

X-Line

Corporate Video Wall

Sizes: 55"
Create impact with your presentations

Pure Color Pro

Show your presentations as they are meant to be with precise white balance and accurate color consistency

Eye for details

With a high-resolution setup, you are able to read excel files and graphs and don't miss any important detail

Small bezels

Because of the small bezels, displays are close together to maximize content success

Videowall in any size

From a single lane of two displays to a full wall full of displays. The new X-Line supports it for static and dynamic content.

B-Line

Corporate Sharing TV-Displays

Sizes: 50" | 58" | 75" | 75"
Business Signage TV

Wireless Presenting

Easily share the content of any device to the screen

Meeting room integration

Integrate the display in the current meetingroom setup with Crestron Connected, Extron and Neets

Access to TV channels and Google apps

Have access to TV channels via the build-in tuner and Google Playstore

Video conferencing

Integrate the display as part of your conferencing setup to connect to your meetings

Manage all with Scheduler and CMND

Manage every display to 'fit' the room and control what's on the display and when it's on.
