## Philips X-tremeUltinon LED headlights

### Taking bright white light to the next level

Philips X-tremeUltinon LEDs are equipped with exclusive top-quality Lumileds automotive LED chips. These unique OEM LEDs provide optimized light consistency, generate less heat, and feature the ideal light color for sharper visibility.

One reason why Lumileds automotive LED chips and Philips headlight bulbs are chosen by the world's major car manufacturers is that they're fitted with the very best components and technologies, giving you unparalleled performance and enhanced bulb lifetime.

- Deliver up to 5800 K arctic white light for high-end styling that is noticeably whiter than standard
- Compact design makes installation easier in an even wider range of car models
- Illuminate the road clearly, without blinding oncoming drivers
- Direct replacement for conventional headlight bulbs
- Equipped with exclusive top-quality Lumileds TopContact LED chips

# Brighter. Whiter. Stronger.

## Philips X-tremeUltinon LED headlights

### Philips X-tremeUltinon are our brightest LED upgrades

- Deliver **up to 5800 K arctic white light** for high-end styling that is noticeably whiter than standard.
- Powerful bright light and superior light diffusion puts the light precisely where drivers need it.
- Direct replacement for conventional halogen bulbs.
- Patented **SafeBeam** technology eliminates glare to other drivers.
- Patented **AirBoost** technology optimizes cooling.
- **Automotive Grade** design and construction with rugged driver electronics built into the LED base.
- New integrated CANbus that acts as a resistor to eliminate false light out warnings and eliminates flickering when installed.

### Leading edge design

- Created, and made to perform and last, by the world-leading innovator and OEM supplier of LED lighting.
- World class quality and build for increased durability and longer performance life.
- Compatible with many vehicle models. Check vehicle user manual for more information on installation.
