- Built to last up to 3,000 hours
- Philips automotive lighting for the highest quality

Road-legal LED

- Road legal LED* upgrade lamps

Enhanced fit with compact design

- Compact all-in-one design for plug-and-play use

Highlights

LED lamps for road traffic use*

With the Philips Ultinon Pro6000 lamps, approved for road use in Germany and for certain vehicle models*, it is now possible to convert your halogen headlight lamps to safe and efficient LED lamps. You too can enjoy reliable lighting and unparalleled LED driving. Philips Ultinon Pro6000 H4-LED lamps are certifiable in some European countries through an individual process*. Visit philips.com/roadlegalLED for more information on the current protocols and the list of vehicles covered in each country.

Up to 230% brighter light**

Driving in the dark is demanding, so you rely on your headlights. Upgrade them for that new-car LED look. Boost long-range visibility for night driving and short-range brightness for spotting other road users and hazards. With SafeBeam technology, Philips Ultinon Pro6000 LED car headlight bulbs increase your visibility by up to 230%**. Once you experience this daylight-like effect, you'll always prefer LED. The more you see, the better you perform, and the faster you react, the safer you are. So defeat darkness, choose Philips and start driving at night with greater confidence and control.

Experience improved visibility

Beam pattern is just as important as brightness: a uniform, accurate beam pattern lets you see and be seen more clearly. Thanks to the perfect positioning of the LED chips on the Philips Ultinon Pro6000 bulbs, drivers have light exactly where they need it on the road without dazzling oncoming vehicles.

5800 K for crisp white light

With a high color temperature of up to 5800 Kelvin, the Philips Ultinon Pro6000 produces a bright white light that's close to daylight. The clearer vision this provides makes it easier to spot obstacles and take the perfect driving line. The optimal color temperature avoids tiring or straining the eyes, giving you more comfortable and safer night-time driving.

3-year warranty

You want bright, stylish headlights but you don't want to keep replacing failed lamps. LED lights generate heat that must be managed. Philips AirBoost technology is a smart cooling system that diverts heat away from the light's critical components. Greater heat resistance enables Philips Ultinon LED to last longer than comparable products currently on the market. Philips Ultinon Pro6000 provides up to 3,000 hours' use. Visit philips.com/auto-warranty to register for an extended warranty***.

Compact all-in-one design

Philips Ultinon Pro6000 LED's brand-new design takes up minimal space in the headlamp unit. Its one-piece design and integrated electronics make fitting easier, too. This bulb is compatible with a wide range of car models and can be easily installed by DIYers or specialist mechanics.

Highest quality lighting

Technologically advanced Philips lighting is renowned in the automotive industry and has been for over 100 years. Philips Automotive Grade Quality products are designed and developed following strict quality-control processes, leading to consistently high production standards. Major car manufacturers choose Philips lamps because when you buy Philips, you buy quality. You get powerful, bright light and precise beam performance. You get high-end style. And you get an advanced LED lighting system for a safer, smoother, more enjoyable drive.

Specifications

Product description

Designation: LED H4 11342 U6000 X2
Range: Ultinon Pro6000
Base: P43t-38
Type: H4 LED
Technology: LED
Application: High beam, Low beam
Homologation ECE: No
Approved for road use: Yes, applicable only for car models listed in the Philips compatibility list*

Ordering information

Order entry: 11342U6000X2
Ordering code: 1365131

Electrical characteristics

Voltage: 13.5 V
Wattage: 18 W

Light characteristics

Color temperature: 5800K

Lifetime

Lifetime: 3000 hrs

Marketing specifications

Expected benefits: More light
Product highlight: Road-legal LED bulbs
Technical features: Automotive Grade LED

Packaging Data

EAN1: 8719018013651
EAN3: 8719018013668
Packaging type: X2

Packed product information

Height: 16 cm
Length: 11 cm
Width: 5 cm
Pack Quantity: 2 pcs
MOQ (for professionals): 6 packs
Net weight per piece: 91 g
Gross weight per piece: 282 g

Outerpack information

Height: 15 cm
Length: 23.5 cm
Width: 17 cm
Gross weight per piece: 1.832 kg
