Professional work lights

2023

Designed
with **you**
in mind

LED work light features

Light module

- **Boost light** — Maximum light output (in lumen)
- **Eco/dimmed light** — Light output during power save mode (in lumen)
- **Spotlight** — Additional small light to reach confined spaces (in lumen)
- **Operating time** — Operating time during one charging cycle
- **Beam angle** — Angle of the main light beam
- **Pivoting light module** — Flexibility of the work light thanks to pivoting light module
- **CRI** — High Color Rendering Index (CRI) reveals the true colors of an object, as if seen with natural light
- **UV light** — UV light helps identify leakages
- **New: Zoom light** — Change the focus of the light beam by simply turning a knob

Smart, ergonomic design

- **Grip** — Robust ABS* and soft rubber body to hold the work light securely
- **Telescopic mount** — Integrated telescopic hooks extendable on both sides
- **Motion detector** — Switch the light on and off by moving your hand in front of the sensor
- **Find My Device** — The remote control accessory helps retrieve lost devices up to 10 meters
- **Sliding light** — Slide the light module along the mount to the area you want to illuminate
- **Presence sensor** — Presence sensor that senses human activity within a 2.5-meter radius

Robustness and durability

- **Ingress protection** — Degree of protection against intrusion from solid objects, dust, accidental contact and water
- **Shock protection** — Degree of protection against external impacts
- **Grease resistance** — Highly resistant to grease and workshop solvents

Power options and recharging

- **Charging time** — Time needed to fully recharge the integrated battery
- **Micro USB / USB-C** — Battery rechargeable via a USB Type-C or Micro USB
- **Charging station** — Compatibility with the Multi Dock Station** accessory for cordless charging
