halogen bulbs, delivering a consistent and homogeneous light beam throughout its lifespan.
