Koninklijke Philips N.V.
(Incorporated as a public limited liability company (naamloze vennootschap) under the laws of the Netherlands registered at the Dutch Chamber of Commerce with number 17001910)

€500,000,000 0.750 per cent. Notes due 2024
€500,000,000 1.375 per cent. Notes due 2028

Issue price: 99.534 per cent. for the 2024 Notes and 98.884 per cent. for the 2028 Notes

The €500,000,000 0.750 per cent. Notes due 2024 (the “2024Notes”) and the €500,000,000 1.375 per cent. Notes due 2028 (the “2028 Notes” and, together with the 2024 Notes, the “Notes”) will be issued by Koninklijke Philips N.V. (the “Issuer”) on 2 May 2018 (the “Issue Date”).

The 2024 Notes will bear interest from the Issue Date at the rate of 0.750 per cent. per annum payable annually in arrear on 2 May of each year commencing on 2 May 2019. Payments on the 2024 Notes will be made in euro without deduction for or on account of taxes imposed or levied by the Netherlands to the extent described under Condition 7 (Taxation) of the 2024 Notes.

The 2028 Notes will bear interest from the Issue Date at the rate of 1.375 per cent. per annum payable annually in arrear on 2 May of each year commencing on 2 May 2019. Payments on the 2028 Notes will be made in euro without deduction for or on account of taxes imposed or levied by the Netherlands to the extent described under Condition 7 (Taxation) of the 2028 Notes.

Unless previously redeemed or purchased and cancelled, the 2024 Notes will be redeemed at their principal amount on 2 May 2024. The Issuer has the option to redeem the 2024 Notes at any time at the applicable make-whole redemption price described herein and at their principal amount during a 90 day period prior to the 2024 Note Maturity Date. The 2024 Notes are also subject to redemption in whole at their principal amount at the option of the Issuer at any time in the event of certain changes affecting taxation in the Netherlands. In addition, the 2024 Notes are subject to redemption at their principal amount at the option of the 2024 Noteholders upon the occurrence of a Change of Control Put Event. See Condition 6 (Redemption and Purchase) of the 2024 Notes.

Unless previously redeemed or purchased and cancelled, the 2028 Notes will be redeemed at their principal amount on 2 May 2028. The Issuer has the option to redeem the 2028 Notes at any time at the applicable make-whole redemption price described herein and at their principal amount during a 90 day period prior to the 2028 Note Maturity Date. The 2028 Notes are also subject to redemption in whole at their principal amount at the option of the Issuer at any time in the event of certain changes affecting taxation in the Netherlands. In addition, the 2028 Notes are subject to redemption at their principal amount at the option of the 2028 Noteholders upon the occurrence of a Change of Control Put Event. See Condition 6 (Redemption and Purchase) of the 2028 Notes.

The net proceeds of the Notes will be used for general corporate purposes, including the repayment of the 2018 Credit Facility (as defined herein) which was entered into for the purposes of financing the 2022 U.S.$ Note Redemption (as defined herein). See “Use of Proceeds”.

This prospectus (the “Prospectus”) has been approved by the Luxembourg Commission de Surveillance du Secteur Financier (the “CSSF”), which is the Luxembourg competent authority for the purpose of Directive 2003/71/EC, as amended (the “Prospectus Directive”) and relevant implementing measures in Luxembourg, as a prospectus. The CSSF assumes no responsibility for the economic and financial soundness of the transactions contemplated by this Prospectus or the quality or solvency of the Issuer in accordance with Article 7(7) of the Prospectus Act 2005.
Application has also been made to the Luxembourg Stock Exchange for the Notes to be listed on the official list of the Luxembourg Stock Exchange (the “Official List”) and to be admitted to trading on the Luxembourg Stock Exchange’s regulated market. References in this Prospectus to the Notes being “listed” (and all related references) shall mean that the Notes have been admitted to the Official List and listed on the Luxembourg Stock Exchange’s regulated market. The Luxembourg Stock Exchange’s regulated market is a regulated market for the purposes of Directive 2014/65/EU of the European Parliament and of the Council on markets in financial instruments (as amended, “MiFID II”). This Prospectus constitutes a prospectus for the purposes of Article 5.3 of the Prospectus Directive and for the purposes of the Prospectus Act 2005. This Prospectus, together with any supplement thereto, is available for viewing on the website of the Luxembourg Stock Exchange (www.bourse.lu).

The Notes have not been and will not be registered under the United States Securities Act of 1933, as amended (the “Securities Act”). Accordingly, the Notes are being offered and sold only to non-U.S. persons outside the United States in offshore transactions in accordance with Regulation S under the Securities Act.

The Issuer’s existing long-term debt is rated Baa1 (with stable outlook) by Moody’s Deutschland GmbH (“Moody’s”), A- (with stable outlook) by Fitch Ratings Ltd (“Fitch”) and BBB+ (with stable outlook) by Standard & Poor’s Credit Market Services Europe Limited (“S&P”). The 2024 Notes are expected to be rated Baa1 by Moody’s and BBB+ by S&P and the 2028 Notes are expected to be rated Baa1 by Moody’s and BBB+ by S&P. For the purposes of the credit ratings included and referred to in this Prospectus, each of Moody’s, S&P and Fitch are established in the European Union (“EU”) and are included in the list of credit rating agencies registered in accordance with Regulation (EC) No. 1060/2009 on Credit Rating Agencies as amended by Regulation (EU) No. 513/2011 (the “CRA Regulation”). This list is available on the ESMA website (https://www.esma.europa.eu/supervision/credit-rating-agencies/risk) (last updated 15 March 2018). A rating is not a recommendation to buy, sell or hold securities and may be subject to suspension, reduction or withdrawal at any time by the assigning rating organisation.

The 2024 Notes and the 2028 Notes will each initially be represented by a temporary global note (each, a “Temporary Global Note”), without interest coupons. The 2024 Notes and the 2028 Notes are issued in new global note (“NGN”) form and will be deposited on or about the Issue Date with a common safekeeper for Euroclear Bank SA/NV (“Euroclear”) and Clearstream Banking, S.A. (“Clearstream, Luxembourg”). Interests in each Temporary Global Note will be exchangeable for interests in a permanent global note (each, a “Permanent Global Note” and, together with the Temporary Global Notes, the “Global Notes”), without interest coupons, on or after 11 June 2018 (the “Exchange Date”), upon certification as to non-U.S. beneficial ownership. The Global Notes are intended to be eligible collateral for the central banking system for the euro (the “Eurosystem”) monetary policy. Whether NGNs are recognisable as eligible collateral for Eurosystem monetary policy and intra-day credit operations will depend upon satisfaction of the Eurosystem eligibility criteria. Interests in the Permanent Global Note will be exchangeable for definitive Notes only in certain limited circumstances (see “Overview of provisions relating to the Notes while represented by the Global Notes”).

An investment in the Notes involves certain risks. Prospective investors should have regard to the factors described under the heading “Risk Factors” on page 1.

Joint Lead Managers

BofA Merrill Lynch  BNP PARIBAS  Citigroup  Deutsche Bank  HSBC
ING  Mizuho Securities  MUFG  Rabobank  Société Générale Corporate & Investment Banking

The date of this Prospectus is 26 April 2018.
IMPORTANT NOTICES

The Issuer accepts responsibility for the information contained in this Prospectus. To the best of the knowledge of the Issuer (having taken all reasonable care to ensure that such is the case) the information contained in this Prospectus is in accordance with the facts and does not omit anything likely to affect the import of such information.

The Issuer, having made all reasonable enquiries, has confirmed to the Joint Lead Managers (as defined in “Subscription and Sale”) that this Prospectus contains all material information with respect to the Issuer and the Notes (including all information which, according to the particular nature of the Issuer and of the Notes, is necessary to enable investors to make an informed assessment of the assets and liabilities, financial position, profits and losses and prospects of the Issuer and of the rights attaching to the Notes), that the information contained or incorporated in this Prospectus is true and accurate in all material respects and is not misleading, that the opinions and intentions expressed in this Prospectus are honestly held or made and that there are no other facts the omission of which would make this Prospectus or any of such information or the expression of any such opinions or intentions misleading. The Issuer accepts responsibility accordingly.

Neither the Joint Lead Managers, Citicorp Trustee Company Limited (the “Trustee”) nor any of their respective affiliates have independently verified the information contained herein or authorised the whole or any part of this Prospectus. Accordingly, no representation, warranty or undertaking, express or implied, is made and no responsibility or liability is accepted by the Joint Lead Managers, the Trustee or any of their respective affiliates as to the accuracy or completeness of the information contained or incorporated in this Prospectus or any other information provided by the Issuer in connection with the issue and offering of the Notes or any responsibility for any acts or omissions of the Issuer or any other person in connection with the issue and offering of the Notes. None of the Joint Lead Managers or the Trustee accepts any liability in relation to the information contained or incorporated by reference in this Prospectus or any other information provided by the Issuer in connection with the offering of the Notes or their distribution.

No person is or has been authorised by the Issuer, the Joint Lead Managers or the Trustee to give any information or to make any representation not contained in or not consistent with this Prospectus or with any other information supplied in connection with the offering of the Notes and approved for such purpose by the Issuer and, if given or made, such information or representation must not be relied upon as having been authorised by the Issuer, any of the Joint Lead Managers or the Trustee.

Neither this Prospectus nor any other information supplied in connection with the offering of the Notes (a) is intended to provide the basis of any credit or other evaluation or (b) should be considered as a recommendation by the Issuer, any of the Joint Lead Managers or the Trustee that any recipient of this Prospectus or any other information supplied in connection with the offering of the Notes should purchase any Notes. Each investor contemplating purchasing any Notes should make its own independent investigation of the financial condition and affairs, and its own appraisal of the creditworthiness, of the Issuer. Neither this Prospectus nor any other information supplied in connection with the offering of the Notes constitutes an offer or invitation by or on behalf of the Issuer, any of the Joint Lead Managers or the Trustee to any person to subscribe for or to purchase any Notes.

Neither the delivery of this Prospectus nor the offering, sale or delivery of the Notes shall in any circumstances imply that the information contained herein concerning the Issuer is correct at any time subsequent to the date hereof or that any other information supplied in connection with the offering of the Notes is correct as of any time subsequent to the date indicated in the document containing the same. The Joint Lead Managers and the Trustee expressly do not undertake to review the financial condition or affairs of the Issuer during the life of the Notes or to advise any investor in the Notes of any information coming to their attention. The Notes have not been and will not be registered under the United States Securities Act of 1933, as amended, (the “Securities Act”) and are subject to U.S. tax law requirements. Subject to certain exceptions, the Notes may not be offered, sold or delivered within the United States or to U.S. persons. For a further description of certain restrictions on the offering and sale of the Notes and on distribution of this document, see “Subscription and Sale” below.

This Prospectus does not constitute an offer to sell or the solicitation of an offer to buy the Notes in any jurisdiction to any person to whom it is unlawful to make the offer or solicitation in such jurisdiction. The distribution of this Prospectus and the offer or sale of Notes may be restricted by law in certain jurisdictions. The Issuer, the Joint Lead Managers and the Trustee do not represent that this Prospectus may be lawfully distributed, or that the Notes may be lawfully offered, in compliance with any applicable registration or other requirements in any such jurisdiction, or
pursuant to an exemption available thereunder, or assume any responsibility for facilitating any such distribution or offering. In particular, no action has been taken by the Issuer, the Joint Lead Managers or the Trustee which is intended to permit a public offering of the Notes or the distribution of this Prospectus in any jurisdiction where action for that purpose is required. Accordingly, no Notes may be offered or sold, directly or indirectly, and neither this Prospectus nor any advertisement or other offering material may be distributed or published, in any jurisdiction except under circumstances that will result in compliance with any applicable laws and regulations. Persons into whose possession this Prospectus or any Notes may come must inform themselves about, and observe any such restrictions on the distribution of this Prospectus and the offering and sale of Notes. In particular, there are restrictions on the distribution of this Prospectus and the offer or sale of Notes in the United States and the European Economic Area (“EEA”) (including the Netherlands and the United Kingdom (“U.K.”)) (see “Subscription and Sale”).

**PROHIBITION OF SALES TO EEA RETAIL INVESTORS**

The Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the EEA. For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of MiFID II; or (ii) a customer within the meaning of Directive 2002/92/EC (“IMD”), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II. Consequently no key information document required by Regulation (EU) No 1286/2014 (the “PRIIPs Regulation”) for offering or selling the Notes or otherwise making them available to retail investors in the EEA has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the EEA may be unlawful under the PRIIPs Regulation.

**MiFID II PRODUCT GOVERNANCE/TARGET MARKET**

Solely for the purposes of each manufacturer’s product approval process, the target market assessment in respect of the Notes has led to the conclusion that: (i) the target market for the Notes is eligible counterparties and professional clients only, each as defined in MiFID II; and (ii) all channels for distribution of the Notes to eligible counterparties and professional clients are appropriate. Any person subsequently offering, selling or recommending the Notes (a “distributor”) should take into consideration the manufacturers’ target market assessment; however, a distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the manufacturers’ target market assessment) and determining appropriate distribution channels.

**IN CONNECTION WITH THE ISSUE OF THE NOTES, DEUTSCHE BANK AG, LONDON BRANCH AS STABILISING MANAGER(S) (THE STABILISING MANAGER(S)) (OR PERSONS ACTING ON BEHALF OF ANY STABILISING MANAGER(S)) MAY OVER-ALLOT NOTES OR EFFECT TRANSACTIONS WITH A VIEW TO SUPPORTING THE MARKET PRICE OF THE NOTES AT A LEVEL HIGHER THAN THAT WHICH MIGHT OTHERWISE PREVAIL. HOWEVER, STABILISATION MAY NOT NECESSARILY OCCUR. ANY STABILISATION ACTION MAY BEGIN ON OR AFTER THE DATE ON WHICH ADEQUATE PUBLIC DISCLOSURE OF THE TERMS OF THE OFFER OF THE NOTES IS MADE AND, IF BEGUN, MAY CEASE AT ANY TIME, BUT IT MUST END NO LATER THAN THE EARLIER OF 30 DAYS AFTER THE ISSUE DATE OF THE NOTES AND 60 DAYS AFTER THE DATE OF THE ALLOTMENT OF THE NOTES. ANY STABILISATION ACTION OR OVER-ALLOTMENT MUST BE CONDUCTED BY THE RELEVANT STABILISING MANAGER(S) (OR PERSONS ACTING ON BEHALF OF ANY STABILISING MANAGER(S)) IN ACCORDANCE WITH ALL APPLICABLE LAWS AND RULES.**

All references in this document to “U.S. dollars”, “U.S.$” and “$” refer to the currency of the United States of America and to “euro”, “€” and “EUR” refer to the currency introduced at the start of the third stage of European economic and monetary union pursuant to the Treaty establishing the European Community, as amended. All references in this document to the “Group” are to the group consisting of Koninklijke Philips N.V. and its direct and indirect subsidiaries.

Certain figures included in this Prospectus have been subject to rounding adjustments; accordingly, figures shown for the same category presented in different tables may vary slightly and figures shown as totals in certain tables may not be an arithmetic aggregation of the figures which precede them.

Each potential investor in the Notes must determine the suitability of that investment in light of its own circumstances. In particular, each potential investor should:
have sufficient knowledge and experience to make a meaningful evaluation of the Notes, the merits and risks of investing in the Notes and the information contained or incorporated by reference in this Prospectus or any applicable supplement;

(ii) have access to, and knowledge of, appropriate analytical tools to evaluate, in the context of its particular financial situation, an investment in the Notes and the impact the Notes will have on its overall investment portfolio;

(iii) have sufficient financial resources and liquidity to bear all of the risks of an investment in the Notes, including where the currency for principal or interest payments is different from the potential investor's currency;

(iv) understand thoroughly the terms of the Notes and be familiar with the behaviour of any relevant financial markets; and

(v) be able to evaluate (either alone or with the help of a financial adviser) possible scenarios for economic, interest rate and other factors that may affect its investment and its ability to bear the applicable risks.

MARKET AND INDUSTRY INFORMATION

This Prospectus includes and refers to industry and market data derived from or based upon a variety of official, non-official and internal sources, such as internal surveys and management estimates, market research, publicly available information and industry publications.

Market share, ranking and other data contained in this Prospectus may also be based on the Group’s good faith estimates, the Group’s own knowledge and experience and such other sources as may be available. Industry publications and surveys and forecasts generally state that the information contained therein has been obtained from sources believed to be reliable, but there can be no assurance as to the accuracy or completeness of included information. The information in this Prospectus that has been sourced from third parties has been accurately reproduced and, as far as the Issuer is aware and has been able to ascertain from information published by such third parties, no facts have been omitted that would render the reproduced information inaccurate or misleading. None of the Issuer or the Joint Lead Managers makes any representation as to the accuracy or completeness of any such third party information in this Prospectus. Although the Issuer believes that this information is reliable, the Issuer has not independently verified the data from third party sources.

PRESENTATION OF FINANCIAL INFORMATION

Presentation of Financial Information

The audited consolidated financial statements of the Group as of and for the financial years ended 31 December 2017 and 2016 are incorporated by reference herein, as described under “Information Incorporated by Reference” and have been prepared in accordance with International Financial Reporting Standards (“IFRS”) as endorsed by the EU (“EU-IFRS”) and with the statutory provisions of Part 9 of Book 2 of the Dutch Civil Code.

The audited consolidated financial statements of the Group as of and for the financial year ended 31 December 2016 include the contributions from Philips Lighting N.V. (“Philips Lighting”) which is presented as a discontinued operation in the financial statements of the Group for the financial year ended 31 December 2017.

Alternative Performance Measures (or “Non-IFRS Financial Measures”)

In this Prospectus, the Issuer presents certain financial measures when discussing the Group’s performance that are not measures of financial performance or liquidity under IFRS (“non-IFRS”). These non-IFRS measures (also known as non-GAAP or alternative performance measures) are presented because management considers them important supplemental measures of the Group’s performance and believes that they are widely used in the industry in which the Group operates as a means of evaluating a company’s operating performance and liquidity. The Group believes that an understanding of its sales performance, profitability, financial strength and funding requirements is enhanced by reporting the following non-IFRS measures:

v
• Comparable sales growth;
• Adjusted EBITA;
• Adjusted EBITDA;
• Free cash flow;
• Net debt : group equity ratio; and
• Comparable order intake.

Non-IFRS measures do not have standardised meanings under IFRS and not all companies calculate non-IFRS measures in the same manner or on a consistent basis. As a result, these measures (and ratios based on these measures) may not be comparable to measures used by other companies that have the same or similar names. Accordingly, undue reliance should not be placed on the non-IFRS measures contained in this Prospectus and they should not be considered as substitutes for sales, net income, net cash provided by operating activities or other financial measures computed in accordance with IFRS.

This section contains the definitions of the non-IFRS measures used in this Prospectus as well as reconciliations from the most directly comparable IFRS measures. These non-IFRS measures should not be viewed in isolation or as alternatives to equivalent IFRS measures and should be used in conjunction with the most directly comparable IFRS measures.

The non-IFRS financial measures presented are not measures of financial performance or liquidity under IFRS, but measures used by management to monitor the underlying performance of the Group’s business and operations and, accordingly, they have not been audited or reviewed by the Group’s external auditors. Furthermore, they may not be indicative of the Group’s future results and should not be construed as an indication that the Group’s future results will be unaffected by exceptional or non-recurring items.

**Comparable sales growth**

Comparable sales growth represents the period-on-period growth in sales excluding the effects of currency movements and changes in consolidation. As indicated in “Significant accounting policies” to the Group’s audited consolidated financial statements as of and for the financial year ended 31 December 2017, incorporated by reference herein, foreign currency sales and costs are translated into the Group’s presentation currency, the euro, at the exchange rates prevailing at the respective transaction dates. As a result of significant foreign currency sales and currency movements during the periods presented, the effects of translating foreign currency sales amounts into euros could have a material impact on the comparability of sales between periods. Therefore, these impacts are excluded when presenting comparable sales in euros by translating the foreign currency sales of the previous period and the current period into euros at the same average exchange rates. In addition, the years under review were affected by a number of acquisitions and divestments, as a result of which various activities were consolidated or deconsolidated. The effect of consolidation changes has also been excluded in arriving at the comparable sales. For the purpose of calculating comparable sales, when a previously consolidated entity is sold or control is lost, relevant sales for that entity of the corresponding prior year period are excluded. Similarly, when an entity is acquired and consolidated, relevant sales for that entity of the current year period are excluded.

Comparable sales growth is presented for the Group, operating segments and geographic clusters. The Group believes that the presentation of comparable sales growth is meaningful for investors to evaluate the performance of the Group’s business activities over time. Comparable sales growth may be subject to limitations as an analytical tool for investors because comparable sales growth figures are not adjusted for other effects, such as increases or decreases in prices or quantity/volume. In addition, interaction effects between currency movements and changes in consolidation (second order effects) are not taken into account.

Adjusted EBITA

The term Adjusted EBITA is used to evaluate the performance of the Group and its operating segments. EBITA represents Income from operations excluding amortisation and impairment of acquired intangible assets and impairment of goodwill. Adjusted EBITA represents EBITA excluding gains or losses from restructuring costs, acquisition-related charges and other items.

Restructuring costs are defined as the estimated costs of initiated reorganisations, the most significant of which have been approved by the Group’s executive committee (the “Executive Committee”), and which generally involve the realignment of certain parts of the industrial and commercial organisation.
Acquisition-related charges are defined as costs that are directly triggered by the acquisition of a company, such as transaction costs, purchase accounting related costs and integration-related expenses.

Other items are defined as any individual item with an income statement impact (loss or gain) that is deemed by management to be both significant and incidental to normal business activity. Other items may extend over several quarters and are not limited to the same financial year.

The Group considers use of Adjusted EBITA appropriate as the Group uses it as a measure of segment performance and as one of its strategic drivers to increase profitability through re-allocation of its resources towards opportunities offering more consistent and higher returns. This is done with the aim of making the underlying performance of the businesses more transparent.

The Group believes Adjusted EBITA is useful to evaluate financial performance on a comparable basis over time by factoring out restructuring costs, acquisition-related charges and other incidental items which are not directly related to the operational performance of the Group or its segments.

Adjusted EBITA may be subject to limitations as an analytical tool for investors, as it excludes restructuring costs, acquisition-related charges and other incidental items and therefore does not reflect the expense associated with such items, which may be significant and have a significant effect on the Group’s net income.

Adjusted EBITA margin refers to Adjusted EBITA divided by sales expressed as a percentage.

Adjusted EBITA is not a recognised measure of financial performance under IFRS. Below is a reconciliation of Adjusted EBITA to the most directly comparable IFRS measure, Net income, for the years indicated. Net income is not allocated to segments as certain income and expense line items are monitored on a centralised basis, resulting in them being shown on a Group level only.

### Adjusted EBITDA

Adjusted EBITDA is defined as Income from operations excluding amortisation and impairment of intangible assets, impairment of goodwill, depreciation and impairment of property, plant and equipment, restructuring costs, acquisition-related charges and other items.

The Group understands that Adjusted EBITDA is broadly used by analysts, rating agencies and investors in their evaluation of different companies because it excludes certain items that can vary widely across different industries or among companies within the same industry. The Group considers Adjusted EBITDA useful when comparing its performance to other companies in the health technology ("HealthTech") industry. However, Adjusted EBITDA may be subject to limitations as an analytical tool because of the range of items excluded and their significance in a given reporting period. Furthermore, comparisons with other companies may be complicated due to the absence of a standardised meaning and calculation framework. The Group’s management compensates for the limitations of using Adjusted EBITDA by using this measure to supplement IFRS results to provide a more complete understanding of the factors and trends affecting the business rather than IFRS results alone. In addition to the limitations noted above,
Adjusted EBITDA excludes items that may be recurring in nature and should not be disregarded in the evaluation of performance. However, the Group believes it is useful to exclude such items to provide a supplemental analysis of current results and trends compared to other periods because certain excluded items can vary significantly depending on specific underlying transactions or events, and the variability of such items may not relate specifically to ongoing operating results or trends and certain excluded items, while potentially recurring in future periods, may not be indicative of future results. A reconciliation from net income to Adjusted EBITDA is provided below.

Free cash flow is defined as net cash provided by operating activities minus net capital expenditures. Net capital expenditures are comprised of the purchase of intangible assets, expenditures on development assets, capital expenditures on property, plant and equipment and proceeds from sales of property, plant and equipment.

The Group discloses free cash flow as a supplemental non-IFRS financial measure, as the Group believes it is a meaningful measure to evaluate the performance of its business activities over time. The Group understands that free cash flow is broadly used by analysts, rating agencies and investors in assessing its performance. The Group also believes that the presentation of free cash flow provides useful information to investors regarding the cash generated by the Group’s operations after deducting cash outflows for purchases of intangible assets, capitalisation of product development, expenditures on development assets, capital expenditures on property, plant and equipment and proceeds from disposal of property, plant and equipment. Therefore, the measure gives an indication of the long-term cash generating ability of the business. In addition, because free cash flow is not impacted by purchases or sales of businesses and investments, it is generally less volatile than the total of net cash provided by operating activities and net cash used for investing activities.

Free cash flow may be subject to limitations as an analytical tool for investors, as free cash flow is not a measure of cash generated by operations available exclusively for discretionary expenditures and the Group requires funds in addition to those required for capital expenditures for a wide variety of non-discretionary expenditures, such as payments on outstanding debt, dividend payments or other investing and financing activities. In addition, free cash flow does not reflect cash payments that may be required in future for costs already incurred, such as restructuring costs.

**Net debt : group equity ratio**

Net debt : group equity ratio is presented to express the financial strength of the Group. Net debt is defined as the sum of long- and short-term debt minus cash and cash equivalents. Group equity is defined as the sum of shareholders’ equity and non-controlling interests. This measure is used by the Group’s Treasury management team and investment analysts to evaluate financial strength and funding requirements. This measure may be subject to limitations because cash and cash equivalents are used for various purposes, not only debt repayment. The net debt calculation deducts all cash and cash equivalents whereas these items are not necessarily available exclusively for debt repayment at any given time.

**Comparable order intake**

Comparable order intake is reported for equipment and software and is defined as the total contractually committed amount to be delivered within a specified timeframe excluding the effects of currency movements and changes in consolidation. Comparable order intake does not derive from the financial statements and thus a quantitative reconciliation is not provided.

The Group uses comparable order intake as an indicator of business activity and performance. Comparable order intake is not an alternative to revenue and may be subject to limitations as an analytical tool due to differences in amount and timing between booking orders and revenue recognition. Due to divergence in practice, other companies may calculate this or a similar measure (such as order backlog) differently and therefore comparisons between companies may be complicated.
This Prospectus contains certain forward-looking statements with respect to the financial condition, results of operations and business of the Group and certain of the plans and objectives of the Group with respect to these items. Examples of forward-looking statements include statements made about the Group’s strategy, estimates of sales growth, future Adjusted EBITA and future developments in the Group’s business. Forward-looking statements can be identified generally as those containing words such as “anticipates”, “assumes”, “believes”, “estimates”, “expects”, “should”, “will”, “will likely result”, “forecast”, “outlook”, “projects”, “may” or similar expressions. By their nature, forward-looking statements involve risk and uncertainty because they relate to future events and circumstances and there are many factors that could cause actual results and developments to differ materially from those expressed or implied by these forward-looking statements. These factors include, but are not limited to, domestic and global economic and business conditions, developments within the euro zone, the successful implementation of the Group’s strategy and its ability to realise the benefits of this strategy, the Group’s ability to develop and market new products, changes in legislation, legal claims, changes in exchange and interest rates and regulations, changes in tax rates, pension costs and actuarial assumptions, raw materials and employee costs, the Group’s ability to identify and complete successful acquisitions and to integrate those acquisitions into its business, the Group’s ability to successfully exit certain businesses or restructure its operations, the rate of technological changes, cyber-attacks, breaches of cybersecurity, political, economic and other developments in countries where the Group operates, industry consolidation and competition, and the state of international capital markets as they may affect the timing and nature of the dispositions by the Issuer of its remaining interests in Philips Lighting.

Due to such uncertainties and risks, investors are cautioned not to place undue reliance on these forward-looking statements, which speak only as at the date of this Prospectus. Investors are urged to read the sections of this Prospectus entitled “Risk Factors” and “Description of the Issuer and the Group” for a more detailed discussion of the factors that could affect future performance and the industry in which the Group operates. In light of these risks, uncertainties and assumptions, the forward-looking events described in this Prospectus may not occur. Moreover, the Group operates in a competitive and rapidly changing environment. New risks may be faced from time to time, and it is not possible to predict all such risks; nor can the impact of all such risks on the Group’s business be assessed or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statement. Given these risks and uncertainties, investors should not place undue reliance on forward-looking statements as a prediction of actual results.

The forward-looking statements are based on plans, estimates and projections as they are currently available to management. The Issuer undertakes no obligation, and does not expect, to publicly update or publicly revise any forward-looking statement, whether as a result of new information, future events or otherwise, save as required by applicable law or regulation. Although the Issuer believes that the expectations reflected in such forward-looking statements are reasonable, it can give no assurance that such expectations will prove to be correct. All subsequent written and oral forward-looking statements attributable to the Issuer or to persons acting on its behalf are expressly qualified in their entirety by the cautionary statements referred to above and contained elsewhere in this Prospectus.

RISK FACTORS

Any investment in the Notes is subject to a number of risks. Prior to investing in the Notes, prospective investors should carefully consider risk factors associated with any investment in the Notes, the business of the Issuer and the industries in which it operates together with all other information contained in this Prospectus, including, in particular the risk factors described below.

The Issuer believes that the factors described below may affect its ability to fulfill its obligations under the Notes. All of these factors are contingencies which may or may not occur and the Issuer is not in a position to express a view on the likelihood of any such contingency occurring. The Issuer believes that the factors described below represent the principal risks inherent in investing in the Notes, but additional risks and uncertainties relating to the Issuer that are not currently known to the Issuer or that it currently deems immaterial, may individually or cumulatively also have a material adverse effect on the business, prospects, results of operations and/or financial position of the Issuer and, if any such risk should occur, the price of the Notes may decline and investors could lose all or part of their investment. Investors should consider carefully whether an investment in the Notes is suitable for them in light of the information in this Prospectus and their personal circumstances.

Words and expressions defined in “Terms and Conditions of the 2024 Notes” and “Terms and Conditions of the 2028 Notes” shall have the same meanings in these risk factors.

Factors that may affect the Issuer’s ability to fulfil its obligations under the Notes

Risks relating to the Issuer’s Industry, Business and Operations

The Group may be unable to adapt swiftly to changes in industry or market circumstances, which could have a material adverse impact on its financial condition and results

Fundamental shifts in the healthcare industry, like the transition towards digital, may drastically change the business environment. If the Group is unable to recognise these changes in good time, is late in adjusting its business models or if circumstances arise such as pricing actions by competitors, then this could have a material adverse effect on the Group’s growth ambitions, financial condition and operating results.

As the Group’s business is global, its operations are exposed to economic and political developments in countries across the world that could adversely impact its financial condition and results

The Group’s business environment is influenced by political and economic conditions in individual and global markets. Financial markets generally showed a stable, favourable performance during 2017 with market volatility at an all-time low; towards the end of 2017 concerns emerged about potential bubbles in some financial markets. Economic growth in China seems to have stabilised. The EU started to show clear economic growth in 2017 and so far seems unaffected by the lack of progress in the Brexit process. Political uncertainty remains a driver of potential risks in Europe. The weakened government in Great Britain continues to struggle with the Brexit negotiations. The U.S. economy continued to perform well during 2017, but the initial optimism following the start of the new U.S. administration in 2017 has slacked off. The long awaited U.S. Tax Cuts and Jobs Act was only presented at the end of 2017 and it is uncertain what the impact of this tax reform will be. The U.S. dollar lost strength versus the euro and Japanese yen during the second half of 2017; there is considerable uncertainty about the potential impact of the U.S. Tax Cuts and Jobs Act on the strength of the U.S. dollar. Both Brexit and the policies of the U.S. administration may have significant impact on international trade tariffs and customs laws. Driven by political conflicts, 2017 showed further increases in the quantity and severity of cyber-attacks; some attacks (for example, the WannaCry ransom attack) affected many countries and public and private organisations. The favourable macroeconomic outlook for the main geographies could quickly reverse due to political conflicts, the unknown impact of changes in U.S. and Eurozone monetary policy and changes in government policies. Uncertainty remains as to the levels of (public) capital expenditures in general, unemployment levels and consumer and business confidence, which could adversely affect demand for products and services offered by the Group.

The general global political environment remains unfavourable for the business environment due to continued political conflicts and terrorism. Numerous other factors, such as regional political conflicts in the Middle East, Turkey, the Korean peninsula and other regions, as well as large-scale (in)voluntary migration and profound social instability could continue to impact macroeconomic factors and the international capital and credit markets. It remains difficult to predict changes in, among others, U.S. foreign policy, healthcare and trade and tax laws, the impact of which cannot be predicted. Uncertainty on the timing and the nature of Brexit may adversely affect economic growth and the business
environment in the U.K. and the EU. Economic and political uncertainty may have a material adverse impact on the Group’s financial condition or results of operations and can also make it more difficult for the Group to budget and forecast accurately. Political instability may have an adverse impact on financial markets which could have a negative impact on the timing and revenues of the sale of the remaining interests in Philips Lighting and the access of the Group to funding. The Group may encounter difficulty in planning and managing operations due to the lack of adequate infrastructure and unfavourable political factors, including unexpected legal or regulatory changes such as foreign exchange restrictions, import or export controls, increased healthcare regulation, nationalisation of assets or restrictions on the repatriation of returns from foreign investments. Given that growth in emerging market countries is correlated to U.S., Chinese and European economic growth and that such emerging market countries are increasingly important in the Group’s operations, the above-mentioned risks are also expected to grow and could have a material adverse effect on the Group’s financial condition and results.

The Group’s overall risk profile is changing as a result of the focus on health technology

The risk profile of the Group is expected to concentrate focus on one industry due to the dynamics of its changing products and services portfolio, acquisitions and partnerships resulting from the execution of its health technology strategy.

The Group’s overall performance in the coming years is expected to depend on the realisation of its growth ambitions and results in growth geographies

Growth geographies are becoming increasingly important in the global market. In addition, Asia is an important production, sourcing and design centre for the Group. The Group faces strong competition to attract the best talent in tight labour markets and intense competition from local companies as well as other global players for market share in growth geographies. The Group needs to maintain and grow its position in growth geographies, invest in data driven services, invest in local talent, understand developments in end user preferences and localise the portfolio in order to stay competitive. If the Group fails to achieve these objectives, then this could have a material adverse effect on growth ambitions, financial condition and operating results.

The growth ambitions and the related financial results of the Group may also be adversely affected by economic volatility inherent in growth geographies and the impact of changes in macroeconomic circumstances on growth economies.

The Group may not control joint ventures or associated companies in which it invests, which could limit the ability of the Group to identify and manage risks

The Group has invested and may invest in joint ventures and associated companies in which the Group will have a non-controlling interest. In these cases, the Group has limited influence over, and limited or no control of, the governance, performance and cost of operations of joint ventures and associated companies. Some of these joint ventures and associated companies may represent significant investments and potentially also use the Group’s brand. The joint ventures and associated companies that the Group does not control may make business, financial or investment decisions contrary to the Group’s interests or may make decisions different from those that the Group itself may have made. Additionally, the Group partners or members of a joint venture or associated company may not be able to meet their financial or other obligations, which could expose the Group to additional financial or other obligations, as well as having a material adverse effect on the value of its investments in those entities or potentially subject the Group to additional claims. Lumileds is an example of a company in which the Group may continue to have a (residual) investment but does not have control.

Acquisitions could expose the Group to integration risks and challenge management in continuing to reduce the complexity of the Issuer

The Group’s acquisitions may expose the Group in the future to integration risks in areas such as sales and service force integration, logistics, regulatory compliance, information technology and finance. Integration difficulties and complexity may adversely impact the realisation of an increased contribution from acquisitions. The Group may incur significant acquisition, administrative and other costs in connection with these transactions, including costs related to the integration of acquired businesses. Acquisitions may divert management attention from other business priorities and risks.
Furthermore, organisational simplification expected to be implemented following an acquisition and the resulting cost savings may be difficult to achieve. Acquisitions may also lead to a substantial increase in long-lived assets, including goodwill. Write-downs of these assets due to business developments may have a material adverse effect on the Group’s earnings.

**The Group’s inability to secure and maintain intellectual property rights for products, whilst maintaining overall competitiveness, could have a material adverse effect on its results**

The Group is dependent on its ability to obtain and maintain licenses and other intellectual property (“IP”) rights covering its products and its design and manufacturing processes. The IP portfolio is the result of an extensive patenting process that could be influenced by a number of factors, including innovation. The value of the Group’s IP portfolio is dependent on the successful promotion and market acceptance of standards developed or co-developed by the Group. This is particularly applicable to the Group’s personal health segment (“Personal Health”) where third-party licences are important and a loss or impairment could have a material adverse impact on the Group’s financial condition and operating results.

**Failure to comply with quality standards and regulations and associated regulatory actions can trigger warranty and product liability claims against the Group and can lead to financial losses and adversely impact the Group’s reputation, market share and brand**

The Group is required to comply with the highest standards of quality in the manufacture of its medical devices. The Group hereto is subject to the supervision of various national regulatory authorities. Conditions imposed by such national regulatory authorities could result in product recalls or a temporary ban on products and/or production facilities. In addition quality issues and/or liability claims could affect the Group’s reputation and its relationships with key customers (both customers for end products and customers that use the Group’s products in their business processes). As a result, depending on the product and manufacturing site concerned and the severity of the quality and/or regulatory issue, this could lead to financial losses through lost revenue and costs of any required remedial actions, and have further impacts on the Group’s reputation, market share and brand.

**A breach in security of, or a significant disruption in, the Group’s information technology systems or violation of data privacy laws could adversely affect its operating results, financial condition, reputation and brand**

The Group relies on information technology to operate and manage its businesses and store confidential data (relating to employees, customers, intellectual property, suppliers and other partners); the Group’s products, solutions and services increasingly contain sophisticated information technology and generate confidential data related to customers and patients. Like many other multinational companies, Philips is therefore inherently and increasingly exposed to the risk of cyber attacks. Information systems may be damaged, disrupted (including the provision of services to customers) or shut down due to (cyber) attacks by hackers, computer viruses or other malware. In addition, breaches in security of the Group’s systems (or the systems of its customers, suppliers or other business partners) could result in the misappropriation, destruction or unauthorised disclosure of confidential information (including intellectual property) or personal data belonging to the Group or its employees, partners, customers or suppliers. Successful cyberattacks may result in substantial costs and other negative consequences, which may include, but are not limited to, lost revenues, reputational damage, remediation costs, and other liabilities to regulators, customers and partners. Furthermore, enhanced protection measures can involve significant costs.

The Group has strengthened its security governance, thus increasing the ability to detect, respond to, and close incidents. Additionally, foundational and risk-based security training has been provided throughout the organisation. For mergers and acquisitions, specific attention is given to ensure a sufficient level of security maturity before and during the merger and acquisition processes, including post-merger integration. However, these efforts may prove to be insufficient or unsuccessful.

Although the Group has experienced cyber-attacks and to date has not incurred any significant damage as a result and did not incur significant monetary cost in taking corrective action, there can be no assurance that in the future the Group will be as successful in avoiding damage from cyber-attacks, which could lead to financial losses. Additionally, the integration of new companies and successful outsourcing of business processes are highly dependent on secure and well controlled Information Technology (“IT”) systems.
Diversity in IT could result in ineffective or inefficient business management. IT outsourcing and off-shoring strategies could result in complexities in service delivery and contract management

The Group continuously seeks to create a more open, standardised and cost-effective IT landscape, including through further outsourcing, off-shoring, commoditisation and ongoing reduction in the number of IT systems. These changes create risk with regard to the delivery of IT services, the availability of IT systems and the scope and nature of the functionality offered by IT systems. The Group has strengthened the security clauses in supplier contracts, has increased the compliance reviews for those contracts (internally and externally) and has instigated more reviews on key suppliers with regard to information security. However these measures may prove to be insufficient or unsuccessful.

If the Group is unable to ensure effective supply chain management, for example, through an interruption of its supply chain, including the inability of third parties to deliver parts, components and services on time, and if it is subject to rising raw material prices, it may be unable to sustain its competitiveness in its markets

The Group is continuing the process of creating a leaner supply base with fewer suppliers, while maintaining dual/multiple sourcing strategies where possible. This strategy very much requires close cooperation with suppliers to enhance, among other things, time to market and quality. In addition, the Group is continuing its initiatives to replace internal capabilities with less costly outsourced products and services. These processes may result in increased dependency on external suppliers and providers. Although the Group works closely with its suppliers to avoid supply-related problems, there can be no assurance that it will not encounter supply problems in the future or that it will be able to replace a supplier that is not able to meet its demand sufficiently quickly to avoid disruptions.

Shortages or delays could materially harm the Group’s business. Most of the Group’s activities are conducted outside of the Netherlands, and international operations bring challenges. For example, the Group depends partly on the production and procurement of products and parts from Asian countries, and this constitutes a risk that production and shipping of products and parts could be interrupted by regional conflicts, a natural disaster or extreme weather events resulting from climate change. A general shortage of materials, components or subcomponents as a result of natural disasters also poses the risk of unforeseeable fluctuations in prices and demand, which could have a material adverse effect on the Group’s financial condition and operating results.

The Group purchases raw materials, including so-called rare earth metals, copper, steel, aluminium, noble gases and oil-related products, which exposes it to fluctuations in energy and raw material prices. In recent times, commodities have been subject to volatile markets, and such volatility is expected to continue. If the Group is not able to compensate for increased costs or pass them on to customers, price increases could have a material adverse impact on the Group’s results. In contrast, in times of falling commodity prices, the Group may not fully benefit from such price decreases, since the Group attempts to reduce the risk of rising commodity prices by several means, including long-term contracting or physical and financial hedging.

Failure to drive operational excellence and productivity in the Group’s solution and product creation process and/or increased speed in innovation-to-market could hamper the Group’s profitable growth ambitions

Further improvements in the Group’s solution and product creation process, ensuring timely delivery of new solutions and products at lower cost and improvement in customer service levels to create sustainable competitive advantages, are important in realising the Group’s profitable growth ambitions. The emergence of new low-cost competitors, particularly in Asia, further underlines the importance of improvements in the product creation process. The success of new solution and product creation, however, depends on a number of factors, including timely and successful completion of development efforts, market acceptance, the Group’s ability to manage the risks associated with new products and production ramp-up issues, the ability of the Group to attract and retain employees with the appropriate skills, the availability of products in the right quantities and at appropriate costs to meet anticipated demand and the risk that new products and services may have quality or other defects in the early stages of introduction. Accordingly, the Group cannot determine in advance the ultimate effect that new solutions and product creations will have on its financial condition and operating results. If the Group fails to create and commercialise products or fails to ensure that end user insights are translated into solution and product creations that improve product mix and consequently contribution, it may lose its market share and competitiveness, which could have a material adverse effect on its financial condition and operating results.

Because the Group is dependent on its personnel for leadership and specialised skills, the loss of its ability to attract and retain such personnel would have an adverse effect on its business
The attraction and retention of talented employees in sales and marketing, research and development, finance and general management, as well as of highly specialised technical personnel, especially in transferring technologies to low-cost countries, is critical to the Group’s success particularly in times of economic recovery. The loss of specialised skills could also result in business interruptions. There can be no assurance that the Group will be successful in attracting and retaining highly qualified employees and key personnel needed in the future.

**Risk of unauthorised use of IP rights**

The Group produces and sells products and services which incorporate technology protected by IP rights. The Group develops and acquires IP rights on a regular basis. The Group is exposed to the risk that a third party may claim to own the IP rights on technology applied in Group products and services and that in the event that their claims of infringement of these IP rights are successful, they may be entitled to damages and the Group could incur a fine.

**Any damage to the Group’s reputation could have an adverse effect on its businesses and brand**

The Group is exposed to developments which could affect its reputation. Such developments could be of an environmental or social nature, connected to the behaviour of individual employees or suppliers, or could relate to adherence to regulations related to, for example, labour, human rights, health and safety, environmental and chemical management. Reputational damage could materially impact the Group’s brand value, financial condition and operating results.

**Legal and Compliance Risks**

**The Group is exposed to non-compliance with product safety laws, good manufacturing practices and data privacy**

The Group’s brand image and reputation would be adversely impacted by non-compliance with various product safety laws, good manufacturing practices and data protection. In light of the Group’s digital strategy, data privacy laws are increasingly important. Also, the Group’s diagnosis and treatment segment (“Diagnosis & Treatment”) and connected care and health informatics segment (“Connected Care & Health Informatics”) are subject to various (patient) data protection and safety laws. In Diagnosis & Treatment and Connected Care & Health Informatics, privacy and product safety and security issues may arise, especially with respect to remote access or monitoring of patient data or loss of data on the Group’s customers’ systems. The Group is exposed to the risk that its products, including components or materials procured from suppliers, may prove to be not compliant with safety laws, for example, chemical safety regulations. Such non-compliance could result in a ban on the sale or use of these products.

The Group operates in a highly regulated product safety and quality environment. The Group’s products are subject to regulation (for example, the new EU Medical Devices Regulation (EU) 2017/745) by various government agencies, including the U.S. Food and Drug Administration (“FDA”) and comparable foreign agencies (for example, China Food and Drug Administration (“CFDA China”), Medicines & Healthcare Products Regulatory Agency, Agence Nationale de Sécurité du Médicament et des Produits de Santé, Federal Institute for Drugs and Medical Devices and Dutch Health Care Inspectorate). Obtaining their approval is costly and time consuming, but is a prerequisite for introducing products in the market. A delay or inability to obtain the necessary regulatory approvals for new products could have a material adverse effect on business. The risk exists that product safety incidents or user concerns could trigger FDA business reviews which, if failed, could lead to business interruption which in turn could adversely affect the Group’s financial condition and operating results.

**The Group’s global presence exposes the Issuer to regional and local regulatory rules, changes to which may affect the realisation of business opportunities and investments in the countries in which the Group operates**

The Group has established subsidiaries in over 80 countries. These subsidiaries are exposed to changes in governmental regulations and unfavourable political developments, which may affect the realisation of business opportunities or impair the Group’s local investments. The Group’s increased focus on the healthcare sector increases its exposure to highly regulated markets, where obtaining clearances or approvals for new products is of great importance, and where there is a dependency on the available funding for healthcare systems. In addition, changes in government reimbursement policies may affect spending on healthcare.
The Group is exposed to governmental investigations and legal proceedings with regard to possible anticompetitive market practices

National and European authorities are focused on possible anti-competitive market practices. The Group’s financial position and results could be materially affected by an adverse final outcome of governmental investigations and litigation, as well as any potential related claims. In the past, the Group has been subject to such investigations, litigation and related claims. See “Description of the Issuer and the Group—Legal and Arbitration Proceedings”.

Legal proceedings covering a range of matters are pending in various jurisdictions against the Group and its current and former group companies. Due to the uncertainty inherent in legal proceedings, it is difficult to predict the final outcome

The Group, including a certain number of its current and former group companies, is involved in legal proceedings relating to such matters as competition issues, commercial transactions, product liability, participations and environmental pollution. Since the ultimate outcome of asserted claims and proceedings, or the impact of any claims that may be asserted in the future, cannot be predicted with certainty, the Group’s financial position and results of operations could be affected materially by adverse outcomes. See “Description of the Issuer and the Group—Legal and Arbitration Proceedings”.

The Group is exposed to non-compliance with business conduct rules and regulations

The Group’s attempts to realise its growth ambitions could expose it to the risk of non-compliance with business conduct rules and regulations, such as anti-bribery provisions. This risk is heightened in growth geographies as the legal and regulatory environment is less developed in growth geographies compared to mature geographies. Examples include commission payments to third parties, remuneration payments to agents, distributors, consultants and the like, and the acceptance of gifts, which may be considered in some markets to be normal local business practice.

Defective internal controls would adversely affect the Group’s financial reporting and management process

The reliability of reporting is important in ensuring that management decisions for steering the businesses and managing both top-line and bottom-line growth are based on reliable data. Flaws in internal control systems could adversely affect the financial position and results and hamper expected growth.

Accurate disclosures provide investors and other market professionals with significant information for a better understanding of the Group’s businesses. Imperfections or lack of clarity in disclosures could create market uncertainty regarding the reliability of the data presented and could have a negative impact on the Issuer’s share price.

The reliability of revenue and expenditure data is key for steering the business and for managing top-line and bottom-line growth. The long lifecycle of healthcare sales, from order acceptance to accepted installation, together with the complexity of the accounting rules for when revenue can be recognised in the accounts, presents a challenge in terms of ensuring there is consistency of application of the accounting rules throughout the Group’s global business.

Financial Risks

The Group is exposed to a variety of treasury risks and other financial risks including liquidity risk, currency risk, interest rate risk, commodity price risk, credit risk, country risk and other insurable risk

Negative developments impacting the liquidity of global capital markets could affect the ability of the Issuer to raise or re-finance debt in the capital markets or could lead to significant increases in the cost of such borrowing in the future. If the markets expect a downgrade or downgrades by the rating agencies or if such a downgrade has actually taken place, this could increase the cost of borrowing, reduce the Issuer’s potential investor base and adversely affect the Group’s business.

The Group operates in over 100 countries and its earnings and equity are therefore inevitably exposed to fluctuations in exchange rates of foreign currencies against the euro. The Group’s sales are sensitive in particular to movements in the U.S. dollar, Japanese yen and a wide range of other currencies from developed and emerging markets. The Group’s sourcing and manufacturing spend is concentrated in the Eurozone, the United States and China. Income from operations is particularly sensitive to movements in currencies from countries where the Group has no
managing/sourcing activities or only has manufacturing/sourcing activities on a small scale such as Japan, Canada, Australia and the U.K. and in a range of emerging markets such as Russia, Korea, Indonesia, India and Brazil.

The credit risk of financial and non-financial counterparties with outstanding payment obligations creates exposures for the Group, particularly in relation to accounts receivable with customers and liquid assets and fair values of derivatives and insurance receivables contracts with financial counterparties. A default by counterparties in such transactions can have a material adverse effect on the Group’s financial condition and operating results.

The Group is exposed to interest rate risk, particularly in relation to its long-term debt position; this risk can take the form of either fair value or cash flow risk. Failure to effectively hedge this risk can impact the Group’s financial condition and operating results.

The Group is exposed to tax risks, which could have a significant adverse financial impact

The Group is exposed to tax risks, which could result in double taxation, penalties and interest payments. The source of the risks could lie in local tax rules and regulations as well as in the international and EU regulatory frameworks. These include transfer pricing risks on cross-border deliveries of goods and services to related parties, tax risks related to acquisitions, divestments, permanent establishments, tax loss, interest and tax credits carried forward, and potential changes in tax law that could result in higher tax expenses and payments. The risks may have a significant impact on local financial tax results which in turn could adversely affect the Group’s financial condition and operating results.

The value of the deferred tax assets, such as tax losses carried forward, is subject to availability of sufficient taxable income within the tax loss-carry-forward period, or within the foreseeable future in the case of tax losses carried forward with an indefinite carry-forward period. The ultimate realisation of the Group’s deferred tax assets, including tax losses and tax credits carried forward, is dependent upon the generation of future taxable income in the countries where the temporary differences, unused tax losses and unused tax credits were incurred and upon periods during which the deferred tax assets become deductible. Additionally, in certain instances, realisation of such deferred tax assets is dependent upon the successful execution of tax planning strategies. Accordingly, there can be no assurance that all deferred tax assets, such as (net) tax losses and credits carried forward will be realised.

The U.S. Tax Cuts and Jobs Act, enacted in December 2017, has both positive and negative consequences for the Group. The Group has significant tax assets and liabilities in the U.S. as it is an important market for the Group with substantial sales, manufacturing sites and material acquisitions during the past few years. The U.S. Tax Cuts and Jobs Act introduced complex new rules, and further clarifications and guidance by the U.S. authorities are anticipated. These could have a significant financial impact for which the Group will continue monitoring and analysing any updated guidance.

Changes to taxation or the interpretation or application of tax laws could have an adverse impact on the Group’s results of operations and financial condition

The Group’s business is subject to various taxes in the Netherlands and elsewhere as it operates on a global basis. The various taxes to which the Group is subject include, among others, corporate income tax, regional trade tax, value added tax (“VAT”), excise duty, registration tax and other direct and indirect taxes. This exposes the Group to the risk that the overall tax burden that it suffers may increase in the future. Also, as a global business, the Group’s effective average tax rate from period to period will be affected by many factors, including changes in tax legislation, global mix of earnings, the tax characteristics of the Group’s income, the timing and recognition of goodwill impairments, acquisitions and dispositions and adjustments to the Group’s reserves related to uncertain tax positions.

Changes in tax laws or regulations or in the position of the relevant tax authorities regarding the application, administration or interpretation of these laws or regulations, particularly if applied retrospectively, could have negative effects on the Group’s current business model and have a material adverse effect on the Group’s operating results, business and financial condition.

In addition, tax laws are complex and subject to subjective evaluations and interpretative decisions, and the Group will periodically be subject to tax audits aimed at assessing its compliance with direct and indirect taxes. The tax authorities may not agree with the Group’s interpretations of, or with the positions the Group has taken or intends to take on, tax laws applicable to its ordinary activities and extraordinary transactions. In case of challenges by the tax authorities to the Group’s interpretations, the Group could face long tax proceedings that could result in the payment of penalties and have a material adverse effect on the Group’s operating results, business and financial condition.
The Group has defined-benefit pension plans and other post-retirement plans in a number of countries. The funded status and the cost of maintaining these plans are influenced by movements in financial market and demographic developments, creating volatility in the Group’s financials

A significant proportion of (former) employees in Europe and North and Latin America is covered by defined-benefit pension plans and other post-retirement plans. The accounting for such plans requires management to make estimates on assumptions such as discount rates, inflation, longevity, expected cost of medical care and expected rates of compensation. Movements (for example, due to the movements of financial markets) in these assumptions can have a significant impact on the defined benefit obligations and net interest cost. A negative performance of the financial markets could have a material impact on cash funding requirements and net interest cost and also affect the value of certain financial assets and liabilities of the Group.

The Group is exposed to uncertainty on the timing and proceeds of a sale of Philips Lighting

In 2016, the Group separated its lighting (“Lighting”) business and on 27 May 2016, Philips Lighting was listed on the Amsterdam Stock Exchange. Since then, Philips Lighting has operated as a separate listed company. The Group has subsequently sold a substantial part of its ownership in Philips Lighting and deconsolidated Philips Lighting in 2017. The Group’s overall objective is to fully divest its ownership of Philips Lighting. The nature or form, timing and the level of proceeds from this divestment process are uncertain. The timing and level of proceeds will depend on general market conditions and investor appetite for companies of this size and nature. The Group no longer has control over Philips Lighting and has deconsolidated the assets, liabilities and financial results of Philips Lighting. While the Group holds Philips Lighting as an asset held for sale, the Group’s earnings will be affected by changes in the fair value of Philips Lighting.

The Group is exposed to a number of financial reporting risks, i.e. the risk of material misstatements or errors in its financial reporting

A risk rating is assigned for each risk identified, based on the likelihood of occurrence and the potential impact of the risk on the financial statements and related disclosures. In determining the probability that a risk will result in a misstatement of a more than inconsequential amount or of a material nature, the following factors are considered to be critical: complexity of the associated accounting activity or transaction process, history of accounting and reporting errors, likelihood of significant (contingent) liabilities arising from activities, exposure to losses, existence of a related party transaction, volume of activity and homogeneity of the individual transactions processed, and changes in accounting characteristics in the prior period compared to the period before that.

The Issuer considers that reporting risk is closely related to the use of estimates and application of judgment. The areas where the most significant judgments and estimates are made are goodwill, deferred tax asset recoverability, impairments, financial instruments, the accounting for an arrangement containing a lease, revenue recognition (multiple element arrangements), assets and liabilities from employee benefit plans, tax risks and other contingencies, classification of assets and liabilities held for sale and the presentation of items of profit and loss and cash flow as continued or discontinued, as well as determining the fair value of acquired identifiable intangible assets based on an assessment of future cash flows.

Factors which are material for the purpose of assessing the risks associated with the Notes

The Issuer is a holding company

The Issuer is a holding company and the operations of the Group are carried out through its subsidiaries and, to such extent, the Issuer depends on the earnings and cash flows of, and the distribution of funds from, these subsidiaries to meet its debt obligations, including its obligations with respect to the Notes. Generally, creditors of a subsidiary, including trade creditors, secured creditors and creditors holding indebtedness and guarantees issued by the subsidiary, will have a claim over the assets of that subsidiary before any of those assets can be distributed to shareholders upon liquidation or winding up. As a result, the Issuer’s obligations in respect of the Notes will, to the extent described above, effectively be subordinated to the prior payment of all the debts and other liabilities of the Issuer’s direct and indirect subsidiaries, including the rights of trade creditors, secured creditors and creditors holding indebtedness and guarantees issued by the subsidiaries, all of which could be substantial.
The conditions of the Notes may be modified and/or the Issuer may be substituted

The Conditions of the 2024 Notes and the Conditions of the 2028 Notes contain provisions for calling meetings of the relevant class of Noteholders to consider matters affecting their interests generally. These provisions permit defined majorities to bind all Noteholders including Noteholders who did not attend and vote at the relevant meeting and Noteholders who voted in a manner contrary to the majority.

The Conditions of the 2024 Notes and the Conditions of the 2028 Notes also provide that the Trustee may, without the consent of the relevant class of Noteholders, agree to (i) certain modifications of, or to the waiver or authorisation of any breach or proposed breach of, any of the provisions of Notes, the Trust Deed or the Agency Agreement, or (ii) determine without the consent of the Noteholders that any Event of Default or potential Event of Default shall not be treated as such, in the circumstances described in Condition 13 (Meetings of Noteholders, Modification, Waiver, Authorisation and Determination, Substitution) of the 2024 Notes and Condition 13 (Meetings of Noteholders, Modification, Waiver, Authorisation and Determination, Substitution) of the 2028 Notes.

The Conditions of the 2024 Notes and the Conditions of the 2028 Notes also provide for the substitution of another entity in place of the Issuer without the consent of the relevant Noteholders (subject to certain conditions as referred to therein). See Condition 13 (Meetings of Noteholders, Modification, Waiver, Authorisation and Determination, Substitution) of the 2024 Notes and Condition 13 (Meetings of Noteholders, Modification, Waiver, Authorisation and Determination, Substitution) of the 2028 Notes.

The Notes do not restrict the amount of debt which the Issuer may incur

The Conditions of the 2024 Notes and the Conditions of the 2028 Notes do not contain any restriction on the amount of indebtedness which the Issuer and its subsidiaries may from time to time incur. In the event of any insolvency or winding-up of the Issuer, the Notes will rank equally with the Issuer’s other unsecured senior indebtedness and, accordingly, any increase in the amount of the Issuer’s unsecured senior indebtedness in the future may reduce the amount recoverable by Noteholders. In addition, the Notes are unsecured and, save as provided in Condition 3 (Negative Pledge) of the 2024 Notes and Condition 3 (Negative Pledge) of the 2028 Notes, do not contain any restriction on the giving of security by the Issuer and its subsidiaries over present and future indebtedness. Where security has been granted over assets of the Issuer to secure indebtedness, in the event of any insolvency or winding-up of the Issuer, subject to Condition 3 (Negative Pledge) of the 2024 Notes and Condition 3 (Negative Pledge) of the 2028 Notes, such indebtedness will rank in priority over the Notes and other unsecured indebtedness of the Issuer in respect of such assets. In relation to the assets and indebtedness of the Issuer's subsidiaries, see also “The Issuer is a holding company” above.

The Notes may be redeemed prior to maturity

The Notes contain an optional redemption feature, as set out in Condition 6.3 (Redemption at the option of the Issuer) of the 2024 Notes and Condition 6.3 (Redemption at the option of the Issuer) of the 2028 Notes, which is likely to limit their market value. During any period when the Issuer may elect to redeem the Notes, the market value of the Notes generally will not rise substantially above the price at which they can be redeemed. This also may be true prior to any redemption period.

The Issuer may be expected to redeem the Notes when its cost of borrowing is lower than the interest rate on the Notes. At those times, an investor generally would not be able to reinvest the redemption proceeds at an effective interest rate as high as the interest rate on the Notes being redeemed and may only be able to do so at a significantly lower rate.

In addition, in the event that the Issuer would be obliged to increase the amounts payable in respect of any Notes due to any withholding or deduction for, or on account of, any present or future taxes, duties, assessments or governmental charges of whatsoever nature imposed, levied, collected, withheld or assessed by or on behalf of the Netherlands or any political subdivision thereof or any authority therein or thereof having power to tax, the Issuer may redeem all outstanding Notes in accordance with the Notes.

If the Issuer calls and redeems the Notes in the circumstances mentioned above, the Noteholders may not be able to reinvest the redemption proceeds in securities offering a comparable yield. Potential investors should consider reinvestment risk in light of other investments available at that time.
Changes in the Group’s credit ratings and/or the credit ratings assigned to the Notes could adversely affect the value of the Notes

Any of the rating agencies that rate the debt of the Group, including the Notes, has the ability to lower the ratings currently assigned to that debt as a result of its views about the Group’s current or future business, financial condition, results of operations or other matters. Any ratings decline could adversely affect the value of the Notes. In addition, the credit ratings ascribed to the Notes are intended to reflect the Issuer’s ability to meet its repayment obligations in respect of the Notes, and may not reflect the potential impact of all risks related to the structure, the market, the Group and other factors on the value of the Notes. A credit rating is not a recommendation to buy, sell or hold securities and may be subject to revision or withdrawal at any time by the assigning rating organisation. Each rating should be evaluated independently of any other rating.

No assurance can be given as to the impact of any change of law

The Conditions of the 2024 Notes and the Conditions of the 2028 Notes are based on English law in effect as at the date of this Prospectus. No assurance can be given as to the impact of any possible judicial decision or change to English law or administrative practice after the date of this Prospectus. In addition, any change in law or regulation that obliges the Issuer to increase the amount payable in respect of the Notes for withholding or other taxes may entitle the Issuer to redeem the Notes. See “The Notes may be redeemed prior to maturity” above.

Because the Global Notes are held by or on behalf of Euroclear and Clearstream, Luxembourg, investors will have to rely on their procedures for transfer, payment and communication with the Issuer

The Notes will be represented by the Global Notes except in certain limited circumstances described in the relevant Permanent Global Note. The Global Notes will be deposited with a common safekeeper for Euroclear and Clearstream, Luxembourg. Except in certain limited circumstances described in the relevant Permanent Global Note, investors will not be entitled to receive definitive Notes. Euroclear and Clearstream, Luxembourg will maintain records of the beneficial interests in the Global Notes and, while the Notes are represented by the Global Notes, investors will be able to trade their beneficial interests only through Euroclear and Clearstream, Luxembourg.

The Issuer will discharge its payment obligations under the Notes by making payments to or to the order of the common safekeeper for Euroclear and Clearstream, Luxembourg for distribution to their account holders. A holder of a beneficial interest in a Global Note must rely on the procedures of Euroclear and Clearstream, Luxembourg to receive payments under the Notes. The Issuer has no responsibility or liability for the records relating to, or payments made in respect of, beneficial interests in the Global Notes.

Holders of beneficial interests in the Global Notes will not have a direct right to vote in respect of the Notes. Instead, such holders will be permitted to act only to the extent that they are enabled by Euroclear and Clearstream, Luxembourg to appoint appropriate proxies.

Denominations involve integral multiples: definitive Notes

The Notes have denominations consisting of a minimum specified denomination of €100,000 plus one or more higher integral multiples of €1,000 in excess thereof up to and including €199,000 as set out in Condition 1 (Form, Denomination and Title) of the 2024 Notes and Condition 1 (Form, Denomination and Title) of the 2028 Notes and as such it is possible that the Notes may be traded in amounts in excess of the minimum specified denomination that are not integral multiples of such minimum specified denomination. In such a case a holder who, as a result of trading such amounts, holds an amount which is less than the minimum specified denomination in his account with the relevant clearing system would not be able to sell the remainder of such holding without first purchasing a principal amount of Notes at or in excess of the minimum specified denomination such that its holding amounts to a specified denomination. Further, a holder who, as a result of trading such amounts, holds an amount which is less than the minimum specified denomination in his account with the relevant clearing system at the relevant time may not receive a definitive Note in respect of such holding (should definitive Notes be printed) and would need to purchase a principal amount of Notes at or in excess of the minimum specified denomination such that its holding amounts to a specified denomination.

If such Notes in definitive form are issued, holders should be aware that definitive Notes which have a denomination that is not an integral multiple of the minimum specified denomination may be illiquid and difficult to trade.
An active secondary market in respect of the Notes may never be established or may be illiquid and this would adversely affect the value at which an investor could sell its Notes

The Notes are new securities which may not be widely distributed and for which there is currently no active trading market. If the Notes are traded after their initial issuance, they may trade at a discount to their initial offering price, depending upon prevailing interest rates, the market for similar securities, general economic conditions and the financial condition of the Issuer. Although applications have been made for the Notes to be admitted to listing on the Official List of the Luxembourg Stock Exchange and to trading on the Luxembourg Stock Exchange's regulated market, there is no assurance that an active trading market will develop, and if a market does develop, it may not be liquid. Therefore, investors may not be able to sell their Notes easily or at prices that will provide them with a yield comparable to similar investments that have a developed secondary market. In addition, liquidity may be limited if the Notes are allocated to a limited number of investors.

The Notes are subject to exchange rate risks and exchange controls

The Issuer will pay principal and interest on the Notes in euro. This presents certain risks relating to currency conversions if an investor’s financial activities are denominated principally in a currency or currency unit (the “Investor’s Currency”) other than the euro. These include the risk that exchange rates may significantly change (including changes due to devaluation of the euro or revaluation of the Investor’s Currency) and the risk that authorities with jurisdiction over the Investor’s Currency may impose or modify exchange controls. An appreciation in the value of the Investor’s Currency relative to the euro would decrease (i) the Investor’s Currency-equivalent yield on the Notes, (ii) the Investor’s Currency-equivalent value of the principal payable on the Notes, and (iii) the Investor’s Currency-equivalent market value of the Notes.

Government and monetary authorities may impose (as some have done in the past) exchange controls that could adversely affect an applicable exchange rate. As a result, investors may receive less interest or principal than expected, or no interest or principal.

The Notes are subject to interest rate risks

Investment in the Notes, which bear a fixed rate of interest, involves the risk that if market interest rates subsequently increase above the rate paid on the Notes, this will adversely affect the value of the Notes. While the nominal interest rate of a security with a fixed interest rate is fixed during the life of such security or during a certain period of time, market interest rates typically change on a daily basis. As market interest rates change, the price of such security changes in the opposite direction. If market interest rates increase, the price of such security typically falls, until the yield of such security is approximately equal to the prevailing market interest rate. Conversely, if market interest rates fall, the price of a security with a fixed interest rate typically increases, until the yield of such security is approximately equal to the prevailing market interest rate. Investors should be aware that the market price of the Notes may fall as a result of movements in market interest rates.

Legal investment considerations may restrict certain investments

The investment activities of certain investors are subject to legal investment laws and regulations, or review or regulation by certain authorities. Each potential investor should consult its legal advisers to determine whether and to what extent (i) the Notes are legal investments for it, (ii) the Notes can be used as collateral for various types of borrowing, and (iii) other restrictions apply to its purchase or pledge of the Notes. Financial institutions should consult their legal advisors or the appropriate regulators to determine the appropriate treatment of the Notes under any applicable risk-based capital or similar rules.

The Notes may not, or may cease to, satisfy the criteria to be recognised as eligible collateral for the Eurosystem

The Notes are issued in new global note form. The new global note form has been introduced to allow for the possibility of debt instruments being issued and held in a manner which will permit them to be recognised as eligible collateral for monetary policy of the Eurosystem and intra-day credit operations by the Eurosystem upon issue or at any or all times during their existence. However, in any particular case such recognition will depend upon satisfaction of the Eurosystem eligibility criteria at the relevant time and the Notes may not, or may cease to, qualify as eligible collateral for the Eurosystem. Investors should make their own assessment as to whether the Notes meet such Eurosystem eligibility criteria.
Payments under the Notes may become subject to Dutch withholding tax as a result of new Dutch legislation

Under current law, payments under the Notes are not subject to withholding tax in the Netherlands. In the 2017 Dutch Coalition Agreement dated 10 October 2017 (Regeerakkoord 2017 “Vertrouwen in de toekomst”), it was announced that the Netherlands will introduce a new withholding tax on interest paid to low-taxed jurisdictions and in abusive situations. In a letter to the Dutch parliament dated 23 February 2018 (the “Letter”), the Under Secretary of Finance announced that it is intended for the withholding tax on interest to be effective from 2021 and that a proposal of law to that effect will be submitted to the Dutch parliament in 2019. The Letter mentions that the withholding tax will only be applicable to interest paid within a group to entities that are resident in a jurisdiction with a low statutory rate or a jurisdiction that is included in the EU list of non-cooperative jurisdictions. However, the exact scope of the legislation to be proposed is not yet known and, accordingly, the possibility that payments under the Notes will become subject to Dutch withholding tax cannot be excluded. If payments under the Notes become subject to Dutch withholding tax under the proposed legislation, the Issuer may be required to pay additional amounts (as set out in Condition 7.1 (Payment without Withholding) of the 2024 Notes and Condition 7.1 (Payment without Withholding) of the 2028 Notes) in which case the Issuer will be entitled to redeem the Notes (as set out in Condition 6.2 (Redemption for Taxation Reasons) of the 2024 Notes and Condition 6.2 (Redemption for Taxation Reasons) of the 2028 Notes).
INFORMATION INCORPORATED BY REFERENCE

The information set out below which has previously been published or is published simultaneously with this Prospectus and has been filed with the CSSF, shall be incorporated by reference in, and form part of, this Prospectus.

Any non-incorporated parts of a document referred to herein are either deemed not relevant for an investor or are otherwise covered elsewhere in this Prospectus.

(a) The audited consolidated financial statements of the Group as of and for the financial years ended 31 December 2017 and 2016 (including consolidated statements of income, consolidated statements of comprehensive income, consolidated balance sheets, consolidated statements of cash flows, consolidated statements of changes in equity and notes to the consolidated financial statements).

(i) The Group’s audited consolidated financial statements as of and for the financial year ended 31 December 2017 are set out on the following pages of the Annual Report 2017:

TERMS AND CONDITIONS OF THE 2024 NOTES

The following is the text of the Terms and Conditions of the 2024 Notes which (subject to modification) will be endorsed on each 2024 Note in definitive form (if issued):

The €500,000,000 0.750 per cent. Notes due 2024 (the “Notes”, which expression shall in these terms and conditions (the “Conditions”), unless the context otherwise requires, include any further notes issued pursuant to Condition 15 (Further Issues) and forming a single series with the Notes) of Koninklijke Philips N.V. (the “Issuer”) are constituted by a trust deed dated 2 May 2018 (as amended or supplemented from time to time, the “Trust Deed”) made between the Issuer and Citicorp Trustee Company Limited as trustee (the “Trustee”, which expression shall include its successor(s)) as trustee for the holders of the Notes (the “Noteholders”) and the holders of the interest coupons appertaining thereto (the “Couponholders” and the “Coupons” respectively)) and are the subject of an agency agreement dated 2 May 2018 (as amended or supplemented from time to time, the “Agency Agreement”) made between the Issuer, Citibank, N.A., London Branch as principal paying agent (the “Principal Paying Agent” and, together with any other agents appointed in accordance with such agreement, the “Paying Agents”, which expression shall include any successor(s)), Citibank, N.A., London Branch as calculation agent (the “Calculation Agent”) and the Trustee.

Certain provisions of these Conditions are summaries or, any are subject to, the detailed provisions of and definitions in the Trust Deed and the Agency Agreement. The Noteholders and the Couponholders are entitled to the benefit of, are bound by, and are deemed to have notice of, all the provisions of the Trust Deed and the Agency Agreement applicable to them.

Copies of the Trust Deed and the Agency Agreement are available for inspection during normal business hours by the Noteholders and the Couponholders at the principal office for the time being of the Trustee, being at the date of issue of the Notes at Citigroup Centre, Canada Square, Canary Wharf, London E14 5LB and at the specified office of each of the Paying Agents.

1. FORM, DENOMINATION AND TITLE

1.1 Form and Denomination

The Notes are in bearer form, serially numbered, in the denominations of €100,000 and integral multiples of €1,000 in excess thereof up to and including €199,000 each with Coupons attached on issue. Notes of one denomination may not be exchanged for Notes of another denomination.

1.2 Title

Title to the Notes and to the Coupons will pass by delivery.

Notes shall not be physically delivered in Belgium except to a clearing system, a depositary or other institution for the purpose of their immobilisation in accordance with article 4 of the Belgian Law of 14 December 2005.

1.3 Holder Absolute Owner

The Issuer, any Paying Agent and the Trustee will (except as ordered by a court of competent jurisdiction or as otherwise required by law) deem and treat the bearer of any Note or Coupon as the absolute owner for all purposes (whether or not the Note or Coupon shall be overdue and notwithstanding any notice of ownership or writing on the Note or Coupon or any notice of previous loss or theft of the Note or Coupon) and shall not be required to obtain any proof thereof or as to the identity of such bearer and no person shall be liable for so treating the bearer.

2. STATUS

The Notes and the Coupons are direct, unconditional and (subject to the provisions of Condition 3 (Negative Pledge)) unsecured obligations of the Issuer and (subject as provided above) rank and will rank pari passu,
without any preference among themselves, with all other outstanding unsecured and unsubordinated obligations of the Issuer, present and future, but, in the event of insolvency, only to the extent permitted by applicable laws relating to creditors’ rights.

3. **NEGATIVE PLEDGE**

So long as any Note remains outstanding (as defined in the Trust Deed), the Issuer shall not create or permit to subsist any mortgage, charge, pledge, lien or other security interest upon the whole or any part of its present or future undertaking, assets or revenues (including uncalled capital) to secure any Relevant Indebtedness (as defined below) or any guarantee of Relevant Indebtedness, without:

(a) at the same time or prior thereto ensuring that the Issuer’s obligations under the Notes are secured equally and rateably therewith to the satisfaction of the Trustee; or

(b) providing such other guarantee or other arrangement (whether or not comprising security) as the Trustee may in its absolute discretion consider to be not materially less beneficial to the interests of the Noteholders or as may be approved by an Extraordinary Resolution (as defined in the Trust Deed).

In this Condition 3 (Negative Pledge):

“Relevant Indebtedness” means any indebtedness which is in the form of or represented by any bond, note, debenture, debenture stock, loan stock, certificate or other debt security which is, or is intended to be, listed, quoted or traded on any stock exchange or on any other recognised securities market (including, without limitation, any over-the-counter securities market).

4. **INTEREST**

4.1 **Accrual of interest**

The Notes bear interest on their outstanding principal amount from and including 2 May 2018 at the rate of 0.750 per cent. per annum, payable annually in arrear on 2 May in each year (each an “Interest Payment Date”), subject to Condition 5 (Payments), commencing on 2 May 2019.

The amount of interest payable on each Interest Payment Date shall be €7.50 per €1,000 of outstanding principal amount (the “Calculation Amount”) of the Notes. Each Note will cease to bear interest from and including its due date for redemption unless, upon due presentation, payment of the principal in respect of the Note is improperly withheld or refused or unless default is otherwise made in respect of payment. In such event interest will continue to accrue in respect of the principal amount of, and any unpaid amounts on, the Notes, both before and after judgment, as provided in the Trust Deed.

4.2 **Calculation of Broken Interest**

When interest is required to be calculated in respect of an interest payment on a date other than an Interest Payment Date, it shall be calculated by applying the rate of 0.750 per cent. per annum to each Calculation Amount and on the basis of (a) the actual number of days in the period from and including the date from which interest begins to accrue (the “Accrual Date”) to but excluding the date on which it falls due divided by (b) the actual number of days from and including the Accrual Date to but excluding the next following Interest Payment Date. The resultant figure shall be rounded to the nearest cent, half a cent being rounded upwards. The interest payable in respect of a Note shall be the product of such rounded figure and the amount by which the Calculation Amount is multiplied to reach the denomination of the relevant Note, without any further rounding.

5. **PAYMENTS**

5.1 **Payments in respect of Notes**

Payments of principal and interest in respect of each Note will be made against presentation and surrender (or, in the case of part payment only, endorsement) of the Note, except that payments of interest due on an Interest
Payment Date will be made against presentation and surrender (or, in the case of part payment only, endorsement) of the relevant Coupon, in each case at the specified office outside the United States of any of the Paying Agents.

5.2 Method of Payment

Payments will be made by credit or transfer to a euro account (or any other account to which euro may be credited or transferred) specified by the payee with a bank in a city in which banks have access to the TARGET2 system.

5.3 Missing Unmatured Coupons

Each Note should be presented for payment together with all relative unmatured Coupons, failing which the full amount of any relative missing unmatured Coupon (or, in the case of payment not being made in full, that proportion of the full amount of the missing unmatured Coupon which the amount so paid bears to the total amount due) will be deducted from the amount due for payment. Each amount so deducted will be paid in the manner mentioned above against presentation and surrender (or, in the case of part payment only, endorsement) of the relative missing Coupon at any time before expiry of 10 years after the Relevant Date (as defined in Condition 7 (Taxation)) in respect of the relevant Note (whether or not the Coupon would otherwise have become void pursuant to Condition 8 (Prescription)).

5.4 Payments subject to applicable laws

Payments in respect of principal and interest on the Notes are subject in all cases to any fiscal or other laws and regulations applicable in the place of payment, but without prejudice to the provisions of Condition 7 (Taxation).

5.5 Payment only on a Presentation Date

A holder shall be entitled to present a Note or Coupon for payment only on a Presentation Date and shall not, except as provided in Condition 4 (Interest), be entitled to any further interest or other payment if a Presentation Date is after the due date for payment.

In this Condition 5 (Payments):

“Presentation Date” means a day which (subject to Condition 8 (Prescription)):

(a) is or falls after the relevant due date;

(b) is a Business Day in the place of the specified office of the Paying Agent at which the Note or Coupon is presented for payment; and

(c) in the case of payment by credit or transfer to a euro account as referred to above, is a TARGET2 Settlement Day.

“Business Day” means, in relation to any place, a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealing in foreign exchange and foreign currency deposits) in that place and “TARGET2 Settlement Day” means any day on which the Trans-European Automated Real-Time Gross Settlement Express Transfer (“TARGET2”) System is open.

5.6 Initial Paying Agents

The names of the initial Paying Agents and their initial specified offices are set out at the end of these Conditions. The Issuer reserves the right, subject to the prior written approval of the Trustee, at any time to vary or terminate the appointment of any Paying Agent and to appoint additional or other Paying Agents provided that:

(a) there will at all times be a Principal Paying Agent;
(b) so long as the Notes are listed on any stock exchange or admitted to listing by any other relevant authority, there will at all times be at least one Paying Agent (which may be the Principal Paying Agent) having a specified office in any place required by the rules and regulations of the relevant Stock Exchange or any other relevant authority; and

(c) there will at all times be a Paying Agent in a jurisdiction within Europe, other than the jurisdiction in which the Issuer is incorporated.

Notice of any variation, termination, appointment and/or of any changes in specified offices will be given to the Noteholders promptly by the Issuer in accordance with Condition 12 (Notices).

6. REDEMPTION AND PURCHASE

6.1 Redemption at Maturity

Unless previously redeemed or purchased and cancelled as provided below, the Issuer will redeem the Notes at their principal amount on 2 May 2024 (the “Maturity Date”).

6.2 Redemption for Taxation Reasons

The Issuer may at its option, subject to giving notice to the Trustee in accordance with this Condition 6.2 (Redemption for Taxation Reasons), and on giving not less than 30 nor more than 60 days’ notice to the Noteholders in accordance with Condition 12 (Notices) (which notice shall be irrevocable and specify the date fixed for redemption), redeem all the Notes, but not some only, at any time at their principal amount together with interest accrued to but excluding the date of redemption, provided that no such notice of redemption shall be given earlier than 90 days prior to the earliest date on which the Issuer would be obliged to pay such additional amounts, were a payment in respect of the relevant Notes then due, if:

(a) as a result of any change in, or amendment to, the laws or regulations of a Relevant Jurisdiction, or any change in the application or official interpretation of the laws or regulations of a Relevant Jurisdiction, which change or amendment becomes effective after 26 April 2018, on the next Interest Payment Date, the Issuer would be required to pay additional amounts as provided or referred to in Condition 7 (Taxation); and

(b) the requirement cannot be avoided by the Issuer taking reasonable measures available to it.

Prior to the publication of any notice of redemption pursuant to this paragraph, the Issuer shall deliver to the Trustee (i) a certificate signed by an Authorised Signatory (as defined in the Trust Deed) of the Issuer stating that the Issuer is entitled to effect such redemption, and setting forth a statement of facts showing that the conditions precedent as set out in this Condition 6.2 (Redemption for Taxation Reasons) to the right of the Issuer so to redeem have occurred and (ii) an opinion of independent legal advisers of recognised standing to the effect that the Issuer has or will become obliged to pay such additional amounts as a result of the change or amendment referred to above. The Trustee shall be entitled to accept the certificate and opinion as sufficient evidence of the satisfaction of the conditions precedent set out in paragraphs (a) and (b) above, in which event they shall be conclusive and binding on the Noteholders and the Couponholders and the Trustee shall be entitled to rely on such certificate and opinion without further enquiry and without liability to any person.

For the purposes of these Conditions:

“Relevant Jurisdiction” means the Netherlands or any political subdivision or any authority thereof or therein having power to tax or any other jurisdiction or any political subdivision or any authority thereof or therein having power to tax to which the Issuer becomes subject in respect of payments made by or on behalf of it of principal and interest on the Notes and Coupons.

6.3 Redemption at the option of the Issuer

Issuer Maturity Par Call
The Issuer may at its option, having given not less than 30 nor more than 60 days’ notice to the Noteholders in accordance with Condition 12 (Notices) (which notice shall be irrevocable and shall specify the date fixed for redemption), redeem the Notes then outstanding in whole, but not in part, at any time during the period commencing on (and including) the day that is 90 days prior to the Maturity Date to (but excluding) the Maturity Date at their principal amount, together (if appropriate) with interest accrued but unpaid to (but excluding) the date fixed for redemption.

Make-Whole Redemption by the Issuer

The Issuer may at its option, subject to compliance with all relevant laws, regulations and directives and on giving not less than thirty (30) nor more than sixty (60) days’ notice to the Noteholders in accordance with Condition 12 (Notices) (which notice shall be irrevocable and specify the date fixed for redemption), redeem in whole or in part the Notes at any time prior to the Maturity Date (the “Make-Whole Redemption Date”), at an amount per Note calculated by the Calculation Agent, which will be an amount in euro rounded to the nearest cent (half a cent being rounded upwards) and equal to the greater of:

(a) 100 per cent. of the principal amount of the Note; or

(b) the sum of the then current values of the remaining scheduled payments of principal and interest on such Note (not including any interest accrued on the Note to, but excluding, the Make-Whole Redemption Date) discounted to the Make-Whole Redemption Date on an annual basis (based on the actual number of days elapsed divided by 365 or (in the case of a leap year) by 366) at the Reference Rate (as defined below) plus 0.10 per cent.,

plus, in each case (a) or (b) above, any interest accrued on the Note to, but excluding, the Make-Whole Redemption Date.

The Reference Rate will be published by the Issuer in accordance with Condition 12 (Notices).

In this Condition 6.3 (Redemption at the option of the Issuer):

“Business Day” means a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealing in foreign exchange and foreign currency deposits) in London and any day on which the Trans-European Automated Real-Time Gross Settlement Express Transfer (TARGET2) System is open.

“Reference Dealers” means each of four banks selected by the Issuer which are (i) primary European government securities dealers or (ii) market makers in pricing corporate bond issues.

“Reference Rate” means the average of the quotations given by the Reference Dealers on the third Business Day prior to the Make-Whole Redemption Date (the “Calculation Date”) at 11.00 a.m. (Brussels time) of the mid-market annual yield to maturity of the DBR 1.750% due 15-Feb-2024 (ISIN: DE0001102333) (the “Reference Bond”). If the Reference Bond is no longer outstanding, a Similar Security will be chosen by the Reference Dealers at 11.00 a.m. (Brussels time) on the Calculation Date, quoted in writing by the Reference Dealers to the Issuer and published in accordance with Condition 12 (Notices).

“Similar Security” means a reference bond or reference bonds issued by the issuer of the Reference Bond having an actual or interpolated maturity comparable with the remaining term of the Notes that would be utilised, at the time of selection and in accordance with customary financial practice, in pricing new issues of corporate debt securities of comparable maturity to the remaining term of the Notes.

6.4 Redemption at the option of the Holders upon a Change of Control Put Event

Upon the occurrence of a Change of Control Put Event, unless the Issuer has exercised its right to redeem the Notes in accordance with Condition 6.2 (Redemption for Taxation Reasons) or Condition 6.3 (Redemption at the option of the Issuer), each Noteholder shall have the option to require the Issuer to redeem or, at the
If 80 per cent. or more in aggregate principal amount of the Notes then outstanding have been redeemed or purchased pursuant to the foregoing provisions of this Condition 6.4 (Redemption at the option of the Holders upon a Change of Control Put Event), the Issuer may, having given not less than 30 nor more than 60 days’ notice to the Noteholders (such notice being given within 30 days after the Put Date) in accordance with Condition 12 (Notices), redeem or purchase (or procure the purchase of), at its option, all (but not some only) of the remaining Notes at their principal amount together with interest accrued to but excluding the date fixed for such redemption or purchase.

In this Condition 6.4 (Redemption at the option of the Holders upon a Change of Control Put Event):

A “Change of Control” means the occurrence of any one of the following: (i) Control is acquired or held by any Person or any Persons acting in concert (“acting in concert” to be within the meaning of Section 5:45, subsection 5 of the Dutch Act on financial supervision (Wet op het financieel toezicht)) as to the exercise of Voting Shares or (ii) the Issuer consolidates with, or merges with or into, any Person, or any Person consolidates with, or merges with or into, the Issuer, in any such event pursuant to a transaction in which any of the outstanding Voting Shares of the Issuer or such other Person is converted into or exchanged for cash, securities or other property, other than any such transaction where the Voting Shares of the Issuer outstanding immediately prior to such transaction constitute, or are converted into or exchanged for, a majority of the Voting Shares of the surviving Person immediately after giving effect to such transaction, provided that a Change of Control shall be deemed not to occur (i) solely as a result of the issuance or transfer, with the co-operation of the Issuer’s Supervisory Board, Board of Management or the Issuer’s general meeting of shareholders, as applicable, and, in each case, if required, of any preference shares in the Issuer’s share capital to the foundation Stichting Preferente Aandelen Philips or its successor; or (ii) if the event which would otherwise have constituted a Change of Control occurs or is carried on terms previously approved by the Trustee or by an Extraordinary Resolution.

“Change of Control Put Event” means the Notes are rated below Investment Grade by each of the Rating Agencies on any date during the period (the “Change of Control Period”) commencing on the date of the first public announcement by the Issuer of any Change of Control (or pending Change of Control) and ending 60 days following consummation of such Change of Control (which Change of Control Period will be extended following consummation of a Change of Control for so long as any of the Rating Agencies has publicly announced that it is considering a possible ratings downgrade) and are not, within the Change of Control Period, subsequently upgraded to an Investment Grade rating provided that a Change of Control Put Event otherwise arising by virtue of a particular reduction in rating shall not be deemed to have occurred in respect of a particular Change of Control (and shall not be deemed a Change of Control Put Event) if the Rating Agencies making the reduction in rating to which this definition would otherwise apply do not announce or publicly confirm or inform the Trustee in writing at its request that the reduction was the result, in whole or in part, of any event or circumstance comprised of or arising as a result of, or in respect of, the applicable Change of Control (whether or not the applicable Change of Control shall have occurred at the time of the Change of Control Put Event). Notwithstanding the foregoing, no Change of Control Put Event will be deemed to have occurred in connection with any particular Change of Control unless and until such Change of Control has actually been consummated.

“Control” means the ownership of such a number of Voting Shares carrying more than 50 per cent. of the voting rights of the Issuer.
“Investment Grade” means a rating of Baa3 or better by Moody’s (or its equivalent under any successor rating category of Moody’s); a rating of BBB- or better by S&P (or its equivalent under any successor rating category of S&P) or the equivalent investment grade credit rating from any replacement Rating Agency of equivalent international standing.

“Person” means any individual, company, corporation, firm, partnership, joint venture, undertaking, association, organisation, trust, state or agency of a state (in each case whether or not being a separate legal entity).

“Rating Agency” means each of Moody’s Deutschland GmbH (“Moody’s”) or Standard & Poor’s Credit Market Services Europe Limited (“S&P”), and their respective successors.

“Voting Shares” means shares in the issued share capital of the Issuer carrying voting rights.

6.5 Purchases

The Issuer or any of its Subsidiaries (as defined in Condition 9 (Events of Default)) may at any time purchase Notes (provided that all unmatured Coupons appertaining to the Notes are purchased with the Notes) in any manner and at any price.

6.6 Cancellations

All Notes which are (a) redeemed or (b) purchased by or on behalf of the Issuer or any of its Subsidiaries may be cancelled, together with all relative unmatured Coupons attached to the Notes or surrendered with the Notes or may be reissued or resold.

6.7 Notices Final

Upon the expiry of any notice as is referred to in Condition 6.2 (Redemption for Taxation Reasons), Condition 6.3 (Redemption at the option of the Issuer) or Condition 6.4 (Redemption at the option of the Holders upon a Change of Control Put Event) above the Issuer shall be bound to redeem the Notes to which the notice refers in accordance with the terms of such paragraph.

7. TAXATION

7.1 Payment without Withholding

All payments in respect of the Notes by or on behalf of the Issuer shall be made without withholding or deduction for, or on account of, any present or future taxes, duties, assessments or governmental charges of whatever nature (“Taxes”) imposed or levied by or on behalf of any Relevant Jurisdiction, unless the withholding or deduction of the Taxes is required by law. In that event, the Issuer will pay such additional amounts as may be necessary in order that any amount received by the Noteholders or Couponholders after the withholding or deduction is equal to the amount that would have been received in respect of the Notes or, as the case may be, Coupons, in the absence of the withholding or deduction; except that no additional amounts shall be payable in relation to any payment in respect of any Note or Coupon:

(a) the holder of which is liable for Taxes in respect of such Note or Coupon by reason of having or having had a present or former connection with the Relevant Jurisdiction other than a mere holding of the Notes; or

(b) presented for payment in the Netherlands; or

(c) presented for payment more than 30 days after the Relevant Date (as defined below) except to the extent that a holder would have been entitled to additional amounts on presenting the same for payment on the last day of the period of 30 days assuming that day to have been a Presentation Date (as defined in Condition 5 (Payments)); or
presented for payment by, or on behalf of, a holder who is entitled to avoid such withholding or deduction in respect of such Note or Coupon by making a declaration or any other statement to the relevant tax authority, including, but not limited to, a declaration of residence or non-residence or other similar claim for exemption; or

(e) payable due to any combination of items (a) to (d).

Notwithstanding any other provisions contained herein, the Issuer shall be permitted to withhold or deduct any amounts required pursuant to an agreement described in Section 1471(b) of the U.S. Internal Revenue Code (the “Code”) or otherwise imposed pursuant to Sections 1471 through 1474 of the Code (or any amended or successor provisions), any regulations or agreements thereunder, official interpretations thereof, or any law implementing an intergovernmental approach thereto (“FATCA Withholding”). The Issuer will have no obligation to pay additional amounts or otherwise indemnify an investor for any such FATCA Withholding deducted or withheld by the Issuer, any paying agent or any other party.

For the avoidance of doubt, the obligation of the Issuer to pay additional amounts in respect of Taxes will not apply to (i) any estate, inheritance, gift, sales, transfer, personal property or any similar tax, duty, assessment or other governmental charge or (ii) any Taxes payable otherwise than by deduction or withholding from payments of principal of, or interest on, the Notes or, as the case may be, Coupons.

In this Condition 7 (Taxation):

“Relevant Date” means the date on which the payment first becomes due but, if the full amount of the money payable has not been received by the Principal Paying Agent or the Trustee on or before the due date, it means the date on which, the full amount of the money having been so received, notice to that effect has been duly given to the Noteholders by the Issuer in accordance with Condition 12 (Notices).

7.2 Additional Amounts

Any reference in these Conditions to any amounts in respect of the Notes shall be deemed also to refer to any additional amounts which may be payable under this Condition 7 (Taxation) or under any undertakings given in addition to, or in substitution for, this Condition pursuant to the Trust Deed.

8. PRESCRIPTION

Notes and Coupons will become void unless presented for payment within periods of 10 years (in the case of principal) and 5 years (in the case of interest) from the Relevant Date (as defined in Condition 7 (Taxation)) in respect of the Notes or, as the case may be, the Coupons, subject to the provisions of Condition 5 (Payments).

9. EVENTS OF DEFAULT

If any of the following events (each an “Event of Default”) occurs and is continuing, the Trustee at its discretion may and, if so requested in writing by holders of at least one-quarter in principal amount of the Notes then outstanding or, if so directed by an Extraordinary Resolution, shall (subject, in the case of the happening of any of the events mentioned in paragraphs (b) to (g) (other than (d) below), to the Trustee having certified in writing that the happening of such events is in its opinion materially prejudicial to the interests of the Noteholders) subject in all cases, to the Trustee having been indemnified and/or secured and/or prefunded to its satisfaction) give written notice to the Issuer declaring the Notes to be immediately due and payable, whereupon they shall become immediately due and payable at their principal amount together with accrued interest without further action or formality:

(a) Non-payment: the Issuer fails to pay any amount of principal or interest due in respect of the Notes, and that failure to pay continues for more than 14 days after the due date for payment; or

(b) Breach of other obligations: the Issuer defaults in the performance or observance of any one or more other obligations under or in respect of the Notes or the Trust Deed required to be performed or observed by the Issuer and such default is either:
(i) in the opinion of the Trustee, incapable of remedy, in which case no notice referred to in (ii) below will be required; or

(ii) in the opinion of the Trustee, capable of remedy and the default remains unremedied for 30 days (or such longer period as the Trustee may agree) after the Trustee has given written notice to the Issuer specifying the default and requiring that default to be remedied; or

(c) **Cross-acceleration:** (i) the repayment of any indebtedness for borrowed money owing by the Issuer or any of its Material Subsidiaries is accelerated by reason of default (however expressed) and such acceleration has not been rescinded, waived, cancelled or annulled, or (ii) the Issuer or any of its Material Subsidiaries is in default (after the expiry of any originally applicable grace period) in any payment when due of such indebtedness for borrowed money; provided that no such event shall constitute an Event of Default (A) if it is being contested in good faith by, in the reasonable opinion of the Issuer, appropriate proceedings; or (B) unless the aggregate outstanding amount of such accelerated or unpaid indebtedness for borrowed money, whether alone or when aggregated with all other such outstanding accelerated or unpaid indebtedness for borrowed money, exceeds €100 million (or its equivalent in another currency or currencies); or

(d) **Winding-up:** any final order is made by any competent court or other authority, or an effective resolution is passed for the liquidation, dissolution or winding-up of the Issuer or any of its Material Subsidiaries otherwise than (i) for the purposes of a Permitted Reorganisation; or (ii) on terms previously approved by the Trustee or by an Extraordinary Resolution; or

(e) **Insolvency, etc:** (i) the Issuer or any of its Material Subsidiaries admits in writing that it is insolvent or unable to pay its debts as they fall due, (ii) an administrator or liquidator is appointed (or application for any such appointment is made) in respect of the Issuer or any of its Material Subsidiaries or the whole or substantially all of the undertaking, assets and revenues of the Issuer or any of its Material Subsidiaries, (iii) the Issuer or any of its Material Subsidiaries makes a general assignment or an arrangement or composition with or for the benefit of its creditors or declares a moratorium in respect of any of its indebtedness or any guarantee of any indebtedness given by it or (iv) the Issuer or any of its Material Subsidiaries ceases or threatens to cease to carry on all or substantially all of its business otherwise, in each of (i) to (iv), than (i) for the purposes of a Permitted Reorganisation; or (ii) on terms previously approved by the Trustee or by an Extraordinary Resolution;

(f) **Security enforced:** a secured party takes possession, or a receiver, manager or other similar officer is appointed, of the whole or substantially all of the undertaking, assets and revenues of the Issuer or any of its Material Subsidiaries; or

(g) **Analogous Event:** if any event occurs which, under the laws of any Relevant Jurisdiction (as defined in Condition 6.2 (Redemption for Taxation Reasons)), has or may have an analogous effect to any of the events referred to in subparagraphs (d) to (f) above.

In this Condition 9 (Events of Default):

“**Material Subsidiary**” means, at any time, a Subsidiary of the Issuer whose total assets represent at least 5 per cent. of the consolidated total assets of the Group or whose total net sales represent at least 7.5 per cent. of the consolidated net sales of the Group and in relation to which the Issuer has, directly or indirectly, the power to direct its management and policies whether through the ownership of voting capital, by contract or otherwise. For this purpose:

(a) in the case of each Subsidiary, the calculation shall be made by comparing the total assets or, as the case may be, total net sales of that Subsidiary individually (and not on a consolidated basis) to those of the Group;

(b) assets or sales which arise from transactions between members of the Group and which would be eliminated in the consolidated financial statements of the Group shall be excluded;
(c) the total assets or total net sales of a Subsidiary shall be calculated by reference to:

(i) the accounts of that Subsidiary used for the purpose of the latest audited consolidated financial statements of the Group; or

(ii) if the company became a Subsidiary after the end of the financial period to which the latest audited consolidated financial statements of the Group relate, its then latest audited accounts;

(d) the consolidated total assets or consolidated net sales of the Group shall be calculated by reference to the latest audited consolidated financial statements of the Group, adjusted as appropriate to reflect the total assets or total net sales of any company which has become or ceased to be a Subsidiary after the end of the financial period to which those accounts relate; and

(e) where a Material Subsidiary transfers all or substantially all of its assets to the Issuer or another Subsidiary, the transferor (if it is not the Holding Company of the transferee) shall cease to be a Material Subsidiary and (if the transferee is a Subsidiary but not a Material Subsidiary) the transferee shall become a Material Subsidiary.

For the purposes of this definition of Material Subsidiary, the term “Group” means the Issuer and its Subsidiaries and the term “Holding Company” of any other person means a company in respect of which that other person is a Subsidiary.

“Permitted Reorganisation” means (i) any merger, consolidation, amalgamation, reorganisation, transfer of all or substantially all of its business, assets or undertaking (by operation of law or by way of sale, contribution, lease, conveyance, demerger or otherwise), reconstruction or restructuring on a solvent basis, pursuant to which the surviving or acquiring company (if not the Issuer) assumes all obligations of the Issuer under the Notes and the Trust Deed either expressly, by operation of law or by universal succession; or (ii) for the purposes of or in connection with, and followed by, a substitution of the relevant entity pursuant to and in accordance with Condition 13.5 (Substitution).

“Subsidiary” means a consolidated entity of which a person has direct or indirect control or owns directly or indirectly more than 50 per cent. of the voting rights or similar right of ownership and “control” for this purpose means the power to direct the management and the policies of the entity whether through the ownership of voting capital, by contract or otherwise.

10. ENFORCEMENT

10.1 Enforcement by the Trustee

The Trustee may at any time, at its discretion and without notice, take such proceedings and/or other steps or action (including lodging an appeal in any proceedings) against or in relation to the Issuer as it may think fit to enforce the provisions of the Trust Deed, the Notes and the Coupons or otherwise, but it shall not be bound to take any such proceedings or other steps or action unless (a) it has been so directed by an Extraordinary Resolution of the Noteholders or so requested in writing by the holders of at least one-quarter in principal amount of the Notes then outstanding and (b) it has been indemnified and/or secured and/or pre-funded to its satisfaction.

10.2 Limitation on Trustee actions

The Trustee may refrain from taking any action in any jurisdiction if the taking of such action in that jurisdiction would, in its opinion based upon legal advice in the relevant jurisdiction, be contrary to any law of that jurisdiction. Furthermore, the Trustee may also refrain from taking such action if it would otherwise render it liable to any person in that jurisdiction or if, in its opinion based upon such legal advice, it would not have the power to do the relevant thing in that jurisdiction by virtue of any applicable law in that jurisdiction or if it is determined by any court or other competent authority in that jurisdiction that it does not have such power.
10.3 **Enforcement by the Noteholders**

No Noteholder or Couponholder shall be entitled to (i) take any steps or action against the Issuer to enforce the performance of any of the provisions of the Trust Deed, the Notes or the Coupons or (ii) take any other proceedings (including lodging an appeal in any proceedings) in respect of or concerning the Issuer, in each case unless the Trustee, having become bound so to take any such action, steps or proceedings, fails so to do within a reasonable period and such failure shall be continuing.

11. **REPLACEMENT OF NOTES AND COUPONS**

Should any Note or Coupon be lost, stolen, mutilated, defaced or destroyed it may be replaced subject to applicable laws, regulations and stock exchange or other relevant authority regulations, at the specified office of the Principal Paying Agent upon payment by the claimant of the expenses incurred in connection with the replacement and on such terms as to evidence and indemnity as the Issuer may reasonably require. Mutilated or defaced Notes or Coupons must be surrendered before replacements will be issued.

12. **NOTICES**

12.1 **Notices to the Noteholders**

All notices to the Noteholders will be valid if published in a leading English language daily newspaper published in London and, so long as the Notes are admitted to listing on the Official List and to trading on the regulated market of the Luxembourg Stock Exchange and the rules of that exchange so require, a daily newspaper of general circulation in Luxembourg or the website of the Luxembourg Stock Exchange (at www.bourse.lu). It is expected that publication in a newspaper will normally be made in the Financial Times in London and the Luxemburger Wort in Luxembourg. Any such notice will be deemed to have been given on the date of the first publication or, where required to be published in more than one newspaper, on the date of the first publication in all required newspapers. If publication as provided above is not practicable, notice will be given in such other manner, and shall be deemed to have been given on such date, as the Trustee may approve. Couponholders will be deemed for all purposes to have notice of the contents of any notice given to the Noteholders in accordance with this paragraph.

12.2 **Notices from the Noteholders**

Notices to be given by any Noteholder shall be in writing and given by lodging the same, together with the relative Note or Notes, with the Principal Paying Agent or, if the Notes are held in a clearing system, may be given through the clearing system in accordance with its standard rules and procedures.

13. **MEETINGS OF NOTEHOLDERS, MODIFICATION, WAIVER, AUTHORISATION AND DETERMINATION, SUBSTITUTION**

13.1 **Meetings of Noteholders**

The Trust Deed contains provisions for convening meetings of the Noteholders to consider any matter affecting their interests, including the modification of any of these Conditions or any of the provisions of the Trust Deed. Any such modification may be made if sanctioned by an Extraordinary Resolution. Such a meeting may be convened by the Issuer or the Trustee and shall be convened by the Trustee (subject to it being indemnified and/or secured and/or prefunded to its satisfaction) upon the request in writing of the Noteholders holding not less than one-quarter of the aggregate principal amount of the outstanding Notes.

The quorum at any meeting convened to vote on an Extraordinary Resolution will be one or more persons present holding or representing more than 50 per cent. in principal amount of the Notes for the time being outstanding, or at any adjourned such meeting one or more persons present whatever the principal amount of the Notes held or represented by him or them, except that, at any meeting the business of which includes any matter defined in the Trust Deed as a Basic Terms Modification, including the modification of certain of the provisions of these Conditions and certain of the provisions of the Trust Deed (including the date of maturity of the Notes or any date for payment of interest thereon, reducing or cancelling the amount of principal or interest payable in respect of the Notes, altering the currency of payment of the Notes, altering the method of
calculating the amount of any payment in respect of the Notes or changing the quorum requirements relating to meetings or the majority required to pass an Extraordinary Resolution, the necessary quorum required to pass an Extraordinary Resolution will be one or more persons present holding or representing not less than two-thirds, or at any adjourned such meeting not less than one-third, of the principal amount of the Notes for the time being outstanding.

In addition, the Trust Deed provides that a resolution in writing signed by or on behalf of the holders of not less than two-thirds in principal amount of the Notes for the time being outstanding or consent given by way of electronic consents through the relevant clearing system(s) by or on behalf of the holders of not less than two-thirds in principal amount of the Notes for the time being outstanding, shall, in each case, be effective as an Extraordinary Resolution of the Noteholders. An Extraordinary Resolution passed by the Noteholders will be binding on all Noteholders whether or not they are present at any meeting and whether or not they voted on the resolution, and on all Couponholders.

13.2 Modification, Waiver, Authorisation and Determination

The Trustee may agree, without the consent of the Noteholders or Couponholders (i) (other than in relation to any Basic Terms Modification (as defined in the Trust Deed)) to any modification of, or to the waiver or authorisation of any breach or proposed breach of, any of these Conditions or any of the provisions of the Trust Deed or the Agency Agreement, or determine, without any such consent as aforesaid, that any Event of Default or Potential Event of Default (as defined in the Trust Deed) shall not be treated as such (provided that, in any such case, it is not, in the opinion of the Trustee, materially prejudicial to the interests of the Noteholders), or (ii) to any modification which, in its opinion, is of a formal, minor or technical nature or to correct a manifest error or an error which is, in the opinion of the Trustee, proven or to comply with mandatory provisions of law.

13.3 Trustee to have Regard to Interests of Noteholders as a Class

In connection with the exercise by it of any of its trusts, powers, authorities and discretions (including, without limitation, any modification, waiver, authorisation or determination), the Trustee shall have regard to the general interests of the Noteholders as a class but shall not have regard to any interests arising from circumstances particular to individual Noteholders or Couponholders (whatever their number) and, in particular but without limitation, shall not have regard to the consequences of any such exercise for individual Noteholders or Couponholders (whatever their number) resulting from their being for any purpose domiciled or resident in, or otherwise connected with, or subject to the jurisdiction of, any particular territory or any political sub-division thereof and the Trustee shall not be entitled to require, nor shall any Noteholder or Couponholder be entitled to claim, from the Issuer, the Trustee or any other person any indemnification or payment in respect of any tax consequence of any such exercise upon individual Noteholders or Couponholders except to the extent already provided for in Condition 7 (Taxation) and/or any undertaking given in addition to, or in substitution for, Condition 7 (Taxation) pursuant to the Trust Deed.

13.4 Notification to the Noteholders

Any modification, abrogation, waiver, authorisation or determination shall be binding on the Noteholders and the Couponholders and, unless the Trustee agrees otherwise, any modification shall be notified by the Issuer to the Noteholders as soon as practicable thereafter in accordance with Condition 12 (Notices).

13.5 Substitution

The Trustee may agree, without the consent of the Noteholders or the Couponholders, to the substitution of (i) any Subsidiary of the Issuer or (ii) any company which directly or indirectly owns 100 per cent. of the shares or other equity interests (as the case may be) carrying the right to vote in the Issuer in place of the Issuer as issuer and principal debtor under the Trust Deed, the Notes and the Coupons; provided that the Notes are unconditionally and irrevocably guaranteed by the Issuer; the Trustee is of the opinion that the interests of the Noteholders will not be materially prejudiced thereby and certain other conditions specified in the Trust Deed are fulfilled. Any such substitution shall be binding on the Noteholders and Couponholders and shall be notified to the Noteholders within 14 days thereafter. For the purpose of this Condition, “Subsidiary” has the meaning given to it in Condition 9 (Events of Default).
14. **INDEMNIFICATION AND PROTECTION OF THE TRUSTEE AND ITS CONTRACTING WITH THE ISSUER**

14.1 **Indemnification and protection of the Trustee**

The Trust Deed contains provisions for the indemnification of the Trustee and for its relief from responsibility and liability towards the Issuer, the Noteholders and the Couponholders, including (i) provisions relieving it from taking action unless indemnified and/or secured and/or pre-funded to its satisfaction and (ii) provisions limiting or excluding its liability in certain circumstances.

14.2 **Trustee Contracting with the Issuer**

The Trust Deed also contains provisions pursuant to which the Trustee is entitled, *inter alia*, (a) to enter into business transactions with the Issuer and/or any of the Issuer's Subsidiaries and to act as trustee for the holders of any other securities issued or guaranteed by, or relating to, the Issuer and/or any of the Issuer's Subsidiaries, (b) to exercise and enforce its rights, comply with its obligations and perform its duties under or in relation to any such transactions or, as the case may be, any such trusteeship without regard to the interests of, or consequences for, the Noteholders or Couponholders, and (c) to retain and not be liable to account for any profit made or any other amount or benefit received thereby or in connection therewith.

15. **FURTHER ISSUES**

The Issuer may from time to time without the consent of the Noteholders or Couponholders create and issue further notes, having terms and conditions the same as those of the Notes, or the same except for the amount and date of the first payment of interest, which may be consolidated and form a single series with the outstanding Notes. Any further notes or bonds which are to form a single series with the outstanding notes or bonds of any series (including the Notes) constituted by the Trust Deed or any supplemental deed shall, and any other further notes or bonds may (with the consent of the Trustee), be constituted by a deed supplemental to the Trust Deed. The Trust Deed contains provisions for convening a single meeting of the Noteholders and the holders of notes or bonds of other series in certain circumstances where the Trustee so decides.

16. **GOVERNING LAW AND SUBMISSION TO JURISDICTION**

16.1 **Governing Law**

The Trust Deed, the Notes and the Coupons and any non-contractual obligations arising out of or in connection with the Trust Deed, the Notes and the Coupons are governed by, and construed in accordance with, English law.

16.2 **Submission to Jurisdiction**

(a) Subject to Condition 16.2(c) (*Submission to Jurisdiction*) below, the English courts have exclusive jurisdiction to settle any dispute arising out of or in connection with the Trust Deed, the Notes or the Coupons, including any dispute as to their existence, validity, interpretation, performance, breach or termination or the consequences of their nullity and any dispute relating to any non-contractual obligations arising out of or in connection with the Trust Deed, the Notes or the Coupons (a “Dispute”) and each of the Issuer, the Trustee and any Noteholders or Couponholders in relation to any Dispute submits to the exclusive jurisdiction of the English courts.

(b) For the purposes of this Condition 16.2 (*Submission to Jurisdiction*), the Issuer waives any objection to the English courts on the grounds that they are an inconvenient or inappropriate forum to settle any Dispute.

(c) To the extent allowed by law, the Issuer, the Trustee, the Noteholders and the Couponholders may, in respect of any Dispute or Disputes, take (i) proceedings in any other court with jurisdiction and (ii) concurrent proceedings in any number of jurisdictions.

16.3 **Appointment of Process Agent**
The Issuer irrevocably appoints Philips Electronics UK Limited (Attention: Company Secretary), Philips Centre, Guildford Business Park, Guildford, Surrey GU2 8XG as its agent for service of process in any proceedings before the English courts in relation to any Dispute and agrees that, in the event of Philips Electronics UK Limited being unable or unwilling for any reason so to act, it will immediately appoint another person approved by the Trustee as its agent for service of process in England in respect of any Dispute. The Issuer agrees that failure by a process agent to notify it of any process will not invalidate service. Nothing in this Condition 16.3 (Appointment of Process Agent) shall affect the right to serve process in any other manner permitted by law.

16.4 Other Documents

The Issuer has in the Agency Agreement and the Trust Deed submitted to the jurisdiction of the English courts and appointed an agent in England for service of process, in terms substantially similar to those set out above.

17. RIGHTS OF THIRD PARTIES

No rights are conferred on any person under the Contracts (Rights of Third Parties) Act 1999 to enforce any term of this Note, but this does not affect any right or remedy of any person which exists or is available apart from that Act.
TERMS AND CONDITIONS OF THE 2028 NOTES

The following is the text of the Terms and Conditions of the 2028 Notes which (subject to modification) will be endorsed on each 2028 Note in definitive form (if issued):

The €500,000,000 1.375 per cent. Notes due 2028 (the “Notes”, which expression shall in these terms and conditions (the “Conditions”), unless the context otherwise requires, include any further notes issued pursuant to Condition 15 (Further Issues) and forming a single series with the Notes) of Koninklijke Philips N.V. (the “Issuer”) are constituted by a trust deed dated 2 May 2018 (as amended or supplemented from time to time, the “Trust Deed”) made between the Issuer and Citicorp Trustee Company Limited as trustee (the “Trustee”, which expression shall include its successor(s)) as trustee for the holders of the Notes (the “Noteholders”) and the holders of the interest coupons appertaining thereto (the “Couponholders” and the “Coupons” respectively)) and are the subject of an agency agreement dated 2 May 2018 (as amended or supplemented from time to time, the “Agency Agreement”) made between the Issuer, Citibank, N.A., London Branch as principal paying agent (the “Principal Paying Agent” and, together with any other agents appointed in accordance with such agreement, the “Paying Agents”, which expression shall include any successor(s)), Citibank, N.A., London Branch as calculation agent (the “Calculation Agent”) and the Trustee.

Certain provisions of these Conditions are summaries or, any are subject to, the detailed provisions of and definitions in the Trust Deed and the Agency Agreement. The Noteholders and the Couponholders are entitled to the benefit of, are bound by, and are deemed to have notice of, all the provisions of the Trust Deed and the Agency Agreement applicable to them.

Copies of the Trust Deed and the Agency Agreement are available for inspection during normal business hours by the Noteholders and the Couponholders at the principal office for the time being of the Trustee, being at the date of issue of the Notes at Citigroup Centre, Canada Square, Canary Wharf, London E14 5LB and at the specified office of each of the Paying Agents.

1. FORM, DENOMINATION AND TITLE

1.1 Form and Denomination

The Notes are in bearer form, serially numbered, in the denominations of €100,000 and integral multiples of €1,000 in excess thereof up to and including €199,000 each with Coupons attached on issue. Notes of one denomination may not be exchanged for Notes of another denomination.

1.2 Title

Title to the Notes and to the Coupons will pass by delivery.

Notes shall not be physically delivered in Belgium except to a clearing system, a depositary or other institution for the purpose of their immobilisation in accordance with article 4 of the Belgian Law of 14 December 2005.

1.3 Holder Absolute Owner

The Issuer, any Paying Agent and the Trustee will (except as ordered by a court of competent jurisdiction or as otherwise required by law) deem and treat the bearer of any Note or Coupon as the absolute owner for all purposes (whether or not the Note or Coupon shall be overdue and notwithstanding any notice of ownership or writing on the Note or Coupon or any notice of previous loss or theft of the Note or Coupon) and shall not be required to obtain any proof thereof or as to the identity of such bearer and no person shall be liable for so treating the bearer.

2. STATUS
The Notes and the Coupons are direct, unconditional and (subject to the provisions of Condition 3 (Negative Pledge)) unsecured obligations of the Issuer and (subject as provided above) rank and will rank pari passu, without any preference among themselves, with all other outstanding unsecured and unsubordinated obligations of the Issuer, present and future, but, in the event of insolvency, only to the extent permitted by applicable laws relating to creditors' rights.

3. **NEGATIVE PLEDGE**

So long as any Note remains outstanding (as defined in the Trust Deed), the Issuer shall not create or permit to subsist any mortgage, charge, pledge, lien or other security interest upon the whole or any part of its present or future undertaking, assets or revenues (including uncalled capital) to secure any Relevant Indebtedness (as defined below) or any guarantee of Relevant Indebtedness, without:

(a) at the same time or prior thereto ensuring that the Issuer’s obligations under the Notes are secured equally and rateably therewith to the satisfaction of the Trustee; or

(b) providing such other guarantee or other arrangement (whether or not comprising security) as the Trustee may in its absolute discretion consider to be not materially less beneficial to the interests of the Noteholders or as may be approved by an Extraordinary Resolution (as defined in the Trust Deed).

In this Condition 3 (Negative Pledge):

“Relevant Indebtedness” means any indebtedness which is in the form of or represented by any bond, note, debenture, debenture stock, loan stock, certificate or other debt security which is, or is intended to be, listed, quoted or traded on any stock exchange or on any other recognised securities market (including, without limitation, any over-the-counter securities market).

4. **INTEREST**

4.1 **Accrual of interest**

The Notes bear interest on their outstanding principal amount from and including 2 May 2018 at the rate of 1.375 per cent. per annum, payable annually in arrear on 2 May in each year (each an “Interest Payment Date”), subject to Condition 5 (Payments), commencing on 2 May 2019.

The amount of interest payable on each Interest Payment Date shall be €13.75 per €1,000 of outstanding principal amount (the “Calculation Amount”) of the Notes. Each Note will cease to bear interest from and including its due date for redemption unless, upon due presentation, payment of the principal in respect of the Note is improperly withheld or refused or unless default is otherwise made in respect of payment. In such event interest will continue to accrue in respect of the principal amount of, and any unpaid amounts on, the Notes, both before and after judgment, as provided in the Trust Deed.

4.2 **Calculation of Broken Interest**

When interest is required to be calculated in respect of an interest payment on a date other than an Interest Payment Date, it shall be calculated by applying the rate of 1.375 per cent. per annum to each Calculation Amount and on the basis of (a) the actual number of days in the period from and including the date from which interest begins to accrue (the “Accrual Date”) to but excluding the date on which it falls due divided by (b) the actual number of days from and including the Accrual Date to but excluding the next following Interest Payment Date. The resultant figure shall be rounded to the nearest cent, half a cent being rounded upwards. The interest payable in respect of a Note shall be the product of such rounded figure and the amount by which the Calculation Amount is multiplied to reach the denomination of the relevant Note, without any further rounding.

5. **PAYMENTS**

5.1 Payments in respect of Notes
Payments of principal and interest in respect of each Note will be made against presentation and surrender (or, in the case of part payment only, endorsement) of the Note, except that payments of interest due on an Interest Payment Date will be made against presentation and surrender (or, in the case of part payment only, endorsement) of the relevant Coupon, in each case at the specified office outside the United States of any of the Paying Agents.

5.2 Method of Payment

Payments will be made by credit or transfer to a euro account (or any other account to which euro may be credited or transferred) specified by the payee with a bank in a city in which banks have access to the TARGET2 system.

5.3 Missing Unmatured Coupons

Each Note should be presented for payment together with all relative unmatured Coupons, failing which the full amount of any relative missing unmatured Coupon (or, in the case of payment not being made in full, that proportion of the full amount of the missing unmatured Coupon which the amount so paid bears to the total amount due) will be deducted from the amount due for payment. Each amount so deducted will be paid in the manner mentioned above against presentation and surrender (or, in the case of part payment only, endorsement) of the relative missing Coupon at any time before expiry of 10 years after the Relevant Date (as defined in Condition 7 (Taxation)) in respect of the relevant Note (whether or not the Coupon would otherwise have become void pursuant to Condition 8 (Prescription)).

5.4 Payments subject to applicable laws

Payments in respect of principal and interest on the Notes are subject in all cases to any fiscal or other laws and regulations applicable in the place of payment, but without prejudice to the provisions of Condition 7 (Taxation).

5.5 Payment only on a Presentation Date

A holder shall be entitled to present a Note or Coupon for payment only on a Presentation Date and shall not, except as provided in Condition 4 (Interest), be entitled to any further interest or other payment if a Presentation Date is after the due date for payment.

In this Condition 5 (Payments):

“Presentation Date” means a day which (subject to Condition 8 (Prescription)):

(a) is or falls after the relevant due date;
(b) is a Business Day in the place of the specified office of the Paying Agent at which the Note or Coupon is presented for payment; and
(c) in the case of payment by credit or transfer to a euro account as referred to above, is a TARGET2 Settlement Day.

“Business Day” means, in relation to any place, a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealing in foreign exchange and foreign currency deposits) in that place and “TARGET2 Settlement Day” means any day on which the Trans-European Automated Real-Time Gross Settlement Express Transfer (“TARGET2”) System is open.

5.6 Initial Paying Agents

The names of the initial Paying Agents and their initial specified offices are set out at the end of these Conditions. The Issuer reserves the right, subject to the prior written approval of the Trustee, at any time to vary or terminate the appointment of any Paying Agent and to appoint additional or other Paying Agents provided that:
(a) there will at all times be a Principal Paying Agent;

(b) so long as the Notes are listed on any stock exchange or admitted to listing by any other relevant authority, there will at all times be at least one Paying Agent (which may be the Principal Paying Agent) having a specified office in any place required by the rules and regulations of the relevant Stock Exchange or any other relevant authority; and

(c) there will at all times be a Paying Agent in a jurisdiction within Europe, other than the jurisdiction in which the Issuer is incorporated.

Notice of any variation, termination, appointment and/or of any changes in specified offices will be given to the Noteholders promptly by the Issuer in accordance with Condition 12 (Notices).

6. REDEMPTION AND PURCHASE

6.1 Redemption at Maturity

Unless previously redeemed or purchased and cancelled as provided below, the Issuer will redeem the Notes at their principal amount on 2 May 2028 (the “Maturity Date”).

6.2 Redemption for Taxation Reasons

The Issuer may at its option, subject to giving notice to the Trustee in accordance with this Condition 6.2 (Redemption for Taxation Reasons), and on giving not less than 30 nor more than 60 days’ notice to the Noteholders in accordance with Condition 12 (Notices) (which notice shall be irrevocable and specify the date fixed for redemption), redeem all the Notes, but not some only, at any time at their principal amount together with interest accrued to but excluding the date of redemption, provided that no such notice of redemption shall be given earlier than 90 days prior to the earliest date on which the Issuer would be obliged to pay such additional amounts, were a payment in respect of the relevant Notes then due, if:

(a) as a result of any change in, or amendment to, the laws or regulations of a Relevant Jurisdiction, or any change in the application or official interpretation of the laws or regulations of a Relevant Jurisdiction, which change or amendment becomes effective after 26 April 2018, on the next Interest Payment Date, the Issuer would be required to pay additional amounts as provided or referred to in Condition 7 (Taxation); and

(b) the requirement cannot be avoided by the Issuer taking reasonable measures available to it.

Prior to the publication of any notice of redemption pursuant to this paragraph, the Issuer shall deliver to the Trustee (i) a certificate signed by an Authorised Signatory (as defined in the Trust Deed) of the Issuer stating that the Issuer is entitled to effect such redemption, and setting forth a statement of facts showing that the conditions precedent as set out in this Condition 6.2 (Redemption for Taxation Reasons) to the right of the Issuer so to redeem have occurred and (ii) an opinion of independent legal advisers of recognised standing to the effect that the Issuer has or will become obliged to pay such additional amounts as a result of the change or amendment referred to above. The Trustee shall be entitled to accept the certificate and opinion as sufficient evidence of the satisfaction of the conditions precedent set out in paragraphs (a) and (b) above, in which event they shall be conclusive and binding on the Noteholders and the Couponholders and the Trustee shall be entitled to rely on such certificate and opinion without further enquiry and without liability to any person.

For the purposes of these Conditions:

“Relevant Jurisdiction” means the Netherlands or any political subdivision or any authority thereof or therein having power to tax or any other jurisdiction or any political subdivision or any authority thereof or therein having power to tax to which the Issuer becomes subject in respect of payments made by or on behalf of it of principal and interest on the Notes and Coupons.
6.3 Redemption at the option of the Issuer

Issuer Maturity Par Call

The Issuer may at its option, having given not less than 30 nor more than 60 days’ notice to the Noteholders in accordance with Condition 12 (Notices) (which notice shall be irrevocable and shall specify the date fixed for redemption), redeem the Notes then outstanding in whole, but not in part, at any time during the period commencing on (and including) the day that is 90 days prior to the Maturity Date to (but excluding) the Maturity Date at their principal amount, together (if appropriate) with interest accrued but unpaid to (but excluding) the date fixed for redemption.

Make-Whole Redemption by the Issuer

The Issuer may at its option, subject to compliance with all relevant laws, regulations and directives and on giving not less than thirty (30) nor more than sixty (60) days’ notice to the Noteholders in accordance with Condition 12 (Notices) (which notice shall be irrevocable and specify the date fixed for redemption), redeem in whole or in part the Notes at any time prior to the Maturity Date (the “Make-Whole Redemption Date”), at an amount per Note calculated by the Calculation Agent, which will be an amount in euro rounded to the nearest cent (half a cent being rounded upwards) and equal to the greater of:

(a) 100 per cent. of the principal amount of the Note; or

(b) the sum of the then current values of the remaining scheduled payments of principal and interest on such Note (not including any interest accrued on the Note to, but excluding, the Make-Whole Redemption Date) discounted to the Make-Whole Redemption Date on an annual basis (based on the actual number of days elapsed divided by 365 or (in the case of a leap year) by 366) at the Reference Rate (as defined below) plus 0.15 per cent.,

plus, in each case (a) or (b) above, any interest accrued on the Note to, but excluding, the Make-Whole Redemption Date.

The Reference Rate will be published by the Issuer in accordance with Condition 12 (Notices).

In this Condition 6.3 (Redemption at the option of the Issuer):

“Business Day” means a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealing in foreign exchange and foreign currency deposits) in London and any day on which the Trans-European Automated Real-Time Gross Settlement Express Transfer (TARGET2) System is open.

“Reference Dealers” means each of four banks selected by the Issuer which are (i) primary European government securities dealers or (ii) market makers in pricing corporate bond issues.

“Reference Rate” means the average of the quotations given by the Reference Dealers on the third Business Day prior to the Make-Whole Redemption Date (the “Calculation Date”) at 11.00 a.m. (Brussels time) of the mid-market annual yield to maturity of the DBR 0.500% due 15-Feb-2028 (ISIN: DE0001102440) (the “Reference Bond”). If the Reference Bond is no longer outstanding, a Similar Security will be chosen by the Reference Dealers at 11.00 a.m. (Brussels time) on the Calculation Date, quoted in writing by the Reference Dealers to the Issuer and published in accordance with Condition 12 (Notices).

“Similar Security” means a reference bond or reference bonds issued by the issuer of the Reference Bond having an actual or interpolated maturity comparable with the remaining term of the Notes that would be utilised, at the time of selection and in accordance with customary financial practice, in pricing new issues of corporate debt securities of comparable maturity to the remaining term of the Notes.

6.4 Redemption at the option of the Holders upon a Change of Control Put Event
Upon the occurrence of a Change of Control Put Event, unless the Issuer has exercised its right to redeem the Notes in accordance with Condition 6.2 (Redemption for Taxation Reasons) or Condition 6.3 (Redemption at the option of the Issuer), each Noteholder shall have the option to require the Issuer to redeem or, at the Issuer’s option, purchase (or procure the purchase of) that Note on the Put Date (as defined below) at its principal amount together with interest accrued to but excluding the Put Date.

Within 60 days following the date upon which the Change of Control Put Event has occurred, the Issuer shall give notice to the Noteholders in accordance with Condition 12 (Notices) of the occurrence of a Change of Control Put Event and shall, in the notice, specify a date being not less than 30 nor more than 60 days after the date on which the notice was given as the “Put Date”.

To exercise such option, the Noteholder must deliver such Note to be redeemed or purchased, together with all Coupons relating to it maturing after the Put Date, to the specified office of the Principal Paying Agent at any time during normal business hours together with a duly completed notice of exercise in the form obtainable from the specified office of the Principal Paying Agent (a “Change of Control Put Notice”), not less than 15 nor more than 30 days before the Put Date. A Change of Control Put Notice, once given, shall be irrevocable.

If 80 per cent. or more in aggregate principal amount of the Notes then outstanding have been redeemed or purchased pursuant to the foregoing provisions of this Condition 6.4 (Redemption at the option of the Holders upon a Change of Control Put Event), the Issuer may, having given not less than 30 nor more than 60 days’ notice to the Noteholders (such notice being given within 30 days after the Put Date) in accordance with Condition 12 (Notices), redeem or purchase (or procure the purchase of), at its option, all (but not some only) of the remaining Notes at their principal amount together with interest accrued to but excluding the date fixed for such redemption or purchase.

In this Condition 6.4 (Redemption at the option of the Holders upon a Change of Control Put Event):

A “Change of Control” means the occurrence of any one of the following: (i) Control is acquired or held by any Person or any Persons acting in concert (“acting in concert” to be within the meaning of Section 5:45, subsection 5 of the Dutch Act on financial supervision (Wet op het financieel toezicht)) as to the exercise of Voting Shares or (ii) the Issuer consolidates with, or merges with or into, any Person, or any Person consolidates with, or merges with or into, the Issuer, in any such event pursuant to a transaction in which any of the outstanding Voting Shares of the Issuer or such other Person is converted into or exchanged for cash, securities or other property, other than any such transaction where the Voting Shares of the Issuer outstanding immediately prior to such transaction constitute, or are converted into or exchanged for, a majority of the Voting Shares of the surviving Person immediately after giving effect to such transaction, provided that a Change of Control shall be deemed not to occur (i) solely as a result of the issuance or transfer, with the cooperation of the Issuer’s Supervisory Board, Board of Management or the Issuer’s general meeting of shareholders, as applicable, and, in each case, if required, of any preference shares in the Issuer’s share capital to the foundation Stichting Preferente Aandelen Philips or its successor; or (ii) if the event which would otherwise have constituted a Change of Control occurs or is carried on terms previously approved by the Trustee or by an Extraordinary Resolution.

“Change of Control Put Event” means the Notes are rated below Investment Grade by each of the Rating Agencies on any date during the period (the “Change of Control Period”) commencing on the date of the first public announcement by the Issuer of any Change of Control (or pending Change of Control) and ending 60 days following consummation of such Change of Control (which Change of Control Period will be extended following consummation of a Change of Control for so long as any of the Rating Agencies has publicly announced that it is considering a possible ratings downgrade) and are not, within the Change of Control Period, subsequently upgraded to an Investment Grade rating provided that a Change of Control Put Event otherwise arising by virtue of a particular reduction in rating shall not be deemed to have occurred in respect of a particular Change of Control and shall not be deemed a Change of Control Put Event if the Rating Agencies making the reduction in rating to which this definition would otherwise apply do not announce or publicly confirm or inform the Trustee in writing at its request that the reduction was the result, in whole or in part, of any event or circumstance comprised of or arising as a result of, or in respect of, the applicable Change of Control (whether or not the applicable Change of Control shall have occurred at the time of the Change of Control Put Event). Notwithstanding the foregoing, no Change of Control Put Event will be deemed to have occurred in connection with any particular Change of Control unless and until such Change of Control has actually been consummated.
“Control” means the ownership of such a number of Voting Shares carrying more than 50 per cent. of the voting rights of the Issuer.

“Investment Grade” means a rating of Baa3 or better by Moody’s (or its equivalent under any successor rating category of Moody’s); a rating of BBB- or better by S&P (or its equivalent under any successor rating category of S&P) or the equivalent investment grade credit rating from any replacement Rating Agency of equivalent international standing.

“Person” means any individual, company, corporation, firm, partnership, joint venture, undertaking, association, organisation, trust, state or agency of a state (in each case whether or not being a separate legal entity).

“Rating Agency” means each of Moody’s Deutschland GmbH (“Moody’s”) or Standard & Poor’s Credit Market Services Europe Limited (“S&P”), and their respective successors.

“Voting Shares” means shares in the issued share capital of the Issuer carrying voting rights.

6.5 Purchases

The Issuer or any of its Subsidiaries (as defined in Condition 9 (Events of Default) may at any time purchase Notes (provided that all unmatured Coupons appertaining to the Notes are purchased with the Notes) in any manner and at any price.

6.6 Cancellations

All Notes which are (a) redeemed or (b) purchased by or on behalf of the Issuer or any of its Subsidiaries may be cancelled, together with all relative unmatured Coupons attached to the Notes or surrendered with the Notes or may be reissued or resold.

6.7 Notices Final

Upon the expiry of any notice as is referred to in Condition 6.2 (Redemption for Taxation Reasons), Condition 6.3 (Redemption at the option of the Issuer) or Condition 6.4 (Redemption at the option of the Holders upon a Change of Control Put Event) above the Issuer shall be bound to redeem the Notes to which the notice refers in accordance with the terms of such paragraph.

7. TAXATION

7.1 Payment without Withholding

All payments in respect of the Notes by or on behalf of the Issuer shall be made without withholding or deduction for, or on account of, any present or future taxes, duties, assessments or governmental charges of whatever nature (“Taxes”) imposed or levied by or on behalf of any Relevant Jurisdiction, unless the withholding or deduction of the Taxes is required by law. In that event, the Issuer will pay such additional amounts as may be necessary in order that any amount received by the Noteholders or Couponholders after the withholding or deduction is equal to the amount that would have been received in respect of the Notes or, as the case may be, Coupons, in the absence of the withholding or deduction; except that no additional amounts shall be payable in relation to any payment in respect of any Note or Coupon:

(a) the holder of which is liable for Taxes in respect of such Note or Coupon by reason of having or having had a present or former connection with the Relevant Jurisdiction other than a mere holding of the Notes; or

(b) presented for payment in the Netherlands; or

(c) presented for payment more than 30 days after the Relevant Date (as defined below) except to the extent that a holder would have been entitled to additional amounts on presenting the same for
payment on the last day of the period of 30 days assuming that day to have been a Presentation Date (as defined in Condition 5 (Payments)); or

(d) presented for payment by, or on behalf of, a holder who is entitled to avoid such withholding or deduction in respect of such Note or Coupon by making a declaration or any other statement to the relevant tax authority, including, but not limited to, a declaration of residence or non-residence or other similar claim for exemption; or

(e) payable due to any combination of items (a) to (d).

Notwithstanding any other provisions contained herein, the Issuer shall be permitted to withhold or deduct any amounts required pursuant to an agreement described in Section 1471(b) of the U.S. Internal Revenue Code (the “Code”) or otherwise imposed pursuant to Sections 1471 through 1474 of the Code (or any amended or successor provisions), any regulations or agreements thereunder, official interpretations thereof, or any law implementing an intergovernmental approach thereto (“FATCA Withholding”). The Issuer will have no obligation to pay additional amounts or otherwise indemnify an investor for any such FATCA Withholding deducted or withheld by the Issuer, any paying agent or any other party.

For the avoidance of doubt, the obligation of the Issuer to pay additional amounts in respect of Taxes will not apply to (i) any estate, inheritance, gift, sales, transfer, personal property or any similar tax, duty, assessment or other governmental charge or (ii) any Taxes payable otherwise than by deduction or withholding from payments of principal of, or interest on, the Notes or, as the case may be, Coupons.

In this Condition 7 (Taxation):

“Relevant Date” means the date on which the payment first becomes due but, if the full amount of the money payable has not been received by the Principal Paying Agent or the Trustee on or before the due date, it means the date on which, the full amount of the money having been so received, notice to that effect has been duly given to the Noteholders by the Issuer in accordance with Condition 12 (Notices).

7.2 Additional Amounts

Any reference in these Conditions to any amounts in respect of the Notes shall be deemed also to refer to any additional amounts which may be payable under this Condition 7 (Taxation) or under any undertakings given in addition to, or in substitution for, this Condition pursuant to the Trust Deed.

8. PRESCRIPTION

Notes and Coupons will become void unless presented for payment within periods of 10 years (in the case of principal) and 5 years (in the case of interest) from the Relevant Date (as defined in Condition 7 (Taxation)) in respect of the Notes or, as the case may be, the Coupons, subject to the provisions of Condition 5 (Payments).

9. EVENTS OF DEFAULT

If any of the following events (each an “Event of Default”) occurs and is continuing, the Trustee at its discretion may and, if so requested in writing by holders of at least one-quarter in principal amount of the Notes then outstanding or, if so directed by an Extraordinary Resolution, shall (subject, in the case of the happening of any of the events mentioned in paragraphs (b) to (g) (other than (d) below), to the Trustee having certified in writing that the happening of such events is in its opinion materially prejudicial to the interests of the Noteholders) subject in all cases, to the Trustee having been indemnified and/or secured and/or prefunded to its satisfaction) give written notice to the Issuer declaring the Notes to be immediately due and payable, whereupon they shall become immediately due and payable at their principal amount together with accrued interest without further action or formality:

(a) Non-payment: the Issuer fails to pay any amount of principal or interest due in respect of the Notes, and that failure to pay continues for more than 14 days after the due date for payment; or
(b) **Breach of other obligations:** the Issuer defaults in the performance or observance of any one or more other obligations under or in respect of the Notes or the Trust Deed required to be performed or observed by the Issuer and such default is either:

(i) in the opinion of the Trustee, incapable of remedy, in which case no notice referred to in (ii) below will be required; or

(ii) in the opinion of the Trustee, capable of remedy and the default remains unremedied for 30 days (or such longer period as the Trustee may agree) after the Trustee has given written notice to the Issuer specifying the default and requiring that default to be remedied; or

(c) **Cross-acceleration:** (i) the repayment of any indebtedness for borrowed money owing by the Issuer or any of its Material Subsidiaries is accelerated by reason of default (however expressed) and such acceleration has not been rescinded, waived or annulled, or (ii) the Issuer or any of its Material Subsidiaries is in default (after the expiry of any originally applicable grace period) in any payment when due of such indebtedness for borrowed money; provided that no such event shall constitute an Event of Default (A) if it is being contested in good faith by, in the reasonable opinion of the Issuer, appropriate proceedings; or (B) unless the aggregate outstanding amount of such accelerated or unpaid indebtedness for borrowed money, whether alone or when aggregated with all other such outstanding accelerated or unpaid indebtedness for borrowed money, exceeds €100 million (or its equivalent in another currency or currencies); or

(d) **Winding-up:** any final order is made by any competent court or other authority, or an effective resolution is passed for the liquidation, dissolution or winding-up of the Issuer or any of its Material Subsidiaries otherwise than (i) for the purposes of a Permitted Reorganisation; or (ii) on terms previously approved by the Trustee or by an Extraordinary Resolution; or

(e) **Insolvency, etc:** (i) the Issuer or any of its Material Subsidiaries admits in writing that it is insolvent or unable to pay its debts as they fall due, (ii) an administrator or liquidator is appointed (or application for any such appointment is made) in respect of the Issuer or any of its Material Subsidiaries or the whole or substantially all of the undertaking, assets and revenues of the Issuer or any of its Material Subsidiaries, (iii) the Issuer or any of its Material Subsidiaries makes a general assignment or an arrangement or composition with or for the benefit of its creditors or declares a moratorium in respect of any of its indebtedness or any guarantee of any indebtedness given by it or (iv) the Issuer or any of its Material Subsidiaries ceases or threatens to cease to carry on all or substantially all of its business otherwise, in each of (i) to (iv), than (i) for the purposes of a Permitted Reorganisation; or (ii) on terms previously approved by the Trustee or by an Extraordinary Resolution;

(f) **Security enforced:** a secured party takes possession, or a receiver, manager or other similar officer is appointed, of the whole or substantially all of the undertaking, assets and revenues of the Issuer or any of its Material Subsidiaries; or

(g) **Analogous Event:** if any event occurs which, under the laws of any Relevant Jurisdiction (as defined in Condition 6.2 (*Redemption for Taxation Reasons*)), has or may have an analogous effect to any of the events referred to in subparagraphs (d) to (f) above.

In this Condition 9 (*Events of Default*):

“**Material Subsidiary**” means, at any time, a Subsidiary of the Issuer whose total assets represent at least 5 per cent. of the consolidated total assets of the Group or whose total net sales represent at least 7.5 per cent. of the consolidated net sales of the Group and in relation to which the Issuer has, directly or indirectly, the power to direct its management and policies whether through the ownership of voting capital, by contract or otherwise. For this purpose:

(a) in the case of each Subsidiary, the calculation shall be made by comparing the total assets or, as the case may be, total net sales of that Subsidiary individually (and not on a consolidated basis) to those of the Group;
(b) assets or sales which arise from transactions between members of the Group and which would be eliminated in the consolidated financial statements of the Group shall be excluded;

(c) the total assets or total net sales of a Subsidiary shall be calculated by reference to:

(i) the accounts of that Subsidiary used for the purpose of the latest audited consolidated financial statements of the Group; or

(ii) if the company became a Subsidiary after the end of the financial period to which the latest audited consolidated financial statements of the Group relate, its then latest audited accounts;

(d) the consolidated total assets or consolidated net sales of the Group shall be calculated by reference to the latest audited consolidated financial statements of the Group, adjusted as appropriate to reflect the total assets or total net sales of any company which has become or ceased to be a Subsidiary after the end of the financial period to which those accounts relate; and

(e) where a Material Subsidiary transfers all or substantially all of its assets to the Issuer or another Subsidiary, the transferor (if it is not the Holding Company of the transferee) shall cease to be a Material Subsidiary and (if the transferee is a Subsidiary but not a Material Subsidiary) the transferee shall become a Material Subsidiary.

For the purposes of this definition of Material Subsidiary, the term “Group” means the Issuer and its Subsidiaries and the term “Holding Company” of any other person means a company in respect of which that other person is a Subsidiary.

“Permitted Reorganisation” means (i) any merger, consolidation, amalgamation, reorganisation, transfer of all or substantially all of its business, assets or undertaking (by operation of law or by way of sale, contribution, lease, conveyance, demerger or otherwise), reconstruction or restructuring on a solvent basis, pursuant to which the surviving or acquiring company (if not the Issuer) assumes all obligations of the Issuer under the Notes and the Trust Deed either expressly, by operation of law or by universal succession; or (ii) for the purposes of or in connection with, and followed by, a substitution of the relevant entity pursuant to and in accordance with Condition 13.5 (Substitution).

“Subsidiary” means a consolidated entity of which a person has direct or indirect control or owns directly or indirectly more than 50 per cent. of the voting rights or similar right of ownership and “control” for this purpose means the power to direct the management and the policies of the entity whether through the ownership of voting capital, by contract or otherwise.

10. ENFORCEMENT

10.1 Enforcement by the Trustee

The Trustee may at any time, at its discretion and without notice, take such proceedings and/or other steps or action (including lodging an appeal in any proceedings) against or in relation to the Issuer as it may think fit to enforce the provisions of the Trust Deed, the Notes and the Coupons or otherwise, but it shall not be bound to take any such proceedings or other steps or action unless (a) it has been so directed by an Extraordinary Resolution of the Noteholders or so requested in writing by the holders of at least one-quarter in principal amount of the Notes then outstanding and (b) it has been indemnified and/or secured and/or pre-funded to its satisfaction.

10.2 Limitation on Trustee actions

The Trustee may refrain from taking any action in any jurisdiction if the taking of such action in that jurisdiction would, in its opinion based upon legal advice in the relevant jurisdiction, be contrary to any law of that jurisdiction. Furthermore, the Trustee may also refrain from taking such action if it would otherwise render it liable to any person in that jurisdiction or if, in its opinion based upon such legal advice, it would not have the power to do the relevant thing in that jurisdiction by virtue of any applicable law in that jurisdiction or
if it is determined by any court or other competent authority in that jurisdiction that it does not have such power.

10.3 Enforcement by the Noteholders

No Noteholder or Couponholder shall be entitled to (i) take any steps or action against the Issuer to enforce the performance of any of the provisions of the Trust Deed, the Notes or the Coupons or (ii) take any other proceedings (including lodging an appeal in any proceedings) in respect of or concerning the Issuer, in each case unless the Trustee, having become bound so to take any such action, steps or proceedings, fails so to do within a reasonable period and such failure shall be continuing.

11. REPLACEMENT OF NOTES AND COUPONS

Should any Note or Coupon be lost, stolen, mutilated, defaced or destroyed it may be replaced subject to applicable laws, regulations and stock exchange or other relevant authority regulations, at the specified office of the Principal Paying Agent upon payment by the claimant of the expenses incurred in connection with the replacement and on such terms as to evidence and indemnity as the Issuer may reasonably require. Mutilated or defaced Notes or Coupons must be surrendered before replacements will be issued.

12. NOTICES

12.1 Notices to the Noteholders

All notices to the Noteholders will be valid if published in a leading English language daily newspaper published in London and, so long as the Notes are admitted to listing on the Official List and to trading on the regulated market of the Luxembourg Stock Exchange and the rules of that exchange so require, a daily newspaper of general circulation in Luxembourg or the website of the Luxembourg Stock Exchange (at www.bourse.lu). It is expected that publication in a newspaper will normally be made in the Financial Times in London and the Luxemburger Wort in Luxembourg. Any such notice will be deemed to have been given on the date of the first publication or, where required to be published in more than one newspaper, on the date of the first publication in all required newspapers. If publication as provided above is not practicable, notice will be given in such other manner, and shall be deemed to have been given on such date, as the Trustee may approve. Couponholders will be deemed for all purposes to have notice of the contents of any notice given to the Noteholders in accordance with this paragraph.

12.2 Notices from the Noteholders

Notices to be given by any Noteholder shall be in writing and given by lodging the same, together with the relative Note or Notes, with the Principal Paying Agent or, if the Notes are held in a clearing system, may be given through the clearing system in accordance with its standard rules and procedures.

13. MEETINGS OF NOTEHOLDERS, MODIFICATION, WAIVER, AUTHORISATION AND DETERMINATION, SUBSTITUTION

13.1 Meetings of Noteholders

The Trust Deed contains provisions for convening meetings of the Noteholders to consider any matter affecting their interests, including the modification of any of these Conditions or any of the provisions of the Trust Deed. Any such modification may be made if sanctioned by an Extraordinary Resolution. Such a meeting may be convened by the Issuer or the Trustee and shall be convened by the Trustee (subject to it being indemnified and/or secured and/or prefunded to its satisfaction) upon the request in writing of the Noteholders holding not less than one-quarter of the aggregate principal amount of the outstanding Notes.

The quorum at any meeting convened to vote on an Extraordinary Resolution will be one or more persons present holding or representing more than 50 per cent. in principal amount of the Notes for the time being outstanding, or at any adjourned such meeting one or more persons present whatever the principal amount of the Notes held or represented by him or them, except that, at any meeting the business of which includes any matter defined in the Trust Deed as a Basic Terms Modification, including the modification of certain of the
provisions of these Conditions and certain of the provisions of the Trust Deed (including the date of maturity of the Notes or any date for payment of interest thereon, reducing or cancelling the amount of principal or interest payable in respect of the Notes, altering the currency of payment of the Notes, altering the method of calculating the amount of any payment in respect of the Notes or changing the quorum requirements relating to meetings or the majority required to pass an Extraordinary Resolution), the necessary quorum required to pass an Extraordinary Resolution will be one or more persons present holding or representing not less than two-thirds, or at any adjourned such meeting not less than one-third, of the principal amount of the Notes for the time being outstanding.

In addition, the Trust Deed provides that a resolution in writing signed by or on behalf of the holders of not less than two-thirds in principal amount of the Notes for the time being outstanding or consent given by way of electronic consents through the relevant clearing system(s) by or on behalf of the holders of not less than two-thirds in principal amount of the Notes for the time being outstanding, shall, in each case, be effective as an Extraordinary Resolution of the Noteholders. An Extraordinary Resolution passed by the Noteholders will be binding on all Noteholders whether or not they are present at any meeting and whether or not they voted on the resolution, and on all Couponholders.

13.2 Modification, Waiver, Authorisation and Determination

The Trustee may agree, without the consent of the Noteholders or Couponholders (i) (other than in relation to any Basic Terms Modification (as defined in the Trust Deed)) to any modification of, or to the waiver or authorisation of any breach or proposed breach of, any of these Conditions or any of the provisions of the Trust Deed or the Agency Agreement, or determine, without any such consent as aforesaid, that any Event of Default or Potential Event of Default (as defined in the Trust Deed) shall not be treated as such (provided that, in any such case, it is not, in the opinion of the Trustee, materially prejudicial to the interests of the Noteholders), or (ii) to any modification which, in its opinion, is of a formal, minor or technical nature or to correct a manifest error or an error which is, in the opinion of the Trustee, proven or to comply with mandatory provisions of law.

13.3 Trustee to have Regard to Interests of Noteholders as a Class

In connection with the exercise by it of any of its trusts, powers, authorities and discretions (including, without limitation, any modification, waiver, authorisation or determination), the Trustee shall have regard to the general interests of the Noteholders as a class but shall not have regard to any interests arising from circumstances particular to individual Noteholders or Couponholders (whatever their number) and, in particular but without limitation, shall not have regard to the consequences of any such exercise for individual Noteholders or Couponholders (whatever their number) resulting from their being for any purpose domiciled or resident in, or otherwise connected with, or subject to the jurisdiction of, any particular territory or any political sub-division thereof and the Trustee shall not be entitled to require, nor shall any Noteholder or Couponholder be entitled to claim, from the Issuer, the Trustee or any other person any indemnification or payment in respect of any tax consequence of any such exercise upon individual Noteholders or Couponholders except to the extent already provided for in Condition 7 (Taxation) and/or any undertaking given in addition to, or in substitution for, Condition 7 (Taxation) pursuant to the Trust Deed.

13.4 Notification to the Noteholders

Any modification, abrogation, waiver, authorisation or determination shall be binding on the Noteholders and the Couponholders and, unless the Trustee agrees otherwise, any modification shall be notified by the Issuer to the Noteholders as soon as practicable thereafter in accordance with Condition 12 (Notices).

13.5 Substitution

The Trustee may agree, without the consent of the Noteholders or the Couponholders, to the substitution of (i) any Subsidiary of the Issuer or (ii) any company which directly or indirectly owns 100 per cent. of the shares or other equity interests (as the case may be) carrying the right to vote in the Issuer in place of the Issuer as issuer and principal debtor under the Trust Deed, the Notes and the Coupons; provided that the Notes are unconditionally and irrevocably guaranteed by the Issuer; the Trustee is of the opinion that the interests of the Noteholders will not be materially prejudiced thereby and certain other conditions specified in the Trust Deed are fulfilled. Any such substitution shall be binding on the Noteholders and Couponholders and shall be
notified to the Noteholders within 14 days thereafter. For the purpose of this Condition, “Subsidiary” has the meaning given to it in Condition 9 (Events of Default).

14. INDEMNIFICATION AND PROTECTION OF THE TRUSTEE AND ITS CONTRACTING WITH THE ISSUER

14.1 Indemnification and protection of the Trustee

The Trust Deed contains provisions for the indemnification of the Trustee and for its relief from responsibility and liability towards the Issuer, the Noteholders and the Couponholders, including (i) provisions relieving it from taking action unless indemnified and/or secured and/or pre-funded to its satisfaction and (ii) provisions limiting or excluding its liability in certain circumstances.

14.2 Trustee Contracting with the Issuer

The Trust Deed also contains provisions pursuant to which the Trustee is entitled, inter alia, (a) to enter into business transactions with the Issuer and/or any of the Issuer's Subsidiaries and to act as trustee for the holders of any other securities issued or guaranteed by, or relating to, the Issuer and/or any of the Issuer's Subsidiaries, (b) to exercise and enforce its rights, comply with its obligations and perform its duties under or in relation to any such transactions or, as the case may be, any such trusteeship without regard to the interests of, or consequences for, the Noteholders or Couponholders, and (c) to retain and not be liable to account for any profit made or any other amount or benefit received thereby or in connection therewith.

15. FURTHER ISSUES

The Issuer may from time to time without the consent of the Noteholders or Couponholders create and issue further notes, having terms and conditions the same as those of the Notes, or the same except for the amount and date of the first payment of interest, which may be consolidated and form a single series with the outstanding Notes. Any further notes or bonds which are to form a single series with the outstanding notes or bonds of any series (including the Notes) constituted by the Trust Deed or any supplemental deed shall, and any other further notes or bonds may (with the consent of the Trustee), be constituted by a deed supplemental to the Trust Deed. The Trust Deed contains provisions for convening a single meeting of the Noteholders and the holders of notes or bonds of other series in certain circumstances where the Trustee so decides.

16. GOVERNING LAW AND SUBMISSION TO JURISDICTION

16.1 Governing Law

The Trust Deed, the Notes and the Coupons and any non-contractual obligations arising out of or in connection with the Trust Deed, the Notes and the Coupons are governed by, and construed in accordance with, English law.

16.2 Submission to Jurisdiction

(a) Subject to Condition 16.2(c) (Submission to Jurisdiction) below, the English courts have exclusive jurisdiction to settle any dispute arising out of or in connection with the Trust Deed, the Notes or the Coupons, including any dispute as to their existence, validity, interpretation, performance, breach or termination or the consequences of their nullity and any dispute relating to any non-contractual obligations arising out of or in connection with the Trust Deed, the Notes or the Coupons (a “Dispute”) and each of the Issuer, the Trustee and any Noteholders or Couponholders in relation to any Dispute submits to the exclusive jurisdiction of the English courts.

(b) For the purposes of this Condition 16.2 (Submission to Jurisdiction), the Issuer waives any objection to the English courts on the grounds that they are an inconvenient or inappropriate forum to settle any Dispute.

(c) To the extent allowed by law, the Issuer, the Trustee, the Noteholders and the Couponholders may, in respect of any Dispute or Disputes, take (i) proceedings in any other court with jurisdiction and (ii) concurrent proceedings in any number of jurisdictions.
16.3 Appointment of Process Agent

The Issuer irrevocably appoints Philips Electronics UK Limited (Attention: Company Secretary), Philips Centre, Guildford Business Park, Guildford, Surrey GU2 8XG as its agent for service of process in any proceedings before the English courts in relation to any Dispute and agrees that, in the event of Philips Electronics UK Limited being unable or unwilling for any reason so to act, it will immediately appoint another person approved by the Trustee as its agent for service of process in England in respect of any Dispute. The Issuer agrees that failure by a process agent to notify it of any process will not invalidate service. Nothing in this Condition 16.3 (Appointment of Process Agent) shall affect the right to serve process in any other manner permitted by law.

16.4 Other Documents

The Issuer has in the Agency Agreement and the Trust Deed submitted to the jurisdiction of the English courts and appointed an agent in England for service of process, in terms substantially similar to those set out above.

17. RIGHTS OF THIRD PARTIES

No rights are conferred on any person under the Contracts (Rights of Third Parties) Act 1999 to enforce any term of this Note, but this does not affect any right or remedy of any person which exists or is available apart from that Act.
OVERVIEW OF PROVISIONS RELATING TO THE NOTES WHILE REPRESENTED BY THE GLOBAL NOTES

The 2024 Notes and the 2028 Notes will, in each case, initially be in the form of a Temporary Global Note which will be deposited on or around the Issue Date with a common safekeeper for Euroclear and Clearstream, Luxembourg.

The Notes will be issued in new global note (“NGN”) form. On 13 June 2006 the European Central Bank (the “ECB”) announced that Notes in NGN form are in compliance with the “Standards for the use of EU securities settlement systems in ESCB credit operations” of the central banking system for the euro (the “Eurosystem”), provided that certain other criteria are fulfilled. At the same time the ECB also announced that arrangements for notes in NGN form will be offered by Euroclear and Clearstream, Luxembourg as of 30 June 2006 and that debt securities in global bearer form issued through Euroclear and Clearstream, Luxembourg after 31 December 2006 will only be eligible as collateral for Eurosystem operations if the NGN form is used.

The Notes are intended to be held in a manner which would allow Eurosystem eligibility, that is, in a manner which would allow the Notes to be recognised as eligible collateral for Eurosystem monetary policy and intra-day credit operations by the Eurosystem either upon issue or at any or all times during their life. Such recognition will depend upon satisfaction of the Eurosystem eligibility criteria.

So long as the Notes are represented by a Temporary Global Note or a Permanent Global Note and the relevant clearing system(s) so permit, the Notes will be tradeable only in the minimum authorised denomination of €100,000 and higher integral multiples of €1,000, notwithstanding that no definitive Notes will be issued with a denomination above €199,000.

In addition, each Temporary Global Note and Permanent Global Note will contain provisions which modify the relevant Conditions as they apply to the relevant Temporary Global Note and Permanent Global Note. The following is a summary of certain of those provisions:

Accountholders

For so long as all of the 2024 Notes or the 2028 Notes (as applicable) are represented by one or both of the relevant Global Notes for such 2024 Notes or the 2028 Notes (as applicable) and such Global Note(s) is/are held on behalf of Euroclear and/or Clearstream, Luxembourg, each person (other than Euroclear or Clearstream, Luxembourg) who is for the time being shown in the records of Euroclear or Clearstream, Luxembourg as the holder of a particular principal amount of such Notes (each an “Accountholder”) (in which regard any certificate or other document issued by Euroclear or Clearstream, Luxembourg as to the principal amount of such Notes standing to the account of any person shall, in the absence of manifest error, be conclusive and binding for all purposes) shall be treated as the holder of such principal amount of such Notes for all purposes (including but not limited to, for the purposes of any quorum requirements of, or the right to demand a poll at, meetings of the Noteholders) other than with respect to the payment of principal and interest on such principal amount of such Notes, the right to which shall be vested, as against the Issuer and the Trustee, solely in the bearer of the relevant Global Note in accordance with and subject to its terms and the terms of the Trust Deed. Each Accountholder must look solely to Euroclear or Clearstream, Luxembourg, as the case may be, for its share of each payment made to the bearer of the relevant Global Note.

Payments

On or after the Exchange Date, no payment will be made on the relevant Temporary Global Note unless exchange for an interest in the relevant Permanent Global Note is improperly withheld or refused. Payments of principal and interest in respect of Notes represented by a Global Note will, subject as set out below, be made to the bearer of such Global Note and each payment so made will discharge the Issuer’s obligations in respect thereof. Upon any payment of principal or interest in respect of Notes represented by a Global Note, the Issuer shall procure that the amount so paid shall be entered pro rata in the records of Euroclear or Clearstream, Luxembourg and the principal amount of the Notes recorded in the records of Euroclear and Clearstream, Luxembourg and represented by such Global Note will be reduced accordingly. Any failure to make such entries shall not affect the discharge of the Issuer’s obligations in respect thereof. Payments of interest on the Temporary Global Note (if permitted by the first sentence of this paragraph) will be made only upon certification as to non-U.S. beneficial ownership unless such certification has already been made.

Notices
For so long as all of the 2024 Notes or the 2028 Notes (as applicable) are represented by one or both of the relevant Global Notes for such 2024 Notes or the 2028 Notes (as applicable) and such Global Note(s) is/are held on behalf of Euroclear and/or Clearstream, Luxembourg, notices to Noteholders may be given by delivery of the relevant notice to Euroclear and/or Clearstream, Luxembourg (as the case may be) for communication to the relevant Accountholders rather than by publication as required by Condition 12 (Notices) of the 2024 Notes and Condition 12 (Notices) of the 2028 Notes, provided that, so long as the Notes are listed on any stock exchange, notices shall also be published in accordance with the rules of such exchange. Any such notice shall be deemed to have been given to the Noteholders on the day on which such notice is delivered to Euroclear and/or Clearstream, Luxembourg (as the case may be) as aforesaid.

Whilst any of the Notes held by a Noteholder are represented by a Global Note, notices to be given by such Noteholder may be given by such Noteholder (where applicable) through the applicable clearing system's operational procedures approved for this purpose and otherwise in such manner as the Principal Paying Agent and the applicable clearing system may approve for this purpose.

**Exchange**

The relevant Permanent Global Note will be exchangeable in whole but not in part (free of charge to the holder) for definitive Notes only:

(a) upon the happening of any of the events defined in Condition 9 as an Event of Default (Events of Default) of the relevant Notes;

(b) if the Issuer has been notified that both Euroclear and Clearstream, Luxembourg have announced an intention permanently to cease business or have in fact done so and no successor clearing system satisfactory to the Trustee is available; or

(c) if the Issuer has or will become subject to adverse tax consequences which would not be suffered were the relevant Notes in definitive form and a certificate to such effect signed by an Authorised Signatory (as defined in the Trust Deed) of the Issuer is given to the Trustee.

Thereupon (in the case of (a) and (b) above) the holder of such Permanent Global Note (acting on the instructions of one or more of the Accountholders) or the Trustee may give notice to the Issuer and the Principal Paying Agent and (in the case of (c)) the Issuer may give notice to the Trustee, the Principal Paying Agent and the Noteholders, of its intention to exchange such Permanent Global Note for definitive Notes. Any exchange shall occur no later than 45 days after the date of receipt of the first relevant notice by the Principal Paying Agent.

Exchanges will be made upon presentation of the relevant Permanent Global Note to or to the order of the Principal Paying Agent on any day on which banks are open for general business in London. In exchange for such Permanent Global Note the Issuer will deliver, or procure the delivery of, an equal aggregate principal amount of definitive Notes (having attached to them all Coupons in respect of interest which has not already been paid on the Permanent Global Note), security printed in accordance with any applicable legal and stock exchange requirements and in or substantially in the form set out in the Trust Deed. On exchange of such Permanent Global Note, the Issuer will procure that it is cancelled and, if the holder so requests, returned to the holder together with any relevant definitive Notes.

**Prescription**

Claims against the Issuer in respect of principal and interest on the Notes represented by a Global Note will be prescribed after 10 years (in the case of principal) and 5 years (in the case of interest) from the Relevant Date (as defined in Condition 7 (Taxation) of the 2024 Notes and Condition 7 (Taxation) of the 2028 Notes).

**Cancellation**

Cancellation of any Note represented by a Global Note and required by the relevant Conditions to be cancelled following its redemption or purchase will be effected by endorsement by or on behalf of the Principal Paying Agent of the reduction in the principal amount of the relevant Global Note on the relevant part of the schedule thereto.

**Euroclear and Clearstream, Luxembourg**
Notes represented by a Global Note are transferable in accordance with the rules and procedures for the time being of Euroclear and Clearstream, Luxembourg, as appropriate. References in the Global Notes and this summary to Euroclear and/or Clearstream, Luxembourg shall be deemed to include references to any other clearing system approved by the Trustee.

**Partial exercise of call option**

In connection with an exercise of the option contained in Condition 6.3 (*Redemption at the option of the Issuer*) of the 2024 Notes in relation to some only of the 2024 Notes or Condition 6.3 (*Redemption at the option of the Issuer*) of the 2028 Notes in relation to some only of the 2028 Notes, the relevant Permanent Global Note may be redeemed in part in the principal amount specified by the Issuer in accordance with the relevant Conditions and the relevant Notes to be redeemed will not be selected as provided in the relevant Conditions but in accordance with the rules and procedures of Euroclear and Clearstream, Luxembourg (to be reflected in the records of Euroclear and Clearstream, Luxembourg as either a pool factor or a reduction in principal amount at their discretion).

**Exercise of put option**

In order to exercise the change of control put option contained in the relevant Conditions, the bearer of the relevant Permanent Global Note must, within the period specified in the relevant Conditions for the deposit of the relevant Note and change of control put notice, give written notice of such exercise to the Principal Paying Agent specifying the principal amount of Notes in respect of which such put option is being exercised. Any such notice will be irrevocable and may not be withdrawn.
USE OF PROCEEDS

The gross proceeds of the issue of the Notes, amounting to approximately €992,090,000, will be applied by the Issuer for the Issuer’s general corporate purposes, including the repayment of the €900,000,000 loan made available under the credit facility dated 13 April 2018 made between the Issuer and Coöperatieve Rabobank U.A. as Facility Agent and Bank of America Merrill Lynch International Limited, BNP Paribas SA, Netherlands Branch, Citibank, N.A., London Branch, Coöperatieve Rabobank U.A., Deutsche Bank Luxembourg S.A., HSBC Bank plc, ING Bank N.V., Mizuho Bank Europe N.V., MUFG Bank (Europe) N.V. and Societe Generale S.A. as the lenders thereunder (the “2018 Credit Facility”), a description of which is set out in “Description of the Issuer and the Group—Material Contracts—Royal Philips 2018 Credit Facility” and which was entered into for the purpose of financing the redemption of the Issuer’s outstanding 3.750% notes due 2022 in the aggregate principal of up to U.S.$1,000,000,000 (the “2022 U.S.$ Note Redemption”).
DESCRIPTION OF THE ISSUER AND THE GROUP

History and Development

The Issuer is a public limited liability company (naamloze vennootschap) organised under the laws of the Netherlands and is the parent company of the Group, headquartered in Amsterdam, the Netherlands. The Issuer, which started as a limited partnership with the name Philips & Co in Eindhoven, the Netherlands, in 1891, was converted into a company with limited liability with the name N.V. Philips’ Gloeilampenfabrieken on 11 September 1912. The Issuer’s legal and commercial name was changed to Philips Electronics N.V. on 6 May 1994, to Koninklijke Philips Electronics N.V. on 1 April 1998 and to Koninklijke Philips N.V. on 15 May 2013. Its shares have been listed on the Amsterdam Stock Exchange, Euronext Amsterdam, since 1912. The shares have been traded in the United States since 1962 and have been listed on the New York Stock Exchange since 1987. The Issuer’s corporate seat (statutaire zetel) is in Eindhoven, the Netherlands, and the executive offices of the Issuer are located at the Philips Center, Amstelplein 2, 1096 BC Amsterdam, the Netherlands.

The Issuer is registered with the Dutch Chamber of Commerce with number 17001910. Its telephone number is +31 20 59 77 777.

The Issuer is managed by the members of the Executive Committee (comprising the board of management (“Board of Management”) and certain key officers) under the supervision of the supervisory board (“Supervisory Board”). The Executive Committee operates under the chairmanship of the Chief Executive Officer (“CEO”) and shares responsibility for the deployment of the Group’s strategy and policies, and the achievement of its objectives and results.

In September 2014, the Issuer announced its plan to sharpen its strategic focus by establishing two stand-alone companies focused on the HealthTech and Lighting opportunities respectively. To this end, a stand-alone structure was established for Philips Lighting within the Group, effective 1 February 2016. Following the listing of Philips Lighting on Euronext Amsterdam on 27 May 2016, the Issuer retained a 71.23 per cent. stake and, in the course of 2017, the Issuer completed three accelerated bookbuilt offerings as a result of which the Issuer no longer has control over Philips Lighting and ceased to consolidate Philips Lighting in the Group’s accounts as from the end of November 2017. See “Business of the Group—Recent Developments—Philips Lighting Sell-Down” below.

At the end of 2017, the Group had 38 production sites in 14 countries, 50 research and development centres and 73,951 employees.

The Issuer’s existing long-term debt is rated Baa1 (with stable outlook) by Moody’s, A- (with stable outlook) by Fitch and BBB+ (with stable outlook) by S&P.

Business of the Group

The Group is a health technology group focused on improving people’s lives through meaningful innovation across the health continuum: from healthy living and prevention to diagnosis, treatment and home care. Applying advanced technologies and deep clinical and consumer insights, the Group partners with customers to deliver integrated solutions that enable better outcomes at lower cost.

In 2017, the Group’s activities in the field of health technology were organised on a segment basis. The reportable segments are Personal Health businesses, Diagnosis & Treatment businesses and Connected Care & Health Informatics businesses, each being responsible for the management of its business worldwide. Additionally, the Group identifies HealthTech Other and Legacy Items.

Personal Health Businesses

Overview

The Group’s Personal Health businesses play an important role on the health continuum, in the healthy living, prevention and home care stages, delivering integrated, connected solutions that support healthier lifestyles and those living with chronic disease.
Leveraging its deep consumer expertise and extensive healthcare know-how, the Group enables people to live a healthy life in a healthy home environment, and to proactively manage their own health.

Through the Group’s various businesses, Personal Health has delivered sustained strong growth and margin expansion in recent years, driven by five main factors:

- Share gains in growing markets;
- Geographical expansion with proven propositions;
- Innovation at the forefront of digital health;
- High-impact consumer marketing programmes; and
- Leadership in online sales.

Throughout 2017, the Group has driven above-market growth and stepped up profitability into the mid-teens, building on a strong track record. Personal Health has many distinct product categories and associated competitors, including Procter & Gamble in Personal Care and Oral Healthcare, Groupe SEB in Domestic Appliances and ResMed in Sleep & Respiratory Care.

In 2017, the Personal Health segment consisted of the following areas of business:

- **Health & Wellness**: mother and child care, oral healthcare;
- **Personal Care**: male grooming, beauty;
- **Domestic Appliances**: kitchen appliances, coffee, air, garment care, floor care; and
- **Sleep & Respiratory Care**: sleep, respiratory care, respiratory drug delivery.

For the year ended 31 December 2017, Health & Wellness represented 21 per cent. of total sales in the Personal Health segment; Personal Care represented 25 per cent. of total sales; Domestic Appliances represented 32 per cent. of total sales and Sleep & Respiratory Care represented 22 per cent. of total sales.

Through its Personal Health businesses, the Group offers a broad range of products in various consumer price segments, always aiming to realise premium value. The Group continues to expand its portfolio and increase its accessibility, particularly in lower-tier cities in growth geographies. The Group is well positioned to capture further growth in online sales and continue to build its digital and e-commerce capabilities. The Group also continues to roll-out high-impact consumer marketing programmes in support of key innovations. In 2017, the Group further rolled out Philips OneBlade, accompanied by an innovative Digital Advocacy Marketing Programme, for which it received a Euro Gold Effie Award 2017 in the category ‘Product/Service launch’.

The Group’s wide portfolio of connected consumer health platforms, such as “uGrow”, “DiamondClean Smart” and “DreamFamily”, leverages Philips HealthSuite, a cloud-enabled connected health ecosystem of devices, apps and digital tools that enable personalised health and continuous care.

The Group is leveraging connectivity to engage consumers in new and impactful ways through social media and digital innovation. For example, in 2017 the Group launched the “Philips Sonicare DiamondClean Smart” toothbrush, a complete oral care solution for a healthier mouth. This toothbrush gives users exceptional results thanks to new, high-performance brush heads and personalised coaching enabled by smart sensor technology. Via the Philips HealthSuite digital platform, the app is a virtual hub for personal oral healthcare, enabling users to manage their brushing and breath quality on a daily basis, share results with their dental practitioners, and receive personalised guidance and advice.

Under normal economic conditions, the Group’s Personal Health businesses experience seasonality, with higher sales in the fourth quarter.
In 2017, Personal Health employed 23,170 people worldwide. The global sales and service organisation covered more than 50 mature and growth geographies. In addition, the Group operated manufacturing and business creation organisations in Argentina, Austria, Brazil, China, India, Indonesia, Italy, the Netherlands, Romania, the U.K. and the U.S.

The Group’s Personal Health businesses are subject to regulatory requirements in the markets where they operate. This includes the EU’s Waste from Electrical and Electronic Equipment (“WEEE”), Restriction of Hazardous Substances (“RoHS”), Registration, Evaluation, Authorisation and Restriction of Chemicals (“REACH”), Energy-using Products (“EuP”) requirements and Product Safety Regulations. The Group has a growing portfolio of medically regulated products in its Health & Wellness, Personal Care and Sleep & Respiratory Care businesses. For these products the Group is subject to the applicable requirements of the U.S. FDA, the European Medical Device Directive, CFDA China and comparable regulations in other countries. Through the Group’s growing beauty, oral healthcare and mother and child care product portfolio the range of applicable regulations has been extended to include requirements relating to cosmetics and, on a very small scale, pharmaceuticals.

Business Highlights

At the International Dental Show in Germany, the world’s leading trade fair for the dental sector, the Group introduced the “Philips Sonicare DiamondClean Smart” toothbrush and “Philips Sonicare Breath” care system with breath analyser, an all-in-one connected oral care platform. The Group also presented the results of a new clinical study demonstrating the effectiveness of Philips Sonicare power toothbrushes and Philips AirFloss Ultra.

The Group acquired U.K.-based Health & Parenting, a leading developer of mobile applications for expectant and new parents, used by one in two expectant mothers in the U.K.

As a driver of new care models, the Group teamed up with leading telehealth provider American Well to jointly deliver virtual care solutions around the world by embedding American Well’s mobile telehealth services into an array of Philips solutions, starting with the Philips Avent uGrow parenting platform, giving parents 24/7 access to professional medical consultations.

Launched less than two years ago, the revolutionary OneBlade hybrid styler, which can trim, edge and shave any length of male facial hair, generated annual sales of more than €100 million within 18 months of its launch.

Building on the Group’s market-leading propositions in healthy eating, the Group launched the latest generation of the Philips Airfryer, which features an innovative technology to prepare tasty, healthier food with little to no oil. As a leader in this category, the Group has sold close to 10 million Airfryers globally to date.

The Group’s Sleep & Respiratory Care business continues to grow in respiratory care, with strong acceptance of its market-leading home ventilation offerings. This portfolio was further extended with the launch of the connected Trilogy ventilator in North America, linking it to the Group’s unique patient management solution Care Orchestrator. In sleep care, continued mask share gains were driven by strong traction of the DreamWear family of masks, including the recently introduced DreamWear Pillow mask. The Group acquired Respiratory Technologies, a U.S.-based provider of an innovative airway clearance solution for patients with chronic respiratory conditions.

In China, the Group partnered with Oranger, a service provider specialised in chronic respiratory disease management, and Health 100, the largest health examination organisation in China, to provide integrated solutions for chronic respiratory diseases that cover screening, referral, treatment and recovery. As part of the agreement, the Group acquired a minority interest in Oranger.

Building on its strategy to deliver relevant solutions and business models, the Group acquired Australian Pharmacy Sleep Services (“APSS”), a pioneer in pharmacy sleep testing. APSS will complement the Group’s sleep and respiratory care portfolio and will help to accelerate the business’s home sleep testing offering through the pharmacy channel in Australia.

Financial Performance

Net income is not allocated to segments as certain income and expense line items are monitored on a centralised basis.

In 2017, sales amounted to €7,310 million, a nominal increase of 3 per cent. compared to 2016. Excluding a 3 per cent. negative currency impact, comparable sales were 6 per cent. higher year-on-year, driven by high-single-digit growth in Health & Wellness and mid-single-digit growth in Sleep & Respiratory Care, Domestic Appliances and Personal Care. Revenues generated through products and solutions which offer a significant environmental improvement in one or more “Green Focal Areas”: energy efficiency; packaging; hazardous substances; weight; circularity; and lifetime reliability (“Green Revenues”) amounted to €4,237 million, or 58 per cent. of total segment sales.

Sales in growth geographies increased 7 per cent. on a nominal basis and on a comparable basis growth geographies showed double-digit growth, reflecting double-digit growth in Latin America, Middle East & Turkey and India, and high-single-digit growth in China and Central & Eastern Europe. Mature geographies increased 1 per cent. on a nominal basis and on a comparable basis recorded low-single-digit growth, driven by mid-single-digit growth in Western Europe and low-single-digit growth in North America, partly offset by a low-single-digit decline in other mature geographies.

Sales in growth geographies increased to €2,939 million in 2017. Sales in Western Europe increased to €1,820 million in 2017. Sales in North America increased to €1,936 million in 2017. Sales in other mature geographies decreased to €615 million in 2017.

Income from operations in 2017 increased to €1,075 million, or 14.7 per cent. of sales compared to €953 million, or 13.4 per cent. of sales in 2016. The year 2017 included €136 million of amortisation charges, mainly related to intangible assets in Sleep & Respiratory Care, compared to 2016 which include €139 million of amortisation charges, mainly related to intangible assets at Sleep & Respiratory Care. Restructuring and acquisition-related charges were €11 million, compared to €16 million in 2016.

Adjusted EBITA increased by €113 million or 110 basis points as a percentage of sales compared to 2016. The increase was attributable to higher volumes and procurement savings, partly offset by investments in advertising & promotion.

In the three months ended 31 March 2018, comparable sales growth was 4 per cent. and reflected high-single-digit growth in Sleep & Respiratory Care, mid-single-digit growth in Personal Care, and low-single-digit growth in Health & Wellness and Domestic Appliances. Comparable sales in growth geographies showed high-single-digit growth, reflecting double-digit growth in Central & Eastern Europe and Middle East & Turkey, and low-single-digit growth in China resulting from lower demand for air purification. Mature geographies were in line with the three months ended 31 March 2017, reflecting mid-single-digit growth in other mature geographies, offset by a low-single-digit decline in Western Europe and North America. EBITA decreased by €9 million, while the margin improved by 0.20 per cent. compared to the three months ended 31 March 2017. Adjusted EBITA decreased by €8 million, while the margin improved by 0.30 per cent. year-on-year, mainly due to operational improvements. Restructuring and acquisition-related charges amounted to €3 million, compared to €2 million in the three months ended 31 March 2017. Adjusted EBITDA decreased by €8 million, while the margin improved by 0.40 per cent. compared to the three months ended 31 March 2017.

### Sustainability

Sustainability continued to play an important role in the Personal Health businesses in 2017, with the main focus on optimising the sustainability performance of the Group’s products and operations. Green Revenues, i.e. sales of
products and solutions which meet or exceed the Group’s minimum requirements in the area of energy consumption, packaging and/or substances of concern, accounted for 58 per cent. of total sales in 2017. All “Green Products” (i.e. products that improve patient outcomes, provide better value, and help secure access to high-quality care, while reducing environmental impact) with rechargeable batteries exceed the stringent California energy efficiency standard by at least 10 per cent.. And over 70 per cent. of total consumer sales are polyvinyl chloride- and/or brominated flame retardants-free products (excluding power cords).

As part of the Group’s “Circular Economy” programme it has continued to increase the use of recycled materials in its products. Over 1,850 tons of recycled plastics were used in kitchen appliances, vacuum cleaners, irons, air purification and coffee machines, compared to 1,440 tons in 2016. The revenue from Circular Products reached over €473 million in 2017, comprised of turnover generated from performance, and access-based business models in Sleep & Respiratory Care and products with recycled plastic materials. Furthermore, circular opportunities across multiple products have been explored through pilots with access-based business models, which have the potential to generate future circular revenues. To maximise the use of resources and capture value from the Group’s commercial returns, pilots are running to sell refurbished products to the Group’s consumers, at the same time, capabilities are also being developed to enable the scale-up of these pilots.

As a concrete example of its commitment to sustainability, the Group has improved the design of the 2000 Series Air Cleaner to ensure it meets the green product requirements. This means that the device meets the Chinese requirements for high cleaning energy efficiency, is free of polyvinylchloride (except power cord) and has over 600 grams of recycled plastics in the interior parts of the product.

In its operations, the Group continues to make positive progress towards its ultimate aim of having carbon-neutral production sites by 2020. In 2017, 47 per cent. of the electricity used in manufacturing sites came from renewable sources and 85 per cent. of the industrial waste in respect of this segment was recycled. The Group sent 6 per cent. of its manufacturing waste to landfill in 2017. At the end of 2017, 9 out of 18 Personal Health businesses’ manufacturing sites reported zero waste to landfill, with five achieving this status during the year. Based on detailed action plans the Group is working closely with the remaining sites to achieve zero waste to landfill status by the end of 2020.

**Diagnosis & Treatment Businesses**

**Overview**

The Group’s Diagnosis & Treatment businesses are foundational to its health technology strategy, delivering on the promise of precision medicine and least-invasive treatment and therapy. The Group enables its customers to realise the full potential of their ‘quadruple aim’, to improve outcomes, lower the cost of care delivery and enhance patient and staff experiences, by enabling first-time-right diagnosis and treatment. The Group is focused on solutions (consisting of suites of systems, smart devices, software and services) that are robust and easy to use, while providing the most efficient path to obtaining a definitive diagnosis by integrating multiple sources of information and combining the data to create a comprehensive patient view. By bringing together imaging morphology, pathology and genomics, the Group is able to interrogate and extract the information needed to offer highly personalised care. Informatics is central to everything the Group does: its KLAS-awarded “IntelliSpace Portal” platform, for example, provides artificial intelligence to make more consistent decisions, as well as making it easier to share and collaborate.

The Group is expanding its applications for image-guided treatment and therapy, where clinicians are provided with the technology necessary to determine the presence of disease, guide procedures, deliver least-invasive treatment, and confirm effectiveness. The Group’s solutions enable patient-specific treatment planning and selection, simplify complex procedures through integrated real-time guidance, and provide clinically proven treatment solutions.

In 2017, the Group reinforced its leadership in image-guided therapy solutions with the global launch of Philips Azurion, the next-generation image-guided therapy platform that enables clinicians to perform a wide range of routine and complex procedures, helping them to optimise interventional lab performance and provide superior care. The Group provides image guidance both in its proprietary products and by partnering with radiation therapy companies like Elekta and IBA to deliver real-time, precise cancer treatment. In 2017, the Group made two significant acquisitions to further strengthen its Diagnosis & Treatment businesses. Spectranetics’ portfolio, including laser atherectomy catheters, the AngioSculptX drug-coated scoring balloon and the Stellarex drug-coated balloon, is highly complementary to the Group and will support its expansion in image-guided therapy devices, specifically addressing peripheral vascular disease. Furthermore, to reinforce its leadership position in ultrasound, the Group acquired TomTec Imaging Systems, a leading provider of clinical applications and intelligent image-analysis software.
In addition to its solutions for disease-specific clinical pathways, the Group provides a range of technologies to help its customers improve their operations and workflow. In 2017 the Group continued to build out its comprehensive “PerformanceBridge” suite of software services designed to improve radiology department operations, for example, by providing practice management, dose management and service analytics. In addition, the Group received FDA clearance for “IntelliSpace Portal 9.0” and a range of innovative applications for radiology. The platform gives clinicians a comprehensive view of each patient, enabling efficient diagnosis of a broad range of conditions.

The Group’s Diagnosis & Treatment businesses’ value proposition to customers is based on leveraging its extensive clinical experience with its broad portfolio of technologies, making the Group capable of providing meaningful solutions that ultimately can improve the lives of the patients it serves while lowering the cost of care delivery for its customers.

Through the Group’s various businesses, Diagnosis & Treatment is focused on growing market share and profitability by:

- driving operational excellence in diagnostic imaging (“Diagnostic Imaging”) by delivering integrated products that are robust in design, easy to use, and promote efficient workflow;
- enhancing the Group’s offerings in oncology, cardiology and radiology and expanding its solutions offering, which comprises systems, smart devices, software and services;
- leveraging the “Volcano” and Spectranetics acquisitions and driving expansion into devices for treatment; and
- addressing underpenetrated adjacencies in general imaging and obstetrics/gynaecology in Ultrasound, as well as expanding in point-of-care with new products and its partnership with B.Braun Melsungen AG to innovate and accelerate growth in ultrasound-guided regional anesthesia and vascular access.

The Group is one of the world’s leading health technology groups (based on sales) along with Medtronic, General Electric and Siemens. The competitive landscape in the healthcare industry is evolving with the emergence of new market players. The United States, the Group’s largest market, represented 34 per cent. of Diagnosis & Treatment’s global sales in 2017, followed by China, Japan and Germany. Growth geographies accounted for 34 per cent. of Diagnosis & Treatment’s sales. In 2017, Diagnosis & Treatment had 25,757 employees worldwide.

Through 2017 the Group consistently focused on its value creation strategy to ensure continued growth and margin improvement.

In 2017, the Diagnosis & Treatment segment consisted of the following areas of business:

- **Diagnostic Imaging**: Magnetic Resonance Imaging (“MRI”), Computed Tomography (“CT”), Advanced Molecular Imaging, Diagnostic X-Ray, which includes digital X-ray and mammography, and integrated clinical solutions, which include radiation oncology treatment planning, disease-specific oncology solutions and X-Ray dose management; and

- **Image-Guided Therapy**: interventional X-ray systems, encompassing cardiology, radiology and surgery, and interventional imaging and therapy devices that include Intravascular Ultrasound (“IVUS”), Fractional Flow Reserve (“FFR”) and atherectomy catheters and drug-coated balloons for the treatment of coronary artery and peripheral vascular disease; and

- **Ultrasound**: imaging products focused on diagnosis, treatment planning and guidance for cardiology, general imaging, obstetrics/gynaecology, and point-of-care applications, as well as proprietary software capabilities to enable advanced diagnostics and intervention.

For the year ended 31 December 2017, in the Diagnosis & Treatment segment, Diagnostic Imaging represented 49 per cent. of total sales, Image-Guided Therapy represented 30 per cent. of total sales and Ultrasound represented 21 per cent. of total sales.
Sales in the Group’s Diagnosis & Treatment businesses are generally higher in the second half of the year, largely due to the timing of new product availability and customer spending patterns.

Sales channels are a mix of a direct sales force, especially in all the larger markets, combined with online sales portal and distributors which varies by product, market and price segment. Sales are mostly driven by a direct sales force that has an intimate knowledge of the procedures for which the Group’s devices are used, and visits the Group’s customer base frequently.

The Group is committed to compliance with regulatory product approval and quality system requirements in every market it serves, by addressing specific requirements of local and national regulatory authorities including the U.S. FDA, CFDA China and comparable agencies in other countries, as well as WEEE, RoHS and REACH regulations.

The imaging businesses and image processing applications are governed by regulatory approvals in the markets that the Group serves. In almost all cases, new products that the Group introduces are subject to a regulatory approval process (for example, 510(k) for FDA approvals in the U.S.). Failing to comply with the regulatory requirements can have severe consequences. The number and diversity of regulatory bodies in the various markets the Group operates in globally adds complexity and time to product introductions. Regulatory approval is a prerequisite for market introduction of medical devices.

Business Highlights

The Group reinforced its leadership in image-guided therapy solutions with the global launch of Philips Azurion, the next-generation image-guided therapy platform that enables clinicians to perform a wide range of routine and complex procedures, helping them to optimise interventional lab performance and provide superior care.

To further strengthen its Diagnosis & Treatment businesses, the Group acquired Spectranetics. Its highly complementary portfolio, including laser atherectomy catheters, the AngioSculptX drug-coated scoring balloon and the Stellarex drug-coated balloon, will support the Group’s expansion in image-guided therapy devices. Furthermore, to reinforce its leadership position in ultrasound, the Group acquired TomTec Imaging Systems, a leading provider of clinical applications and intelligent image-analysis software.

Philips Volcano continued its strong performance as the business reached an important milestone with the results of two large clinical trials demonstrating the benefits of the Group’s Instant Wave-Free Ratio (“iFR”) technology compared to Fractional Flow Reserve (“FFR”), the current standard, removing a critical barrier for the use and adoption of iFR to decide, guide and confirm appropriate therapies.

B. Braun Melsungen AG and the Group entered into a strategic alliance to innovate and accelerate growth in ultrasound-guided regional anesthesia and vascular access. The alliance launched Xperius, a new co-branded mobile ultrasound system specifically designed as the platform to support current and future integrated solutions in this fast-growing market.

Further strengthening its portfolio of imaging solutions, the Group received FDA 510(k) clearance for its ElastQ ultrasound imaging technology for non-invasive assessment of liver conditions. The Group also launched Access CT, a new CT system designed for healthcare organisations seeking to establish or enhance CT imaging capabilities at affordable cost.

Building on its portfolio of long-term strategic partnerships, the Group signed multiple new agreements. For example, the Group has partnered with the Singapore Institute of Advanced Medicine Holdings to provide its new oncology centre with a range of the Group’s advanced diagnostic imaging systems, combined with clinical informatics and services for a multi-year term.

The Group continued its strong growth momentum in China, driven by its innovative consumer health and professional healthcare portfolio, focused initiatives to step up market share and customer partnerships. This is illustrated by the double-digit growth in Diagnostic Imaging order intake, which was in part driven by the strong traction in the private hospital segment, such as the new strategic partnership with Health 100, the largest health examination organisation in China.

Driving its expansion in the fast-growing Obstetrics and Gynaecology segment, the Group introduced new Obstetrics and Gynaecology ultrasound innovations that are designed to support earlier, easier and more confident diagnoses.
Highlighted features include anatomical-intelligence clinical decision support and workflow enhancements such as fingertip control and enhanced imaging versatility.

As part of its new introductions to drive growth in diagnostic imaging, the Group launched its digital MR Prodiva 1.5T system, which provides enhanced clinical performance and increased productivity, and introduced the latest configuration of its IQon Spectral CT, which is optimised to support the needs of emergency and oncology care. Moreover, since the third quarter of 2017, the Group has been shipping Vereos, the world’s first and only fully digital Positron Emission Tomography/CT system, which is achieving market success due to its superb resolution, accuracy and efficiency.

The Group strengthened its Radiology Solutions offering with the acquisition of Analytical Informatics. Its suite of workflow improvement applications complements the Group’s “PerformanceBridge Practice” to enable imaging departments to make data-driven improvement decisions. For example, the Group and Banner Health extended their partnership to include adoption of the Group’s “PerformanceBridge Practice” across Banner’s 28 radiology departments.

Financial Performance

Net income is not allocated to segments as certain income and expense line items are monitored on a centralised basis.

In 2017, sales amounted to €6,891 million, 3 per cent. higher than in 2016 on a nominal basis. Excluding a 1 per cent. negative currency effect, comparable sales increased by 3 per cent., driven by mid-single-digit growth in Ultrasound and Image-Guided Therapy and low-single-digit growth in Diagnostic Imaging. Green Revenues amounted to €5,096 million, or 74 per cent. of total segment sales.

From a geographic perspective, nominal sales increased by 5 per cent. in growth geographies and on comparable sales showed high-single-digit growth, mainly driven by double-digit growth in China and high-single-digit growth in Latin America. Sales in mature geographies showed a 2 per cent. increase on a nominal basis and on a comparable basis recorded low-single-digit-growth, reflecting low-single-digit growth in North America and other mature geographies, while sales in Western Europe were flat year-on-year.

Income from operations decreased to €488 million, or 7.1 per cent. of sales, compared to €546 million, or 8.2 per cent. of sales, in 2016. The year 2017 included €55 million of amortisation charges, mainly related to intangible assets in Image-Guided Therapy compared to 2016, which included €48 million of amortisation charges, mainly related to acquired intangible assets in Image-Guided Therapy. Restructuring and acquisition-related charges were €151 million, compared to €37 million in 2016. The year 2017 also included charges of €22 million related to portfolio rationalisation measures.
Adjusted EBITA increased by €85 million or 1 per cent. as a percentage of sales year-on-year. The increase was mainly attributable to higher volumes.

In the three months ended 31 March 2018, comparable sales growth was 9 per cent., driven by double-digit growth in Ultrasound and Image-Guided Therapy, and mid-single-digit growth in Diagnostic Imaging. Comparable sales in growth geographies showed double-digit growth, reflecting double-digit growth in China. Mature geographies recorded high-single-digit growth, reflecting double-digit growth in other mature geographies, high-single-digit growth in North America and low-single-digit growth in Western Europe. EBITA decreased by €9 million and the margin declined by 0.70 per cent. compared to the three months ended 31 March 2017, mainly due to higher restructuring and acquisition-related charges. Adjusted EBITA increased by €22 million and the margin improved by 1.40 per cent. year-on-year, mainly due to higher growth and improved mix. Restructuring and acquisition-related charges were €42 million, mainly due to the manufacturing footprint rationalisation and post-merger integration costs, compared to €11 million in the three months ended 31 March 2017. Adjusted EBITDA increased by €25 million and the margin increased by 1.50 per cent. compared to the three months ended 31 March 2017.

Sustainability

Sustainability continued to play an important role in the Diagnosis & Treatment businesses in 2017. The Group continues to improve lives around the globe by developing diagnosis and treatment solutions that enable first-time-right diagnosis, precision interventions and therapy, while respecting the boundaries of natural resources.

In 2017, Green Revenues in Diagnosis & Treatment amounted to €5,096 million, due to a large portfolio of Philips Green Products and Solutions that support energy efficiency, materials reduction and other sustainability goals. The Group actively collaborates with care providers around the globe to look for ways to minimise the environmental impact of healthcare. In a project together with Rijnstate Hospital in Arnhem (the Netherlands), the Group has calculated that this hospital is saving about 64,000 kWh of electricity annually simply by powering-off imaging systems after hours. The Group has received third-party confirmation from the European Coordination Committee of the Radiological, Electromedical and Healthcare IT Industry (“COCIR”) that it is the frontrunner in MRI energy efficiency according to the COCIR Self-Regulatory Initiative (“SRI”) methodology and that the Group’s performance is 30 per cent. better than the industry average.

Supporting the transition to a circular economy, the Group has continued to expand the “Diamond Select” refurbishment programme, spare parts recovery and “SmartPath” upgrading programme for all modalities in the Diagnosis & Treatment portfolio. The Group is committed to ‘closing the loop’ on all large medical imaging equipment that becomes available to it. This means that the Group will actively pursue the trade-in of equipment such as MRI, CT and cardiovascular systems and it will take full control to ensure that all traded-in materials are repurposed in a responsible way. The Group plans to continue to expand these practices until it has covered all professional healthcare equipment.

Also in its operations the Group continues to make positive progress towards a circular economy by recycling 71 per cent. of its industrial waste in respect of this segment. At the end of 2017, 5 out of 15 Diagnosis & Treatment businesses’ manufacturing sites reported zero waste to landfill. Based on detailed action plans, the Group is working closely with the remaining sites to achieve zero waste to landfill status by the end of 2020.

Connected Care & Health Informatics Businesses

Overview

Spanning the entire health continuum, the Connected Care & Health Informatics businesses aim to improve patient outcomes, increase efficiency and drive toward value-based care. The Group’s solutions build on Philips’ strength in patient monitoring and clinical informatics to improve clinical and economic outcomes in all care settings, within and outside the hospital.

The Group has a deep understanding of clinical care and the patient experience that, when coupled with its consultative approach, allows it to be an effective partner for transformation, both across the enterprise and at the level of the individual clinician. The Group delivers services that take the burden off hospital staff with a smooth integration process, improved workflow, customised training and improved accessibility across its application landscape.
This requires a common digital platform that connects and aligns consumers, patients, payers and healthcare providers. The Group’s platforms aggregate and leverage information from clinical, personal and historical data to support care providers in delivering first-time-right diagnoses and treatment. The Group continually builds out new capabilities within Philips HealthSuite, which is a cloud-based connected health ecosystem of devices, apps and digital tools, to accomplish just that.

The Group delivers personalised insights by applying predictive analytics and artificial intelligence across its solutions. As an example, the Group is able to support healthcare professionals caring for elderly patients living independently at home in making clinical decisions and alerting medical teams to potential problems. The Group’s integrated and data-driven approach promotes seamless patient care, helps identify risks and needs of different groups within a population and provides clinical decision support.

In 2017, the Connected Care & Health Informatics segment consisted of the following areas of business:

- **Patient Care & Monitoring Solutions**: Enterprise-wide patient monitoring solutions, from value solutions to sophisticated solutions, for real-time clinical information at the patient’s bedside; patient analytics, patient monitoring and clinical decision support systems, including diagnostic electrocardiogram data management for improved quality of cardiac care; therapeutic care, including cardiac resuscitation, emergency care solutions, invasive and non-invasive ventilators for acute and sub-acute hospital environments and respiratory monitoring devices; consumables across the patient monitoring and therapeutic care businesses; customer service, including clinical, IT, technical and remote customer propositions. From 2018, Patient Care & Monitoring Solutions will transition into two focused business groups, Monitoring & Analytics and Therapeutic Care, to allow the Group to better fulfil the specific customer needs of each business.

- **Healthcare Informatics**: Advanced healthcare IT, clinical and advanced visualisation and quantification informatics solutions for radiology, cardiology and oncology departments; Universal Data Management solutions, Picture Archiving and Communication Systems (“PACS”) and fully integrated Electronic Medical Record (“EMR”) systems to support healthcare enterprises in optimising health system performance; advanced clinical and hospital IT platforms which are leveraged across the Group. The Group’s “IntelliSpace Portal” application platform is recognised as industry-leading by KLAS. Today, with the role of the hospital CIO as a key decision maker increasing, integrated informatics solutions address challenges across the enterprise. The Group uses artificial intelligence at the point of care to optimise the clinician experience, help improve productivity and total cost of ownership, and streamline patient experiences across the clinical pathway. Proof of clinical and economic outcomes, connectivity and cybersecurity are key priorities of the Group’s engagement with its customers.

- **Population Health Management**: The Group’s services and solutions leverage data, analytics and actionable workflow products for solutions to improve clinical and financial results and increase patient engagement, satisfaction and compliance. These solutions include: technology-enabled monitoring and intervention (telehealth, remote patient monitoring, personal emergency response systems and care coordination) to improve the experience of elderly people and those living with chronic conditions; actionable programmes to predict risk (including medication and care compliance, outreach, and fall prediction); cloud-based solutions for health organisations to manage population health. Leveraging the 2016 acquisition of Wellcentive, a leading U.S.-based provider of population health management software solutions, the Group’s solutions enable health systems to analyse their patient population along clinical and financial criteria, coordinate care outside the hospital, and engage patients in their health. They help drive quality improvement and business transformation for those transitioning to value-based care.

For the year ended 31 December 2017, in the Connected Care & Health Informatics segment, Patient Care & Monitoring Solutions represented 78 per cent. of total sales. Healthcare Informatics represented 15 per cent. of total sales and Population Health Management represented 7 per cent. of total sales.

In 2017, Connected Care & Health Informatics had 10,949 employees worldwide.

Sales in the Group’s Connected Care & Health Informatics businesses are generally higher in the second half of the year, largely due to customer spending patterns.
Sales channels include a mix of a direct salesforce (especially in larger markets), paired with an online sales portal and distributors (varying by product, market and price segment). Sales are mostly driven by a direct sales force with an intimate knowledge of the procedures that use the Group’s integrated solutions’ smart devices, systems, software and services. The Group works with customers and partners to co-create solutions, drive commercial innovation and adapt to new models like ‘monitoring-as-a-service’, outcome-based models (pay based on clinical and economical outcomes) and provider market models allowing providers to provide prices for episodes of care.

The Group is committed to compliance with regulatory product approval and quality system requirements in every market it serves, by addressing specific requirements of local and national regulatory authorities including the U.S. FDA, CFDA China and comparable agencies in other countries, as well as WEEE, RoHS and REACH regulations.

The connected care and health informatics applications are governed by regulatory approvals in the markets that the Group serves. In almost all cases, new products that the Group introduces are subject to a regulatory approval process (for example, 510(k) for FDA approvals in the U.S., CE Mark in the EU). Failing to comply with the regulatory requirements of the target markets can prevent shipment of products. The number and diversity of regulatory bodies in the various markets the Group operates in globally adds complexity and time to product introductions. Regulatory approval is a prerequisite for market introduction.

**Business Highlights**

Demonstrating the success of telehealth technologies, Emory Healthcare (U.S.) achieved savings of U.S.$4.6 million over a period of 15 months by using the Group’s “eICU” platform. Similarly, with the help of the Group’s Intensive Ambulatory Care programme, Banner Health (U.S.) reduced hospitalisations for chronically ill patients with multiple conditions by nearly 50 per cent., reducing overall cost of care by more than one third.

Expanding its health informatics portfolio, the Group launched its “IntelliSpace Enterprise Edition”, an industry-first managed service solution for hospital-wide clinical informatics and data management. The high-performance, secure and scalable health informatics platform enables health systems to manage the growth and cost of their clinical enterprise with a pay-per-use model.

In line with the Group’s focus on solutions selling, the Issuer signed several multi-year agreements. For example, in Italy the Issuer signed a long-term strategic partnership agreement with the San Giovanni Calibita Fatebenefratelli Hospital in Rome to provide medical technologies, clinical informatics and services for state-of-the-art mother and child care. In the U.S., the Issuer expanded its relationship with Advocate Health Care, the largest health system in Illinois, to assist them in standardising their clinical IT and patient monitoring solutions across the enterprise for improved patient outcomes and predictable costs. Furthermore, the Issuer signed an agreement with Lakeland Health (U.S.) for advanced monitoring of patients in the hospital’s general ward with the “Philips IntelliVue Guardian Solution” with Early Warning Scoring.

Demonstrating further progress on advanced data analytics, the Group received FDA clearance for its “IntelliSpace Portal 10” and a range of innovative applications for radiology. The platform gives clinicians a comprehensive view of each patient, helping them to diagnose conditions. Further highlighting its leadership in health informatics, the Issuer signed several multi-year agreements with hospitals in the U.S. to provide them with enterprise imaging informatics solutions.

The Issuer signed a new 10-year Managed Equipment Services agreement for patient monitoring solutions with Le Confluent, one of the top three private hospitals in France for cardiovascular care.

Expanding its health informatics portfolio, the Group acquired interoperability provider Forcare in the Netherlands. The Group also partnered with U.S.-based Nuance to bring artificial intelligence into radiology reporting by leveraging functionalities from the Group’s “Illumeo” and Nuance’s “PowerScribe 360”. Furthermore, the Group launched its new “IntelliSpace Enterprise Edition for Radiology”, providing radiology departments with comprehensive tools to increase efficiency and enhance throughput.

To further expand its Population Health Management business, the Group acquired VitalHealth, whose highly complementary portfolio of advanced analytics, care coordination, patient engagement and outcome management solutions will support the Group’s commitment to deliver integrated solutions for care providers.

In 2017, sales amounted to €3,163 million and remained flat compared with 2016 on a nominal basis. The 3 per cent. increase on a comparable basis was driven by mid-single-digit growth in Patient Care & Monitoring Solutions and low-single-digit growth in Healthcare Informatics. Green Revenues amounted to €1,373 million, or 43 per cent. of segment sales.

From a geographic perspective, sales on a nominal basis decreased by 2 per cent. in growth geographies; on a comparable basis sales showed low-single-digit growth, mainly driven by low-single-digit growth in China. Sales in mature geographies increased by 1 per cent. on a nominal basis and showed low-single-digit growth on a comparable basis, driven by mid-single-digit growth in Western Europe and North America and partly offset by a low-single-digit decline in other mature geographies.

Sales in growth geographies decreased to €458 million in 2017. Sales in Western Europe increased to €485 million in 2017. Sales in North America increased to €1,925 million in 2017. Sales in other mature geographies decreased to €295 million in 2017.

Income from operations in 2017 decreased to €206 million compared to €275 million in 2016. The year 2017 included €44 million of amortisation charges, mainly related to acquired intangible assets in Population Health Management compared to 2016 which included €46 million of amortisation charges, mainly related to acquired intangible assets at Population Health Management and Patient Care & Monitoring Solutions. Restructuring and acquisition-related charges amounted to €91 million compared to €14 million in 2016. The year 2017 also included €47 million of charges related to quality and regulatory actions, €20 million of charges related to the consent decree focused on the defibrillator manufacturing in the U.S. and a €36 million net release of provisions.

Adjusted EBITA improved by €48 million or 1.5 per cent. as a percentage of sales year-on-year, mainly due to higher volumes, procurement savings and other cost productivity.

In the three months ended 31 March 2018, comparable sales growth was flat year-on-year. Therapeutic Care reflected a low-single-digit decline, which includes the impact of the consent decree on the Group’s defibrillator manufacturing in the U.S. Comparable sales in growth geographies showed low-single-digit growth, reflecting double-digit growth in Latin America and India, partly offset by a double-digit decline in Africa. Mature geographies were in line with the three months ended 31 March 2017, with double-digit growth in other mature geographies offset by a low-single-digit decline in North America and a mid-single-digit decline in Western Europe. EBITA increased by €12 million and the margin increased by 1.80 per cent. compared to the three months ended 31 March 2017. Adjusted EBITA increased by €10 million and the margin improved by 1.80 per cent. year-on-year, mainly due to operational improvements. Restructuring and acquisition-related charges were €6 million. EBITA in the three months ended 31 March 2018 also included €20 million of charges related to the consent decree focused primarily on defibrillator manufacturing in the U.S. Adjusted EBITDA improved by €7 million and the margin increased by 1.90 per cent. compared to the three months ended 31 March 2017.

Sustainability
Sustainability continued to play an important role in the Connected Care & Health Informatics businesses in 2017.

Green Revenues in Connected Care & Health Informatics amounted to €1,373 million, 43 per cent. of total segment sales, with substantial contributions from all businesses. This reflects a continuous effort to improve energy efficiency, materials reductions and other green focus areas. With the growth of its software products and services and platform solutions, the Group is reducing its environmental footprint in a number of ways. For instance through software products that can replace hardware and the virtualisation of servers and indirectly through “eHealth” and connected care solutions that enable hospital workers to deliver faster, more personalised care while at the same time reducing transport to and from hospital.

In the transition towards a circular economy, the Group is actively pursuing innovations in design and business models that will help it ‘close the loop’. This includes working together with customers and suppliers on improving takeback and upgrades of monitors. The Group is also working on closing loops for medical consumables and sensors, partly through partnerships with suppliers of refurbished materials. With its platform solutions like PACS and EMR, the Group continues to support fast, first-time-right diagnosis of patients, while at the same time helping hospitals to make efficient use of resources.

Also in its operations, the Group continues to make positive progress towards a circular economy by recycling 69 per cent. of its industrial waste in respect of this segment. At the end of 2017, 3 out of 5 Connected Care & Health Informatics businesses’ manufacturing sites reported zero waste to landfill. Based on detailed action plans, the Group is working closely with the remaining sites to achieve zero waste to landfill status by the end of 2020.

**HealthTech Other**

**Overview**

In the Group’s external reporting on HealthTech Other it reports on the items Innovation, Emerging Businesses, IP Royalties, Central costs and Other.

**Innovation & Strategy**

The central “Innovation & Strategy” organisation includes, among others, the Chief Technology Office (“CTO”), Research, Digital Platforms, the Chief Medical Office, Innovation Services, Design, Strategy, and Sustainability. Key locations include Eindhoven (the Netherlands), Cambridge (USA), Bangalore (India) and Shanghai (China).

Innovation & Strategy is responsible for collaborating with the operating businesses and the markets to continuously update the Group strategy, in line with its growth and profitability ambitions, in the context of the changing competitive landscape and market trends, while fully leveraging the Group’s capabilities, assets and positions.

Innovation & Strategy facilitates innovation from idea to market as co-creator and strategic partner for the Group’s businesses and complementary partners. It does so through cooperation between research, design, marketing, strategy and businesses in interdisciplinary teams along the innovation chain, from front-end to first-of-a-kind proposition development. In addition, it opens up new value spaces beyond the direct scope of current businesses, manages the Issuer-funded R&D portfolio, and creates synergies for cross-segment initiatives and integrated solutions.

Innovation & Strategy actively participates in open innovation through relationships with academic, clinical, industrial partners and start-ups, as well as via public-private partnerships. It does so in order to improve innovation effectiveness and efficiency, capture and generate new ideas, enhance technology partnering capabilities, and share the related financial exposure.

Finally, Innovation & Strategy also has the functional responsibility for R&D, Innovation, Design, Medical Affairs, and Sustainability, with representatives or teams embedded in the business groups. Innovation & Strategy sets the agenda and drives continuous improvement in the efficiency and effectiveness of innovation, as well as the creation and adoption of digital platforms, and the uptake of new technologies such as data science and artificial intelligence.

**The CTO Organisation**
The CTO organisation is an integrated group of innovation organisations that plays a strong role in orchestrating innovation across the Group’s businesses and markets, as well as initiating innovation that disrupts and crosses boundaries in health technology.

The CTO organisation includes the following organisations:

- **Innovation Management**, responsible for end-to-end innovation strategy and portfolio management, integrated roadmaps linked to solutions and the Group’s designated ‘health spaces’, the common components strategy, R&D competency management, innovation performance management and public funding programmes.

- **Philips Research**, the co-creator and strategic partner of the Group’s businesses, markets and complementary open innovation ecosystem participants driving front-end innovation.

- **The Clinical Research Board**, responsible for managing key global academic accounts and positioning the Group as a leading partner for clinical research.

- **Philips HealthWorks**, responsible for de-risking and accelerating breakthrough innovation and for driving a mind-set change towards a more entrepreneurial and open innovation culture. HealthWorks incubates early-stage ventures and engages with the external start-up ecosystem.

- **HealthSuite Insights**, the Group’s data science and artificial intelligence (“AI”) platform and entrepreneurial team, offering a consistent set of tools, technologies, and proprietary clinical assets for data scientists and development teams to use in analysing their data. The Group’s customers can leverage existing assets, or build and host new assets on the Group’s infrastructure as part of the Group’s data science marketplace.

One of the ventures reporting into the CTO is Philips Photonics, a global leader in Vertical Cavity Surface Emitting Laser (“VCSEL”) technology. VCSELS are infrared lasers for a rapidly growing range of consumer and professional applications like gesture control, environmental sensing, precise scene illumination for surveillance cameras and ultra-fast data communication.

**Philips HealthSuite Digital Platforms**

The Philips HealthSuite Digital Platforms are the Group’s common digital framework that connects consumers, patients and healthcare providers in a cloud-based connected health ecosystem of devices, apps and tools.

- **HealthSuite Cloud** allows the Group and its partners to create the next generation of connected health and wellness innovations from a clinical and technical perspective.

- **HealthSuite Premise** enables the Group’s customers to host their own data, control the flow of information between their own systems and the cloud, and still benefit from the digital capabilities that the Group has to offer.

- **HealthSuite Insights**, already mentioned above, is the Group’s data science and AI platform, which can also be deployed in the cloud or on-premise.

- **HealthSuite Consumer Engagement** is the Group’s platform for reusable components across its consumer and Internet of Things landscape. A common architecture not only enables shorter development times and lower costs, it also enables seamless interoperability across businesses and propositions, creating stronger and more unique value propositions.

- **HealthSuite Clinical Platform** provides a consistent clinical user experience across enterprise, diagnostic imaging and interventional systems.
The Philips HealthSuite Digital Platforms are managed and orchestrated across Innovation & Strategy and all Philips businesses.

**Chief Medical Office**

The Chief Medical Office is responsible for clinical innovation and strategy, health economics and market access, and medical thought leadership. This includes engaging with stakeholders across the care continuum to extend the Group’s leadership in health technology and acting with agility on new value-based reimbursement models that benefit the patient and care provider.

Leveraging the knowledge and expertise of the medical professional community across the Group, the Chief Medical Office includes many healthcare professionals who practice in the world’s leading health systems. Supporting the Group’s objectives across the health continuum, its activities include strategic guidance, leveraging clinical and scientific knowledge, fostering peer-to-peer relationships in relevant medical communities, liaising with medical regulatory bodies, and supporting clinical and marketing evidence development.

**Philips Design**

Philips Design is the global design function for the Group, ensuring that innovations are meaningful, people-focused and locally relevant. Design is also responsible for ensuring that the Philips brand experience is differentiating, consistently expressed, and drives customer preference.

Philips Design partners with stakeholders across the organisation to develop methodologies and enablers to define value propositions, implement data-enabled design tools and processes to create meaning from data and leverage Co-create methodologies to define solutions with all key stakeholders. The Group’s design-thinking Co-create approach facilitates collaboration with customers and patients to create solutions that are tailored specifically to the challenges facing them today, as local circumstances and workflows are key ingredients in the successful implementation of solutions to the challenges the Group’s customers face.

To ensure that the Group connects end users along the health continuum it creates a consistent experience across all touchpoints. A key enabler for this is a consistent and differentiating design language that applies to software, hardware and services across the Group’s operating businesses. In recognition of its continued excellence, Philips Design received 165 awards in 2017.

**Innovation Services**

Innovation Services offers a wide range of expert services in technology development, realisation and industry consulting, ranging from mechatronics and systems engineering, to micro-electro mechanical systems and devices. Its skills are leveraged by the Group’s businesses, markets and Innovation & Strategy in all regions.

**Innovation Hubs**

To ensure a critical mass of innovation capabilities that leverage the strengths of relevant innovation health technology ecosystems and that can optimally serve market-driven innovation as well as new business creation, the Group has established four Innovation Hubs for the Group: Cambridge (U.S.), Eindhoven (the Netherlands), Bangalore (India) and Shanghai (China). Each Hub includes a combination of technical, design and clinical capabilities, representing Group Innovation & Strategy, selected R&D groups from the Group’s businesses, market innovation teams and other functions. These Hubs, where most of the Group Innovation & Strategy organisation is concentrated, complement the business-specific innovation capabilities of the Group’s R&D centres that are integrated in its global business sites.

- **The Philips Innovation Center Eindhoven** is the Group’s largest Innovation Hub worldwide, hosting the global headquarters of many of the Group’s innovation organisations.

- **The Philips Cambridge, MA, Innovation Labs** is home to both researchers and employees from other innovation functions and ventures. Being within close proximity to the Massachusetts Institute of Technology ("MIT") campus and clinical collaboration partners allows researchers to collaborate easily with MIT faculties and PhD students on jointly defined research programmes, as well as to participate in open innovation projects.
• **The Philips Innovation Campus Bangalore** hosts activities from most of the Group’s operating businesses, Research, Design, Intellectual Property & Standards (“IP&S”) and IT. R&D activities at the site include Diagnostic Imaging, Patient Care & Monitoring Solutions, Sleep & Respiratory Care, Personal Health, and Healthcare Informatics. The campus works with growth geographies to build market-specific solutions, and several businesses have also located business organisations focusing on growth geographies at the site.

• **The China Innovation Hub** in Shanghai combines digital innovation, research and solutions development capabilities responsible for developing locally and globally relevant innovations.

Alongside the hubs, where most of the central Innovation & Strategy organisation is concentrated together with selected business R&D and market innovation teams, the Group continues to have significant, more focused innovation capabilities integrated into key technology centres at its global business sites.

**Emerging Businesses**

Emerging Businesses is a business group dedicated to a mission of bringing intelligence to advance diagnosis in pathology and neurology and to guide therapy. It includes, among others:

• **Digital & Computational Pathology** is focused on two key missions: to digitise diagnosis in anatomic pathology, and to use AI to aid detection of disease and progression to reduce inter-observer variability and improve outcomes. The Group is the global market leader in routine primary diagnosis using digital pathology and the only participant in the market to have an FDA-approved solution for primary diagnosis.

• **Philips Neuro** is focused on a mission to advance neuroscience for better care. The business provides an integrated neurology solution comprising Full Head High Density Electroencephalography with diagnostic imaging to map brain activity and anatomy for a wide range of neuro disorders, and uses machine learning to improve diagnosis of various neuro disorders. In June 2017, the Group acquired Electrical Geodesics, Inc., a U.S.-based company that designs, develops and commercialises a range of non-invasive technologies used to monitor and interpret brain activity.

**IP Royalties**

Philips IP&S proactively pursues the creation of new IP in close co-operation with the Group’s operating businesses and Innovation & Strategy. IP&S is a leading industrial IP organisation providing world-class IP solutions to the Group’s businesses to support their growth, competitiveness and profitability.

The Group’s total IP portfolio currently consists of 62,000 patent rights, 37,600 trademarks, 47,800 design rights and 3,000 domain names. The Group filed 1,200 new patents in 2017, with a strong focus on the growth areas in health and well-being.

IP&S participates in the setting of standards to create new business opportunities for the Group’s operating businesses. A substantial portion of revenue and costs is allocated to the operating businesses. The Group believes its business as a whole is not materially dependent on any particular patent or license, or any particular group of patents and licenses.

**Central costs**

The “Central cost” organisation supports the creation of value, connecting the Group with key stakeholders, especially its employees, customers, governments and society. It includes the Executive Committee, Brand Management, Sustainability, New Venture Integration, the Group functions related to strategy, human resources, legal and finance, as well as country and regional management. It also includes functional services to businesses in areas such as IT, Real Estate and Accounting, thereby helping to drive global cost efficiencies.

**Business Highlights**

Highlighting the Group’s leadership in digital pathology, the Pathology Institute in Hall (Austria) and the Pathology Institute at Tirol Kliniken Innsbruck (Austria) fully digitised their diagnostic process with the Group’s comprehensive “IntelliSite Pathology Solution”.

62
In the 2017 Interbrand annual ranking of the world’s most valuable brands, the Group ranked number 41 with an increased estimated brand value of U.S.$11.5 billion.

The Group’s “IntelliSite Pathology Solution” is currently the only digital pathology solution in the U.S. to receive FDA clearance for primary diagnostic use. This achievement reinforces the Group’s leadership in digital pathology, a solution that is central to the diagnosis of complex diseases such as cancer.

The Group was named “Industry Leader” in the “Diversified Industrials” category in the 2017 Dow Jones Sustainability Index for the third year in a row, achieving best-in-class scores in several categories, including corporate governance, climate strategy and operational eco-efficiency.

The Issuer signed an agreement for a new €1 billion revolving credit facility with an interest rate that is dependent on the company’s year-on-year improvement in its sustainability performance.

The Issuer was one of the signatories to the Dutch Gold Sector International Responsible Business Conduct Agreement, which aims to ensure greater respect for human rights, the environment and biodiversity throughout the chain, from mining to recycling.

Financial Performance

Net income is not allocated to segments as certain income and expense line items are monitored on a centralised basis.

(1) See the section headed “Description of the Issuer and the Group – Business of the Group – Legacy Items” for the Legacy Items for the years ended 31 December 2016 and 31 December 2017.

In 2017, sales amounted to €415 million compared to €478 million in 2016, mainly due to lower royalty income.

In 2017, Income from operations totalled to €(149) million compared to €(129) million in 2016. The year 2017 included restructuring and acquisition-related charges of €64 million and a €59 million net gain from the sale of real estate assets. The year 2016 included restructuring and acquisition-related charges of €28 million and a €26 million impairment of real estate assets. The year-on-year decrease was mainly due to lower royalty income, higher restructuring and acquisition-related charges and higher provision-related charges, partly offset by lower Central costs.

Adjusted EBITA decreased by €43 million compared to 2016, mainly due to lower royalty income and higher provision-related charges in Other, partly offset by lower Central costs.

In the three months ended 31 March 2018, sales increased by €17 million, mainly due to license income from Philips Lighting being reported as third-party sales following deconsolidation as of the end of November 2017. Income from operations and EBITA decreased by €34 million and €37 million respectively, reflecting higher restructuring and acquisition-related charges and a €59 million gain on the sale of real estate assets in the three months ended 31 March 2017. Adjusted EBITA improved by €21 million, mainly due to lower Legacy cost as the three months ended 31 March 2017 included stranded costs related to the combined Lumileds and Automotive businesses. Restructuring and acquisition-related charges amounted to €13 million, compared to €3 million in the three months ended 31 March 2017. Adjusted EBITDA improved by €26 million compared to the three months ended 31 March 2017.
**Legacy Items**

**Overview**

Legacy Items consists mainly of separation costs, legacy legal items, legacy pension costs, environmental provisions and stranded costs.

</table>
As of 31 December 2017, four consolidated subsidiaries are not wholly owned by the Issuer (31 December 2016: five). Until 28 November 2017, a significant subsidiary that was consolidated but not wholly owned was Philips Lighting. Due to the deconsolidation of Philips Lighting, the non-controlling interest related to this company is no longer accounted for in the Group’s financial statements.

The Issuer has investments in a number of associates, none of them (except Philips Lighting) are regarded as individually material. The interest in Philips Lighting is treated as an asset classified as held for sale.

The Issuer founded three Philips Medical Capital (“PMC”) entities, in the United States, France and Germany, in which the Issuer holds a minority interest. Philips Medical Capital, LLC in the United States is the most significant entity. PMC entities provide healthcare equipment financing and leasing services to the Group’s customers for diagnostic imaging equipment, patient monitoring equipment, and clinical IT systems.

The Issuer concluded that it does not control, and therefore should not consolidate the PMC entities. In the United States, PMC operates as a subsidiary of De Lage Landen Financial Services, Inc. The same structure and treatment is applied to the PMC entities in the other countries, with other majority shareholders. Operating agreements are in place for all PMC entities, whereby acceptance of sales and financing transactions resides with the respective majority shareholder. After acceptance of a transaction by PMC, the Issuer transfers significant risk and rewards and does not retain any obligations towards PMC or its customers, from the sales contracts.

At 31 December 2017, the Group’s stake in Philips Medical Capital, LLC amounted to €29 million (31 December 2016: €25 million)

Share Capital and Ownership

The Dutch Act on Financial Supervision (Wet op het financieel toezicht) imposes an obligation on persons holding certain interests to disclose (inter alia) percentage holdings in the capital and/or voting rights in the Issuer when such holdings reach, exceed or fall below 3, 5, 10, 15, 20, 25, 30, 40, 50, 60, 75 and 95 per cent. (as a result of an acquisition or disposal by a person, or as a result of a change in the Issuer’s total number of voting rights or capital issued). Certain derivatives (settled in kind or in cash) are also taken into account when calculating the capital interest. The statutory obligation to disclose capital interest does not only relate to gross long positions, but also to gross short positions. Required disclosures must be made to the Netherlands Authority for the Financial Markets (“AFM”) without delay. The AFM then notifies such disclosures to the Issuer and includes them in a register which is published on the AFM’s website. Furthermore, an obligation to disclose (net) short positions is set out in the EU Regulation on Short Selling.

The AFM register shows the following notification of substantial holdings and/or voting rights at or above the 3 per cent. threshold: BlackRock, Inc.: substantial holding of 5.03 per cent. and 6.19 per cent. of the voting rights (as of 5 January 2017).

The AFM register also shows a notification by the Issuer of a substantial holding of 5.05 per cent. in its own share capital (no voting rights).

As of 31 December 2017, authorised common shares consisted of 2 billion shares (31 December 2016: 2 billion) and the issued and fully paid share capital of the Issuer consisted of 940,909,027 common shares, each share having a par value of € 0.20 (31 December 2016: 929,644,864).

As of 31 December 2017, approximately 90 per cent. of the common shares were held in bearer form and approximately 10 per cent. of the common shares were represented by registered shares of New York Registry issued in the name of approximately 1,034 holders of record, including Cede & Co. Cede & Co acts as nominee for the Depository Trust Company holding the shares (indirectly) for individual investors as beneficiaries. Citibank, N.A., 388 Greenwich Street, New York, New York 10013 is the transfer agent and registrar.

Only bearer shares are traded on the stock market of Euronext Amsterdam. Only shares of New York Registry are traded on the New York Stock Exchange, with the laws of the State of New York governing the proprietary regime of such shares. Bearer shares and registered shares may be exchanged for each other. Since certain shares are held by brokers and other nominees, these numbers may not be representative of the actual number of United States beneficial holders or the number of Shares of New York Registry beneficially held by U.S. residents.

Management and Supervisory Bodies
Executive Committee

The Issuer is managed by an Executive Committee which comprises the members of the Board of Management and certain key officers from functions, businesses and markets.

The Executive Committee operates under the chairmanship of the Chief Executive Officer and shares responsibility for the deployment of the Group’s strategy and policies, and the achievement of its objectives and results.

Under Dutch Law, the Board of Management is accountable for the actions of the Executive Committee and has ultimate responsibility for the management and external reporting of the Issuer and is answerable to shareholders at the “Annual General Meeting of Shareholders”. Pursuant to the two-tier corporate structure, the Board of Management is accountable for its performance to a separate and independent Supervisory Board.

Members of the Board of Management as well as the CEO are appointed by the “General Meeting of Shareholders” upon a binding recommendation drawn up by the Supervisory Board after consultation with the CEO. This binding recommendation may be overruled by a resolution of the General Meeting of Shareholders adopted by a simple majority of the votes cast and representing at least one-third of the issued share capital. If a simple majority of the votes cast is in favour of the resolution to overrule the binding recommendation, but such majority does not represent at least one-third of the issued share capital, a new meeting may be convened at which the resolution may be passed by a simple majority of the votes cast, regardless of the portion of the issued share capital represented by such majority. In the event that a binding recommendation has been overruled, a new binding recommendation shall be submitted to the General Meeting of Shareholders. If such second binding recommendation has been overruled, the General Meeting of Shareholders shall be free to appoint a board member.

Members of the Board of Management and the CEO are appointed for a term of four years, it being understood that this term expires at the end of the General Meeting of Shareholders to be held in the fourth year after the year of their appointment or, if applicable, until a later retirement date or other contractual termination date in the fourth year, unless the General Meeting of Shareholders resolves otherwise. Reappointment is possible for consecutive terms of four years. Members may be suspended by the Supervisory Board and by the General Meeting of Shareholders and dismissed by the latter.

The other members of the Executive Committee are appointed, suspended and dismissed by the CEO, subject to approval by the Supervisory Board.

Set forth below is the name, year of birth and position of each of the persons currently serving on the Executive Committee of the Issuer. Unless otherwise indicated, the business address of each person listed below is c/o Koninklijke Philips N.V., Philips Center, Amstelplein 2, 1096 BC Amsterdam, the Netherlands.

Frans van Houten

Frans van Houten is CEO of the Issuer, a position he has held since April 2011. He is also Chairman of the Board of Management and the Executive Committee. Frans is passionate about innovation, entrepreneurship and business transformation to drive competitiveness and customer value. He is extending the Group’s leadership in health technology as the company focuses on its mission to make the world healthier and more sustainable, with the goal of improving three billion lives per year by 2025. Frans drives the Group’s strategic agenda to provide healthcare technology solutions in support of seamless, patient-centred care across the health continuum, starting with healthy living and prevention, precision diagnosis and personalised treatment, through to care in the home, where the cycle to healthy living begins again. He leads the Group’s initiatives to help empower consumers to take more care of their own health and to provide healthcare solutions, suites of systems, smart devices, software and services, to customers and health systems. Frans first joined the Group in 1986 and has held multiple global leadership positions across the Issuer on three continents, including the role of co-CEO of the Consumer Electronics division. Frans’ team has driven the transformation and revitalisation of the Group’s portfolio to become a focused health technology company through targeted divestment, acquisition and organic business development. This is exemplified by the sale of the television business in 2012; the audio and video businesses in 2014 and the initial public offering (“IPO”) of Philips Lighting on the Amsterdam Euronext stock exchange in May 2016. At the same time, the Group has invested in a number of acquisitions that strengthen its portfolio, among them medical device leaders Volcano and Spectranetics, respiratory care leader RespirTech, and population health management leaders Wellcentive and VitalHealth, as well as others in digital pathology, neurology, pregnancy & parenting, healthcare informatics and ultrasound. He’s also driven increased investment in R&D to establish new businesses in areas like digital pathology, medical wearables and healthcare informatics. As a seasoned business leader, Frans served as Co-Chair at the World Economic Forum in Davos in 2017. He was one of the initiators of the Compact for Responsive and Responsible Leadership, which aims to create a corporate governance framework with a focus on the long-term sustainability of corporations and the long-term goals of society. A proponent of a united, single European market, Frans is also a member of the European Round Table of Industrialists, an advocacy organisation comprising the 50 largest European multinationals. He is co-founder and advocate of NL2025, a platform of Dutch influencers who support initiatives to create a better future for the Netherlands in the areas of education, sustainable growth and a vital society. He was appointed a member of the Board of Directors of Novartis in February, 2017. Frans holds a Master’s degree in Economics and Business Management from Erasmus University in Rotterdam and, since 2014, has served as chairman of the Supervisory Board of the Erasmus University Trust Fund. Frans was named one the world’s top 20 business leaders in 2017 by influential global business magazine, Fortune. Its citation stated: “We lean toward CEOs with vision — those impacting the world beyond their companies. The 20 star executives are doing nothing less than defining the future of business.” Married with four children, he lives near Amsterdam and enjoys contributing to community projects, sailing, skiing, running, gardening and art.

Abhijit Bhattacharya

Abhijit Bhattacharya is CFO of the Issuer. He is also a member of the Board of Management and the Executive Committee, positions that he has held since December 2015 and October 2015, respectively. Since the IPO of Philips Lighting in May 2016, he has been a member of the supervisory board of Philips Lighting. He first joined the Group in 1987 and has held multiple senior leadership positions across various businesses and functions in Europe, Asia Pacific and the U.S. Through 2010-2014, he was the Head of Investor Relations of the Issuer, and subsequently, CFO of Philips Healthcare, the Group’s largest sector at the time. In this role, Abhijit was also responsible for the integration of the relevant Healthcare sector and Group management layers and the smooth transition to a new focused, lean operating model. Throughout 2014-2015, Abhijit was chairman of the team that was responsible for the overall planning and execution of the separation process to create two winning companies focused on the HealthTech and Lighting opportunities. He then became the CFO of Philips Lighting. Prior to 2010, Abhijit was Head of Operations & Quality at ST-Ericsson, the joint venture of ST Microelectronics and Ericsson, and he was CFO of NXP’s largest business group. Abhijit has a strong track record of delivering outstanding value to shareholders, partners, customers and employees and is passionate about driving profitable growth, while focusing on agile and cost-efficient operations. Abhijit was born in India in 1961. He holds a Master’s degree in Finance and Accounting from the Sydenham College of Commerce and Economics of the University of Mumbai, India, and is a qualified Cost and Management accountant from the ICAI.
India. He is a keen sportsman and won the junior national rifle shooting championship in India at the age of 18. He also won several times at the senior level in India in subsequent years, as well as multiple competitions in the Netherlands and Switzerland. Abhijit lives in Eindhoven with his wife and two children.

Egbert van Acht

Egbert van Acht was made responsible for Personal Health Businesses in October 2017, comprising Health & Wellness, Personal Care, Domestic Appliances and Sleep & Respiratory Care. He joined the Group in 2002 and has held various senior leadership roles in the Group in sales and marketing. Most recently, Egbert led the Health & Wellness business group for seven years. Prior to that, he led the Garment Care business, and worked as Chief Marketing Officer in the Group’s Consumer Lifestyle business, responsible for consumer care, product quality and marketing for all of the Group’s consumer products. He also ran the commercial organisation in Western Europe and North America. Egbert started his professional career in Procter & Gamble (P&G), initially working as Marketing Manager for the Fabric Care Brands in Europe, later as Marketing Director with responsibility for the total brand portfolio in the Benelux. Having worked for P&G for 11 years, in 2000 Egbert became European Board member for digital marketing company 24/7 Media, now part of the WPP group. He is passionate about innovation, quality, design, marketing and talent development. His mission is to support and inspire consumers and employees all over the world to be healthy, live well and enjoy life. He has a strong track record in delivering business results via organic growth, alliances, mergers & acquisitions. Egbert was born in the Netherlands in 1965. He holds a Bachelor of Business Administration & Management from Nyenrode Business Universiteit in the Netherlands and a Master of Science in Marketing, Finance & Business Strategy from the University of Bath in the U.K. He is married with four children and has a passion for rugby.

Sophie Bechu

Sophie Bechu joined the Group as Executive Vice President and Chief of Operations in September 2016. Sophie has extensive experience in operations, service delivery, procurement, supply chain, quality, engineering and strategic outsourcing. She has international experience working in Europe, Hong Kong, India and the USA. She leads the Group’s improvement in its operational excellence and drives its Order to Cash (O2C) initiative as the operational backbone of the Issuer. This covers everything from the way the Group receives a customer order, to producing the goods or services, to delivery, invoicing, collecting payments and offering a global, consistent service experience to customers. Sophie joined from IBM where she worked for more than 30 years and where she was most recently Vice President, Strategic Outsourcing, North America Delivery. In her former role she was responsible for the IT services delivery for the Group’s clients in North America and this portfolio included Healthcare and Life Sciences businesses in the USA. Her key responsibilities included customer satisfaction, compliance and service level. Sophie holds a degree in Engineering from the Ecole Superieure d’Electricite, Paris, France.

Rob Cascella

Rob Cascella joined the Group in April 2015. He was appointed Executive Vice President in July 2016. He has more than 30 years of experience in the healthcare industry and has served on several Boards. Rob has spent ten years as President and later CEO of Hologic Inc., a global leader in women’s health. Under his tenure, Hologic broadly diversified its product portfolio and substantially grew revenues through a combination of innovative product development and acquisition, as well as the building of strong customer relationships. He is a graduate of Fairfield University.

Marnix van Ginneken

Marnix van Ginneken joined the Group’s legal department in 2007 and became head of Group legal in 2010. In this role he was responsible for the various Group Legal departments in Amsterdam and Eindhoven, including Corporate & Financial Law, Legal Compliance and Legal M&A. In 2014 Marnix became Chief Legal Officer of the Issuer and a member of the Executive Committee. He was appointed Member of the Board of Management effective from November 2017. Before joining the Group, Marnix worked as an in-house lawyer for Akzo Nobel and before that as an attorney in a private practice. Since 2011, he has been a part-time Professor of International Corporate Governance at the Erasmus School of Law in Rotterdam. Marnix is also a board member of the American Chamber of Commerce in the Netherlands, the Dutch Lawyers Association (Nederlandse Juristen Vereniging (NJV)), and the Grotius Academy Foundation (Stichting Grotius Academie). He is Chairman of the Professional Education for Company Lawyers (Stichting Beroepsopleiding Bedrijfsjuristen). Marnix studied law at the University of Utrecht and at Wayne State University in Detroit. He holds a Ph.D. from the University of Amsterdam.
Andy Ho

Andy Ho joined the Group in 2015 as Executive Vice President and became CEO of Philips Greater China in the same year. Andy is leading the Group’s transformation in Greater China into an integrated solutions provider, with a focus on the integration of professional healthcare, personal health, and digital technologies. He has deep expertise in customer-focused organisational restructuring and is passionate about driving entrepreneurship and operational excellence across all areas of the Group. He leads the Group’s collaboration and alliances among governments, innovation and technology incubators, universities and other businesses, so that the Group can help create a local innovation ecosystem to jointly reshape the future of health technology in China. Prior to joining the Group, Andy held a wide range of sales, technology and senior management roles across Greater China, Canada and the United States in a career spanning 32 years in IBM, where he had also been a member of the Technology Team Committee, and the Strategy Team Committee, Global, IBM. Andy holds a Bachelor’s degree in Business Administration from the Chinese University of Hong Kong.

Henk de Jong

Henk de Jong was appointed Chief of International Markets in April 2017 with responsibility for the results of all the Group’s activities (with the exception of North America and Greater China). He is also a member of the Board of Philips Capital N.V. Henk joined the Group in 1990. His most recent role was Market Leader in Latin America (LATAM). Under his leadership, the region delivered consistent profitable growth in frequently challenging local environments. Henk also led major transformations in the Group’s businesses across the region. Among his achievements, he drove productivity implementing LEAN; led a more a customer-centred approach in the Group’s Personal Health businesses and oversaw a shift towards a more innovative solutions-based approach in the Group’s Health Systems businesses. Prior to that he held a number of leadership roles in the Group’s former Consumer Lifestyle businesses in Europe and Asia. Henk is fluent in Dutch, English and Portuguese. He holds an MBA from the Rijksuniversiteit Groningen and graduated in Finance for Senior Executives at Harvard Business School. He is also teaching digital transformation management at ISE business school in São Paulo.

Ronald de Jong

Ronald de Jong is Chief Human Resources Officer, a position he has held since April 2017. He is also Executive Vice President and has been a Member of the Executive Committee since 2011. Ronald started his career at the Group in 1990 and held various leadership positions in marketing, sales, service, operations, supply chain and general management. In 2011, he was appointed Chief Market Leader responsible for International Markets, Government Affairs and Market-to-Order Excellence with the aim of strengthening the Group’s entrepreneurship with focus on customers and markets. As Chief Market Leader, Ronald led the transformation of the Group’s market organisation under the global Accelerate! programme in 2011 with the objective of building more entrepreneurial market and country organisations; improving customer focus by generating deep market and customer insights; developing local business opportunities by co-creating locally relevant propositions with customers and helping drive the Group’s approach to winning more long-term strategic partnerships. Since 2014 Ronald has been Chairman of the board of the Philips Foundation, set up to enable lasting social change in disadvantaged communities and access to healthcare through the application of innovation, talent and resources provided by the Group. Ronald was appointed Distinguished Professor of Practice in Business at the School of Economics and Management of Tilburg University in July 2017. He is responsible for educating students in marketing, services and innovation management, and for contributing to the impact of research on society and applied science. In 2007 Ronald was honoured by the World Economic Forum as a ‘Young Global Leader’ and in 2015 he was proclaimed a Distinguished Fellow of the Globalization, Aging, Innovation and Care (GAIC) research programme at Tilburg University. Ronald is a member of the Supervisory Board of SNV, an international not-for-profit organisation based in the Netherlands. Ronald holds a Master of Science degree in Business Administration from the Erasmus University in Rotterdam, the Netherlands. In addition, he has participated in educational programmes at, among others, Harvard Business School, Harvard Kennedy School of Government, Stanford University, Yale Institute for Global Leadership and IMD Lausanne.

Carla Kriwet

Dr. Carla Kriwet is Chief Business Leader of the Group’s Connected Care & Health Informatics (CCHI) cluster of businesses. She was appointed to this role in February 2017 and oversees the Group’s Patient Care & Monitoring Solutions (PCMS), Population Health Management and Healthcare Informatics businesses. Previously she led the Business Group PCMS. Carla has successfully driven growth and innovation in PCMS. Before this role she led the Group’s market in Germany, Switzerland and Austria to greater growth and profitability. Prior to joining the Group in
2013 she was Chief Sales & Marketing Officer and Member of the Global Executive Board at Drägerwerk AG & Co KGaA, a German-based engineering and medical technology firm. Before that, she enjoyed multiple leadership roles at Linde AG, Germany, and was a Senior Principal at The Boston Consulting Group. She is Vice Chairman of the Supervisory Board of Zeiss Meditec AG, and Vice Chairman of the Supervisory Board of Save the Children, Germany, which focuses on children’s rights, health, education and emergency relief. Carla graduated in Business Studies at the University of St. Gallen, Switzerland. She holds a PhD in Inter- and intra-organisational knowledge transfer from the University of St. Gallen, Switzerland and University of Tokyo, Japan.

**Vitor Rocha**

As Chief Executive Officer of Philips North America, Vitor Rocha is responsible for driving growth, expanding market share and advancing the Group’s position as a focused leader in health technology across the region. With healthcare rapidly evolving and with the growing need for innovative business models and solutions, he leads an organisation of around 21,000 employees. Vitor was appointed in January 2018, having formerly led the Group’s Ultrasound Business Group since 2014. In that role, he expanded the impact of Ultrasound to new users, new applications and accelerated growth in services. He also strengthened the core Ultrasound businesses in Cardiology and General Imaging, including acquisitions such as TOMTEC and several partnerships. In collaboration with Philips Research, Vitor led the introduction of innovations such as HeartModel, Lumify, ElastQ Imaging, eL18-4 transducer, AI Breast and TrueVue, each of which are instrumental in contributing to Ultrasound innovation and growth. Prior to leading the Ultrasound BG, Vitor led the Health Systems market in Latin America, where he drove double-digit growth and market share gains and integrated several local acquisitions. He formerly held leadership positions in GE. He holds an MBA from Penn State University in the U.S. and a degree in mechanical engineering at the Pontificia Universidade Católica, Brazil. Vitor enjoys family time with his wife and three daughters and outdoor activities including biking, swimming and skiing.

**Jeroen Tas**

Jeroen Tas has over 35 years of global experience as an entrepreneur and senior executive in the healthcare, information technology and financial services industries. Currently he is the CEO of Philips Connected Care and Informatics, with a passion for creating new models of people-centric healthcare, based on the power of information technology. Previously he was CEO of Philips Healthcare, Informatics Solutions & Services, overseeing digital health and clinical informatics and the Group Chief Information Officer (CIO), leading IT worldwide. Jeroen clearly sees the tremendous value that information technology, data and the Internet of Things can add to managing health and care. He is passionate about enabling connected care delivery, while closely working with industry stakeholders. In addition, his goal is providing consumers the tools to take greater control over their health and support care teams to collaborate in new and efficient ways to personalise care and improve clinical outcomes. Jeroen also advances the development of clinical informatics solutions, patient monitoring services and population health management programs that unlock the potential of digital healthcare. He co-founded and served as President, Chief Operating Officer and vice-chairman of the board for MphasiS, an IT and Business Process Outsourcing company, which was acquired by HP in 2006. From 2007-8, he was Vice President and General Manager at EDS, responsible for the global competency centres. Prior to MphasiS, Jeroen was the head of Transaction Technology, Inc., Citigroup's tech lab, responsible for the innovation and development of the bank’s customer-facing systems, including Internet banking and self-service devices. Jeroen is the 2004 winner of the E&Y Entrepreneur of the Year Award in the Information technology category for the New York region. He also won the Dutch CIO of the year 2013 Award, NASSCOM Global CIO Award 2014, the World Innovation Congress 2014 CIO Leadership Award, CIO Net European CIO of 2014 Award, the IT Executive 2014 Award and the Accenture 2015 Innovator of the Year award. He holds a Master’s Degree in computer science and business administration from the VU University, Amsterdam.

**Supervisory Board**

The Supervisory Board supervises the policies of the executive management and the general course of affairs of the Issuer and advises the executive management thereon. The Supervisory Board, in the two-tier corporate structure under Dutch law, is a separate and independent corporate body.

Set forth below is the name and year of birth of each of the persons currently serving on the Supervisory Board, as well as details of their involvement in other committees of the Issuer. The business address of each person listed below is c/o Koninklijke Philips N.V., Philips Center, Amstelplein 2, 1096 BC Amsterdam, the Netherlands:

3) Member of the Corporate Governance and Nomination & Selection Committee  
4) Member of the Quality & Regulatory Committee

* As announced on 19 March 2018, the Issuer has convened the 2018 Annual General Meeting of Shareholders to be held on 3 May 2018 to consider, among other things, the appointment of Paul Stoffels as a member of the Supervisory Board.

**Material Contracts**

**Royal Philips 2018 Credit Facility**

On 13 April 2018, the Issuer entered into a €900 million credit facility with a consortium of international banks. Under this credit facility, the Issuer drew €900 million in April 2018, which was used for the purpose of financing the redemption of the Issuer’s outstanding 3.750 per cent. notes due 2022 in the aggregate principal of up to U.S.$1,000,000,000 and to pay the fees, costs and expenses incurred in connection therewith and in connection with the credit facility. The maturity date is 13 July 2018 with an option for the Issuer to extend for a further 3 months. The credit facility contains a prepayment event requiring the net proceeds of the issue of the Notes to be used to prepay the loans made under the credit facility.
**Royal Philips Revolving Credit Facility**

On 12 April 2017, the Issuer entered into a €1 billion revolving credit facility ("RCF") with a consortium of international banks. The interest rate under the RCF will be partially dependent on the Issuer’s year-on-year sustainability performance improvement. This innovative construction was created by the Issuer in collaboration with ING as the ‘Sustainability Coordinator’ of the RCF and supported by the banks in the consortium.

The Issuer’s current sustainability performance has been assessed by Sustainalytics, an independent provider of environmental, social and corporate governance research and ratings. The resulting score will be used as the benchmark against which performance improvements will be assessed.

The RCF has a maturity date of 21 April 2023, subject to an option to extend (with the agreement of the banks in the consortium) for a one-year period, and can be used for general corporate purposes. It substitutes the Issuer’s previous €1.8 billion revolving credit facility. At present, no amounts under the RCF have been drawn down.

**Legal and Arbitration Proceedings**

The Issuer and certain of its group companies and former group companies are involved as a party in legal proceedings, including regulatory and other governmental proceedings, including discussions on potential remedial actions, relating to such matters as competition issues, commercial transactions, product liability, participations and environmental pollution.

While it is not feasible to predict or determine the ultimate outcome of all pending or threatened legal proceedings, regulatory and governmental proceedings, the Issuer is of the opinion that the cases described below may have, or have had in the recent past, a significant impact on the Issuer’s consolidated financial position, results of operations and cash flows.

**Cathode Ray Tube ("CRT") Antitrust Litigation**

Starting in 2007, competition law authorities in several jurisdictions had commenced investigations into possible anticompetitive activities in the Cathode Ray Tubes, or CRT industry. On 5 December 2012, this lead to a European Commission decision imposing fines on (former) CRT manufacturers including the Issuer. The European Commission imposed a fine of €313 million on the Issuer and a fine of €392 million jointly and severally on the Issuer and LG Electronics, Inc. In total a payable of €509 million was recognised in 2012 and the fine was paid in the first quarter of 2013. The Issuer appealed the decision of the European Commission with the General Court and later with European Court of Justice. These appeals were denied on 9 September 2015 and 15 September 2017 respectively. No further appeals are pending.

**United States**

Subsequent to the public announcement of these investigations in 2007, certain Philips Group companies were named as defendants in class action antitrust complaints by direct and indirect purchasers of CRTs filed in various federal district courts in the United States. These actions alleged anticompetitive conduct by manufacturers of CRTs and sought treble damages on a joint and several liability basis. In addition, sixteen individual plaintiffs, principally large retailers of CRT products who opted out of the direct purchaser class, filed separate complaints against the Issuer and other defendants based on the same substantive allegations. All these actions were consolidated for pretrial proceedings in the United States District Court for the Northern District of California. In addition, the state attorneys general of California, Florida, Illinois, Oregon and Washington filed actions against the Issuer and other defendants seeking to recover damages on behalf of the states and, acting as parens patriae, their consumers.

With the exception of the action brought by the state attorney general of Washington, which remains pending, all other actions have been settled or otherwise resolved. The indirect purchaser settlement was approved by the United States District Court for the Northern District of California in 2016 and is now pending before the Ninth Circuit Court of Appeals.

**Canada**
In 2007, certain Group companies were also being named as defendants in proposed class proceedings in Ontario, Quebec and British Columbia, Canada, along with numerous other participants in the industry. After years of inactivity, in 2014, plaintiffs in the Ontario action initiated the class certification proceedings leading to class certification in the second half of 2016. In 2017, a settlement in principle was reached for all three proposed class actions.

Other jurisdictions

In 2014, the Issuer was named as a defendant in a consumer class action lawsuit filed in Israel in which damages are claimed against several defendants based on alleged anticompetitive activities in the CRT industry. In addition, an electronics manufacturer filed a claim against the Issuer and several co-defendants with a court in the Netherlands and Turkey, also seeking compensation for the alleged damage sustained as a result from the alleged anticompetitive activities in the CRT industry. In 2015 and 2016, the Issuer became involved in further civil CRT antitrust litigation with previous CRT customers in the U.K., Germany, Brazil and Denmark. In all cases, the same substantive allegations about anticompetitive activities in the CRT industry are made and damages are sought. The Issuer has received indications that more civil claims may be filed in due course.

The Issuer has concluded that due to the considerable uncertainty associated with certain of these matters, based on current knowledge, potential losses cannot be reliably estimated with respect to these matters.

Masimo Corporation ("Masimo") Patent Litigation

On 1 October 2014, a jury awarded U.S.$467 million to Masimo in a trial held before the United States District Court for the District of Delaware. The decision by the jury completed an initial phase of a three-phase trial regarding a first lawsuit started by Masimo against the Issuer in 2009. A second lawsuit was started by Masimo against the Issuer in 2016. Between the two lawsuits, claims were raised by the parties against each other relating to patent infringement and antitrust violations in the field of pulse oximetry.

On 5 November 2016, the Issuer and Masimo entered into a wide-ranging, multi-year business partnership involving both companies’ innovations in patient monitoring and therapy solutions, ending all pending lawsuits between the two companies, including releasing the Issuer from paying the U.S.$467 million jury verdict.

The Issuer and Masimo also agreed to:

- a U.S.$300 million cash payment by the Issuer to Masimo;
- a one-time donation to the Masimo Foundation of U.S.$5 million to support the Masimo Foundation’s project on patient safety and better outcomes; and
- commitments of the Issuer with respect to sales targets, marketing and product integration over the coming years of about U.S.$136 million.

Entering into the agreements resulted in a payment of U.S.$305 million (€280 million) in November 2016, a release of litigation provisions of U.S.$86 million (€79 million) and a liability reclassification from litigation provisions to other provisions of U.S.$136 million (€125 million).

The utilisations and reclassifications in 2016 mainly related to Masimo. Reclassifications include reclassification from litigation provisions to other provisions.

Personal Health

In December 2013, the European Commission commenced an investigation into alleged restrictions of online sales of consumer electronics products and small domestic appliances. The Issuer was one of several companies involved in the investigation. In February 2017, the European Commission completed its preliminary investigation and opened its formal proceedings. The Issuer is fully cooperating with the European Commission. Due to the considerable uncertainty associated with this matter, on the basis of current knowledge, the Issuer has concluded that potential losses cannot be reliably estimated with respect to these matters.

In April 2017, the Issuer received a Civil Investigative Demand ("CID") from the U.S. Attorney’s Office in Northern District of Iowa. The CID relates to an evaluation of the appropriateness of certain sleep and respiratory care equipment financing programmes available for Respironics’ products. In addition, in late 2017, the Issuer received an information
request from the U.S. Department of Justice regarding the relationship between Respironics’ business and certain sleep centres that use Respironics’ products. The Issuer has not been advised that any claim has been asserted by the U.S. government in connection with these matters and it continues to cooperate fully in both inquiries.

Miscellaneous

As part of the divestment of the Television and Audio, Video, Multimedia & Accessories businesses in 2012 and 2014, the Issuer transferred economic ownership and control in some legal entities or divisions thereof, while retaining (partial) legal ownership. Considering the current challenging business environment, the Issuer might face employee and operational liabilities in case of certain adverse events.

Given the uncertain nature of the relevant events and liabilities, it is not practicable to provide information on the estimate of the financial effect, if any, or timing. The outcome of the uncertain events could have a material impact on the Issuer’s consolidated financial position, results of operations and cash flows.

FDA Inspection of the Group’s Computed Tomography/Advanced Molecular Imaging Facility in Cleveland, Illinois

In August 2017, the FDA conducted an inspection of the Group’s Computed Tomography/Advanced Molecular Imaging (“CT/AMI”) facility in Cleveland, Illinois. This was the first FDA inspection of the site since the temporary, voluntary suspension of manufacturing and shipping of CT/AMI products from Cleveland in 2014. Following the inspection, the Group submitted its response to the inspectional observations for review by the FDA. In December 2017, the Group had a constructive meeting with the FDA. The Group will provide monthly status reports to the FDA on its progress in addressing the observations.

Since then, the Group has identified no new significant compliance issues at the site. For those reasons, the Group does not expect any FDA enforcement action at the site and the FDA has not taken any enforcement action regarding the site to date.

The FDA generally conducts unannounced follow-up inspections in situations like this one to verify that the remedial actions committed to have been satisfactorily executed. However, given that the Group has informed the FDA of its intention to cease the Cleveland diagnostic imaging manufacturing operations (and invest in a new R&D facility in Cleveland), the Group cannot predict whether the FDA plans to conduct such an inspection of the facility prior to its closing.

Recent Developments

Philips Lighting Sell-Down

In September 2014, the Group announced its plan to sharpen its strategic focus by establishing two standalone companies focused on the HealthTech and Lighting opportunities respectively. To this end, a stand-alone structure was established for Philips Lighting within the Group, effective 1 February 2016. Then, on 27 May 2016, Philips Lighting was listed and started trading on Euronext in Amsterdam under the symbol ‘LIGHT’. Following the listing of Philips Lighting, the Group retained a 71.23 per cent. stake. The IPO resulted in a net cash inflow of €863 million and an increase of shareholders’ equity of €109 million.

In the course of 2017, the Group successfully completed three accelerated bookbuild offerings to institutional investors of a total of 65.35 million shares in Philips Lighting, gradually reducing the Group’s stake in Philips Lighting’s issued share capital to 29.01 per cent. by the end of 2017.

The first two transactions in February and April 2017, involving 48.25 million shares, resulted in a net cash inflow of €1,065 million and had a positive impact on shareholders’ equity of the Issuer of €327 million. In April 2017, the Group concluded that a loss of control was highly probable due to further sell-downs of the remaining shares within one year. From that date Lighting was presented as a discontinued operation. In November 2017, by selling another 17.1 million shares, the Group lost control, resulting in the deconsolidation of Philips Lighting. The sale of shares resulted in a net cash inflow of €544 million and a gain of €599 million recognised in “Discontinued operations”.

As of 31 December 2017, the retained interest in Philips Lighting represents a value of €1,264 million. The Group will sell down its retained interest in Philips Lighting within one year and it is therefore presented under Assets classified as held for sale. This position of 29.01 per cent. is a temporary position which fits in the Group’s overall single
coordinated plan to sell Philips Lighting in its entirety. Consequently, any future results related to the retained interest, like value adjustments, results upon disposal and dividends, will be reflected in “Discontinued operations”.

Subsequent to deconsolidation in November 2017, the Group recognised a valuation loss of €104 million in discontinued operations related to the retained interest, reflecting the stock price developments of Philips Lighting until 31 December 2017.

On 26 February 2018, the Group completed a further sell-down of 16.22 million shares in Philips Lighting which reduced the Group’s stake in Philips Lighting’s issued share capital to 18.02 per cent.
TAXATION

Taxation in the Netherlands

This section outlines the principal Dutch tax consequences of the acquisition, holding, settlement, redemption and disposal of the Notes. It does not present a comprehensive or complete description of all aspects of Dutch tax law which could be of relevance to Noteholders. For Dutch tax purposes, a Noteholder may include an individual, or an entity, that does not hold the legal title of the Notes, but to whom nevertheless the Notes, or their income, are attributed based either on this individual or entity owning a beneficial interest in the Notes or based on specific statutory provisions. These include statutory provisions under which Notes are attributed to an individual who is, or who has directly or indirectly inherited from a person who was, the settlor, grantor or similar originator of a trust, foundation or similar entity that holds the Notes.

This paragraph is intended as general information only. A prospective Noteholder should consult his own tax adviser regarding the tax consequences of any acquisition, holding or disposal of Notes.

This paragraph is based on Dutch tax law as applied and interpreted by Dutch tax courts and as published and in effect on the date of the Prospectus, including, for the avoidance of doubt, the tax rates applicable on that date, without prejudice to any amendments introduced at a later date and implemented with or without retroactive effect.

Any reference in this paragraph made to Dutch taxes, Dutch tax or Dutch tax law must be construed as a reference to taxes of whatever nature levied by or on behalf of the Netherlands or any of its subdivisions or taxing authorities or to the law governing such taxes, respectively. The Netherlands means the part of the Kingdom of the Netherlands located in Europe.

Any reference made to a treaty for the avoidance of double taxation concluded by the Netherlands includes the Tax Regulation for the Kingdom of the Netherlands (Belastingregeling voor het Koninkrijk), the Tax Regulation for the country of the Netherlands (Belastingregeling voor het land Nederland), the Tax Regulation the Netherlands Curacao (Belastingregeling Nederland Curacao), the Tax Regulation for the Netherlands Saint Martin (Belastingregeling Nederland Sint Maarten) and the Agreement between the Taipei Representative Office in the Netherlands and the Netherlands Trade and Investment Office in Taipei for the avoidance of double taxation.

This section does not describe the possible Dutch tax considerations or consequences that may be relevant to a Noteholder:

(i) who is an individual and for whom the income or capital gains derived from the Notes are attributable to employment activities, the income from which is taxable in the Netherlands;

(ii) which has a substantial interest (aanmerkelijk belang) or a fictitious substantial interest (fictief aanmerkelijk belang) in the Issuer within the meaning of chapter 4 of the Dutch Income Tax Act 2001 (Wet inkomstenbelasting 2001). Generally, a substantial interest in the Issuer arises if the Noteholder, alone or, in case of an individual, together with his partner, owns or holds certain rights to shares, including rights to directly or indirectly acquire shares, representing, directly or indirectly, 5 per cent. or more of the issued capital of the Issuer or of the issued capital of any class of shares;

(iii) that is an entity which under the Dutch Corporate Income Tax Act 1969 (Wet op de vennootschapsbelasting 1969) (the “CITA”), is not subject to Dutch corporate income tax or is in full or in part exempt from Dutch corporate income tax (such as a qualifying pension fund); or

(iv) that is an investment institution (beleggingsinstelling) as described in Section 6a or 28 CITA.

Withholding Tax

Any payments made under the Notes will not be subject to withholding or deduction for, or on account of, any Dutch taxes.

Taxes on Income and Capital Gains

Residents of the Netherlands

The description of certain Dutch tax consequences in this paragraph is only intended for the following Noteholders:
(i) individuals who are resident or deemed to be resident in the Netherlands ("Dutch Individuals"); and
(ii) entities or enterprises that are subject to the CITA and are resident or deemed to be resident in the Netherlands ("Dutch Corporate Entities").

Dutch Individuals engaged or deemed to be engaged in an enterprise or in miscellaneous activities

Dutch Individuals engaged or deemed to be engaged in an enterprise or in miscellaneous activities (resultaat uit overige werkzaamheden) are generally subject to income tax at statutory progressive rates with a maximum of 51.95 per cent. with respect to any benefits derived or deemed to be derived from the Notes, including any capital gains realised on their disposal, that are attributable to:

(i) an enterprise from which a Dutch Individual derives profits, whether as an entrepreneur (ondernemer) or pursuant to a co-entitlement (medegerechtigde) to the net worth of this enterprise other than as an entrepreneur or a shareholder; or

(ii) miscellaneous activities, including, without limitation, activities which are beyond the scope of active portfolio investment activities (meer dan normaal vermogensbeheer).

Dutch Individuals not engaged or deemed to be engaged in an enterprise or in miscellaneous activities

Generally, the Notes held by a Dutch Individual who is not engaged or deemed to be engaged in an enterprise or in miscellaneous activities, will be subject annually to an income tax imposed on a fictitious yield on the Notes. The Notes held by this Dutch Individual will be taxed under the regime for savings and investments (inkomen uit sparen en beleggen). Irrespective of the actual income or capital gains realised, the annual taxable benefit of the assets and liabilities of a Dutch Individual that are taxed under this regime, including the Notes, is set at a percentage of the positive balance of the fair market value of these assets, including the Notes, and the fair market value of these liabilities. The percentage increases:

(i) from 2.02 per cent. of this positive balance up to EUR 70,800;
(ii) to 4.33 per cent. of this positive balance of EUR 70,800 up to EUR 978,000; and
(iii) to a maximum of 5.38 per cent. of this positive balance of EUR 978,000 or higher.

No taxation occurs if this positive balance does not exceed a certain threshold (heffingvrij vermogen). The fair market value of assets, including the Notes, and liabilities that are taxed under this regime is measured, in general, exclusively on 1 January of every calendar year. The tax rate under the regime for savings and investments is a flat rate of 30 per cent.

Dutch Corporate Entities

Dutch Corporate Entities are generally subject to corporate income tax at statutory rates up to 25 per cent. with respect to any benefits derived or deemed to be derived from the Notes, including any capital gains realised on their disposal.

Non-residents of the Netherlands

The description of certain Dutch tax consequences in this paragraph is only intended for the following Noteholders:

(i) individuals who are not resident and not deemed to be resident in the Netherlands ("Non-Dutch Individuals"); and

(i) entities that are not resident and not deemed to be resident in the Netherlands ("Non-Dutch Corporate Entities").

Non-Dutch Individuals

A Non-Dutch Individual will not be subject to any Dutch taxes on income or capital gains in respect of the purchase, ownership and disposal or transfer of the Notes, unless:

(i) the Non-Dutch Individual derives profits from an enterprise, whether as entrepreneur or pursuant to a co-entitlement to the net worth of this enterprise other than as an entrepreneur or a shareholder, which enterprise is, in whole or in part, carried on through a permanent establishment (vaste inrichting) or a permanent representative (vaste vertegenwoordiger) in the Netherlands, to which the Notes are attributable;
(ii) the Non-Dutch Individual derives benefits from miscellaneous activities carried on in the Netherlands in respect of the Notes, including (without limitation) activities which are beyond the scope of active portfolio investment activities; or

(iii) the Non-Dutch Individual is entitled to a share in the profits of an enterprise, other than by way of securities, which enterprise is effectively managed in the Netherlands and to which enterprise the Notes are attributable.

**Non-Dutch Corporate Entities**

A Non-Dutch Corporate Entity will not be subject to any Dutch taxes on income or capital gains in respect of the purchase, ownership and disposal or transfer of the Notes, unless:

(i) the Non-Dutch Corporate Entity derives profits from an enterprise, which enterprise is, in whole or in part, carried on through a permanent establishment or a permanent representative in the Netherlands, to which the Notes are attributable; or

(ii) the Non-Dutch Corporate Entity is entitled to a share in the profits of an enterprise or a co-entitlement to the net worth of an enterprise, other than by way of securities, which enterprise is effectively managed in the Netherlands and to which enterprise the Notes are attributable.

Under certain specific circumstances, Dutch taxation rights may be restricted for Non-Dutch Individuals and Non-Dutch Corporate Entities pursuant to treaties for the avoidance of double taxation.

**Dutch Gift Tax or Inheritance Tax**

No Dutch gift tax or inheritance tax is due in respect of any gift of the Notes by, or inheritance of the Notes on the death of, a Noteholder, unless:

(i) at the time of the gift or death of the Noteholder, the Noteholder is resident, or is deemed to be resident, in the Netherlands;

(ii) the Noteholder dies within 180 days after the date of the gift of the Notes while being, or being deemed to be, resident in the Netherlands at the time of his death but not at the time of the gift; or

(iii) the gift of the Notes is made under a condition precedent and the Noteholder is resident, or is deemed to be resident, in the Netherlands at the time the condition is fulfilled.

**Other Taxes and Duties**

No other Dutch taxes, including taxes of a documentary nature, such as capital tax, stamp or registration tax or duty, are payable by the Issuer or by, or on behalf of, the Noteholders by reason only of the issue, acquisition or transfer of the Notes.

**Residency**

A Noteholder will not become resident, or deemed resident, in the Netherlands by reason only of holding the Notes. Subject to the exceptions above, a Noteholder will not become subject to Dutch taxes by reason only of the Issuer’s performance, or the Noteholder's purchase (by way of issue or transfer to the Noteholder), ownership or disposal of the Notes.

**The proposed financial transactions tax (“FTT”)**

On 14 February 2013, the European Commission published a proposal (the “Commission’s Proposal”) for a Directive for a common FTT in Belgium, Germany, Estonia, Greece, Spain, France, Italy, Austria, Portugal, Slovenia and Slovakia (the “participating Member States”). However, Estonia has since stated that it will not participate.

The Commission’s Proposal has very broad scope and could, if introduced, apply to certain dealings in the Notes (including secondary market transactions) in certain circumstances.
Under the Commission’s Proposal, the FTT could apply in certain circumstances to persons both within and outside of the participating Member States. Generally, it would apply to certain dealings in the Notes where at least one party is a financial institution, and at least one party is established in a participating Member State. A financial institution may be, or be deemed to be, “established” in a participating Member State in a broad range of circumstances, including (a) by transacting with a person established in a participating Member State or (b) where the financial instrument which is subject to the dealings is issued in a participating Member State.

However, the FTT proposal remains subject to negotiation between participating Member States. It may therefore be altered prior to any implementation, the timing of which remains unclear. Additional EU Member States may decide to participate.

Prospective holders of the Notes are advised to seek their own professional advice in relation to the FTT.

U.S. Foreign Account Tax Compliance Withholding

Pursuant to certain provisions of the U.S. Internal Revenue Code of 1986, commonly known as “FATCA”, certain non-U.S. financial institutions must comply with information reporting requirements or certification requirements in respect of their direct and indirect United States shareholders and/or United States account holders to avoid becoming subject to withholding on certain payments. The Issuer believes that it should not be treated as a “financial institution” under FATCA, but this conclusion is a factual determination that may be subject to change. The Issuer may accordingly (if it is treated as a “foreign financial institution”) be required to report information to the U.S. Internal Revenue Service regarding the holders of Notes and to withhold on a portion of payments under the Notes to certain holders that fail to comply with the relevant information reporting requirements (or hold Notes directly or indirectly through certain non-compliant intermediaries). However, such withholding would generally not apply to the Notes unless (i) the Notes are significantly modified after the date that is at least six months after the date on which final regulations implementing the withholding rules are enacted and (ii) the payments on such modified Notes are made on or after 1 January 2019. In addition, if additional Notes (as described under Condition 15 (Further Issues) of the 2024 Notes and Condition 15 (Further Issues) of the 2028 Notes) that are not distinguishable from previously issued Notes are issued after the expiration of the grandfathering period and are subject to withholding under FATCA, then withholding agents may treat all Notes, including the Notes offered prior to the expiration of the grandfathering period, as subject to withholding under FATCA. Holders are urged to consult their own tax advisors and any banks or brokers through which they will hold Notes as to the consequences (if any) of these rules to them.
SUBSCRIPTION AND SALE

BNP Paribas, Citigroup Global Markets Limited, Coöperatieve Rabobank U.A., Deutsche Bank AG, London Branch, HSBC Bank plc. ING Bank N.V., Merrill Lynch International, Mizuho International plc, MUFG Securities EMEA plc and Société Générale (the “Joint Lead Managers”) have, pursuant to a subscription agreement (the “Subscription Agreement”) dated 26 April 2018, jointly and severally agreed to subscribe or procure subscribers for the Notes. The Issuer will pay certain commissions to the Joint Lead Managers and will reimburse them in respect of certain of their expenses, and has also agreed to indemnify the Joint Lead Managers against certain liabilities, incurred in connection with the issue of the Notes. The Subscription Agreement provides that the obligations of the Joint Lead Managers to subscribe for the Notes may be subject to certain conditions precedent, including (among other things) receipt of legal opinions from counsel. The Subscription Agreement may be terminated in certain circumstances prior to payment of the Issuer.

United States

The Notes have not been and will not be registered under the Securities Act or with any securities regulatory authority of any state or other jurisdiction of the United States and may not be offered or sold within the United States or to, or for the account or benefit of, U.S. persons except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the Securities Act and in compliance with applicable state securities laws. Terms used in this paragraph have the meanings given to them by Regulation S.

Accordingly, the offer is not being made in the United States and this document does not constitute an offer, or an invitation to apply for, or an offer or invitation to purchase or subscribe for any Notes in the United States. The Notes offered hereby are being offered and sold only outside the United States in “offshore transactions” as defined in Regulation S. Any person who subscribes or acquires Notes will be deemed to have represented, warranted and agreed, by accepting delivery of this Prospectus or delivery of Notes, that it has not received this document or any information related to the Notes in the United States, is not located in the United States and is subscribing for or acquiring Notes in compliance with Rule 903 of Regulation S in an “offshore transaction” as defined in Regulation S.

The Notes are subject to U.S. tax law requirements and may not be offered, sold or delivered within the United States or its possessions or to a United States person, except in certain transactions permitted by U.S. tax regulations. Terms used in this paragraph have the meanings given to them by the U.S. Internal Revenue Code of 1986 and Treasury regulations promulgated thereunder.

Each Joint Lead Manager has represented and agreed that, except as permitted by the Subscription Agreement, it will not offer, sell or deliver the Notes (a) as part of their distribution at any time or (b) otherwise until 40 days after the later of the commencement of the offering and the Issue Date within the United States or to, or for the account or benefit of, U.S. persons and that it will have sent to each distributor, dealer or other person receiving a selling concession, fee or other remuneration to which it sells any Notes during the distribution compliance period a confirmation or other notice setting forth the restrictions on offers and sales of the Notes within the United States or to, or for the account or benefit of, U.S. persons. Terms used in this paragraph have the meanings given to them by Regulation S under the Securities Act.

In addition, until 40 days after the later of the commencement of the offering and the Issue Date, an offer or sale of Notes within the United States by any dealer (whether or not participating in the offering of the Notes) may violate the registration requirements of the Securities Act if such offer or sale is made otherwise than in accordance with an available exemption from registration under the Securities Act.

Prohibition of Sales to EEA Retail Investors

Each Joint Lead Manager has represented and agreed that it has not offered, sold or otherwise made available and will not offer, sell or otherwise make available any Notes to any retail investor in the European Economic Area. For the purposes of this provision, the expression “retail investor” means a person who is one (or more) of the following:

(a) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU (as amended, “MiFID II”); or
(b) a customer within the meaning of Directive 2002/92/EC (as amended, the “Insurance Mediation Directive”), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II.

**United Kingdom**

Each Joint Lead Manager has represented and agreed that:

(a) it has only communicated or caused to be communicated and will only communicate or cause to be communicated an invitation or inducement to engage in investment activity (within the meaning of Section 21 of the Financial Services and Markets Act 2000, as amended (the “FSMA”)) received by it in connection with the issue or sale of any Notes in circumstances in which Section 21(1) of the FSMA does not apply to the Issuer; and

(b) it has complied and will comply with all applicable provisions of the FSMA with respect to anything done by it in relation to any Notes in, from or otherwise involving the U.K.

**The Netherlands**

The Notes (including the rights representing an interest in the Notes in global form) which are the subject of this Prospectus, have not been and shall not be offered, sold, transferred or delivered in the Netherlands other than to qualified investors (within the meaning of the Prospectus Directive), provided that no such offer of Notes shall require the publication of a Prospectus pursuant to article 3 of the Prospectus Directive or supplement to a prospectus pursuant to article 16 of the Prospectus Directive.

**General**

No action has been taken or will be taken in any jurisdiction by the Issuer, or any of the Joint Lead Managers that would, or is intended to, permit a public offer of the Notes in any country or jurisdiction where any such action for that purpose is required. Accordingly, each Joint Lead Manager has undertaken that it will not, directly or indirectly, offer or sell any Notes or distribute or publish any offering circular, prospectus, form of application, advertisement or other document or information in any country or jurisdiction except under circumstances that will, to the best of its knowledge and belief, result in compliance with any applicable laws and regulations. Persons into whose hands this Prospectus comes are required by the Issuer and the Joint Lead Managers to comply with all applicable laws and regulations in each country or jurisdiction in which they purchase, offer, sell or deliver Notes or possess, distribute or publish this Prospectus or any other offering material relating to the Notes, in all cases at their own expense.
GENERAL INFORMATION

Authorisation

The issue of the Notes was duly authorised by a resolution of the Board of Management of the Issuer dated 16 March 2018 and approved by the Supervisory Board of the Issuer on 19 March 2018, as evidenced by the certificate of a resolution of the Supervisory Board dated 6 April 2018.

Listing and Admission to Trading

Application has been made for the Notes to be admitted to listing on the Official List of the Luxembourg Stock Exchange and admitted to trading on the regulated market of the Luxembourg Stock Exchange with effect from 2 May 2018. The total expenses relating to the admission to listing and trading are expected to be approximately €13,600.

Clearing Systems

The Notes have been accepted for clearance through Euroclear and Clearstream, Luxembourg. The ISIN for the 2024 Notes is XS1815116568 and the Common Code is 181511656 and the ISIN for the 2028 Notes is XS1815116998 and the Common Code is 181511699. The address of Euroclear is Euroclear Bank SA/NV, 1 Boulevard du Roi Albert II, B-1210 Brussels, Belgium and the address of Clearstream, Luxembourg is Clearstream Banking, 42 Avenue JF Kennedy, L-1855 Luxembourg.

No Significant or Material Adverse Change

Other than as disclosed in the section headed “Description of the Issuer and the Group—Recent Developments”, there has been no significant change in the financial or trading position of the Issuer or the Group since 31 March 2018 and there has been no material adverse change in the prospects or financial position of the Issuer or the Group since 31 December 2017.

Litigation

Other than as disclosed in the section headed “Description of the Issuer and the Group—Legal and Arbitration Proceedings” neither the Issuer nor any other member of the Group is or has been involved in any governmental, legal or arbitration proceedings (including any such proceedings which are pending or threatened of which the Issuer is aware) in the 12 months preceding the date of this Prospectus which may have or have in such period had a significant effect on the financial position or profitability of the Issuer or the Group.

Material Contracts

Other than as disclosed in the section headed “Description of the Issuer and the Group—Material Contracts”, neither the Issuer nor any other member of the Group has entered into any material contracts outside the ordinary course of business which could result in its being under an obligation or entitlement which is, or may be, material to the ability of the Issuer to meet its obligations in respect of the Notes.

Potential Conflicts of Interests

There are no potential conflicts of interest between any duties of the members of the Executive Committee which includes the Board of Management and the Supervisory Board and their private interests in relation to the issue of the Notes by the Issuer.

Auditors

The statutory auditors of the Issuer and the Group for the period covered by the historical financial information incorporated by reference in this Prospectus are Ernst & Young Accountants LLP (“EY”), Cross Towers, Antonio Vivaldiistraat 150, 1083 HP Amsterdam, the Netherlands.
EY has audited and rendered unqualified independent auditors’ reports on the financial statements of the Issuer and the Group for the financial years ended 31 December 2017 and 31 December 2016.

EY is currently the Issuer’s independent registered accounting firm. EY has no material interest in the Issuer and the registered accountants of EY are members of the Royal Netherlands Institute of Chartered Accountants (Koninklijke Nederlandse Beroepsorganisatie van Accountants).

No other information in this Prospectus has been audited.

U.S. tax

The Notes and Coupons will contain the following legend: “Any United States person who holds this obligation will be subject to limitations under the United States income tax laws, including the limitations provided in Sections 165(j) and 1287(a) of the Internal Revenue Code.”

Documents Available

As long as the Notes remain outstanding, electronic copies of the following documents will be available for inspection from the registered office of the Issuer and from the specified offices of the Paying Agent for the time being in London:

(a) the constitutional documents (with an English translation thereof) of the Issuer;
(b) the audited consolidated financial statements of the Group as of and for the financial years ended 31 December 2016 and 31 December 2017, in each case together with the independent auditor’s report prepared thereon;
(c) the unaudited consolidated financial information of the Group for the three months ended 31 March 2018;
(d) the Trust Deed, the Agency Agreement and the forms of the Global Notes, the Notes in definitive form and the Coupons; and
(e) a copy of this Prospectus together with any supplement to this Prospectus.

Yield

The yield on the 2024 Notes will be 0.830 per cent. calculated on an annual basis on the basis of the issue price of the 2024 Notes of 99.534 per cent.

The yield on the 2028 Notes will be 1.496 per cent. calculated on an annual basis on the basis of the issue price of the 2028 Notes of 98.884 per cent.

Joint Lead Managers transacting with the Issuer

Each of the Joint Lead Managers and its affiliates (including their parent companies) has engaged, and may in future engage, in investment banking and/or commercial banking (including derivatives contracts, the provision of loan facilities and consultancy services) and other related transactions with, and may perform services for the Issuer and its affiliates (including other members of the Group) in the ordinary course of business.

In addition, in the ordinary course of their business activities, the Joint Lead Managers and their respective affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers. Such investments and securities activities may involve securities and/or instruments of the Issuer or its affiliates or any entity related to the Notes. The Joint Lead Managers or their respective affiliates that have a lending relationship with the Issuer routinely hedge their credit exposure to the Issuer consistent with their customary risk-management policies. Typically, such Joint Lead Managers and their respective affiliates would hedge such exposure by entering into transactions which consist of either the purchase of credit default swaps or the creation of short positions in the Issuer’s securities, including potentially the Notes offered hereby. Any such short positions could adversely affect future trading prices of the Notes. The Joint Lead Managers and their respective affiliates may also make investment
recommendations and/or publish or express independent research views in respect of such securities or financial instruments and may hold, or recommend to clients that they acquire, long and/or short positions in such securities and instruments. For the purposes of this paragraph, the term “affiliates” includes also parent companies.

Furthermore, each Joint Lead Manager under the Notes (and/or its affiliates) has a significant lending relationship with the Issuer and certain subsidiary companies within the Group, has provided the Issuer with investment banking services in the last twelve months and has a conflict of interest in to the extent that the proceeds from the issue of the Notes are used to repay previous loans granted to the Issuer. In particular, the proceeds from the issue of the Notes will be applied to repay the 2018 Credit Facility, under which each of the Joint Lead Managers (or an affiliate of each Joint Lead Manager) is a lender (see the “Use of Proceeds” section for further detail).

As further described in the section “Subscription and Sale”, each of the Joint Lead Managers under the Notes will receive a commission.
