This Base Prospectus has been approved as a base prospectus by the Commission de Surveillance du Secteur Financier (the “**CSSF**”) in its capacity as competent authority under Regulation (EU) 2017/1129 (the “**Prospectus Regulation**”). The CSSF only approves this Base Prospectus as meeting the standards of completeness, comprehensibility and consistency imposed by the Prospectus Regulation. Such approval should not be considered as an endorsement of either the Issuer or the quality of the Notes that are the subject of this Base Prospectus and investors should make their own assessment as to the suitability of investing in the Notes. In the context of such approval, the CSSF gives no undertaking as to the economic and financial soundness of the transaction or the quality or solvency of the Issuer pursuant to Article 6(4) of Luxembourg Law of 16 July 2019 on Prospectuses for Securities (the “**Prospectus Law**”).

The distribution of this Base Prospectus and any Final Terms and the offering, sale and delivery of the Notes in certain jurisdictions may be restricted by law. Persons into whose possession this Base Prospectus or any Final Terms come, are required by the Issuer and the Dealers to inform

themselves about and to observe any such restrictions. For a description of certain restrictions on offers, sales and deliveries of Notes and on the distribution of this Base Prospectus or any Final Terms and other offering material relating to the Notes, see “*Subscription and Sale*”. In particular, the Notes have not been and will not be registered under the United States Securities Act of 1933 (as amended, the “**Securities Act**”) and are subject to United States tax law requirements. Subject to certain exceptions, the Notes may not be offered, sold or delivered within the United States or to or for the account or benefit of U.S. persons.

Tranches of Notes issued under the Programme will be rated or unrated. Where an issue of Notes is rated, such rating will be specified in the relevant Final Terms and its rating will not necessarily be the same as the rating applicable to the Programme. In general, European regulated investors are restricted from using a rating for regulatory purposes if such rating is not issued by a credit rating agency established in the European Economic Area (the “**EEA**”) or the United Kingdom (the “**UK**”) and registered under Regulation (EC) No. 1060/2009 (as amended, the “**CRA Regulation**”) unless (1) the rating is provided by a credit rating agency not established in the EEA or the UK but is endorsed by a credit rating agency established in the EEA or the UK and registered under the CRA Regulation or (2) the rating is provided by a credit rating agency not established in the EEA or the UK which is certified under the CRA Regulation. **A security rating is not a recommendation to buy, sell or hold securities and may be subject to suspension, reduction or withdrawal at any time by the assigning rating agency.**

The Issuer’s existing long-term debt is rated Baa1 (with stable outlook) by Moody’s Deutschland GmbH (“**Moody’s**”), A- (with stable outlook) by Fitch Ratings Ltd (“**Fitch**”) and BBB+ (with stable outlook) by S&P Global Ratings Europe Limited (“**S&P**”). For the purposes of the credit ratings included and referred to in this Base Prospectus, each of Moody’s, S&P and Fitch is established in the EEA or in the UK and are included in the list of credit rating agencies registered in accordance with the CRA Regulation. This list is available on the ESMA website (<https://www.esma.europa.eu/supervision/credit-rating-agencies/risk>) (last updated 14 November 2019). A rating is not a recommendation to buy, sell or hold securities and may be subject to suspension, reduction or withdrawal at any time by the assigning rating organisation.

Accordingly, no representation, warranty or undertaking, express or implied, is made and no responsibility or liability is accepted by the Arranger, the Dealers, the Trustee or any of their respective affiliates as to the accuracy or completeness of the information contained or incorporated in this Base Prospectus or any other information provided by the Issuer in connection with the issue and offering of the Notes or any responsibility for any acts or omissions of the Issuer or any other person in connection with the issue and offering of the Notes. None of the Arranger, the Dealers or the Trustee accepts any liability in relation to the information contained or incorporated by reference in this Base Prospectus or any other information provided by the Issuer in connection with the offering of the Notes or their distribution.

Neither this Base Prospectus nor any other information supplied in connection with the offering of the Notes (a) is intended to provide the basis of any credit or other evaluation or (b) should be considered as a recommendation by the Issuer, the Arranger, any of the Dealers or the Trustee that any recipient of this Base Prospectus or any other information supplied in connection with the offering of the Notes should purchase any Notes. Each investor contemplating purchasing any Notes should make its own independent investigation of the financial condition and affairs, and its own appraisal of the creditworthiness, of the Issuer. Neither this Base Prospectus nor any other information supplied in connection with the offering of the Notes constitutes an offer or invitation by or on behalf of the Issuer, the Arranger, any of the Dealers or the Trustee to any person to subscribe for or to purchase any Notes.

Neither the delivery of this Base Prospectus nor the offering, sale or delivery of the Notes shall in any circumstances imply that the information contained herein concerning the Issuer is correct at any time subsequent to the date hereof or that any other information supplied in connection with the offering of the Notes is correct as of any time subsequent to the date indicated in the document containing the same. The Arranger, the Dealers and the Trustee expressly do not undertake to review the financial condition or affairs of the Issuer during the life of the Notes or to advise any investor in the Notes of any information coming to their attention. The Notes have not been and will not be registered under the Securities Act or the securities laws of any state of the United States and are subject to U.S. tax law requirements. Subject to certain exceptions, the Notes may not be offered, sold or delivered within the United States or to U.S. persons. For a further description of certain restrictions on the offering and sale of the Notes and on distribution of this document, see “*Subscription and Sale*” below.

This Base Prospectus is not intended as investment advice and does not constitute an offer to sell or the solicitation of an offer to buy the Notes in any jurisdiction to any person to whom it is unlawful to make the offer or solicitation in such jurisdiction. The distribution of this Base Prospectus and the offer or sale of Notes may be restricted by law in

certain jurisdictions. The Issuer, the Arranger, the Dealers and the Trustee do not represent that this Base Prospectus may be lawfully distributed, or that the Notes may be lawfully offered, in compliance with any applicable registration or other requirements in any such jurisdiction, or pursuant to an exemption available thereunder, or assume any responsibility for facilitating any such distribution or offering. In particular, no action has been taken by the Issuer, the Arranger, the Dealers or the Trustee which is intended to permit a public offering of the Notes or the distribution of this Base Prospectus in any jurisdiction where action for that purpose is required. Accordingly, no Notes may be offered or sold, directly or indirectly, and neither this Base Prospectus nor any advertisement or other offering material may be distributed or published, in any jurisdiction except under circumstances that will result in compliance with any applicable laws and regulations. Persons into whose possession this Base Prospectus or any Notes may come must inform themselves about, and observe any such restrictions on the distribution of this Base Prospectus and the offering and sale of Notes. In particular, there are restrictions on the distribution of this Base Prospectus and the offer or sale of Notes in the United States, Japan, Singapore, the EEA (including the Netherlands) and the UK (see “*Subscription and Sale*”).

USE OF PROCEEDS – None of the Dealers will verify or monitor the use of proceeds of any Notes. Application may be made for a Series of Notes to be displayed on the Luxembourg Green Exchange and no representation or assurance is given by the Issuer, the Dealers, or any other person that such display satisfies, whether in whole or in part, any present or future investor expectations or requirements as regards any investment criteria or guidelines with which such investor or its investments are required to comply. Furthermore, it should be noted that the criteria for any such display may vary from one stock exchange or securities market to another and may be subject to change. In addition, no representation or assurance is given or made by the Issuer, the Dealers or any other person that such display will be maintained during the life of any such Notes.

IMPORTANT – EEA AND UK RETAIL INVESTORS - If the Final Terms in respect of any Notes includes a legend entitled “Prohibition of Sales to EEA and UK Retail Investors”, the Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the EEA or in the UK. For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of MiFID II; or (ii) a customer within the meaning of Directive (EU) 2016/97 (the “**Insurance Distribution Directive**”), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II. Consequently no key information document required by Regulation (EU) No 1286/2014 (as amended, the “**PRIIPs Regulation**”) for offering or selling the Notes or otherwise making them available to retail investors in the EEA or in the UK has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the EEA or in the UK may be unlawful under the PRIIPs Regulation.

MiFID II PRODUCT GOVERNANCE / TARGET MARKET - The Final Terms in respect of any Notes may include a legend entitled “MiFID II Product Governance” which will outline the target market assessment in respect of the Notes and which channels for distribution of the Notes are appropriate. Any person subsequently offering, selling or recommending the Notes (a “**distributor**”) should take into consideration the target market assessment; however, a distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the target market assessment) and determining appropriate distribution channels. A determination will be made in relation to each issue about whether, for the purpose of the MiFID Product Governance rules under EU Delegated Directive 2017/593 (the “**MiFID Product Governance Rules**”), any Dealer subscribing for any Notes is a manufacturer in respect of such Notes, but otherwise neither the Arranger nor any of the Dealers nor any of their respective affiliates will be a manufacturer for the purpose of the MiFID Product Governance Rules.

PRODUCT CLASSIFICATION PURSUANT TO SECTION 309B OF THE SECURITIES AND FUTURES ACT (CHAPTER 289 OF SINGAPORE) - The relevant Final Terms in respect of any Notes may include a legend entitled “Singapore Securities and Futures Act Product Classification” which will state the product classification of the Notes pursuant to section 309B(1) of the Securities and Futures Act (Chapter 289 of Singapore) (the “**SFA**”). The Issuer will make a determination and provide the appropriate written notification to “relevant persons” in relation to each issue about the classification of the Notes being offered for purposes of section 309B(1)(a).

IN CONNECTION WITH THE ISSUE OF THE NOTES, THE DEALER OR DEALERS (IF ANY) NAMED AS THE STABILISING MANAGER(S) (OR PERSONS ACTING ON BEHALF OF ANY STABILISING

MANAGER(S)) MAY OVER-ALLOT NOTES OR EFFECT TRANSACTIONS WITH A VIEW TO SUPPORTING THE MARKET PRICE OF THE NOTES AT A LEVEL HIGHER THAN THAT WHICH MIGHT OTHERWISE PREVAIL. HOWEVER, STABILISATION MAY NOT NECESSARILY OCCUR. ANY STABILISATION ACTION MAY BEGIN ON OR AFTER THE DATE ON WHICH ADEQUATE PUBLIC DISCLOSURE OF THE TERMS OF THE OFFER OF THE NOTES IS MADE AND, IF BEGUN, MAY CEASE AT ANY TIME, BUT IT MUST END NO LATER THAN THE EARLIER OF 30 DAYS AFTER THE ISSUE DATE OF THE NOTES AND 60 DAYS AFTER THE DATE OF THE ALLOTMENT OF THE NOTES. ANY STABILISATION ACTION OR OVER-ALLOTMENT MUST BE CONDUCTED BY THE RELEVANT STABILISING MANAGER(S) (OR PERSONS ACTING ON BEHALF OF ANY STABILISING MANAGER(S)) IN ACCORDANCE WITH ALL APPLICABLE LAWS AND RULES.

All references in this document to “U.S. dollars” and “\$” refer to the currency of the United States of America and to “euro”, “€” and “EUR” refer to the currency introduced at the start of the third stage of European economic and monetary union pursuant to the Treaty establishing the European Community, as amended. All references in this document to the “Group” are to the group consisting of Koninklijke Philips N.V. and its direct and indirect subsidiaries. All references to “Signify” are to Signify N.V., the company formerly known as Philips Lighting N.V. Certain figures included in this Base Prospectus have been subject to rounding adjustments; accordingly, figures shown for the same category presented in different tables may vary slightly and figures shown as totals in certain tables may not be an arithmetic aggregation of the figures which precede them.

Each potential investor in the Notes must determine the suitability of that investment in light of its own circumstances. In particular, each potential investor should:

- (i) have sufficient knowledge and experience to make a meaningful evaluation of the Notes, the merits and risks of investing in the Notes and the information contained or incorporated by reference in this Base Prospectus or any applicable supplement;
- (ii) have access to, and knowledge of, appropriate analytical tools to evaluate, in the context of its particular financial situation, an investment in the Notes and the impact the Notes will have on its overall investment portfolio;
- (iii) have sufficient financial resources and liquidity to bear all of the risks of an investment in the Notes, including where the currency for principal or interest payments is different from the potential investor's currency;
- (iv) understand thoroughly the terms of the Notes and be familiar with the behaviour of any relevant financial markets; and
- (v) be able to evaluate (either alone or with the help of a financial adviser) possible scenarios for economic, interest rate and other factors that may affect its investment and its ability to bear the applicable risks.

MARKET AND INDUSTRY INFORMATION

This Base Prospectus includes and refers to industry and market data derived from or based upon a variety of official, non-official and internal sources, such as internal surveys and management estimates, market research, publicly available information and industry publications.

Market share, ranking and other data contained in this Base Prospectus may also be based on the Group's good faith estimates, the Group's own knowledge and experience and such other sources as may be available. Industry publications and surveys and forecasts generally state that the information contained therein has been obtained from sources believed to be reliable, but there can be no assurance as to the accuracy or completeness of included information. The information in this Base Prospectus that has been sourced from third parties has been accurately reproduced and, as far as the Issuer is aware and has been able to ascertain from information published by such third parties, no facts have been omitted that would render the reproduced information inaccurate or misleading. None of the Issuer or the Dealers makes any representation as to the accuracy or completeness of any such third party information in this Base Prospectus. Although the Issuer believes that this information is reliable, the Issuer has not independently verified the data from third party sources.

FORWARD-LOOKING STATEMENTS

This Base Prospectus contains certain forward-looking statements with respect to the financial condition, results of operations and business of the Group and certain of the plans and objectives of the Group with respect to these items. Examples of forward-looking statements include statements made about the Group's strategy, estimates of sales growth, future Adjusted EBITA, future restructuring and acquisition-related charges and other costs, future developments in the Group's organic business and the completion of acquisitions and divestments. Forward-looking statements can be identified generally as those containing words such as "anticipates", "assumes", "believes", "estimates", "expects", "should", "will", "will likely result", "forecast", "outlook", "projects", "may" or similar expressions. By their nature, these statements involve risk and uncertainty because they relate to future events and circumstances and there are many factors that could cause actual results and developments to differ materially from those expressed or implied by these statements.

These factors include but are not limited to: changes in industry or market circumstances; economic and political developments; the Group's increasing focus on health technology; the realization of the Group's growth ambitions and results in growth geographies; lack of control over certain joint ventures; integration of acquisitions; securing and maintaining the Group's intellectual property rights and unauthorized use of third-party intellectual property rights; compliance with quality standards, product safety laws and good manufacturing practices; exposure to IT security breaches, IT disruptions, system changes or failures; supply chain management; ability to create new products and solutions; attracting and retaining personnel; financial impacts from Brexit; compliance with regulatory regimes, including data privacy requirements; governmental investigations and legal proceedings with regard to possible anticompetitive market practices and other matters; business conduct rules and regulations; treasury risks and other financial risks; tax risks; costs of defined-benefit pension plans and other post-retirement plans; reliability of internal controls, financial reporting and management process. As a result, the Group's actual future results may differ materially from the plans, goals and expectations set forth in such forward-looking statements.

Due to such uncertainties and risks, investors are cautioned not to place undue reliance on these forward-looking statements, which speak only as at the date of this Base Prospectus. Investors are urged to read the sections of this Base Prospectus entitled "*Risk Factors*" and "*Description of the Issuer and the Group*" for a more detailed discussion of the factors that could affect future performance and the industry in which the Group operates. In light of these risks, uncertainties and assumptions, the forward-looking events described in this Base Prospectus may not occur. Moreover, the Group operates in a competitive and rapidly changing environment. New risks may be faced from time to time, and it is not possible to predict all such risks; nor can the impact of all such risks on the Group's business be assessed or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statement. Given these risks and uncertainties, investors should not place undue reliance on forward-looking statements as a prediction of actual results.

The forward-looking statements are based on plans, estimates and projections as they are currently available to management. The Issuer undertakes no obligation, and does not expect, to publicly update or publicly revise any forward-looking statement, whether as a result of new information, future events or otherwise, save as required by applicable law or regulation. Although the Issuer believes that the expectations reflected in such forward-looking statements are reasonable, it can give no assurance that such expectations will prove to be correct. All subsequent written and oral forward-looking statements attributable to the Issuer or to persons acting on its behalf are expressly qualified in their entirety by the cautionary statements referred to above and contained elsewhere in this Base Prospectus.

Where a Tranche of Notes is rated, such rating will not necessarily be the same as the rating(s) described below or the rating(s) assigned to Notes already issued. Where a Tranche of Notes is rated, the applicable rating(s) will be specified in the relevant Final Terms. Whether or not each credit rating applied for in relation to a relevant Tranche of Notes will be (1) issued by a credit rating agency established in the EEA or in the UK and registered under the CRA Regulation, or (2) issued by a credit rating agency which is not established in the EEA or in the UK but will be endorsed by a CRA which is established in the EEA or in the UK and registered under the CRA Regulation or (3) issued by a credit rating agency which is not established in the EEA or in the UK but which is certified under the CRA Regulation will be disclosed in the Final Terms. In general, European regulated investors are restricted from using a rating for regulatory purposes if such rating is not issued by a credit rating agency established in the EEA or in the UK and registered under the

CRA Regulation unless (1) the rating is provided by a credit rating agency not established in the EEA or in the UK but is endorsed by a credit rating agency established in the EEA or in the UK and registered under the CRA Regulation or (2) the rating is provided by a credit rating agency not established in the EEA or in the UK which is certified under the CRA Regulation.

The Issuer's existing long-term debt is rated Baa1 (with stable outlook) by Moody's, A- (with stable outlook) by Fitch and BBB+ (with stable outlook) by S&P. The Notes are expected to be rated Baa1 by Moody's and A- by Fitch. Each of Moody's, S&P and Fitch are established in the EU or in the UK and are registered under the CRA Regulation).

Selling Restrictions:

There are restrictions on the sale of Notes and the distribution of offering material in the United States, the EEA, the United Kingdom, and the Netherlands. See "*Subscription and Sale*" below.

Enforcement of Notes:

The Notes have the benefit of a Trust Deed (as defined above). No Noteholder may proceed directly against the Issuer unless the Trustee, having become bound to do so, fails to do within a reasonable time and such failure is continuing. See "*Terms and Conditions*" below.

RISK FACTORS

Any investment in the Notes is subject to a number of risks. Prior to investing in the Notes, prospective investors should carefully consider risk factors associated with any investment in the Notes, the business of the Issuer and the Group and the industries in which they operate together with all other information contained in this Base Prospectus, including, in particular the risk factors described below.

The Issuer believes that the factors described below may affect its ability to fulfil its obligations under the Notes. All of these factors are contingencies which may or may not occur and the Issuer is not in a position to express a view on the likelihood of any such contingency occurring. The Issuer believes that the factors described below represent the principal risks inherent in investing in the Notes, but additional risks and uncertainties relating to the Issuer that are not currently known to the Issuer or that it currently deems immaterial, may individually or cumulatively also have a material adverse effect on the business, prospects, results of operations and/or financial position of the Issuer and, if any such risk should occur, the price of the Notes may decline and investors could lose all or part of their investment. Investors should consider carefully whether an investment in the Notes is suitable for them in light of the information in this Base Prospectus and their personal circumstances.

Words and expressions defined in “Terms and Conditions of the Notes” shall have the same meanings in these risk factors.

Factors which may affect the Issuer’s ability to fulfil its obligations under the Notes

Strategic risks

The Group may be unable to adapt swiftly to changes in industry or market circumstances.

Fundamental shifts in the health technology industry, such as the transition to digital and increased emphasis on sustainability, may drastically change the business environment in which the Group operates. The inability of the Group to recognise these changes in good time, adjust its business models, or introduce new products and services in response to these changes or other circumstances such as pricing actions by competitors, could result in a material adverse effect on the Group’s business, financial condition and operating results.

The Group’s global operations are exposed to economic and political changes that could adversely impact its financial condition and results.

The Group’s business environment is influenced by political and economic conditions in individual and global markets. Mature economies are currently the main source of revenues, while emerging economies are an increasing source of revenues. The Group sources its products and services mainly from the US, EU (primarily the Netherlands) and China and the majority of the Group’s assets are located in these geographies. In particular, the Group expects that disruption due to coronavirus (COVID-19) in China and elsewhere will have a negative impact on its results of operations and on supply chains involving the relevant jurisdictions.

Changes in monetary policy and trade and tax laws in the US, China and EU can have a significant adverse impact on other mature economies, emerging economies and international financial markets. Such changes, including tariffs and sanctions, may trigger reactions and countermeasures, leading to adverse impacts on global trade levels and flows, economic growth and political stability, all of which may have an adverse effect on business growth and stability on international financial markets. Furthermore it is uncertain whether the Group will be able to pass on any additional costs resulting from these events to its customers.

The changes (and the potential impacts of such changes) which are described above, or other factors which may impact economic conditions relevant to the Group, including US, Chinese and EU macro-economic outlook, foreign policy, monetary policy, healthcare budget, trade and tax laws, measures adopted with respect to sustainability and climate change, and the impact of local or global health events, are difficult to predict. The Group may encounter difficulty in planning and managing operations due to a lack of adequate infrastructure, foreign currency fluctuations, import or export controls, increased healthcare regulation, nationalisation of assets or restrictions on the repatriation of returns

from foreign investments. Economic and political uncertainty may have a material adverse impact on the Group's business, financial condition and operating results and can also make it more difficult for the Group to budget and make financial forecasts accurately. Instability and volatility in international financial markets could have a negative impact on the Group's access to funding. Uncertainty remains as to the levels of (public) capital expenditure in general, unemployment levels, and consumer and business confidence, all of which could adversely affect demand for products and services offered by the Group.

Given that growth in emerging economies is broadly correlated to US, Chinese and EU economic growth and that such emerging economies are increasingly important to the Group's business operations, the above-mentioned risks are also expected to grow and could have an increasingly material adverse effect on the Group's financial condition and results.

The Group's overall risk profile is changing as a result of its focus on health technology.

As the Group's business profile shifts to focus on health technology, with a changing products and services portfolio and acquisitions, dispositions and partnerships to support the execution of its health technology strategy, the Group is more exposed to developments in the health technology industry. It may therefore have a reduced ability to offset potential negative impacts of those developments through a more diversified portfolio. As the Group transitions from selling health technology products to selling health technology solutions, the nature of its customer relations is also evolving, which raises the long-term risk of (amongst others) customer default and dependency. Dispositions consistent with the Group's focus on health technology, including in relation to the Group's domestic appliances business, may result in additional costs and divert management attention from other business priorities and risks, and the timing, terms execution and proceeds of any such dispositions are uncertain.

The Group's overall performance in the coming years is expected to depend on the realisation of its growth ambitions and results in growth geographies.

Growth geographies are becoming increasingly important to the Group's business plan, and Asia is an important production, sourcing and design centre for the Group. The Group faces intense competition from local companies as well as other global players for market share in growth geographies. The Group needs to maintain and grow its position in growth geographies, invest in data-driven services, invest in local talent, understand developments in end-user preferences, and localise its portfolio in order to stay competitive in these growth geographies. If the Group fails to achieve these objectives, it could have a material adverse effect on the Group's business, financial condition and operating results.

The Group may not control joint ventures or associated companies in which it holds interests or invests, which could limit the ability of the Group to identify and manage risks.

The Group may from time to time hold interests and investments in joint ventures and associated companies in which it has a non-controlling interest and may continue to do so. In these cases, the Group has limited influence over, and limited or no control of, the governance, performance and cost of operations of the joint ventures and associated companies. Some of these joint ventures and associated companies may represent significant investments and potentially also use the Group's brand. The joint ventures and associated companies that the Group does not control may make business, financial or investment decisions contrary to the Group's interests or may make decisions different from those that the Group itself may have made. Additionally, the Group's partners or members of a particular joint venture or associated company may not be able to meet their financial or other obligations, which could expose the Group to additional financial or other obligations, as well as having a material adverse effect on the value of its investments in those entities or potentially subjecting the Group to additional claims.

Acquisitions could expose the Group to integration risks which may negatively impact the Group's return on investment.

Selected acquisitions have been and are expected to be a part of the Group's growth strategy. Acquisitions may expose the Group to integration risks in areas such as sales and service force integration, logistics, regulatory compliance, information technology and finance. Integration difficulties and complexity may adversely impact the realisation of

increased contributions from acquisitions. The Group may incur significant acquisition, administrative and other costs in connection with these transactions, including costs related to the integration of acquired businesses. Acquisitions may also divert management attention from other business priorities and risks. Cost savings expected to be implemented following an acquisition may be difficult to achieve. Acquisitions may also lead to a substantial increase in long-lived assets, including goodwill, which may later be subject to write-down if an acquired business does not perform as expected, which may have a material adverse effect on the Group's earnings.

The Group may be unable to secure and maintain intellectual property rights for its products and services, or may use intellectual property rights without authorisation, which could have a material adverse effect on its results.

The Group is dependent on its ability to obtain and maintain licences and other intellectual property ("IP") rights covering its products and services and its design and manufacturing processes. The IP portfolio is the result of an extensive patenting process that could be influenced by a number of factors, including innovation. The value of the IP portfolio is dependent on the successful promotion and market acceptance of standards developed or co-developed by the Group. This is particularly applicable to the segment Other, where licences from the Group to third parties generate IP royalties and are important to the Group's results of operations. The timing of licences from the Group to third parties and associated revenues from IP royalties are uncertain and may vary significantly from period to period. A loss or impairment in connection with such licences to third parties could have a material adverse impact on the Group's financial condition and operating results. The Group is also exposed to the risk that a third party may claim to own the IP rights to technology applied in the Group's products and services. In the event that any such claims of infringement of these IP rights are successful, the Group may be required to pay damages to such third parties, or may incur other costs or losses.

Operational risks

Failure to comply with quality standards, product safety laws and good manufacturing practices may result in product liability claims against the Group and an adverse impact on the Group's reputation and brand.

The Group operates in a highly regulated product safety and quality environment and is required to comply with the highest standards of quality in the manufacture of its medical devices and in the provision of related services. The Group's brand image and reputation would be adversely impacted by non-compliance with various product safety laws, good manufacturing practices and data protection regulations. The Group is also exposed to the risk that its products, including components or materials procured from suppliers, may prove not to be compliant with safety laws, for example, chemical safety regulations. Such non-compliance could result in a ban on the sale or use of these products. In addition, quality issues and/or liability claims related to products and services could affect the Group's reputation and its relationships with key customers (both customers for end-products and customers that use the Group's products and services in their business processes) and demand for the Group's products. As a result, depending on the product and manufacturing site concerned and the severity of the quality issue, the Group may suffer financial losses through lost revenue and the cost of any required remedial actions or damages claims, and such quality issues could have further impact on the Group's reputation, market share and brand.

A breach in the security of, or a significant disruption to, the Group's information technology systems or could adversely affect the Group's operating results, financial condition, reputation and brand.

The Group relies on information technology to operate and manage its businesses and store confidential data (relating to employees, customers, IP, suppliers and other partners). In addition, the integration of new acquisitions and the successful outsourcing of business processes are highly dependent on secure and well-controlled IT systems. The Group's products, solutions and services increasingly contain sophisticated and complex information technology and generate confidential data related to customers and patients. Potential geopolitical conflicts and criminal activity continue to drive increases in the number and severity of cyber-attacks in general. Like many other multinational companies, the Group is therefore inherently and increasingly exposed to the risk of cyber-attacks. Information systems may be damaged, disrupted (including the provision of services to customers) or shut down due to (cyber) attacks by hackers, computer viruses or other malware. In addition, breaches in the security of the Group's systems (or the systems of the Group's customers, suppliers or other business partners) could result in the misappropriation, destruction or unauthorised disclosure of confidential information (including IP) or personal data belonging to the Group or to its employees, partners, customers or suppliers. The aforementioned risks are particularly significant with

respect to patient medical records. Successful cyber-attacks may result in substantial costs and other negative consequences, which may include, but are not limited to, lost revenues, reputational damage, remediation costs, and other liabilities to regulators, customers and partners and may involve incurrence of civil and/or criminal penalties.

Furthermore, enhanced protection measures can involve significant costs. While cyber-attacks have not historically resulted in significant damage, or caused the Group to incur significant monetary cost in taking corrective action, there can be no assurance that future cyber-attack incidents will not result in significant damage to the Group's systems, or result in financial losses, penalties or the other consequences described above.

The Group is exposed to risks in connection with IT system changes or failures.

The Group continuously seeks to create a more open, standardised and cost-effective IT landscape, for instance through further outsourcing, offshoring, commoditisation and ongoing reduction in the number of IT systems. These changes create third-party risk with regard to the delivery of IT services, the availability of IT systems, and the scope and nature of the functionality offered by IT systems. Although the Group has sought to strengthen security measures and quality controls relating to these systems, these measures may prove to be insufficient or unsuccessful.

If the Group is unable to ensure effective supply chain management it may be faced, for example, with interruptions or rising raw material prices, which could negatively impact its competitiveness in its markets.

The Group is continuing the process of creating a leaner supply base with fewer suppliers, while maintaining dual/multiple sourcing strategies where feasible. This strategy requires close cooperation with suppliers to enhance, among other things, time to market and quality. In addition, the Group is continuing its initiatives to replace internal capabilities with less costly outsourced products and services. These processes may result in increased dependency on external suppliers and providers. Although the Group works closely with its suppliers to avoid supply-related problems, there can be no assurance that it will not encounter supply problems in the future or that it will be able to replace a supplier that is not able to meet demand sufficiently quickly to avoid disruptions.

Shortages or delays could materially harm the Group's business. Most of the Group's activities are conducted outside of the Netherlands, and international operations bring challenges. For example, the Group depends partly on the production and procurement of products and parts from Asian countries, this dependence constitutes a risk that production and shipping of products and parts could be interrupted by regional conflicts, health events such as coronavirus (COVID-19), a natural disaster or extreme weather events resulting from climate change. A general shortage of materials, components or subcomponents as a result of conflicts, health events, natural disasters or weather events or other unanticipated events also pose the risk of fluctuations in prices and demand, which could have a material adverse effect on the Group's financial condition and operating results.

The Group purchases raw materials, including so-called rare earth metals, copper, steel, aluminium, noble gases and oil-related products, which exposes it to fluctuations in energy and raw material prices. In recent times, commodities have been subject to volatile markets, and such volatility is expected to continue. If the Group is not able to compensate for increased costs of raw materials, reduce reliance on such raw materials or pass on increased costs to customers, then price increases could have a material adverse impact on the Group's results. In contrast, in times of falling commodity prices, the Group may not fully benefit from such price decreases, since the Group attempts to reduce the risk of rising commodity prices by several means, including long-term contracting or physical and financial hedging.

Failure to drive operational excellence, productivity and speed in the Group's process for bringing product and solution innovations to market could hamper the Group's profitable growth ambitions.

To realise the Group's ambitions for profitable growth, it is important that the Group makes further improvements in its product and solution creation process, ensuring timely delivery of new products and solutions at lower cost, and in customer service levels, to gain sustainable competitive advantage. The emergence of new low-cost competitors, particularly in Asia, further underlines the importance of improvements in the product creation process. The success of new product and solution creation, however, depends on a number of factors, including timely and successful completion of development efforts, market acceptance, the Group's ability to manage the risks associated with new products and production ramp-up issues, the ability of the Group to attract and retain employees with the appropriate

skills, the availability of products in the right quantities and at appropriate costs to meet anticipated demand, and the risk that new products and services may have quality or other defects in the early stages of introduction. Costs of developing new products and solutions may be reflected on the Group's balance sheet and may be subject to write-down or impairment as a result of the performance of such products or services, and the significance and timing of such write-downs or impairments are uncertain. Accordingly, the Group cannot determine in advance the ultimate effect that new product and solutions creations will have on its financial condition and operating results. If the Group fails to create and commercialise products, or fails to ensure that end-user insights are translated into solution and product creations that improve product mix and consequently contribution, it may lose market share and competitiveness, which could have a material adverse effect on its financial condition and operating results.

Because the Group is dependent on its people for leadership and specialised skills, a loss of its ability to attract and retain such personnel would have an adverse effect on its business.

The attraction and retention of talented employees in sales and marketing, research and development, finance, and general management, as well as highly specialised technical personnel, especially in transferring technologies to low-cost countries, is critical to the Group's success. The loss of employees with specialised skills could also result in business interruptions. There can be no assurance that the Group will be successful in attracting and retaining highly qualified employees and the key personnel needed in the future.

Brexit could have an adverse effect on the Group's operations.

The Group sells products and services and currently has manufacturing operations in the United Kingdom. Depending on the outcome of Brexit (including future trade arrangements between the UK and the EU or other countries) and the transitional period following Brexit, which are currently uncertain, the potential financial impact ranges from adverse movements of the pound sterling versus the euro and the US dollar to supply chain disruptions due to the re-introduction of customs controls and the imposition of new tariffs on imports or exports to and from the UK. The Group has been preparing and planning for the impact of Brexit and future trade arrangements, however unsuccessful negotiations or unexpected outcomes with respect to the transitional period or future trade arrangements may have a material adverse effect on the Group's financial condition and operating results.

Compliance risks

The Group is exposed to non-compliance with the various regulatory regimes its products and services are subject to, including data privacy requirements.

The Group's products and services are subject to regulation (for example, EU Medical Devices Regulation) by various government and regulatory agencies (for example, FDA (US), NMPA (China), MHRA (UK), ANSM (France), BfArM (Germany), and IGZ (the Netherlands)) that may have different regulatory requirements and related processes. Obtaining regulatory approvals is costly and time-consuming, but is required for introducing products in the market. The Group's increased focus on the healthcare sector increases its exposure to such highly regulated markets, where obtaining clearances or approvals for new products is of great importance. A delay or inability to obtain the necessary regulatory approvals for new products could have a material adverse effect on the Group's business. In addition, conditions imposed by regulatory authorities could result in product recalls or a temporary ban on products and/or stoppages at production facilities, or increased implementation costs in the roll-out of products and services or claims for damages. The risk also exists that product safety incidents or user concerns, as in the past, could trigger business reviews by the FDA or other regulatory agencies: if failed, these reviews could lead to business interruption, which in turn could adversely affect the Group's financial condition and operating results, as well as the Group's reputation and brand. In light of the Group's digital strategy, including its holding of personal health data and medical data, compliance with data privacy and similar laws is increasingly important to the Group's business and operations. Non-compliance with any applicable laws and regulations, including with respect to product regulation and data privacy, may result in penalties, cost of proceedings and litigation, and repair costs, any of which may have a material adverse effect on the Group's financial condition and results of operations.

The Group is exposed to governmental investigations and legal proceedings with regard to possible anti-competitive market practices and other matters.

The Group, including a certain number of its current and former group companies, is involved in legal proceedings relating to such matters as competition issues, commercial transactions, product liability, participations and environmental pollution. In particular, EU and various national authorities are focused on possible anti-competitive market practices. The Group's financial position and results could be materially affected by an adverse final outcome of governmental investigations and litigation, as well as any potential related claims. In the past, the Group has been subject to such investigations, litigation and related claims. Since the ultimate outcome of asserted claims and proceedings, or the impact of any claims that may be asserted in the future, cannot be predicted with certainty, the Group's financial position and results of operations could be affected materially by adverse outcomes.

The Group is exposed to non-compliance with business conduct rules and regulations.

The Group's attempts to realise its growth ambitions could expose it to the risk of non-compliance with business conduct rules and regulations, such as anti-bribery provisions. This risk is heightened in growth geographies as the legal and regulatory environment is less developed in growth geographies compared to mature geographies. Examples include commission payments to third parties, remuneration payments to agents, distributors, consultants and the like, and the acceptance of gifts, which may be considered in some markets to be normal local business practice. These risks could adversely affect the Group's financial condition and the Group's reputation and brand.

Financial risks

The Group is exposed to a variety of treasury risks and other financial risks including liquidity risk, currency risk, interest rate risk, commodity price risk, credit risk, country risk and other insurable risk.

Negative developments impacting the liquidity of global capital markets could affect the ability of the Group to raise or refinance debt in the capital markets, or could lead to significant increases in the cost of such borrowing in the future. If the markets expect a downgrade by the rating agencies, or if such a downgrade has actually taken place, this could increase the cost of borrowing, reduce the Group's potential investor base and adversely affect the Group's business.

The Group operates in over 100 countries and its reported earnings and equity are therefore inevitably exposed to fluctuations in exchange rates of foreign currencies against the euro. The Group's sales are sensitive in particular to movements in the US dollar, Japanese yen, Chinese yuan and a wide range of other currencies from developed and emerging economies. The Group's sourcing and manufacturing spend is concentrated in the EU, the United States and China. Income from operations is particularly sensitive to movements in currencies of countries where the Group has no or very small-scale manufacturing/local sourcing activities but significant sales of its products or services, such as Japan, Canada, Australia and the UK and in a range of emerging markets such as Russia, South Korea, Indonesia, India and Brazil.

In view of the long lifecycle of healthcare technology solution sales and partnerships, the financial risk of counterparties with outstanding payment obligations creates exposure risks for the Group, particularly in relation to accounts receivable with customers and liquid assets and fair values of derivatives and insurance receivables contracts with financial counterparties. A default by counterparties in such transactions can have a material adverse effect on the Group's financial condition and operating results. The Group is exposed to interest rate risk, particularly in relation to its long-term debt position; this risk can take the form of either fair value or cash flow risk. Failure to effectively hedge this risk can impact the Group's financial condition and operating results.

The Group is exposed to tax risks which could have a significant adverse financial impact.

The Group is exposed to tax risks which could result in double taxation, penalties and interest payments. The source of the risks could originate from local tax rules and regulations as well as international and EU regulatory frameworks. These include transfer pricing risks on internal cross-border deliveries of goods and services, tax risks related to acquisitions and divestments, tax risks related to permanent establishments, tax risks relating to tax loss, interest and

tax credits carried forward and potential changes in tax law that could result in higher tax expenses and payments. The risks may have a significant impact on local financial tax results, which, in turn, could adversely affect the Group's financial condition and operating results.

The value of the deferred tax assets, such as tax losses carried forward, is subject to the availability of sufficient taxable income within the tax loss-carry-forward period, but also to the availability of sufficient taxable income within the foreseeable future in the case of tax losses carried forward with an indefinite carry-forward period. The ultimate realisation of the Group's deferred tax assets, including tax losses and tax credits carried forward, depends on the generation of future taxable income in the countries where the temporary differences, unused tax losses and unused tax credits were incurred, and on periods during which the deferred tax assets become deductible. Additionally, in certain instances, realisation of such deferred tax assets depends on the successful execution of tax planning strategies. Accordingly, there can be no absolute assurance that all deferred tax assets, such as (net) tax losses and credits carried forward, will be realised.

The Group has defined-benefit pension plans and other post-retirement plans in a number of countries. The funded status and maintenance cost of these plans are influenced by movements in financial markets and demographic developments, which may result in volatility in the Group's financials.

A significant proportion of (former) employees in Europe and North and Latin America are covered by defined-benefit pension plans and other post-retirement plans. The accounting for such plans requires management to make estimates on assumptions such as discount rates, inflation, longevity, expected cost of medical care and expected rates of compensation. Changes in these assumptions (for example, due to movements in financial markets) can have a significant impact on the defined benefit obligation and net interest cost.

Flaws in internal controls would adversely affect the Group's financial reporting and management process.

Accurate disclosures provide investors and other market professionals with significant information for a better understanding of the Group's businesses. Failures in internal controls or other issues with respect to the Group's public disclosures, including disclosures with respect to cybersecurity risks and incidents, could create market uncertainty regarding the reliability of the data (including financial data) presented and could have a negative impact on the price of the Group's securities. In addition, the reliability of revenue and expenditure data is key for steering the businesses and for managing top-line and bottom-line growth. The long lifecycle of healthcare technology solution sales, from order acceptance to accepted installation and servicing, together with the complexity of the accounting rules for when revenue can be recognised in the accounts, presents a challenge in terms of ensuring consistent and correct application of the accounting rules throughout the Group's global business. Any flaws in internal controls, or regulatory or investor actions in connection with flaws in internal controls, could adversely affect the Group's financial condition, results of operation, reputation and brand.

Factors which are material for the purpose of assessing the risks associated with the Notes

Risks related to the structure of a particular issue of Notes

A range of Notes may be issued under the Programme. A number of these Notes may have features which contain particular risks for potential investors. Set out below is a description of the most common such features:

The Notes are subject to interest rate risks

Investment in any Fixed Rate Notes, which bear a fixed rate of interest, involves the risk that if market interest rates subsequently increase above the rate paid on any Fixed Rate Notes, this will adversely affect the value of any Fixed Rate Notes. While the nominal interest rate of a security with a fixed interest rate is fixed during the life of such security or during a certain period of time, market interest rates typically change on a daily basis. As market interest rates change, the price of such security typically changes in the opposite direction. If market interest rates increase, the price of such security typically falls, until the yield of such security is approximately equal to the prevailing market interest rate. Conversely, if market interest rates fall, the price of a security with a fixed interest rate typically increases,

until the yield of such security is approximately equal to the prevailing market interest rate. Investors should be aware that the market price of any Fixed Rate Notes may vary as a result of movements in market interest rates.

Similarly, investment in any Floating Rate Notes involves the risk that subsequent changes in market interest rates may adversely affect the value of any Floating Rate Notes. A key difference between the Floating Rate Notes and any Fixed Rate Notes is that interest income on any Floating Rate Notes cannot be anticipated. Due to varying interest income, investors are not able to determine a definite yield of any Floating Rate Notes at the time they purchase them, so their return on investment cannot be compared with that of investments having longer fixed interest periods.

The Notes may be redeemed prior to maturity

The relevant Final Terms of any particular Tranche of Notes may specify that the Notes contain an optional redemption feature, as set out in Condition 7.3 (*Redemption at the option of the Issuer*) of the Notes. An optional redemption feature of Notes is likely to limit their market value. During any period when the Issuer may elect to redeem the Notes, the market value of such Notes generally will not rise substantially above the price at which they can be redeemed. This also may be true prior to any redemption period.

The Issuer may be expected to redeem the Notes when its cost of borrowing is lower than the interest rate on the Notes. At those times, an investor generally would not be able to reinvest the redemption proceeds at an effective interest rate as high as the interest rate on the Notes being redeemed and may only be able to do so at a significantly lower rate.

In addition, in the event that the Issuer would be obliged to increase the amounts payable in respect of any Notes due to any withholding or deduction for, or on account of, any present or future taxes, duties, assessments or governmental charges of whatsoever nature imposed, levied, collected, withheld or assessed by or on behalf of the Netherlands or any political subdivision thereof or any authority therein or thereof having power to tax, the Issuer may redeem all outstanding Notes in accordance with the Notes.

If the Issuer calls and redeems Notes in the circumstances mentioned above, the Noteholders may not be able to reinvest the redemption proceeds in securities offering a comparable yield. Potential investors should consider reinvestment risk in light of other investments available at that time.

The regulation and reform of “benchmarks” may adversely affect the value of Notes linked to or referencing such “benchmarks”

Interest rate, equity, commodity, foreign exchange rate and other types of indices which are deemed to be “benchmarks” (including EURIBOR and LIBOR) are the subject of recent national, international and other regulatory guidance and proposals for reform. Some of these reforms are already effective whilst others are still to be implemented. These reforms may cause such “benchmarks” to perform differently than in the past, or to disappear entirely, or have other consequences which cannot be predicted. Any such consequence could have a material adverse effect on any Floating Rate Notes.

For example, the Benchmark Regulation applies to “contributors”, “administrators” and “users” of “benchmarks” in the EU and in the UK, and will, among other things, require benchmark administrators to be authorised (or, if not - based in the EU or in the UK, to have satisfied certain “equivalence” conditions in its local jurisdiction, to be “recognised” by the authorities of a Member State of the EU or of the UK pending an equivalence decision or to be “endorsed” for such purpose by an administrator authorised or registered in the EU or in the UK, following authorisation of such endorsement by the relevant competent authority) and to comply with requirements in relation to the administration of “benchmarks”. The scope of the Benchmark Regulation is wide and, in addition to so-called “critical benchmark” indices such as EURIBOR and LIBOR, it will apply to many other interest rate indices, as well as equity, commodity and foreign exchange rate indices and other indices (including “proprietary” indices or strategies) which are referenced in certain financial instruments, certain financial contracts and investment funds.

The Benchmark Regulation could have a material impact on any Floating Rate Notes, including in any of the following circumstances:

- a rate which is a “benchmark” could not be used as such if its administrator does not obtain authorisation or is based in a jurisdiction outside of the EU or the UK which (subject to applicable transitional provisions) does not satisfy the “equivalence” conditions, is not “recognised” pending such a decision and is not “endorsed” for such purpose. In such event, any Floating Rate Notes could be de-listed, adjusted, redeemed prior to maturity or otherwise impacted; and
- the methodology or other terms of the “benchmark” could be changed in order to comply with the terms of the Benchmark Regulation, and such changes could have the effect of reducing or increasing the rate or level or affecting the volatility of the published rate or level, and could lead to adjustments to the terms of any Floating Rate Notes, including the Principal Paying Agent’s determination of the rate or level in its discretion.

The Benchmark Regulation and any of the international, national or other proposals for reform or the general increased regulatory scrutiny of “benchmarks” could increase the costs and risks of administering or otherwise participating in the setting of a “benchmark” and complying with any such regulations or requirements. Such factors may have the effect of discouraging market participants from continuing to administer or contribute to certain “benchmarks”, trigger changes in the rules or methodologies used in certain “benchmarks” or lead to the disappearance of certain “benchmarks”. The disappearance of a “benchmark” or changes in the manner of administration of a “benchmark” could result in adjustment to the terms and conditions, early redemption, discretionary valuation by the Principal Paying Agent, delisting or other consequence in relation to any Floating Rate Notes. Any such consequence could have a material adverse effect on the value of and return on any Floating Rate Notes.

Future discontinuance of certain “benchmark” rates (such as LIBOR or EURIBOR) may adversely affect the value of Floating Rate Notes which are linked to or reference such “benchmarks”

On 27 July 2017, the Chief Executive of the UK Financial Conduct Authority (“FCA”), which regulates LIBOR, announced that it does not intend to continue to persuade, or use its powers to compel, panel banks to submit rates for the calculation of LIBOR to the administrator of LIBOR after 2021. Further, on 12 July 2018, the FCA announced that LIBOR may cease to be a regulated benchmark under the Benchmark Regulation. These announcements indicate that the continuation of LIBOR on the current basis is not guaranteed after 2021 and that steps are being taken to transition from LIBOR to alternative interest rate benchmarks. It is not possible to predict whether, and to what extent, panel banks will continue to provide LIBOR submissions to the administrator of LIBOR going forwards. This may cause LIBOR to perform differently than it did in the past and may have other consequences which cannot be predicted.

Investors should be aware that, if LIBOR or any other benchmark (including EURIBOR) were discontinued or otherwise unavailable, the rate of interest on Floating Rate Notes which reference LIBOR or any other such benchmark will be determined for the relevant period by the fall-back provisions applicable to such Notes. Depending on the manner in which the LIBOR rate is to be determined under the Terms and Conditions, this may: (i) if ISDA Determination applies, be reliant upon the provision by reference banks of offered quotations for the LIBOR rate which, depending on market circumstances, may not be available at the relevant time; or (ii) if Screen Rate Determination applies, result in the effective application of a fixed rate based on the rate which applied in the previous period when LIBOR was available. Any of the foregoing could have an adverse effect on the value or liquidity of, and return on, any Floating Rate Notes which reference LIBOR

The above mentioned risks relating to LIBOR may also impact EURIBOR in future. Investors in Floating Rate Notes which reference EURIBOR should be mindful of the applicable fall-back provisions in respect of such Notes and the adverse effect this may have on the value or liquidity of, and return on, any Floating Rate Notes which reference EURIBOR.

If a Benchmark Event (as defined in Condition 5.2(j) (*Benchmark Discontinuation*)) (which, amongst other events, includes the permanent discontinuation of an Original Reference Rate (as defined in Condition 5.2(j) (*Benchmark Discontinuation*))) occurs, the Issuer shall use its reasonable endeavours to appoint an Independent Adviser (as defined in Condition 5.2(j) (*Benchmark Discontinuation*)), to determine a Successor Rate or Alternative Rate and an Adjustment Spread (if any) (as defined in Condition 5.2(j) (*Benchmark Discontinuation*)) to be used in place of the Original Reference Rate. The use of any such Successor Rate or Alternative Rate and an Adjustment Spread (if any)

to determine the Rate of Interest will result in Notes linked to or referencing the Original Reference Rate performing differently (which may include payment of a lower Rate of Interest) than they would do if the Original Reference Rate were to continue to apply in its current form.

Furthermore, if a Successor Rate or Alternative Rate and an Adjustment Spread (if any) for the Original Reference Rate is determined by the Independent Adviser, the terms and conditions of the Notes provide that the Issuer may vary the terms and conditions of the Notes, as necessary to ensure the proper operation of such Successor Rate or Alternative Rate and an Adjustment Spread (if any), without any requirement for consent or approval of the Noteholders.

If a Successor Rate or Alternative Rate is determined by the Independent Adviser, the terms and conditions of the Notes also provide that an Adjustment Spread (as defined in Condition 5.2(j) (*Benchmark Discontinuation*)) may be determined by the Independent Adviser and applied to such Successor Rate or Alternative Rate. The aim of the Adjustment Spread is to reduce or eliminate, to the extent reasonably practicable, any economic prejudice or benefit (as the case may be) to Noteholders and Couponholders as a result of the replacement of the Original Reference Rate with the Successor Rate or the Alternative Rate. However, it may not be possible to determine or apply an Adjustment Spread and even if an Adjustment Spread is applied, such Adjustment Spread may not be effective to reduce or eliminate economic prejudice to Noteholders and Couponholders. If no Adjustment Spread can be determined, a Successor Rate or Alternative Rate may nonetheless be used to determine the Rate of Interest. The use of any Successor Rate or Alternative Rate (including with the application of an Adjustment Spread) will still result in Notes linked to or referencing the Original Reference Rate performing differently (which may include payment of a lower Rate of Interest) than they would if the Original Reference Rate were to continue to apply in its current form.

The Issuer may be unable to appoint an Independent Adviser or the Independent Adviser may not be able to determine a Successor Rate or Alternative Rate in accordance with the Terms and Conditions of the Notes

Where the Issuer is unable to appoint an Independent Adviser in a timely manner, or the Independent Adviser is unable to determine a Successor Rate or Alternative Rate before the next Interest Determination Date (as specified in the applicable Final Terms), the Rate of Interest for the next succeeding Interest Period will be the Rate of Interest applicable as at the last preceding Interest Determination Date before the occurrence of the Benchmark Event, or, where the Benchmark Event occurs before the first Interest Determination Date, the Rate of Interest will be the initial Rate of Interest. Applying the initial Rate of Interest, or the Rate of Interest applicable as at the last preceding Interest Determination Date before the occurrence of the Benchmark Event, will result in Notes linked to or referencing the relevant benchmark performing differently (which may include payment of a lower Rate of Interest) than they would do if the Original Reference Rate were to continue to apply, or if a Successor Rate or Alternative Rate could be determined.

If the Issuer is unable to appoint an Independent Adviser, or the Independent Adviser fails to determine a Successor Rate or Alternative Rate for the life of the relevant Notes, the initial Rate of Interest, or the Rate of Interest applicable as at the last preceding Interest Determination Date before the occurrence of the Benchmark Event, will continue to apply to maturity. This will result in any Floating Rate Notes, in effect, becoming fixed rate Notes.

The Notes may not be a suitable investment for all investors seeking exposure to green assets

The applicable Final Terms may provide that the Issuer will use an amount equal to the net proceeds of the offer (as at the date of issuance of such Notes) to allocate an equivalent amount of funding specifically to “**Green Eligible Projects**” (as defined below, and each such Note a “**Green Bond**”).

If the use of proceeds of the Notes is a factor in a prospective investor's decision to invest in the Notes, they should consider the disclosure in “Use of Proceeds” below and in the applicable Final Terms and consult with their legal or other advisers before making an investment in the Notes and must determine for themselves the relevance of such information for the purpose of any investment in such Green Bond together with any other investigation such investor deems necessary.

In particular no assurance is given by the Issuer or any of the Dealers that the use of such proceeds for any Green Eligible Projects will meet the requirements set out in the Group’s Green and Sustainability Innovation Bond

Framework dated 24 April 2019 (the “**Framework**”), whether in whole or in part, or any present or future investor expectations or requirements as regards any investment criteria or guidelines with which such investor or its investments are required to comply, whether by any present or future applicable law or regulations or by its own articles of association or other governing rules or investment mandates (in particular with regard to any direct or indirect environmental, sustainability or social impact of any projects or uses, the subject of or related to, any of the businesses and projects funded with the proceeds from any particular Green Bond).

Furthermore, it should be noted that there is currently no clearly agreed definition (legal, regulatory or otherwise) of, nor market consensus as to what constitutes, a 'green', 'social' or 'sustainable' or an equivalently-labelled project or as to what precise attributes are required for a particular project to be defined as 'green', 'social', 'sustainable' or such other equivalent label nor can any assurance be given that such a clear definition or consensus will develop over time. Accordingly, no assurance is or can be given to investors that any projects or uses the subject of, or related to, any of the businesses and projects funded with the proceeds from any particular Green Bond will meet any or all investor expectations regarding such 'green', 'social', 'sustainable' or other equivalently-labelled performance objectives or that any adverse environmental, social and/or other impacts will not occur during the implementation of any projects or uses the subject of, or related to, any Green Eligible Projects.

Furthermore, there is no contractual obligation to allocate the proceeds of the Notes to finance eligible businesses and projects as described in “Use of Proceeds” below and/or in the applicable Final Terms. The Issuer's failure to allocate the proceeds of any particular Green Bond to finance a Green Eligible Project, the failure of any of the Green Eligible Projects to meet any or all investor expectations regarding such 'green', 'social', 'sustainable' or other equivalently-labelled performance objectives, or the failure of an independent external review provider with environmental or social expertise to issue a second party opinion on the allocation of the bond proceeds, will not constitute an Event of Default (as defined in Condition 10 (*Events of Default*)) or breach of contract with respect to any particular Green Bond and may affect the value of any particular Green Bond and/or have adverse consequences for certain investors with portfolio mandates to invest in green, social or sustainable assets.

If any particular Green Bond is at any time listed or admitted to trading on the Luxembourg Green Exchange or any other dedicated 'green', 'social' or 'sustainable' or other equivalently-labelled segment of any stock exchange or securities market (whether or not regulated), no representation or assurance is given by the Issuer, the Arranger, any of the Dealers, the Trustee or any other person that such listing or admission satisfies, whether in whole or in part, any present or future investor expectations or requirements as regards any investment criteria or guidelines with which such investor or its investments are required to comply, whether by any present or future applicable law or regulations or by its own articles of association or other governing rules or investment mandates (in particular with regard to any direct or indirect environmental, sustainability or social impact of any projects or uses, the subject of or related to, any of the businesses and projects funded with the proceeds from any particular Green Bond). Furthermore, it should be noted that the criteria for any such listings or admission to trading may vary from one stock exchange or securities market to another. Nor is any representation or assurance given or made by the Issuer, the Arranger, the Trustee, any of the Dealers or any other person that any such listing or admission to trading will be obtained in respect of any particular Green Bond or, if obtained, that any such listing or admission to trading will be maintained during the life of any particular Green Bond.

Risks related to Notes generally

Set out below is a description of material risks relating to the Notes generally:

The Terms and Conditions of the Notes may be modified and/or the Issuer may be substituted

The Terms and Conditions of the Notes contain provisions for calling meetings of the Noteholders to consider matters affecting their interests generally. These provisions permit defined majorities to bind all Noteholders including Noteholders who did not attend and vote at the meeting and Noteholders who voted in a manner contrary to the majority.

The Terms and Conditions of the Notes also provide that the Trustee may, without the consent of the Noteholders, agree to (i) certain modifications of, or to the waiver or authorisation of any breach or proposed breach of, any of the provisions of Notes, the Trust Deed or the Agency Agreement, or (ii) determine without the consent of the Noteholders

that any Event of Default or potential Event of Default shall not be treated as such, in the circumstances described in Condition 14 (*Meetings of Noteholders, Modification, Waiver, Authorisation and Determination, Substitution*) of the Notes.

The Conditions of the Notes also provide for the substitution of another entity in place of the Issuer without the consent of the Noteholders (subject to certain conditions as referred to therein). See Condition 14 (*Meetings of Noteholders, Modification, Waiver, Authorisation and Determination, Substitution*) of the Notes.

The Notes do not restrict the amount of debt which the Issuer may incur

The Terms and Conditions of the Notes do not contain any restriction on the amount of indebtedness which the Issuer and its subsidiaries may from time to time incur. In the event of any insolvency or winding-up of the Issuer, the Notes will rank equally with the Issuer's other unsecured senior indebtedness and, accordingly, any increase in the amount of the Issuer's unsecured senior indebtedness in the future may reduce the amount recoverable by Noteholders. In addition, the Notes are unsecured and, save as provided in Condition 4 (*Negative Pledge*) of the Notes, do not contain any restriction on the giving of security by the Issuer and its subsidiaries over present and future indebtedness. Where security has been granted over assets of the Issuer to secure indebtedness, in the event of any insolvency or winding-up of the Issuer, subject to Condition 4 (*Negative Pledge*) of the Notes, such indebtedness will rank in priority over the Notes and other unsecured indebtedness of the Issuer in respect of such assets. In relation to the assets and indebtedness of the Issuer's subsidiaries, see also "*The Issuer is a holding company*" below.

The Issuer is a holding company

The Issuer is a holding company and the operations of the Group are carried out through its subsidiaries and, to such extent, the Issuer depends on the earnings and cash flows of, and the distribution of funds from, these subsidiaries to meet its debt obligations, including its obligations with respect to the Notes. Generally, creditors of a subsidiary, including trade creditors, secured creditors and creditors holding indebtedness and guarantees issued by the subsidiary, will have a claim over the assets of that subsidiary before any of those assets can be distributed to shareholders upon liquidation or winding up. As a result, the Issuer's obligations in respect of Notes issued under the Programme will, to the extent described above, effectively be subordinated to the prior payment of all the debts and other liabilities of the Issuer's direct and indirect subsidiaries, including the rights of trade creditors, secured creditors and creditors holding indebtedness and guarantees issued by the subsidiaries, all of which could be substantial.

Because the Global Notes are held by or on behalf of Euroclear and Clearstream, Luxembourg, investors will have to rely on their procedures for transfer, payment and communication with the Issuer

Notes issued under the Programme may be represented by one or more Global Notes. If the relevant Final Terms specify that the New Global Note form ("**NGN Form**") is not applicable, such Global Note will be deposited with a common depositary for Euroclear and/or Clearstream, Luxembourg. If the relevant Final Terms specify that the new global note form is applicable, such Global Note will be deposited with a common safekeeper for Euroclear and/or Clearstream, Luxembourg. Except in certain limited circumstances described in the Permanent Global Note, investors will not be entitled to receive Definitive Notes. Euroclear and/or Clearstream, Luxembourg will maintain records of the beneficial interests in the Global Notes and, while the Notes are represented by the Global Notes, investors will be able to trade their beneficial interests only through Euroclear and Clearstream, Luxembourg.

While the Notes are represented by one or more Global Notes, the Issuer will discharge its payment obligations under the Notes by making payments to or to the order of the common depositary (in the case of Global Notes which are not in the NGN form) or, as the case may be, to or to the order of the common safekeeper (in the case of Global Notes in NGN form) for Euroclear and Clearstream, Luxembourg for distribution to their account holders. A holder of a beneficial interest in a Global Note must rely on the procedures of Euroclear and Clearstream, Luxembourg to receive payments under the Notes. The Issuer has no responsibility or liability for the records relating to, or payments made in respect of, beneficial interests in the Global Notes.

Holders of beneficial interests in any Global Notes will not have a direct right to vote in respect of the Notes. Instead, such holders will be permitted to act only to the extent that they are enabled by Euroclear and Clearstream, Luxembourg to appoint appropriate proxies.

No assurance can be given as to the impact of any change of law

The Terms and Conditions of the Notes are based on English law in effect as at the date of this Base Prospectus. No assurance can be given as to the impact of any possible judicial decision or change to English law or administrative practice after the date of this Base Prospectus. In addition, any change in law or regulation of the Netherlands, or any political subdivision or any authority thereof or therein with the power to tax that obliges the Issuer to increase the amount payable in respect of the Notes for withholding or other taxes may entitle the Issuer to redeem the Notes. See “*The Notes may be redeemed prior to maturity*” above.

Denominations involve integral multiples: Definitive Notes

In relation to any issue of Notes which have denominations consisting of a minimum Specified Denomination plus one or more higher integral multiples of another smaller amount, it is possible that the Notes may be traded in amounts in excess of the minimum Specified Denomination that are not integral multiples of such minimum Specified Denomination. In such a case a holder who, as a result of trading such amounts, holds an amount which is less than the minimum Specified Denomination in his account with the relevant clearing system would not be able to sell the remainder of such holding without first purchasing a principal amount of Notes at or in excess of the minimum Specified Denomination such that its holding amounts to a Specified Denomination. Further, a holder who, as a result of trading such amounts, holds an amount which is less than the minimum Specified Denomination in his account with the relevant clearing system at the relevant time may not receive a Definitive Note in respect of such holding (should definitive Notes be printed) and would need to purchase a principal amount of Notes at or in excess of the minimum Specified Denomination such that its holding amounts to a Specified Denomination.

If such Notes in definitive form are issued, holders should be aware that Definitive Notes which have a denomination that is not an integral multiple of the minimum Specified Denomination may be illiquid and difficult to trade.

Legal investment considerations may restrict certain investments

The investment activities of certain investors are subject to legal investment laws and regulations, or review or regulation by certain authorities. Each potential investor should consult its legal advisers to determine whether and to what extent (i) the Notes are legal investments for it, (ii) the Notes can be used as collateral for various types of borrowing, and (iii) other restrictions apply to its purchase or pledge of the Notes. Financial institutions should consult their legal advisors or the appropriate regulators to determine the appropriate treatment of the Notes under any applicable risk-based capital or similar rules.

The Notes may not, or may cease to, satisfy the criteria to be recognised as eligible collateral for the Eurosystem

The Notes may be issued in NGN Form. The NGN Form has been introduced to allow for the possibility of debt instruments being issued and held in a manner which will permit them to be recognised as eligible collateral for monetary policy of the Eurosystem and intra-day credit operations by the Eurosystem upon issue or at any or all times during their existence. However, in any particular case such recognition will depend upon satisfaction of the Eurosystem eligibility criteria at the relevant time and the Notes may not, or may cease to, qualify as eligible collateral for the Eurosystem. Investors should make their own assessment as to whether the Notes meet such Eurosystem eligibility criteria.

Payments under the Notes may become subject to Dutch withholding tax as a result of new Dutch legislation

Under current law, payments on the Notes are not subject to withholding tax in the Netherlands. The Dutch Parliament has, however, adopted the Withholding Tax Act 2021 (*Wet bronbelasting 2021*). This Act stipulates that the Netherlands will levy a withholding tax from the beneficiary of interest if the interest is paid (i) to group entities resident in low-taxed jurisdictions or jurisdictions that are included on the EU list of non-cooperative jurisdictions,

(ii) to (reverse) hybrid group entities, (iii) to group entities in abusive situations, and (iv) to other group entities if such entities attribute that interest to a permanent establishment situated in a low-taxed jurisdiction or a jurisdiction that is included on the EU list of non-cooperative jurisdictions. The withholding tax on interest will become effective in respect of interest payments made on or after 1 January 2021. The Withholding Tax Act 2021 has not entered into force as of the date of this Base Prospectus and may be amended. Therefore, it cannot be ruled out that payments under the Notes will become subject to Dutch withholding tax in situations other than those described above.

Should payments under the Notes become subject to Dutch withholding tax, the Issuer may be required to pay additional amounts (as set out in Condition 8.1 (*Payment without withholding*)) of the Notes in which case the Issuer will be entitled to call for early redemption of the Notes (as set out in Condition 7.2 (*Redemption for Taxation Reasons*)) of the Notes.

Risks related to the market generally

Set out below is a description of material market risks, including liquidity risk, exchange rate risk, and credit risk:

The Notes are subject to exchange rate risks and may become subject to exchange controls

The Issuer will pay principal and interest on the Notes in the Specified Currency (as defined in the Terms and Conditions of the Notes). This presents certain risks relating to currency conversions if an investor's financial activities are denominated principally in a currency or currency unit (the “**Investor's Currency**”) other than the euro. These include the risk that exchange rates may significantly change (including changes due to devaluation of the Specified Currency or revaluation of the Investor's Currency) and the risk that authorities with jurisdiction over the Investor's Currency may impose or modify exchange controls. An appreciation in the value of the Investor's Currency relative to the euro would decrease (i) the Investor's Currency-equivalent yield on the Notes, (ii) the Investor's Currency-equivalent value of the principal payable on the Notes, and (iii) the Investor's Currency-equivalent market value of the Notes.

Government and monetary authorities may impose (as some have done in the past) exchange controls that could adversely affect an applicable exchange rate and, as a result, investors may receive less interest or principal than expected, or no interest or principal.

An active secondary market in respect of the Notes may never be established or may be illiquid and this would adversely affect the value at which an investor could sell its Notes

Notes may be issued under the Programme in different Series with different terms and in amounts that are to be determined. There is no assurance that the prices at which the Notes will sell in the market after their initial offering will not be lower than the initial offering price or that an active trading market for the Notes will develop and continue after such offering. If the Notes are traded after their initial issuance, they may trade at a discount to their initial offering price, depending upon prevailing interest rates, the market for similar securities, general economic conditions and the financial condition of the Issuer. Although applications have been made for the Notes issued under the Programme to be admitted to listing on the Official List of the Luxembourg Stock Exchange and to trading on the Luxembourg Stock Exchange's regulated market, there is no assurance that an active trading market will develop, and if a market does develop, it may not be liquid. Therefore, investors may not be able to sell their Notes easily or at prices that will provide them with a yield comparable to similar investments that have a developed secondary market. In addition, liquidity may be limited if the Notes are allocated to a limited number of investors.

Changes in the Group's credit ratings and/or the credit ratings assigned to the Notes could adversely affect the value of the Notes

Any of the rating agencies that rate the debt of the Group has the ability to lower the ratings currently assigned to that debt as a result of its views about the Group's current or future business, financial condition, results of operations or other matters. Any ratings decline could adversely affect the value of the Notes. In addition, one or more independent credit rating agencies may assign credit ratings to the Notes. Such credit ratings are intended to reflect the Issuer's ability to meet its repayment obligations in respect of the Notes, and may not reflect the potential impact of all risks

related to the structure, the market, the Group and other factors on the value of the Notes. A credit rating is not a recommendation to buy, sell or hold securities and may be subject to revision or withdrawal at any time by the assigning rating organisation. Each rating should be evaluated independently of any other rating.

Risk of the UK no longer being party to Recast Brussels Regulation as a result of the UK's exit from the EU

The UK left the EU on 31 January 2020 (“**Brexit**”). Negotiations are ongoing to determine the future terms of the UK's relationship with the EU, including the terms of trade between the UK and the EU. There is uncertainty concerning the mechanism for the enforcement of English court judgments in the Netherlands following the end of the post-Brexit transition period. Pursuant to the withdrawal agreement between the UK and the EU, a transitional period applies, from the date of the withdrawal of the UK from the EU to 31 December 2020 during which EU law would continue to apply to the UK. If no new reciprocal agreement on enforcement of judgments is agreed at the end of such transition period, there will be a period of uncertainty concerning the mechanism for the enforcement of English court judgments in the Netherlands as the current regulation concerning the recognition and enforcement of judgments that apply between the UK and EU Member States, namely the Recast Brussels Regulation (Regulation (EU) No. 1215/2012 of the European Parliament and of the Council of 12 December 2012 (the “**Recast Regulation**”)) would cease to apply to the UK (and English court judgments).

As a result, following the end of the post-Brexit transition period, a judgment entered against the Issuer in an English court may not be recognised or enforceable in the Netherlands without a re-trial on its merits if (i) the jurisdiction of the English court has not been based on an internationally generally accepted ground, (ii) proper legal procedures have not been observed, (iii) the judgment contravenes Dutch public policy, and/or (iv) the judgment is irreconcilable with a judgment of a Dutch court or an earlier judgment of an English court that is capable of being recognised in the Netherlands.

The withdrawal agreement provides that judgments issued by English courts in proceedings instituted before the end of the transition period will continue to be recognised and enforced in the EU pursuant to the Recast Regulation. Further, in its White Paper dated 23 July 2018, the UK Government stated that it will seek to participate in the Lugano Convention on leaving the EU, which would mean English judgments would continue to be recognised and enforced in the Netherlands (and other contracting states). In the same White Paper, the UK Government also stated that it would seek a new bilateral agreement with the EU27 on cooperation in the area of civil justice including arrangements for the continued mutual recognition and enforcement of judgments.

There can, however, be no assurances as to the terms of any final agreement and, as a result, there remains uncertainty as to the mechanism for enforcement of English court judgments in the Netherlands and a risk that a judgment entered against the Issuer in an English court may not be recognised or enforceable in the Netherlands in the circumstances described above.

PRESENTATION OF FINANCIAL INFORMATION

Presentation of Financial Information

The audited consolidated financial statements of the Group as of and for the financial years ended 31 December 2019 and 2018 are incorporated by reference herein, as described under “*Information Incorporated by Reference*” and have been prepared in accordance with International Financial Reporting Standards (“**IFRS**”) as endorsed by the EU and with the statutory provisions of Part 9 of Book 2 of the Dutch Civil Code.

From 1 January 2019, the Group realigned the composition of its reporting segments. The most notable changes are the shifts of the Sleep & Respiratory Care business from the Personal Health segment to the renamed Connected Care segment and most of the Healthcare Informatics business from the renamed Connected Care segment to the Diagnosis & Treatment segment.

No other information in this Base Prospectus has been audited.

Alternative Performance Measures (or “Non-IFRS Financial Measures”)

In this Base Prospectus, the Issuer presents certain financial measures when discussing the Group’s performance that are not measures of financial performance or liquidity under IFRS (“**non-IFRS**”). These non-IFRS measures (also known as non-GAAP or alternative performance measures) are presented because management considers them important supplemental measures of the Group’s performance and believes that they are widely used in the industry in which the Group operates as a means of evaluating a company’s operating performance and liquidity. The Group believes that an understanding of its sales performance, profitability, financial strength and funding requirements is enhanced by reporting the following non-IFRS measures:

- Comparable sales growth;
- Adjusted EBITA;
- Adjusted income from continuing operations attributable to shareholders;
- Adjusted income from continuing operations attributable to shareholders per common share (in EUR) - diluted;
- Adjusted EBITDA;
- Free cash flow;
- Net debt : group equity ratio; and
- Comparable order intake.

Non-IFRS measures do not have standardised meanings under IFRS and not all companies calculate non-IFRS measures in the same manner or on a consistent basis. As a result, these measures may not be comparable to measures used by other companies that have the same or similar names. Accordingly, undue reliance should not be placed on the non-IFRS measures contained in this Base Prospectus and they should not be considered as substitutes for sales, net income, net cash provided by operating activities or other financial measures computed in accordance with IFRS.

This section contains the definitions of the non-IFRS measures used in this Base Prospectus as well as reconciliations from the most directly comparable IFRS measures. These non-IFRS measures should not be viewed in isolation or as alternatives to equivalent IFRS measures and should be used in conjunction with the most directly comparable IFRS measures.

The non-IFRS financial measures presented are not measures of financial performance or liquidity under IFRS, but measures used by management to monitor the underlying performance of the Group's business and operations and, accordingly, they have not been audited or reviewed by the Group's external auditors.

Additionally, the Group provides forward-looking targets for comparable sales growth, adjusted EBITA margin improvement and free cash flow, which are non-IFRS financial measures. The Group has not provided a quantitative reconciliation of these targets to the most directly comparable IFRS measures because certain information needed to reconcile these non-IFRS financial measures to the most comparable IFRS financial measures are dependent on specific items or impacts which are not yet determined, are subject to uncertainty and variability in timing and amount due to their nature, are outside of the Group's control, or cannot be predicted, including items and impacts such as currency exchange rates, acquisitions and disposals, charges and costs such as impairments, restructuring and acquisition-related charges, amortisation of intangible assets and net capital expenditures. Accordingly, reconciliations of these non-IFRS forward-looking financial measures to the most directly comparable IFRS financial measures are not available without unreasonable effort. Such unavailable reconciling items could significantly impact the Group's results of operations and financial condition.

Comparable sales growth

Comparable sales growth represents the period-on-period growth in sales excluding the effects of currency movements and changes in consolidation. As indicated in "*Significant accounting policies*" to the Group's audited consolidated financial statements as of and for the financial year ended 31 December 2019, incorporated by reference herein, foreign currency sales and costs are translated into the Group's presentation currency, the euro, at the exchange rates prevailing at the respective transaction dates. As a result of significant foreign currency sales and currency movements during the periods presented, the effects of translating foreign currency sales amounts into euro could have a material impact on the comparability of sales between periods. Therefore, these impacts are excluded when presenting comparable sales in euros by translating the foreign currency sales of the previous period and the current period into euros at the same average exchange rates. In addition, the years presented were affected by a number of acquisitions and divestments, as a result of which various activities were consolidated or deconsolidated. The effect of consolidation changes has also been excluded in arriving at the comparable sales. For the purpose of calculating comparable sales, when a previously consolidated entity is sold or control is lost, relevant sales for that entity of the corresponding prior year period are excluded. Similarly, when an entity is acquired and consolidated, relevant sales for that entity of the current year period are excluded.

Comparable sales growth is presented for the Group, operating segments and geographic clusters. The Group believes that the presentation of comparable sales growth is meaningful for investors to evaluate the performance of the Group's business activities over time. Comparable sales growth may be subject to limitations as an analytical tool for investors, because comparable sales growth figures are not adjusted for other effects, such as increases or decreases in prices or quantity/ volume. In addition, interaction effects between currency movements and changes in consolidation are not taken into account.

1) Mature geographies are the highly developed markets comprising of Western Europe, North America, Japan, South Korea, Israel, Australia and New Zealand.

2) Growth geographies are the developing geographies comprising of Asia Pacific (excluding Japan, South Korea, Australia and New Zealand), Latin America, Central and Eastern Europe, Middle East & Turkey (excluding Israel) and Africa.

Adjusted EBITA

The term Adjusted EBITA is used to evaluate the performance of the Group and its segments. EBITA represents Income from operations excluding amortisation and impairment of acquired intangible assets and impairment of goodwill. Adjusted EBITA represents EBITA excluding gains or losses from restructuring costs, acquisition-related charges and other items.

Restructuring costs are defined as the estimated costs of initiated reorganisations, the most significant of which have been approved by the Group's executive committee (the "**Executive Committee**"), and which generally involve the realignment of certain parts of the industrial and commercial organisation.

Acquisition-related charges are defined as costs that are directly triggered by the acquisition of a company, such as transaction costs, purchase accounting related costs and integration-related expenses.

Other items are defined as any individual item with an income statement impact (loss or gain) that is deemed by management to be both significant and incidental to normal business activity. Other items may extend over several quarters and are not limited to the same financial year.

The Group considers the use of Adjusted EBITA appropriate as the Group uses it as a measure of segment performance and as one of its strategic drivers to increase profitability through re-allocation of its resources towards opportunities offering more consistent and higher returns. This is done with the aim of making the underlying performance of the businesses more transparent.

EBITA excludes amortisation and impairment of acquired intangible assets (and impairment of goodwill), which primarily relates to brand names, customer relationships and technology, as the Group believes that such amounts are inconsistent in amount and frequency, are significantly impacted by the timing and/or size of acquisitions and do not factor into its decisions on allocation of its resources across segments. Although the Group excludes amortisation and impairment of acquired intangible assets from its Adjusted EBITA measure, the Group believes that it is important for investors to understand that these acquired intangible assets contribute to revenue generation.

The Group believes Adjusted EBITA is useful to evaluate financial performance on a comparable basis over time by factoring out restructuring costs, acquisition-related charges and other incidental items which are not directly related to the operational performance of the Group or its segments.

Adjusted EBITA may be subject to limitations as an analytical tool for investors, as it excludes restructuring costs, acquisition-related charges and other incidental items and therefore does not reflect the expense associated with such items, which may be significant and have a significant effect on the Group's net income.

Adjusted EBITA margin refers to Adjusted EBITA divided by sales expressed as a percentage.

Adjusted EBITA is not a recognised measure of financial performance under IFRS. The reconciliation of Adjusted EBITA to the most directly comparable IFRS measure, Net income, for the years indicated is included in the table below. Net income is not allocated to segments as certain income and expense line items are monitored on a centralised basis, resulting in them being shown on a Group level only.

Adjusted income from continuing operations attributable to shareholders

The term Adjusted income from continuing operations attributable to shareholders represents income from continuing operations less continuing operations non-controlling interests, amortisation and impairment of acquired intangible assets, impairment of goodwill, excluding gains or losses from restructuring costs and acquisition-related charges, other items, adjustments to net finance expenses, adjustments to investments in associates and the tax impact of the adjusted items. Shareholders refers to shareholders of the Issuer.

Restructuring costs, acquisition-related charges and other items are all defined in the Adjusted EBITA section above.

Net finance expenses are defined as either the financial income or expense component of an individual item already identified to be excluded as part of the Adjusted income from continuing operations, or a financial income or expense component with an income statement impact (gain or loss) that is deemed by management to be both significant and incidental to normal business activity.

The tax impact of the adjusted items is calculated using the weighted average statutory tax rate plus any recurring tax costs or benefits.

The Group considers the use of Adjusted income from continuing operations attributable to shareholders appropriate as it uses it as the basis for the Adjusted income from continuing operations attributable to shareholders per common share (in EUR) - diluted, a non-IFRS measure.

Adjusted income from continuing operations attributable to shareholders may be subject to limitations as an analytical tool for investors, as it excludes certain items and therefore does not reflect the expense associated with such items, which may be significant and have a significant effect on the Group's net income. Net income, for the years indicated is included in the table below. Net income is not allocated to segments as certain income and expense line items are monitored on a centralised basis, resulting in them being shown on a Group level only. Adjusted income from continuing operations attributable to shareholders is not a recognised measure of financial performance under IFRS. The reconciliation of Adjusted income from continuing operations attributable to shareholders to the most directly comparable IFRS measure, Net income, for the years indicated is included in the table below.

Adjusted income from continuing operations attributable to shareholders per common share (in EUR) – diluted

Adjusted income from continuing operations attributable to shareholders per common share (in EUR) - diluted is calculated by dividing the Adjusted income from continuing operations attributable to shareholders by the diluted weighted average number of shares (after deduction of treasury shares) outstanding during the period, as defined in “*Significant accounting policies*” to the Group's audited consolidated financial statements as of and for the financial year ended 31 December 2019, incorporated by reference herein.

The Group considers the use of Adjusted income from continuing operations attributable to shareholders per common share (in EUR) - diluted appropriate as it is a measure that is useful when comparing its performance to other companies in the health technology (“**HealthTech**”) industry. However, it may be subject to limitations as an analytical tool for investors, as it uses Adjusted income from continuing operations attributable to shareholders which has certain items excluded.

Adjusted income from continuing operations attributable to shareholders per common share (in EUR) - diluted is not a recognised measure of financial performance under IFRS. The most directly comparable IFRS measure, income from continuing operations attributable to shareholders per common share (in EUR) - diluted for the years indicated, is included in the table below.

Adjusted EBITDA

Adjusted EBITDA is defined as Income from operations excluding amortisation and impairment of intangible assets, impairment of goodwill, depreciation and impairment of property, plant and equipment, restructuring costs, acquisition-related charges and other items.

The Group understands that Adjusted EBITDA is broadly used by analysts, rating agencies and investors in their evaluation of different companies because it excludes certain items that can vary widely across different industries or among companies within the same industry. The Group considers Adjusted EBITDA useful when comparing its performance to other companies in the HealthTech industry. However, Adjusted EBITDA may be subject to limitations as an analytical tool because of the range of items excluded and their significance in a given reporting period. Furthermore, comparisons with other companies may be complicated due to the absence of a standardised meaning and calculation framework. The Group's management compensates for the limitations of using Adjusted EBITDA by using this measure to supplement IFRS results to provide a more complete understanding of the factors and trends affecting the business rather than IFRS results alone. In addition to the limitations noted above, Adjusted EBITDA excludes items that may be recurring in nature and should not be disregarded in the evaluation of performance. However, the Group believes it is useful to exclude such items to provide a supplemental analysis of current results and trends compared to other periods. This is because certain excluded items can vary significantly depending on specific underlying transactions or events. Also, the variability of such items may not relate specifically to ongoing operating results or trends and certain excluded items, while potentially recurring in future periods and may not be indicative of future results. A reconciliation from net income to Adjusted EBITDA is provided below. Net income, for the years indicated is included in the table below. Net income is not allocated to segments as certain income and expense line items are monitored on a centralised basis, resulting in them being shown on a Group level only.

Free cash flow

Free cash flow is defined as net cash flows from operating activities minus net capital expenditures. Net capital expenditures comprise the purchase of intangible assets, expenditures on development assets, capital expenditures on property, plant and equipment and proceeds from sales of property, plant and equipment.

The Group discloses free cash flow as a supplemental non-IFRS financial measure, as the Group believes it is a meaningful measure to evaluate the performance of its business activities over time. The Group understands that free cash flow is broadly used by analysts, rating agencies and investors in assessing its performance. The Group also believes that the presentation of free cash flow provides useful information to investors regarding the cash generated by the Group's operations after deducting cash outflows for purchases of intangible assets, capitalisation of product development, expenditures on development assets, capital expenditures on property, plant and equipment and proceeds from disposal of property, plant and equipment. Therefore, the measure gives an indication of the long-term cash generating ability of the business. In addition, because free cash flow is not impacted by purchases or sales of businesses and investments, it is generally less volatile than the total of net cash provided by (used for) operating activities and net cash provided by (used for) investing activities.

Free cash flow may be subject to limitations as an analytical tool for investors, as free cash flow is not a measure of cash generated by operations available exclusively for discretionary expenditures and the Group requires funds in addition to those required for capital expenditures for a wide variety of non-discretionary expenditures, such as payments on outstanding debt, dividend payments or other investing and financing activities. In addition, free cash flow does not reflect cash payments that may be required in future for costs already incurred, such as restructuring costs.

The Group adopted IFRS 16 on 1 January 2019. As a result, the Group's calculation of Free cash flow for the year ended 31 December 2019 includes the impact of IFRS 16.

Net debt : group equity ratio

Net debt : group equity ratio is presented to express the financial strength of the Group. Net debt is defined as the sum of long- and short-term debt minus cash and cash equivalents. Group equity is defined as the sum of shareholders' equity and non-controlling interests. This measure is used by the Group's Treasury management and investment analysts to evaluate financial strength and funding requirements. This measure may be subject to limitations because cash and cash equivalents are used for various purposes, not only debt repayment. The net debt calculation deducts all cash and cash equivalents whereas these items are not necessarily available exclusively for debt repayment at any given time.

Comparable order intake

Comparable order intake represents the period-on- period growth, expressed as a percentage, in order intake excluding the effects of currency movements and changes in consolidation. Comparable order intake is reported for equipment and software in the Diagnoses & Treatment and Connected Care businesses, and is defined as the total contractually committed value of equipment and software to be delivered within a specified timeframe, and is an approximation of expected future revenue growth in the respective businesses. Comparable order intake does not derive from the financial statements and a quantitative reconciliation is thus not provided.

The Group uses comparable order intake as an indicator of business activity and performance. Comparable order intake is not an alternative to revenue and may be subject to limitations as an analytical tool due to differences in amount and timing between booking orders and revenue recognition. Due to divergence in practice, other companies may calculate this or a similar measure (such as order backlog) differently and therefore comparisons between companies may be complicated.

FORMS OF THE NOTES

Each Tranche of Notes will initially be in the form of either a temporary global note (the “**Temporary Global Note**”), without interest coupons (“**Coupons**”), or a permanent global note (the “**Permanent Global Note**”), without Coupons, in each case as specified in the relevant Final Terms. Each Temporary Global Note or, as the case may be, Permanent Global Note (each a “**Global Note**”) which is not intended to be issued in NGN form, as specified in the relevant Final Terms, will be deposited on or around the issue date of the relevant Tranche of the Notes with a depositary or a common depositary for Euroclear, and/or Clearstream, Luxembourg, and/or any other relevant clearing system. Each Global Note which is intended to be issued in NGN form, as specified in the relevant Final Terms, will be deposited on or around the issue date of the relevant Tranche of the Notes with a common safekeeper for Euroclear and/or Clearstream, Luxembourg.

Where the Global Notes issued in respect of any Tranche are in NGN form, Euroclear and Clearstream, Luxembourg will be notified whether or not such Global Notes are intended to be held in a manner which would allow Eurosystem eligibility. Any indication that the Global Note is to be so held does not necessarily mean that the Notes of the relevant Tranche will be recognised as eligible collateral for Eurosystem monetary policy and intra-day credit operations by the Eurosystem either upon issue or at any times during their life as such recognition depends upon satisfaction of the Eurosystem eligibility criteria.

On 13 June 2006, the European Central Bank (the “**ECB**”) announced that Notes in NGN form are in compliance with the “Standards for the use of EU securities settlement systems in ESCB credit operations” of the central banking system for the euro (the “**Eurosystem**”), provided that certain other criteria are fulfilled. At the same time the ECB also announced that arrangements for Notes in NGN form will be offered by Euroclear and Clearstream, Luxembourg as of 30 June 2006 and that debt securities in global bearer form issued through Euroclear and Clearstream, Luxembourg after 31 December 2006 will only be eligible as collateral for Eurosystem operations if the NGN form is used.

The relevant Final Terms will also specify whether United States Treasury Regulation §1.163-5(c)(2)(i)(C) (the “**TEFRA C Rules**”) or United States Treasury Regulation §1.163-5(c)(2)(i)(D) (the “**TEFRA D Rules**”) are applicable in relation to the Notes or, if the Notes do not have a maturity of more than 365 days, that neither the TEFRA C Rules nor the TEFRA D Rules are applicable.

Temporary Global Note exchangeable for Permanent Global Note

If the relevant Final Terms specify the form of Notes as being “Temporary Global Note exchangeable for a Permanent Global Note”, then the Notes will initially be in the form of a Temporary Global Note which will be exchangeable, in whole or in part, for interests in a Permanent Global Note, without Coupons, not earlier than 40 days after the issue date of the relevant Tranche of the Notes upon certification as to non-U.S. beneficial ownership. No payments will be made under the Temporary Global Note unless exchange for interests in the Permanent Global Note is improperly withheld or refused. In addition, interest payments in respect of the Notes cannot be collected without such certification of non-U.S. beneficial ownership.

Whenever any interest in the Temporary Global Note is to be exchanged for an interest in a Permanent Global Note, the Issuer shall procure (in the case of first exchange) the prompt delivery (free of charge to the bearer) of such Permanent Global Note, duly authenticated and, in the case of a NGN, effectuated, to the bearer of the Temporary Global Note or (in the case of any subsequent exchange) an increase in the principal amount of the Permanent Global Note in accordance with its terms against:

- (i) presentation and (in the case of final exchange) presentation and surrender of the Temporary Global Note at the specified office of the Principal Paying Agent; and
- (ii) receipt by the Principal Paying Agent from Euroclear and/or Clearstream, Luxembourg of a certificate or certificates of non-U.S. beneficial ownership, within seven days of the bearer requesting such exchange.

The principal amount of Notes represented by the Permanent Global Note shall be equal to the aggregate of the principal amounts specified in the certificates of non-U.S. beneficial ownership; provided, however, that in no circumstances shall the principal amount of Notes represented by the Permanent Global Note exceed the initial principal amount of Notes represented by the Temporary Global Note.

The Permanent Global Note will be exchangeable in whole, but not in part, for Notes in definitive form (“**Definitive Notes**”):

- (i) on the expiry of such period of notice as may be specified in the relevant Final Terms; or
- (ii) at any time, if so specified in the relevant Final Terms; or
- (iii) if the relevant Final Terms specify “in the limited circumstances specified in the Permanent Global Note”, then if (a) Euroclear or Clearstream, Luxembourg or any other relevant clearing system is closed for business for a continuous period of 14 days (other than by reason of legal holidays) or announces an intention permanently to cease business or (b) any of the circumstances described in Condition 10 (*Events of Default*) occurs and is continuing.

The Permanent Global Note will also become exchangeable, in whole but not in part and at the option of the Issuer, for Definitive Notes if, by reason of any change in the laws of The Netherlands, the Issuer is or will be required to make any withholding or deduction from any payment in respect of the Notes which would not be required if the Notes were in definitive form.

Whenever the Permanent Global Note is to be exchanged for Definitive Notes, the Issuer shall procure the prompt delivery (free of charge to the bearer) of such Definitive Notes, duly authenticated and with Coupons and Talons attached (if so specified in the relevant Final Terms), in an aggregate principal amount equal to the principal amount of the Permanent Global Note to the bearer of the Permanent Global Note against the surrender of the Permanent Global Note at the specified office of the Principal Paying Agent within 60 days of the bearer requesting such exchange.

Temporary Global Note exchangeable for Definitive Notes

If the relevant Final Terms specify the form of Notes as being “Temporary Global Note exchangeable for Definitive Notes” and also specify that the TEFRA C Rules are applicable or that neither the TEFRA C Rules nor the TEFRA D Rules are applicable, then the Notes will initially be in the form of a Temporary Global Note which will be exchangeable, in whole but not in part, for Definitive Notes not earlier than 40 days after the issue date of the relevant Tranche of the Notes.

If the relevant Final Terms specify the form of Notes as being “Temporary Global Note exchangeable for Definitive Notes” and also specify that the TEFRA D Rules are applicable, then the Notes will initially be in the form of a Temporary Global Note which will be exchangeable, in whole or in part, for Definitive Notes not earlier than 40 days after the issue date of the relevant Tranche of the Notes upon certification as to non-U.S. beneficial ownership. Interest payments in respect of the Notes cannot be collected without such certification of non-U.S. beneficial ownership.

Whenever the Temporary Global Note is to be exchanged for Definitive Notes, the Issuer shall procure the prompt delivery (free of charge to the bearer) of such Definitive Notes, duly authenticated and with Coupons and Talons attached (if so specified in the relevant Final Terms), in an aggregate principal amount equal to the principal amount of the Temporary Global Note to the bearer of the Temporary Global Note against the surrender of the Temporary Global Note at the specified office of the Principal Paying Agent within 60 days of the bearer requesting such exchange.

Permanent Global Note exchangeable for Definitive Notes

If the relevant Final Terms specify the form of Notes as being “Permanent Global Note exchangeable for Definitive Notes”, then the Notes will initially be in the form of a Permanent Global Note which will be exchangeable in whole, but not in part, for Definitive Notes:

- (i) on the expiry of such period of notice as may be specified in the relevant Final Terms; or
- (ii) at any time, if so specified in the relevant Final Terms; or
- (iii) if the relevant Final Terms specify “in the limited circumstances described in the Permanent Global Note”, then if (a) Euroclear or Clearstream, Luxembourg or any other relevant clearing system is closed for business for a continuous period of 14 days (other than by reason of legal holidays) or announces an intention permanently to cease business or (b) an Event of Default occurs and is continuing.

The Permanent Global Note will also become exchangeable, in whole but not in part and at the option of the Issuer, for Definitive Notes if, by reason of any change in the laws of The Netherlands, the Issuer is or will be required to make any withholding or deduction from any payment in respect of the Notes which would not be required if the Notes were in definitive form.

Whenever the Permanent Global Note is to be exchanged for Definitive Notes, the Issuer shall procure the prompt delivery (free of charge to the bearer) of such Definitive Notes, duly authenticated and with Coupons and Talons attached (if so specified in the relevant Final Terms), in an aggregate principal amount equal to the principal amount of the Permanent Global Note to the bearer of the Permanent Global Note against the surrender of the Permanent Global Note at the specified office of the Principal Paying Agent within 60 days of the bearer requesting such exchange.

Terms and Conditions applicable to the Notes

The terms and conditions applicable to any Definitive Note will be endorsed on that Note and will consist of the terms and conditions set out under “*Terms and Conditions of the Notes*” below and the provisions of the relevant Final Terms which complete those terms and conditions.

Legend concerning United States persons

In the case of any Tranche of Notes having a maturity of more than one year, the Notes in global form, the Notes in definitive form and any Coupons and Talons appertaining thereto will bear a legend to the following effect:

“Any United States person who holds this obligation will be subject to limitations under the United States income tax laws, including the limitations provided in Sections 165(j) and 1287(a) of the Internal Revenue Code.”

The sections referred to in such legend provide that a United States person who holds a Note, Coupon or Talon will generally not be allowed to deduct any loss realised on the sale, exchange or redemption of such Note, Coupon or Talon and any gain (which might otherwise be characterised as capital gain) recognised on such sale, exchange or redemption will be treated as ordinary income.

TERMS AND CONDITIONS OF THE NOTES

The following are the Terms and Conditions of the Notes which will be incorporated by reference into each Global Note (as defined in this section “Terms and Conditions of the Notes”) and each definitive Note, in the latter case only if permitted by the relevant stock exchange (if any) and agreed by the Issuer and the relevant Dealer at the time of issue but, if not so permitted and agreed, such definitive Note will have endorsed thereon or attached thereto such Terms and Conditions. The applicable Final Terms in relation to any Tranche of Notes shall complete the following Terms and Conditions for the purpose of such Notes. (a) *Application*

This Condition 5.1 (*Fixed Rate Note Provisions*) is applicable to the Notes only if the Fixed Rate Note Provisions are specified in the relevant Final Terms as being applicable.

(d) *Calculation of Interest Amount*

Except in the case of Notes in definitive form where an applicable Fixed Coupon Amount or an applicable Broken Amount is specified in the relevant Final Terms, interest shall be calculated in respect of any period by applying the Rate of Interest to:

- (i) in the case of Notes which are represented by a Global Note, the aggregate outstanding principal amount of the Fixed Rate Notes represented by such Global Note; or
- (ii) in the case of Notes in definitive form, the Calculation Amount;

and, in each case, multiplying such product by the applicable Day Count Fraction, and rounding the resultant figure to the nearest Sub-Unit of the relevant Specified Currency, half of any such Sub-Unit being rounded upwards or otherwise in accordance with applicable market convention. The amount of interest payable shall be the product of the amount (determined in the manner provided above) for the Calculation Amount and the amount by which the Calculation Amount is multiplied to reach the Specified Denomination, without any further rounding.

 - (B) in the case of Notes where the Accrual Period is longer than the Determination Period during which the Accrual Period ends, the sum of:
 - (1) the number of days in such Accrual Period falling in the Determination Period in which the Accrual Period begins divided by the product of (x) the number of days in such Determination Period and (y) the number of Interest Determination Dates that would occur in one calendar year; and
 - (2) the number of days in such Accrual Period falling in the next Determination Period divided by the product of (x) the number of days in such Determination Period and (y) the number of Interest Determination Dates that would occur in one calendar year; and
- (ii) if “**30/360**” is specified in the relevant Final Terms, the number of days in the period from (and including) the most recent Interest Payment Date (or, if none, the Interest Commencement Date) to (but excluding) the relevant payment date (such number of days being calculated on the basis of a year of 360 days with 12 30-day months) divided by 360.

5.2 Floating Rate Note Provisions

(a) Application

This Condition 5.2 (*Floating Rate Note Provisions*) is applicable to the Notes only if the Floating Rate Note Provisions are specified in the relevant Final Terms as being applicable.

(b) Accrual of interest

The Notes bear interest from the Interest Commencement Date at the Rate of Interest payable in arrear on each Interest Payment Date, subject as provided in Condition 6 (*Payments*). Each Note will cease to bear interest from the due date for final redemption unless, upon due presentation, payment of the Redemption Amount is improperly withheld or refused, in which case it will continue to bear interest in accordance with this Condition 5.2 (*Floating Rate Note Provisions*) (as well after as before judgment) until whichever is the earlier of (i) the day on which all sums due in respect of such Note up to that day are received by or on behalf of the relevant Noteholder and (ii) the day which is seven days after the Principal Paying Agent or as the case

may be the Trustee has notified the Noteholders that it has received all sums due in respect of the Notes up to such seventh day (except to the extent that there is any subsequent default in payment).

(c) *Screen Rate Determination*

If Screen Rate Determination is specified in the relevant Final Terms as the manner in which the Rate(s) of Interest is/are to be determined, the Rate of Interest applicable to the Notes for each Interest Period will be determined, subject to Condition 5.2(j) (*Benchmark Discontinuation*), by the Principal Paying Agent on the following basis:

- (i) if the Reference Rate is a composite quotation or customarily supplied by one entity, the Principal Paying Agent will determine the Reference Rate which appears on the Relevant Screen Page as of the Relevant Time on the relevant Interest Determination Date;
- (ii) if Linear Interpolation is specified as applicable in respect of an Interest Period in the applicable Final Terms, the Rate of Interest for such Interest Period shall be calculated by the Principal Paying Agent by straight-line linear interpolation by reference to two rates which appear on the Relevant Screen Page as of the Relevant Time on the relevant Interest Determination Date, where:
 - (A) one rate shall be determined as if the relevant Interest Period were the period of time for which rates are available next shorter than the length of the relevant Interest Period; and
 - (B) the other rate shall be determined as if the relevant Interest Period were the period of time for which rates are available next longer than the length of the relevant Interest Period; **provided, however, that** if no rate is available for a period of time next shorter or, as the case may be, next longer than the length of the relevant Interest Period, then the Principal Paying Agent shall determine such rate at such time and by reference to such sources as it determines appropriate;
- (iii) in any other case, the Principal Paying Agent will determine the arithmetic mean of the Reference Rates which appear on the Relevant Screen Page as of the Relevant Time on the relevant Interest Determination Date;
- (iv) if, in the case of (i) above, such rate does not appear on that page or, in the case of (ii) above, fewer than two such rates appear on that page or if, in either case, the Relevant Screen Page is unavailable, the Issuer will:
 - (A) request the principal Relevant Financial Centre office of each of the Reference Banks to provide a quotation of the Reference Rate at approximately the Relevant Time on the Interest Determination Date to prime banks in the Relevant Financial Centre inter-bank market in an amount that is representative for a single transaction in that market at that time; and
 - (B) provide such quotations to the Principal Paying Agent who shall determine the arithmetic mean of such quotations; and
- (v) if fewer than two such quotations are provided as requested, the Principal Paying Agent will determine the arithmetic mean of the rates (being the nearest to the Reference Rate, as determined by the Principal Paying Agent) quoted by major banks in the Principal Financial Centre of the Specified Currency, requested and selected by the Issuer, at approximately 11.00 a.m. (local time in the Principal Financial Centre of the Specified Currency) on the first day of the relevant Interest Period for loans in the Specified Currency to leading European banks for a period equal to the relevant Interest Period and in an amount that is representative for a single transaction in that market at that time, and the Rate of Interest for such Interest Period shall be the sum of the Margin (as specified in the Final Terms) and the rate or (as the case may be) the arithmetic mean so determined;

provided, however, that if the Principal Paying Agent is unable to determine a rate or (as the case may be) an arithmetic mean in accordance with the above provisions in relation to any Interest Period, the Rate of Interest applicable to the Notes during such Interest Period will be the sum of the Margin and the rate or (as the case may be) the arithmetic mean last determined in relation to the Notes in respect of the preceding Interest Period.

(d) *ISDA Determination*

If ISDA Determination is specified in the relevant Final Terms as the manner in which the Rate(s) of Interest is/are to be determined, the Rate of Interest applicable to the Notes for each Interest Period will be the sum of the Margin and the relevant ISDA Rate where:

“**ISDA Rate**” in relation to any Interest Period means a rate equal to the Floating Rate (as defined in the ISDA Definitions) that would be determined by the Principal Paying Agent under an interest rate swap transaction if the Principal Paying Agent were acting as Calculation Agent (as defined in the ISDA Definitions) for that interest rate swap transaction under the terms of an agreement incorporating the ISDA Definitions and under which:

- (i) the Floating Rate Option (as defined in the ISDA Definitions) is as specified in the relevant Final Terms;
- (ii) the Designated Maturity (as defined in the ISDA Definitions) is a period specified in the relevant Final Terms;
- (iii) the relevant Reset Date (as defined in the ISDA Definitions) is either (A) if the relevant Floating Rate Option is based on LIBOR for a currency, the first day of that Interest Period or (B) in any other case, as specified in the relevant Final Terms; and
- (iv) if Linear Interpolation is specified as applicable in respect of an Interest Period in the applicable Final Terms, the Rate of Interest for such Interest Period shall be calculated by the Principal Paying Agent by straight-line linear interpolation by reference to two rates based on the relevant Floating Rate Option, where:
 - (A) one rate shall be determined as if the Designated Maturity were the period of time for which rates are available next shorter than the length of the relevant Interest Period; and
 - (B) the other rate shall be determined as if the Designated Maturity were the period of time for which rates are available next longer than the length of the relevant Interest Period; **provided, however, that** if there is no rate available for a period of time next shorter than the length of the relevant Interest Period or, as the case may be, next longer than the length of the relevant Interest Period, then the Principal Paying Agent shall determine such rate at such time and by reference to such sources as it determines appropriate.

(e) *Maximum or Minimum Rate of Interest*

If any Maximum Rate of Interest or Minimum Rate of Interest is specified in the relevant Final Terms, then the Rate of Interest shall in no event be greater than the maximum or be less than the minimum so specified.

(f) *Calculation of Interest Amount*

The Principal Paying Agent will, as soon as practicable after the time at which the Rate of Interest is to be determined in relation to each Interest Period, calculate the Interest Amount payable in respect of each Note for such Interest Period by applying the Rate of Interest to:

- (A) in the case of Notes which are represented by a Global Note, the aggregate outstanding principal amount of the Notes represented by such Global Note; or
- (B) in the case of Notes in definitive form, the Calculation Amount;

and, in each case, multiplying such sum by the applicable Day Count Fraction, and rounding the resultant figure to the nearest Sub-Unit of the relevant Specified Currency, half of any such Sub-Unit being rounded upwards or otherwise in accordance with applicable market convention. Where the Specified Denomination of a Note in definitive form is a multiple of the Calculation Amount, the Interest Amount payable in respect of such Note shall be the product of the amount (determined in the manner provided above) for the Calculation Amount and the amount by which the Calculation Amount is multiplied to reach the Specified Denomination, without any further rounding.

(g) *Calculation of other amounts*

If the relevant Final Terms specifies that any other amount is to be calculated by the Principal Paying Agent, the Principal Paying Agent will, as soon as practicable after the time or times at which any such amount is to be determined, calculate the relevant amount. The relevant amount will be calculated by the Principal Paying Agent in the manner specified in the relevant Final Terms.

(h) *Publication*

Subject to Condition 5.2(j) (*Benchmark Discontinuation*), the Principal Paying Agent will cause each Rate of Interest and Interest Amount determined by it, together with the relevant Interest Payment Date, and any other amount(s) required to be determined by it together with any relevant payment date(s) to be notified to the Paying Agents and each listing authority, stock exchange and/or quotation system (if any) by which the Notes have then been admitted to listing, trading and/or quotation as soon as practicable after such determination but (in the case of each Rate of Interest, Interest Amount and Interest Payment Date) in any event not later than the first day of the relevant Interest Period. Notice thereof shall also promptly be given to the Noteholders. The Principal Paying Agent will be entitled to recalculate any Interest Amount (on the basis of the foregoing provisions) without notice in the event of an extension or shortening of the relevant Interest Period.

(i) *Notifications etc.*

All notifications, determinations, certificates, calculations, quotations and decisions given, expressed, made or obtained for the purposes of this Condition 5.2 (*Floating Rate Note Provisions*) by the Principal Paying Agent will (in the absence of manifest error) be binding on the Issuer, the Trustee, the Paying Agents, the Noteholders and the Couponholders and no liability to any such Person will attach to the Principal Paying Agent in connection with the exercise or non-exercise by it of its powers, duties and discretions for such purposes.

(j) *Benchmark Discontinuation*

Notwithstanding the provisions of Condition 5.2 (*Floating Rate Note Provisions*) above, if the Issuer determines that a Benchmark Event has occurred when any Rate of Interest (or the relevant component part thereof) remains to be determined by such Reference Rate (the “**Original Reference Rate**”), then the following provisions shall apply:

- (i) the Issuer shall use reasonable endeavours to select and appoint, as soon as reasonably practicable, an Independent Adviser to determine (acting in good faith and in a

commercially reasonable manner), no later than 5 Business Days prior to the relevant Interest Determination Date relating to the next succeeding Interest Period (the “**Determination Cut-off Date**”), a Successor Rate (as defined below) or, alternatively, if there is no Successor Rate, an Alternative Reference Rate (as defined below) for purposes of determining the Rate of Interest (or the relevant component part thereof) applicable to the Notes;

- (ii) if a Successor Rate or, failing which, an Alternative Reference Rate (as applicable) is determined in accordance with the preceding provisions, such Successor Rate or, failing which, an Alternative Reference Rate (as applicable) shall be the Reference Rate for each of the future Interest Periods (subject to the subsequent operation of, and to adjustment as provided in, this Condition 5.2(j) (*Benchmark Discontinuation*)); **provided, however, that** if the Independent Adviser is unable to or does not determine a Successor Rate or an Alternative Reference Rate prior to the relevant Interest Determination Date, the Rate of Interest applicable to the next succeeding Interest Period shall be equal to the Rate of Interest last determined in relation to the Notes in respect of the preceding Interest Period (or alternatively, if there has not been a first Interest Payment Date, the rate of interest shall be the initial Rate of Interest) (subject, where applicable, to substituting the Margin or Maximum or Minimum Rate of Interest that applied to such preceding Interest Period for the Margin or Maximum or Minimum Rate of Interest that is to be applied to the relevant Interest Period); for the avoidance of doubt, the proviso in this sub-paragraph (ii) shall apply to the relevant Interest Period only and any subsequent Interest Periods are subject to the subsequent operation of, and to adjustment as provided in, this Condition 5.2(j) (*Benchmark Discontinuation*);
- (iii) if the Independent Adviser (in consultation with the Issuer) determines (acting in good faith and in a commercially reasonable manner) that an Adjustment Spread (as defined below) is required to be applied to the Successor Rate or the Alternative Reference Rate (as applicable) and determines the quantum of, or a formula or methodology for determining, such Adjustment Spread, then such Adjustment Spread shall be applied to the Successor Rate or the Alternative Reference Rate (as applicable). If the Independent Adviser is unable to determine the quantum of, or a formula or methodology for determining, such Adjustment Spread, then such Successor Rate or Alternative Reference Rate (as applicable) will apply without an Adjustment Spread;
- (iv) if the Independent Adviser (in consultation with the Issuer) determines (acting in good faith and in a commercially reasonable manner) a Successor Rate or an Alternative Reference Rate (as applicable) and/or an Adjustment Spread in accordance with the above provisions, the Independent Adviser, may (acting in good faith and in a commercially reasonable manner) also specify changes to these Conditions, the Trust Deed, and/or the Agency Agreement, including but not limited to the Day Count Fraction, Relevant Screen Page, Business Day Convention, Business Days, Interest Determination Date, and/or the definition of Reference Rate applicable to the Notes, and the method for determining the fallback rate in relation to the Notes, which are necessary in order to ensure the proper operation of such Successor Rate or the Alternative Reference Rate (as applicable) and/or Adjustment Spread, which changes shall apply to the Notes for all future Interest Periods (subject to the subsequent operation of, and to adjustment as provided in, this Condition 5.2(j) (*Benchmark Discontinuation*)) (each of the changes described above, a “**Benchmark Amendment**” and together, the “**Benchmark Amendments**”). For the avoidance of doubt, the Trustee and Principal Paying Agent shall, at the request and expense of the Issuer, effect such consequential amendments to the Trust Deed, the Agency Agreement and these Conditions as the Issuer determines and certifies to the Trustee may be required in order to give effect to this Condition 5.2(j) (*Benchmark Discontinuation*) regardless of whether or not giving effect to such Benchmark Amendments would constitute a Basic Terms Modification (as defined in the Trust Deed) or one or more provisos under Condition 14 (*Meetings of Noteholders; Modification, Waiver, Authorisation and Determination*,

Substitution), **provided, however**, that neither the Trustee nor the Principal Paying Agent (as applicable) shall be obliged so to concur if in the opinion of the Trustee and/or the Principal Paying Agent (as applicable), doing so would impose more onerous obligations upon it or expose it to any additional duties, responsibilities or liabilities or reduce or amend the protective provisions afforded to the Trustee and/or the Principal Paying Agent (as applicable) in these Conditions, the Trust Deed (including, for the avoidance of doubt, any supplemental trust deed) or the Agency Agreement. Noteholder approval or consent shall not be required in connection with effecting the Successor Rate or Alternative Reference Rate (as applicable), any Adjustment Spread or such other changes, including for the execution of any documents or other steps by the Trustee or Principal Paying Agent (if required);

- (v) the Issuer shall promptly, following the determination of any Successor Rate or Alternative Reference Rate (as applicable) or Adjustment Spread, give notice thereof and of any changes pursuant to sub-paragraph (iv) above to the Trustee, the Principal Paying Agent and the Noteholders in accordance with Condition 13 (*Notices*), which shall specify the effective date(s) for such Successor Rate or Alternative Reference Rate or Adjustment Spread (as applicable) and any consequential changes made to these Conditions. No later than notifying the Trustee and the Principal Paying Agent of the same, which shall not be less than 3 Business Days prior to the next Interest Determination Date, the Issuer shall deliver to the Trustee and the Principal Paying Agent a certificate signed by two Authorised Signatories (as defined in the Trust Deed) of the Issuer:
 - A. confirming (i) that a Benchmark Event has occurred, (ii) the Successor Rate or, as the case may be, Alternative Reference Rate and (iii) where applicable, any Adjustment Spread and/or the specific terms of any Benchmark Amendments, in each case as determined in accordance with the provision of this Condition 5.2(j) (*Benchmark Replacement*); and
 - B. certifying that the Benchmark Amendments are necessary to ensure the proper operation of such Successor Rate, Alternative Reference Rate, and/or any Adjustment Spread, as the case may be.

The Trustee and the Principal Paying Agent shall be entitled to rely on such certificate (without liability to any person) as sufficient evidence thereof. The Successor Rate or Alternative Reference Rate (as applicable), the Adjustment Spread (if any), and the Benchmark Amendments (if any) determined in accordance with this Condition 5.2(j) (*Benchmark Replacement*) and specified in such certificate will (in the absence of manifest error or negligence in the determination of the Successor Rate or Alternative Reference Rate (as applicable), the Adjustment Spread (if any) and the Benchmark Amendments (if any) and without prejudice to the Trustee's and/or the Principal Paying Agent's ability to rely on such certificate as aforesaid) be binding on the Issuer, the Trustee, the Principal Paying Agent and the Noteholders;

- (vi) an Independent Adviser appointed pursuant to this Condition 5.2(j) (*Benchmark Discontinuation*) shall act in good faith and in a commercially reasonable manner and in consultation with the Issuer and (in the absence of bad faith, fraud or negligence) shall have no liability whatsoever to the Trustee, Agents or the Noteholders for any determination made by it pursuant to this Condition 5.2(j) (*Benchmark Discontinuation*); and
- (vii) *Principal Paying Agent*: notwithstanding any other provision of this Condition 5.2(j) (*Benchmark Replacement*), if following the determination of any Successor Rate, Alternative Reference Rate, Adjustment Spread or Benchmark Amendments, in the Principal Paying Agent's opinion there is any uncertainty between two or more alternative courses of action in making any determination or calculation under this Condition 5.2(j) (*Benchmark Replacement*), the Principal Paying Agent shall promptly notify the Issuer

thereof and the Issuer shall direct the Principal Paying Agent in writing as to which alternative course of action to adopt. If the Principal Paying Agent is not promptly provided with such direction, or is otherwise unable (other than due to its own gross negligence, wilful default, or fraud) to make such calculation or determination for any reason it shall notify the Issuer thereof and the Principal Paying Agent shall be under no obligation to make such calculation or determination and (in the absence of such gross negligence, wilful default, or fraud) shall not incur any liability for not doing so.

For the purposes of this Condition 5.2(j) (*Benchmark Discontinuation*):

“Adjustment Spread” means a spread (which may be positive or negative) or formula or methodology for calculating a spread, which the Independent Adviser (in consultation with the Issuer), determines (acting in good faith and in a commercially reasonable manner) is required to be applied to the relevant Successor Rate or the relevant Alternative Reference Rate (as applicable) in order to reduce or eliminate, to the extent reasonably practicable in the circumstances, any economic prejudice or benefit (as the case may be) to Noteholders and Couponholders as a result of the replacement of the Reference Rate with the Successor Rate or the Alternative Reference Rate (as applicable) and is the spread, formula or methodology which:

- (i) in the case of a Successor Rate, is formally recommended in relation to the replacement of the Reference Rate with the Successor Rate by any Relevant Nominating Body; or
- (ii) in the case of a Successor Rate for which no such recommendation has been made or in the case of an Alternative Reference Rate, the Independent Adviser (in consultation with the Issuer) determines (acting in good faith and in a commercially reasonable manner) is recognised or acknowledged as being in customary market usage in international debt capital markets transactions which reference the Reference Rate where such rate has been replaced by the Successor Rate or the Alternative Reference Rate (as applicable); or
- (iii) if no such customary market usage is recognised or acknowledged, the Independent Adviser (in consultation with the Issuer) in its discretion determines (acting in good faith and in a commercially reasonable manner) to be appropriate;

“Alternative Reference Rate” means the rate (and related alternative screen page or source, if available) that the Independent Adviser determines in accordance with this Condition 5.2(j) (*Benchmark Discontinuation*) has replaced the Original Reference Rate in customary market usage in the international debt capital markets for the purposes of determining rates of interest (or the relevant component part thereof) in respect of notes denominated in the Specified Currency and of a comparable duration to the relevant Interest Period or, if the Independent Adviser determines that there is no such rate, such other rate as the Independent Adviser determines in its discretion (acting in good faith and in a commercially reasonable manner) is most comparable to the Original Reference Rate;

“Benchmark Event” means:

- (i) the Original Reference Rate ceasing to be published on the Relevant Screen Page for a period of at least 5 Business Days or ceasing to exist; or
- (ii) a public statement by the administrator of the Original Reference Rate that it will, by a specified date within the following six months, cease publishing the Original Reference Rate permanently or indefinitely (in circumstances where no successor administrator has been appointed that will continue publication of the Original Reference Rate); or
- (iii) a public statement by the supervisor of the administrator of the Original Reference Rate that the Original Reference Rate has been or will, by a specified date within the following six months, be permanently or indefinitely discontinued; or

- (iv) a public statement by the supervisor of the administrator of the Original Reference Rate as a consequence of which the Original Reference Rate will be prohibited from being used or that its use will be subject to restrictions or adverse consequences, in each case by a specified date within the following six months; or
- (v) a public statement by the supervisor of the administrator of the Original Reference Rate that, in the view of such supervisor, the Original Reference Rate is no longer representative of an underlying market; or
- (vi) it has become unlawful for the Principal Paying Agent or the Issuer to calculate any payments due to be made to any Noteholder using the Original Reference Rate.

in each case, as determined by the Issuer or, in the case of sub-paragraph (vi) above, the relevant party, and notwithstanding the sub-paragraphs above, where the relevant Benchmark Event is a public statement within sub-paragraphs (ii), (iii) or (iv) above and the specified date in the public statement is more than six months after the date of that public statement, the Benchmark Event shall not be deemed to occur until the date falling six months prior to such specified date.

“Independent Adviser” means an independent financial institution of international repute or other independent financial adviser with appropriate expertise in the international debt capital markets, in each case selected and appointed by the Issuer at its own expense;

“Relevant Nominating Body” means, in respect of a reference rate or screen rate (as applicable):

- (a) the central bank, reserve bank, monetary authority or any similar institution for the currency to which the reference rate or screen page (as applicable) relates, or any central bank or other supervisory authority which is responsible for supervising the administrator of the reference rate or screen page (as applicable); or
- (b) any working group or committee sponsored by, chaired or co-chaired by or constituted at the request of
 - (i) the central bank, reserve bank, monetary authority or any similar institution for the currency to which the reference rate or screen rate (as applicable) relates,
 - (ii) any central bank or other supervisory authority which is responsible for supervising the administrator of the reference rate or screen rate (as applicable),
 - (iii) a group of the aforementioned central banks or other supervisory authorities, or
 - (iv) the International Swaps and Derivatives Association, Inc. or any part thereof, or
 - (v) the Financial Stability Board or any part thereof; and

“Successor Rate” means the rate (and related alternative screen page or source, if available) that the Independent Adviser determines is a successor to or replacement of the Reference Rate which is formally recommended by any Relevant Nominating Body.

5.3 Zero Coupon Note Provisions

- (a) *Application*

This Condition 5.3 (*Zero Coupon Note Provisions*) is applicable to the Notes only if the Zero Coupon Note Provisions are specified in the relevant Final Terms as being applicable.

(b) *Late payment on Zero Coupon Notes*

If the Redemption Amount payable in respect of any Zero Coupon Note is improperly withheld or refused, the Redemption Amount shall thereafter be an amount equal to the sum of:

- (i) the Reference Price; and
- (ii) the product of the Accrual Yield (compounded annually) being applied to the Reference Price from (and including) the Issue Date to (but excluding) whichever is the earlier of (i) the day on which all sums due in respect of such Note up to that day are received by or on behalf of the relevant Noteholder and (ii) the day which is seven days after the Principal Paying Agent or as the case may be the Trustee has notified the Noteholders that it has received all sums due in respect of the Notes up to such seventh day (except to the extent that there is any subsequent default in payment).

6. Payments

6.1 Principal

Payments of principal in respect of definitive Notes shall be made only against presentation and (**provided that** payment is made in full) surrender of definitive Notes at the specified office of any Paying Agent outside the United States by cheque drawn in the currency in which the payment is due on, or by transfer to an account denominated in that currency (or, if that currency is euro, any other account to which euro may be credited or transferred) and maintained by the payee with, a bank in the Principal Financial Centre of that currency (in the case of a sterling cheque, a town clearing branch of a bank in London). Payments of principal in respect of Notes represented by any Global Note will be made in the manner specified in relation to definitive Notes or otherwise in the manner specified in the relevant Global Note, where applicable, against presentation or surrender, as the case may be, of such Global Note at the specified office of any Paying Agent outside the United States. A record of each payment made, distinguishing between any payment of principal and any payment of interest, will be made either on such Global Note by the Paying Agent to which it was presented or in the records of Euroclear and Clearstream, Luxembourg, as applicable.

6.2 Interest

Payments of interest in respect of definitive Notes shall, subject to Condition 6.7 (*Unmatured coupons void*) below, be made only against presentation and (**provided that** payment is made in full) surrender of the appropriate Coupons at the specified office of any Paying Agent outside the United States in the manner described in Condition 6.1 (*Principal*) above. Payments of interest (if any) in respect of Notes represented by any Global Note will be made in the manner specified in relation to definitive Notes or otherwise in the manner specified in the relevant Global Note, where applicable, against presentation or surrender, as the case may be, of such Global Note at the specified office of any Paying Agent outside the United States. A record of each payment made, distinguishing between any payment of principal and any payment of interest, will be made either on such Global Note by the Paying Agent to which it was presented or in the records of Euroclear and Clearstream, Luxembourg, as applicable.

6.3 General provisions applicable to payments

The holder of a Global Note shall be the only person entitled to receive payments in respect of Notes represented by such Global Note and the Issuer will be discharged by payment to, or to the order of, the holder of such Global Note in respect of each amount so paid. Each of the persons shown in the records of Euroclear or Clearstream, Luxembourg as the beneficial holder of a particular principal amount of Notes represented by such Global Note must look solely to Euroclear or Clearstream, Luxembourg, as the case may be, for his share of each payment so made by the Issuer or to the order of, the holder of such Global Note.

6.4 Payments in New York City

Payments of principal or interest may be made at the specified office of a Paying Agent in New York City if (i) the Issuer has appointed Paying Agents outside the United States with the reasonable expectation that such Paying Agents will be able to make payment of the full amount of the interest on the Notes in the currency in which the payment is due when due, (ii) payment of the full amount of such interest at the offices of all such Paying Agents is illegal or effectively precluded by exchange controls or other similar restrictions and (iii) payment is permitted by applicable United States law.

6.5 Payments subject to fiscal laws

All payments in respect of the Notes are subject in all cases to any applicable fiscal or other laws and regulations in the place of payment, but without prejudice to the provisions of Condition 8 (*Taxation*). No commissions or expenses shall be charged to the Noteholders or Couponholders in respect of such payments. For the avoidance of doubt, any amounts to be paid in respect of the Notes will be paid net of any deduction or withholding imposed or required pursuant to sections 1471 through 1474 of the U.S. Internal Revenue Code of 1986, as amended (the “**Code**”), any current or future regulations or official interpretations thereof, any agreement entered into pursuant to section 1471(b) of the Code, or any fiscal or regulatory legislation, rules or practices adopted pursuant to any intergovernmental agreement entered into in connection with the implementation of such sections of the Code (any such deduction or withholding, “**FATCA Withholding**”), and no additional amounts will be required to be paid on account of any FATCA Withholding.

6.6 Deductions for unmatured Coupons

In the case of definitive Notes, if the relevant Final Terms specify that the Fixed Rate Note Provisions are applicable and a Note is presented without all unmatured Coupons relating thereto:

- (i) if the aggregate amount of the missing Coupons is less than or equal to the amount of principal due for payment, a sum equal to the aggregate amount of the missing Coupons will be deducted from the amount of principal due for payment; **provided, however, that** if the gross amount available for payment is less than the amount of principal due for payment, the sum deducted will be that proportion of the aggregate amount of such missing Coupons which the gross amount actually available for payment bears to the amount of principal due for payment;
- (ii) if the aggregate amount of the missing Coupons is greater than the amount of principal due for payment:
 - (A) so many of such missing Coupons shall become void (in inverse order of maturity) as will result in the aggregate amount of the remainder of such missing Coupons (the “**Relevant Coupons**”) being equal to the amount of principal due for payment; **provided, however, that** where this sub- paragraph would otherwise require a fraction of a missing Coupon to become void, such missing Coupon shall become void in its entirety; and
 - (B) a sum equal to the aggregate amount of the Relevant Coupons (or, if less, the amount of principal due for payment) will be deducted from the amount of principal due for payment; **provided, however, that**, if the gross amount available for payment is less than the amount of principal due for payment, the sum deducted will be that proportion of the aggregate amount of the Relevant Coupons (or, as the case may be, the amount of principal due for payment) which the gross amount actually available for payment bears to the amount of principal due for payment.

Each sum of principal so deducted shall be paid in the manner provided in Condition 6.1 (*Principal*) above against presentation and (**provided that** payment is made in full) surrender of the relevant missing Coupons within a period of ten years from the Relevant Date for the payment of such principal.

6.7 Unmatured Coupons void

In the case of definitive Notes, if the relevant Final Terms specify that the Floating Rate Note Provisions are applicable, on the due date for final redemption of any Note or early redemption of such Note pursuant to Condition 7.2 (*Redemption for Taxation Reasons*), Condition 7.3 (*Redemption at the option of the Issuer*), Condition 7.5 (*Redemption at the option of the Holders upon a Change of Control Put Event*) or Condition 10 (*Events of Default*), all unmatured Coupons relating thereto (whether or not still attached) shall become void and no payment will be made in respect thereof.

6.8 Payments on business days

If the due date for payment of any amount in respect of any Note or Coupon is not a Payment Business Day in the place of presentation, the holder shall not be entitled to payment in such place of the amount due until the next succeeding Payment Business Day in such place and shall not be entitled to any further interest or other payment in respect of any such delay.

6.9 Payments other than in respect of matured Coupons

Payments of interest other than in respect of matured Coupons shall be made only against presentation of the relevant Notes at the specified office of any Paying Agent outside the United States (or in New York City if permitted by Condition 6.4 (*Payments in New York City*) above).

6.10 Partial payments

If a Paying Agent makes a partial payment in respect of any Note or Coupon presented to it for payment, such Paying Agent will endorse thereon a statement indicating the amount and date of such payment.

6.11 Exchange of Talons

On or after the maturity date of the final Coupon which is (or was at the time of issue) part of a Coupon Sheet relating to the Notes, the Talon forming part of such Coupon Sheet may be exchanged at the specified office of the Principal Paying Agent for a further Coupon Sheet (including, if appropriate, a further Talon) but excluding any Coupons in respect of which claims have already become void pursuant to Condition 9 (*Prescription*). Upon the due date for redemption of any Note, any unexchanged Talon relating to such Note shall become void and no Coupon will be delivered in respect of such Talon.

7. REDEMPTION AND PURCHASE

7.1 Redemption at Maturity

Unless previously redeemed or purchased and cancelled as provided below, the Issuer will redeem the Notes at their Final Redemption Amount specified in the applicable Final Terms on the Maturity Date.

7.2 Redemption for Taxation Reasons

The Issuer may at its option, subject to giving notice to the Trustee in accordance with this Condition 7.2 (*Redemption for Taxation Reasons*), and on giving not less than 30 nor more than 60 days' notice to the Noteholders in accordance with Condition 13 (*Notices*) (which notice shall be irrevocable and specify the date fixed for redemption), redeem all the Notes, but not some only:

- (i) at any time (if the Floating Rate Note Provisions are not specified in the relevant Final Terms as being applicable); or
- (ii) on any Interest Payment Date (if the Floating Rate Note Provisions are specified in the relevant Final Terms as being applicable),

at their principal amount together with interest accrued to but excluding the date of redemption, if:

- (a) as a result of any change in, or amendment to, the laws or regulations of a Relevant Jurisdiction, or any change in the application or official interpretation of the laws or regulations of a Relevant Jurisdiction, which change or amendment becomes effective after the date of the agreement to issue the first Tranche of the Notes, on the next Interest Payment Date, the Issuer would be required to pay additional amounts as provided or referred to in Condition 8 (*Taxation*); and
- (b) the requirement cannot be avoided by the Issuer taking reasonable measures available to it,

provided that no such notice of redemption shall be given earlier than 90 days (or, if the Floating Rate Note Provisions are specified in the relevant Final Terms as being applicable, a number of days which is equal to the aggregate of the number of days falling within the then current interest period applicable to such Notes plus 60 days) prior to the earliest date on which the Issuer would be obliged to pay such additional amounts, were a payment in respect of the relevant Notes then due.

Prior to the publication of any notice of redemption pursuant to this paragraph, the Issuer shall deliver to the Trustee (i) a certificate signed by two Authorised Signatories (as defined in the Trust Deed) of the Issuer stating that the Issuer is entitled to effect such redemption, and setting forth a statement of facts showing that the conditions precedent as set out in this Condition 7.2 (*Redemption for Taxation Reasons*) to the right of the Issuer so to redeem have occurred and (ii) an opinion of independent legal advisers of recognised standing to the effect that the Issuer has or will become obliged to pay such additional amounts as a result of the change or amendment referred to above. The Trustee shall be entitled to accept the certificate and opinion as sufficient evidence of the satisfaction of the conditions precedent set out in paragraphs (a) and (b) above, in which event they shall be conclusive and binding on the Noteholders and the Couponholders and the Trustee shall be entitled to rely on such certificate and opinion without further enquiry and without liability to any person.

7.3 Redemption at the option of the Issuer

Issuer Maturity Par Call

If the Issuer Maturity Par Call is specified as being applicable in the relevant Final Terms, the Issuer may at its option, having given not less than 10 nor more than 30 days' notice (or such other period of notice as is specified in the relevant Final Terms) to the Noteholders in accordance with Condition 13 (*Notices*) (which notice shall be irrevocable and shall specify the date fixed for redemption), redeem the Notes then outstanding in whole, but not in part, at any time during the period commencing on (and including) the Par Call Commencement Date (as specified in the relevant Final Terms) to (but excluding) the Maturity Date at their Final Redemption Amount specified in the applicable Final Terms, together (if appropriate) with interest accrued but unpaid to (but excluding) the date fixed for redemption.

Make-Whole Redemption by the Issuer

If so specified in the relevant Final Terms, the Issuer may at its option, subject to compliance with all relevant laws, regulations and directives and on giving not less than 10 nor more than thirty (30) days' notice (or such other period of notice as is specified in the relevant Final Terms) to the Noteholders in accordance with Condition 13 (*Notices*) (which notice shall be irrevocable and specify the date fixed for redemption), redeem in whole or in part the Notes at any time prior to the Maturity Date (the "**Make-Whole Redemption Date**") at the Make-Whole Redemption Amount.

The "**Make-Whole Redemption Amount**" will be calculated by the Principal Paying Agent and will be an amount in the Specified Currency rounded to the nearest Sub-Unit (with half a Sub-Unit rounded upwards) and equal to the greater of:

- (a) 100 per cent. of the principal amount of the Note; or

- (b) the sum of the then current values of the remaining scheduled payments of principal and interest on such Note to the Maturity Date (or, if a Par Call Commencement Date is specified in the relevant Final Terms, to the Par Call Commencement Date) (not including any interest accrued on the Note to, but excluding, the Make-Whole Redemption Date) discounted to the relevant Make-Whole Redemption Date on an annual basis at the Make-Whole Redemption Rate (as specified in the relevant Final Terms and as determined three Business Days prior to the Make-Whole Redemption Date) plus a Make-Whole Redemption Margin (as specified in the relevant Final Terms), plus in each case, any interest accrued on the Notes to, but excluding, the Make-Whole Redemption Date.

Issuer Residual Call

If Issuer Residual Call is specified as being applicable in the applicable Final Terms and, at any time, the outstanding aggregate nominal amount of the Notes is 20 per cent. or less of the aggregate nominal amount of the Series issued (other than as a result of the exercise by the Issuer of its redemption right under this Condition 7.3 (*Redemption at the option of the Issuer*)) to redeem some but not all of the Notes at the Make-Whole Redemption Amount, the Notes may be redeemed at the option of the Issuer in whole, but not in part, at any time (if the Floating Rate Note Provisions are specified in the relevant Final Terms as not being applicable) or on any Interest Payment Date (if the Floating Rate Note Provisions are specified in the relevant Final Terms as being applicable), on giving not less than 10 nor more than 30 days' notice (or such other period of notice as is specified in the relevant Final Terms) to the Noteholders in accordance with Condition 13 (*Notices*) (which notice shall be irrevocable and shall specify the date fixed for redemption) at the Residual Call Early Redemption Amount together, if appropriate, with interest accrued to (but excluding) the date of redemption.

7.4 Partial Redemption

If the Notes are to be redeemed in part only on any date in accordance with Condition 7.3 (*Redemption at the option of the Issuer*), the Notes to be redeemed shall be selected:

- (a) (if the Notes are in definitive form) by the drawing of lots in such place as the Trustee approves and in such manner as the Trustee considers appropriate, subject to compliance with applicable law, the rules of each competent authority, stock exchange and/or quotation system (if any) by which the Notes have then been admitted to listing, trading and/or quotation and the notice to Noteholders referred to in Condition 7.3 (*Redemption at the option of the Issuer*) shall specify the serial numbers of the Notes so to be redeemed; or
- (b) (if the Notes are in global form) in accordance with the rules and procedures of Euroclear and Clearstream, Luxembourg (to be reflected in the records of Euroclear and Clearstream, Luxembourg as either a pool factor or a reduction in principal amount, at their discretion).

If any Maximum Redemption Amount or Minimum Redemption Amount is specified in the relevant Final Terms, then the Make-Whole Redemption Amount shall in no event be greater than the maximum or be less than the minimum so specified.

7.5 Redemption at the option of the Holders upon a Change of Control Put Event

If Change of Control Put is specified as being applicable in the relevant Final Terms, upon the occurrence of a Change of Control Put Event, unless the Issuer has exercised its right to redeem the Notes in accordance with Condition 7.2 (*Redemption for Taxation Reasons*) or Condition 7.3 (*Redemption at the option of the Issuer*), each Noteholder shall have the option to require the Issuer to redeem or, at the Issuer's option, purchase (or procure the purchase of) that Note on the Put Date (as defined below) at its principal amount together with interest accrued to but excluding the Put Date.

Within 60 days following the date upon which the Change of Control Put Event has occurred, the Issuer shall give notice to the Noteholders in accordance with Condition 13 (*Notices*) of the occurrence of a Change of Control Put Event and shall, in the notice, specify a date being not less than 30 nor more than 60 days after the date on which the notice was given as the "**Put Date**".

To exercise such option, the Noteholder must deliver such Note to be redeemed or purchased, together with all Coupons relating to it maturing after the Put Date, to the specified office of the Principal Paying Agent at any time during normal business hours together with a duly completed notice of exercise in the form obtainable from the specified office of the Principal Paying Agent (a **“Change of Control Put Notice”**), not less than 15 nor more than 30 days before the Put Date. If the Notes are in global form, the Noteholder must specify in the Change of Control Put Notice the principal amount of Notes in respect of which such option is being exercised. A Change of Control Put Notice, once given, shall be irrevocable.

If 80 per cent. or more in aggregate principal amount of the Notes then outstanding have been redeemed or purchased pursuant to the foregoing provisions of this Condition 7.5 (*Redemption at the option of the Holders upon a Change of Control Put Event*), the Issuer may, having given not less than 30 nor more than 60 days' notice to the Noteholders (such notice being given within 30 days after the Put Date) in accordance with Condition 13 (*Notices*), redeem or purchase (or procure the purchase of), at its option, all (but not some only) of the remaining Notes at their principal amount together with interest accrued to but excluding the date fixed for such redemption or purchase.

In this Condition 7.5 (*Redemption at the option of the Holders upon a Change of Control Put Event*):

A **“Change of Control”** means the occurrence of any one of the following: (i) Control is acquired or held by any Person or any Persons acting in concert (“acting in concert” to be within the meaning of Section 5:45, subsection 5 of the Dutch Act on financial supervision (*Wet op het financieel toezicht*)) as to the exercise of Voting Shares or (ii) the Issuer consolidates with, or merges with or into, any Person, or any Person consolidates with, or merges with or into, the Issuer, in any such event pursuant to a transaction in which any of the outstanding Voting Shares of the Issuer or such other Person is converted into or exchanged for cash, securities or other property, other than any such transaction where the Voting Shares of the Issuer outstanding immediately prior to such transaction constitute, or are converted into or exchanged for, a majority of the Voting Shares of the surviving Person immediately after giving effect to such transaction, provided that a Change of Control shall be deemed not to occur (i) solely as a result of the issuance or transfer, with the co-operation of the Issuer's Supervisory Board, Board of Management or the Issuer's general meeting of shareholders, as applicable, and, in each case, if required, of any preference shares in the Issuer's share capital to the foundation Stichting Preferente Aandelen Philips or its successor; or (ii) if the event which would otherwise have constituted a Change of Control occurs or is carried on terms previously approved by the Trustee or by an Extraordinary Resolution.

“Change of Control Put Event” means the Notes are rated below Investment Grade by each of the Rating Agencies on any date during the period (the **“Change of Control Period”**) commencing on the date of the first public announcement by the Issuer of any Change of Control (or pending Change of Control) and ending 60 days following consummation of such Change of Control (which Change of Control Period will be extended following consummation of a Change of Control for so long as any of the Rating Agencies has publicly announced that it is considering a possible ratings downgrade) and are not, within the Change of Control Period, subsequently upgraded to an Investment Grade rating provided that a Change of Control Put Event otherwise arising by virtue of a particular reduction in rating shall not be deemed to have occurred in respect of a particular Change of Control (and shall not be deemed a Change of Control Put Event) if the Rating Agencies making the reduction in rating to which this definition would otherwise apply do not announce or publicly confirm or inform the Trustee in writing at its request that the reduction was the result, in whole or in part, of any event or circumstance comprised of or arising as a result of, or in respect of, the applicable Change of Control (whether or not the applicable Change of Control shall have occurred at the time of the Change of Control Put Event). Notwithstanding the foregoing, no Change of Control Put Event will be deemed to have occurred in connection with any particular Change of Control unless and until such Change of Control has actually been consummated.

“Control” means the ownership of such a number of Voting Shares carrying more than 50 per cent. of the voting rights of the Issuer.

“Investment Grade” means a rating of Baa3 or better by Moody's (or its equivalent under any successor rating category of Moody's); a rating of BBB- or better by S&P (or its equivalent under any successor rating

category of S&P); a rating of BBB- or better by Fitch (or its equivalent under any successor rating category of Fitch) or the equivalent investment grade credit rating from any replacement Rating Agency of equivalent international standing.

“**Person**” means any individual, company, corporation, firm, partnership, joint venture, undertaking, association, organisation, trust, state or agency of a state (in each case whether or not being a separate legal entity).

“**Rating Agency**” means each of Moody’s Deutschland GmbH (“**Moody’s**”), Fitch Ratings Ltd (“**Fitch**”) and S&P Global Ratings Europe Limited (“**S&P**”) and their respective successors.

“**Voting Shares**” means shares in the issued share capital of the Issuer carrying voting rights.

7.6 Early redemption of Zero Coupon Notes

Unless otherwise specified in the relevant Final Terms, the Redemption Amount payable on redemption of a Zero Coupon Note at any time before the Maturity Date shall be an amount equal to the sum of:

- (i) the Reference Price; and
- (ii) the product of the Accrual Yield (compounded annually) being applied to the Reference Price from (and including) the Issue Date to (but excluding) the date fixed for redemption or (as the case may be) the date upon which the Note becomes due and payable.

Where such calculation is to be made for a period which is not a whole number of years, the calculation in respect of the period of less than a full year shall be made on the basis of such Day Count Fraction as may be specified in the Final Terms for the purposes of this Condition 7.6 (*Early redemption of Zero Coupon Notes*) or, if none is so specified, a Day Count Fraction of 30E/360.

7.7 Purchases

The Issuer or any of its Subsidiaries may at any time purchase Notes (provided that all unmatured Coupons appertaining to the Notes are purchased with the Notes) in any manner and at any price.

7.8 Cancellations

All Notes which are (a) redeemed or (b) purchased by or on behalf of the Issuer or any of its Subsidiaries may be cancelled, together with all relative unmatured Coupons attached to the Notes or surrendered with the Notes or may be reissued or resold.

7.9 Notices Final

Upon the expiry of any notice as is referred to in Condition 7.2 (*Redemption for Taxation Reasons*), Condition 7.3 (*Redemption at the option of the Issuer*) or Condition 7.5 (*Redemption at the option of the Holders upon a Change of Control Put Event*) above the Issuer shall be bound to redeem the Notes to which the notice refers in accordance with the terms of such paragraph.

8. TAXATION

8.1 Payment without Withholding

All payments in respect of the Notes and the Coupons by or on behalf of the Issuer shall be made free and clear of, and without withholding or deduction for, or on account of, any present or future taxes, duties, assessments or governmental charges of whatever nature (“**Taxes**”), unless the withholding or deduction of the Taxes is required by law. In the event of Tax imposed or levied by or on behalf of any Relevant

Jurisdiction, the Issuer will pay such additional amounts as may be necessary in order that any amount received by the Noteholders or Couponholders after the withholding or deduction is equal to the amount that would have been received in respect of the Notes or, as the case may be, Coupons, in the absence of the withholding or deduction; except that no additional amounts shall be payable in relation to any payment in respect of any Note or Coupon:

- (a) the holder or beneficial owner (for the purposes of the relevant Tax) of which is liable for Tax in respect of such Note or Coupon by reason of having or having had a present or former connection with the Relevant Jurisdiction other than a mere holding of the Notes; or
- (b) presented for payment in the Netherlands where such withholding or deduction would not have been required had such Note or Coupon not been presented in the Netherlands; or
- (c) presented for payment more than 30 days after the Relevant Date except to the extent that a holder would have been entitled to additional amounts on presenting the same for payment on the last day of the period of 30 days assuming that day to have been a Presentation Date (as defined in Condition 6 (*Payments*)); or
- (d) presented for payment by, or on behalf of, a holder where the holder or the beneficial owner for the purpose of the relevant Tax is entitled to avoid such withholding or deduction in respect of such Note or Coupon by making a declaration or any other statement to the relevant tax authority, including, but not limited to, a declaration of residence or non-residence or other similar claim for exemption; or
- (e) payable due to any combination of items (a) to (d).

Notwithstanding any other provisions contained herein, the Issuer shall be permitted to withhold or deduct any amounts required pursuant to an agreement described in Section 1471(b) of the U.S. Internal Revenue Code (the “**Code**”) or otherwise imposed pursuant to Sections 1471 through 1474 of the Code (or any amended or successor provisions), any regulations or agreements thereunder, official interpretations thereof, or any law implementing an intergovernmental approach thereto (“**FATCA Withholding**”). The Issuer will have no obligation to pay additional amounts or otherwise indemnify an investor for any such FATCA Withholding deducted or withheld by the Issuer, any paying agent or any other party.

For the avoidance of doubt, the obligation of the Issuer to pay additional amounts in respect of Taxes will not apply to (i) any estate, inheritance, gift, sales, transfer, personal property or any similar tax, duty, assessment or other governmental charge or (ii) any Taxes payable otherwise than by deduction or withholding from payments of principal of, or interest on, the Notes or, as the case may be, Coupons.

8.2 Additional Amounts

Any reference in these Conditions to any amounts in respect of the Notes shall be deemed also to refer to any additional amounts which may be payable under this Condition 8 (*Taxation*) or under any undertakings given in addition to, or in substitution for, this Condition pursuant to the Trust Deed.

9. PRESCRIPTION

Notes and Coupons will become void unless presented for payment within periods of 10 years (in the case of principal) and 5 years (in the case of interest) from the Relevant Date in respect of the Notes or, as the case may be, the Coupons, subject to the provisions of Condition 6 (*Payments*).

10. EVENTS OF DEFAULT

If any of the following events (each an “**Event of Default**”) occurs and is continuing, the Trustee at its discretion may and, if so requested in writing by holders of at least one-quarter in principal amount of the

Notes then outstanding or, if so directed by an Extraordinary Resolution, shall (subject, in the case of the happening of any of the events mentioned in paragraphs (b) to (g) (other than (d) below), to the Trustee having certified in writing that the happening of such events is in its opinion materially prejudicial to the interests of the Noteholders) subject in all cases, to the Trustee having been indemnified and/or secured and/or prefunded to its satisfaction) give written notice to the Issuer declaring the Notes to be immediately due and payable, whereupon they shall become immediately due and payable at their principal amount together with accrued interest without further action or formality:

- (a) **Non-payment:** the Issuer fails to pay any amount of principal or interest due in respect of the Notes, and that failure to pay continues for more than 14 days after the due date for payment; or
- (b) **Breach of other obligations:** the Issuer defaults in the performance or observance of any one or more other obligations under or in respect of the Notes or the Trust Deed required to be performed or observed by the Issuer and such default is either:
 - (i) in the opinion of the Trustee, incapable of remedy, in which case no notice referred to in (ii) below will be required; or
 - (ii) in the opinion of the Trustee, capable of remedy and the default remains unremedied for 30 days (or such longer period as the Trustee may agree) after the Trustee has given written notice to the Issuer specifying the default and requiring that default to be remedied; or
- (c) **Cross-acceleration:** (i) the repayment of any indebtedness for borrowed money owing by the Issuer or any of its Material Subsidiaries is accelerated by reason of default (however expressed) and such acceleration has not been rescinded, waived, cancelled or annulled, or (ii) the Issuer or any of its Material Subsidiaries is in default (after the expiry of any originally applicable grace period) in any payment when due of such indebtedness for borrowed money; provided that no such event shall constitute an Event of Default (A) if it is being contested in good faith by, in the reasonable opinion of the Issuer, appropriate proceedings; or (B) unless the aggregate outstanding amount of such accelerated or unpaid indebtedness for borrowed money, whether alone or when aggregated with all other such outstanding accelerated or unpaid indebtedness for borrowed money, exceeds €100 million (or its equivalent in another currency or currencies); or
- (d) **Winding-up:** any final order is made by any competent court or other authority, or an effective resolution is passed for the liquidation, dissolution or winding-up of the Issuer or any of its Material Subsidiaries otherwise than (i) for the purposes of a Permitted Reorganisation; or (ii) on terms previously approved by the Trustee or by an Extraordinary Resolution; or
- (e) **Insolvency, etc.:** (i) the Issuer or any of its Material Subsidiaries admits in writing that it is insolvent or unable to pay its debts as they fall due, (ii) an administrator or liquidator is appointed (or application for any such appointment is made) in respect of the Issuer or any of its Material Subsidiaries or the whole or substantially all of the undertaking, assets and revenues of the Issuer or any of its Material Subsidiaries, (iii) the Issuer or any of its Material Subsidiaries makes a general assignment or an arrangement or composition with or for the benefit of its creditors or declares a moratorium in respect of any of its indebtedness or any guarantee of any indebtedness given by it or (iv) the Issuer or any of its Material Subsidiaries ceases or threatens to cease to carry on all or substantially all of its business otherwise, in each of (i) to (iv), than (i) for the purposes of a Permitted Reorganisation; or (ii) on terms previously approved by the Trustee or by an Extraordinary Resolution;
- (f) **Security enforced:** a secured party takes possession, or a receiver, manager or other similar officer is appointed, of the whole or substantially all of the undertaking, assets and revenues of the Issuer or any of its Material Subsidiaries; or

- (g) **Analogous Event:** if any event occurs which, under the laws of any Relevant Jurisdiction, has or may have an analogous effect to any of the events referred to in subparagraphs (d) to (f) above.

11. ENFORCEMENT

11.1 Enforcement by the Trustee

The Trustee may at any time, at its discretion and without notice, take such proceedings and/or other steps or action (including lodging an appeal in any proceedings) against or in relation to the Issuer as it may think fit to enforce the provisions of the Trust Deed, the Notes and the Coupons or otherwise, but it shall not be bound to take any such proceedings or other steps or action unless (a) it has been so directed by an Extraordinary Resolution of the Noteholders or so requested in writing by the holders of at least one-quarter in principal amount of the Notes then outstanding and (b) it has been indemnified and/or secured and/or pre-funded to its satisfaction against all liabilities to which it may thereby render itself liable or which it may incur by so doing and provided that the Trustee shall not be liable for the consequences of taking any such action and may take such action without having regard to the effect of such actions on individual Noteholders or Couponholders.

11.2 Limitation on Trustee actions

The Trustee may refrain from taking any action in any jurisdiction if the taking of such action in that jurisdiction would, in its opinion based upon legal advice in the relevant jurisdiction, be contrary to any law of that jurisdiction. Furthermore, the Trustee may also refrain from taking such action if it would otherwise render it liable to any person in that jurisdiction or if, in its opinion based upon such legal advice, it would not have the power to do the relevant thing in that jurisdiction by virtue of any applicable law in that jurisdiction or if it is determined by any court or other competent authority in that jurisdiction that it does not have such power.

11.3 Enforcement by the Noteholders

No Noteholder or Couponholder shall be entitled to (i) take any steps or action against the Issuer to enforce the performance of any of the provisions of the Trust Deed, the Notes or the Coupons or (ii) take any other proceedings (including lodging an appeal in any proceedings) in respect of or concerning the Issuer, in each case unless the Trustee, having become bound so to take any such action, steps or proceedings, fails so to do within a reasonable period and such failure shall be continuing.

12. REPLACEMENT OF NOTES AND COUPONS

Should any Note or Coupon be lost, stolen, mutilated, defaced or destroyed it may be replaced subject to applicable laws, regulations and stock exchange or other relevant authority regulations, at the specified office of the Principal Paying Agent upon payment by the claimant of the expenses incurred in connection with the replacement and on such terms as to evidence and indemnity as the Issuer may reasonably require. Mutilated or defaced Notes or Coupons must be surrendered before replacements will be issued.

13. NOTICES

13.1 Notices to the Noteholders

All notices to the Noteholders will be valid if published in a leading English language daily newspaper published in London and, so long as the Notes are admitted to listing on the Official List and to trading on the regulated market of the Luxembourg Stock Exchange and the rules of that exchange so require, a daily newspaper of general circulation in Luxembourg or the website of the Luxembourg Stock Exchange (at www.bourse.lu). It is expected that publication in a newspaper will normally be made in the *Financial Times* in London and the *Luxemburger Wort* in Luxembourg. Any such notice will be deemed to have been given on the date of the first publication or, where required to be published in more than one newspaper, on the date of the first publication in all required newspapers. If publication as provided above is not practicable,

notice will be given in such other manner, and shall be deemed to have been given on such date, as the Trustee may approve. Couponholders will be deemed for all purposes to have notice of the contents of any notice given to the Noteholders in accordance with this paragraph.

Until such time as any definitive Notes are issued, there may, so long as any Global Notes representing the Notes are held in their entirety on behalf of Euroclear and/or Clearstream, Luxembourg, be substituted for such publication in such newspaper(s) the delivery of the relevant Notice to Euroclear and/or Clearstream, Luxembourg for communication by them to the holders of the Notes and, in addition, for so long as any Notes are listed on a stock exchange or are admitted to trading by another relevant authority and the rules of that stock exchange or relevant authority so require, such notice will be published in a daily newspaper of general circulation in the place or places required by those rules. Any such notice shall be deemed to have been given to the holders of the Notes on the day after the day on which the said notice was given to Euroclear and/or Clearstream, Luxembourg.

13.2 Notices from the Noteholders

Notices to be given by any Noteholder shall be in writing and given by lodging the same, together with the relative Note or Notes, with the Principal Paying Agent or, if the Notes are held in a clearing system, may be given through the clearing system in accordance with its standard rules and procedures.

14. MEETINGS OF NOTEHOLDERS, MODIFICATION, WAIVER, AUTHORISATION AND DETERMINATION, SUBSTITUTION

14.1 Meetings of Noteholders

The Trust Deed contains provisions for convening meetings of the Noteholders to consider any matter affecting their interests, including the modification of any of these Conditions or any of the provisions of the Trust Deed. Any such modification may be made if sanctioned by an Extraordinary Resolution. Such a meeting may be convened by the Issuer or the Trustee and shall be convened by the Trustee (subject to it being indemnified and/or secured and/or prefunded to its satisfaction) upon the request in writing of the Noteholders holding not less than one-quarter of the aggregate principal amount of the outstanding Notes.

The quorum at any meeting convened to vote on an Extraordinary Resolution will be one or more persons present holding or representing more than 50 per cent. in principal amount of the Notes for the time being outstanding, or at any adjourned such meeting one or more persons present whatever the principal amount of the Notes held or represented by him or them, except that, at any meeting the business of which includes any matter defined in the Trust Deed as a Basic Terms Modification, including the modification of certain of the provisions of these Conditions and certain of the provisions of the Trust Deed (including the date of maturity of the Notes or any date for payment of interest thereon, reducing or cancelling the amount of principal or interest payable in respect of the Notes, altering the currency of payment of the Notes, altering the method of calculating the amount of any payment in respect of the Notes or changing the quorum requirements relating to meetings or the majority required to pass an Extraordinary Resolution), the necessary quorum required to pass an Extraordinary Resolution will be one or more persons present holding or representing not less than two-thirds, or at any adjourned such meeting not less than one-third, of the principal amount of the Notes for the time being outstanding.

In addition, the Trust Deed provides that a resolution in writing signed by or on behalf of the holders of not less than two-thirds in principal amount of the Notes for the time being outstanding or consent given by way of electronic consents through the relevant clearing system(s) by or on behalf of the holders of not less than two-thirds in principal amount of the Notes for the time being outstanding, shall, in each case, be effective as an Extraordinary Resolution of the Noteholders. An Extraordinary Resolution passed by the Noteholders will be binding on all Noteholders whether or not they are present at any meeting and whether or not they voted on the resolution, and on all Couponholders.

14.2 Modification, Waiver, Authorisation and Determination

The Trustee may agree, without the consent of the Noteholders or Couponholders (i) (other than in relation to any Basic Terms Modification (as defined in the Trust Deed)) to any modification of, or to the waiver or authorisation of any breach or proposed breach of, any of these Conditions or any of the provisions of the Trust Deed or the Agency Agreement, or determine, without any such consent as aforesaid, that any Event of Default or Potential Event of Default (as defined in the Trust Deed) shall not be treated as such (provided that, in any such case, it is not, in the opinion of the Trustee, materially prejudicial to the interests of the Noteholders), or (ii) to any modification which, in its opinion, is of a formal, minor or technical nature or to correct a manifest error or an error which is, in the opinion of the Trustee, proven or to comply with mandatory provisions of law. In addition, the parties to the Agency Agreement may agree to modify any provision thereof, save the Trustee shall only agree without the consent of the Noteholders to such modification if, in the opinion of the Trustee, such modification is not materially prejudicial to the interests of the Noteholders. Any such modification, authorisation, determination or waiver shall be binding on the Noteholders and Couponholders.

Additionally, the Issuer may, subject to Condition 5.2(j) (*Benchmark Discontinuation*), vary or amend these Conditions, the Trust Deed and/or the Agency Agreement to give effect to certain amendments without any requirement for the consent or approval of Noteholders of the relevant Notes or Coupons, as described in Condition 5.2(j) (*Benchmark Discontinuation*) and the Trustee shall agree to such variations or amendments on the basis set out in Condition 5.2(j) (*Benchmark Discontinuation*).

14.3 Trustee to have Regard to Interests of Noteholders as a Class

In connection with the exercise by it of any of its trusts, powers, authorities and discretions (including, without limitation, any modification, waiver, authorisation or determination), the Trustee shall have regard to the general interests of the Noteholders as a class but shall not have regard to any interests arising from circumstances particular to individual Noteholders or Couponholders (whatever their number) and, in particular but without limitation, shall not have regard to the consequences of any such exercise for individual Noteholders or Couponholders (whatever their number) resulting from their being for any purpose domiciled or resident in, or otherwise connected with, or subject to the jurisdiction of, any particular territory or any political sub-division thereof and the Trustee shall not be entitled to require, nor shall any Noteholder or Couponholder be entitled to claim, from the Issuer, the Trustee or any other person any indemnification or payment in respect of any tax consequence of any such exercise upon individual Noteholders or Couponholders except to the extent already provided for in Condition 8 (*Taxation*) and/or any undertaking given in addition to, or in substitution for, Condition 8 (*Taxation*) pursuant to the Trust Deed.

14.4 Notification to the Noteholders

Any modification, abrogation, waiver, authorisation or determination shall be binding on the Noteholders and the Couponholders and, unless the Trustee agrees otherwise, any modification shall be notified by the Issuer to the Noteholders as soon as practicable thereafter in accordance with Condition 13 (*Notices*).

14.5 Substitution

The Trustee may agree, without the consent of the Noteholders or the Couponholders, to the substitution of (i) any Subsidiary of the Issuer or (ii) any company which directly or indirectly owns 100 per cent. of the shares or other equity interests (as the case may be) carrying the right to vote in the Issuer in place of the Issuer as issuer and principal debtor under the Trust Deed, the Notes and the Coupons; provided that the Notes are unconditionally and irrevocably guaranteed by the Issuer and certain other conditions specified in the Trust Deed are fulfilled. Any such substitution shall be binding on the Noteholders and Couponholders and shall be notified to the Noteholders within 14 days thereafter.

15. INDEMNIFICATION AND PROTECTION OF THE TRUSTEE AND ITS CONTRACTING WITH THE ISSUER

15.1 Indemnification and protection of the Trustee

The Trust Deed contains provisions for the indemnification of the Trustee and for its relief from responsibility and liability towards the Issuer, the Noteholders and the Couponholders, including (i) provisions relieving it from taking action unless indemnified and/or secured and/or pre-funded to its satisfaction and (ii) provisions limiting or excluding its liability in certain circumstances.

15.2 Trustee Contracting with the Issuer

The Trust Deed also contains provisions pursuant to which the Trustee is entitled, *inter alia*, (a) to enter into business transactions with the Issuer and/or any of the Issuer's Subsidiaries and to act as trustee for the holders of any other securities issued or guaranteed by, or relating to, the Issuer and/or any of the Issuer's Subsidiaries, (b) to exercise and enforce its rights, comply with its obligations and perform its duties under or in relation to any such transactions or, as the case may be, any such trusteeship without regard to the interests of, or consequences for, the Noteholders or Couponholders, and (c) to retain and not be liable to account for any profit made or any other amount or benefit received thereby or in connection therewith.

16. FURTHER ISSUES

The Issuer may from time to time without the consent of the Noteholders or Couponholders create and issue further notes, having terms and conditions the same as those of the Notes, or the same except for the amount and date of the first payment of interest, which may be consolidated and form a single series with the outstanding Notes. Any further notes or bonds which are to form a single series with the outstanding notes or bonds of any series (including the Notes) constituted by the Trust Deed or any supplemental deed shall, and any other further notes or bonds may (with the consent of the Trustee), be constituted by a deed supplemental to the Trust Deed. The Trust Deed contains provisions for convening a single meeting of the Noteholders and the holders of notes or bonds of other series in certain circumstances where the Trustee so decides.

17. GOVERNING LAW AND SUBMISSION TO JURISDICTION

17.1 Governing Law

The Trust Deed, the Notes and the Coupons and any non-contractual obligations arising out of or in connection with the Trust Deed, the Notes and the Coupons are governed by, and construed in accordance with, English law.

17.2 Submission to Jurisdiction

- (a) Subject to Condition 17.2(c) below, the English courts have exclusive jurisdiction to settle any dispute arising out of or in connection with the Trust Deed, the Notes or the Coupons, including any dispute as to their existence, validity, interpretation, performance, breach or termination or the consequences of their nullity and any dispute relating to any non-contractual obligations arising out of or in connection with the Trust Deed, the Notes or the Coupons (a “**Dispute**”) and each of the Issuer, the Trustee and any Noteholders or Couponholders in relation to any Dispute submits to the exclusive jurisdiction of the English courts.
- (b) For the purposes of this Condition 17.2 (*Submission to Jurisdiction*), the Issuer waives any objection to the English courts on the grounds that they are an inconvenient or inappropriate forum to settle any Dispute.
- (c) To the extent allowed by law, the Issuer, the Trustee, the Noteholders and the Couponholders may, in respect of any Dispute or Disputes, take (i) proceedings in any other court with jurisdiction and (ii) concurrent proceedings in any number of jurisdictions.

17.3 Appointment of Process Agent

The Issuer irrevocably appoints Philips Electronics UK Limited (Attention: Company Secretary), Philips Centre, Guildford Business Park, Guildford, Surrey GU2 8XG as its agent for service of process in any proceedings before the English courts in relation to any Dispute and agrees that, in the event of Philips Electronics UK Limited being unable or unwilling for any reason so to act, it will immediately appoint another person approved by the Trustee as its agent for service of process in England in respect of any Dispute. The Issuer agrees that failure by a process agent to notify it of any process will not invalidate service. Nothing in this Condition 17.3 (*Appointment of Process Agent*) shall affect the right to serve process in any other manner permitted by law.

17.4 Other Documents

The Issuer has in the Agency Agreement and the Trust Deed submitted to the jurisdiction of the English courts and appointed an agent in England for service of process, in terms substantially similar to those set out above.

18. RIGHTS OF THIRD PARTIES

No rights are conferred on any person under the Contracts (Rights of Third Parties) Act 1999 to enforce any term of this Note, but this does not affect any right or remedy of any person which exists or is available apart from that Act.

FORM OF FINAL TERMS

Set out below is the form of Final Terms which will be completed for each Tranche of Notes issued under the Programme.

[PROHIBITION OF SALES TO EEA AND UK RETAIL INVESTORS] – The Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the European Economic Area (the “**EEA**”) or in the United Kingdom (the “**UK**”). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU (as amended, “**MiFID II**”); or (ii) a customer within the meaning of Directive (EU) 2016/97, where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II. Consequently no key information document required by Regulation (EU) No 1286/2014 (as amended, the “**PRIPs Regulation**”) for offering or selling the Notes or otherwise making them available to retail investors in the EEA or in the UK has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the EEA or in the UK may be unlawful under the PRIPs Regulation.]

MIFID II product governance / Professional investors and ECPs only target market – Solely for the purposes of [the/each] manufacturer’s product approval process, the target market assessment in respect of the Notes has led to the conclusion that: (i) the target market for the Notes is eligible counterparties and professional clients only, each as defined in [Directive 2014/65/EU (as amended, “**MiFID II**”)] [MiFID II]; and (ii) all channels for distribution of the Notes to eligible counterparties and professional clients are appropriate. [Consider any negative target market.] Any person subsequently offering, selling or recommending the Notes (a “**distributor**”) should take into consideration the manufacturer[‘s/s’] target market assessment; however, a distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the manufacturer[‘s/s’] target market assessment) and determining appropriate distribution channels.

Singapore Securities and Futures Act Product Classification – Solely for the purposes of its obligations pursuant to sections 309B(1)(a) and 309B(1)(c) of the Securities and Futures Act (Chapter 289 of Singapore) (the “**SFA**”), the Issuer has determined, and hereby notifies all relevant persons (as defined in Section 309A of the SFA that the Notes are [“prescribed capital markets products”]/[capital markets products other than “prescribed capital markets products”] (as defined in the Securities and Futures (Capital Markets Products) Regulations 2018).

DESCRIPTION OF THE ISSUER AND THE GROUP

History and Development

The Issuer is a public limited liability company (*naamloze vennootschap*) organised under the laws of the Netherlands and is the parent company of the Group, headquartered in Amsterdam, the Netherlands. The Issuer, which started as a limited partnership with the name Philips & Co in Eindhoven, the Netherlands, in 1891, was converted into a company with limited liability with the name N.V. Philips' Gloeilampenfabrieken on 11 September 1912. The Issuer's legal and commercial name was changed to Philips Electronics N.V. on 6 May 1994, to Koninklijke Philips Electronics N.V. on 1 April 1998 and to Koninklijke Philips N.V. on 15 May 2013. Its shares have been listed on the Amsterdam Stock Exchange, Euronext Amsterdam, since 1912. The shares have been traded in the United States since 1962 and have been listed on the New York Stock Exchange since 1987. The Issuer's corporate seat (*statutaire zetel*) is in Eindhoven, the Netherlands, and the executive offices of the Issuer are located at the Philips Center, Amstelplein 2, 1096 BC Amsterdam, the Netherlands.

The Issuer is registered with the Dutch Chamber of Commerce with number 17001910. Its telephone number is +31 20 59 77 777.

The Issuer is managed by the members of the Executive Committee (comprising the board of management ("**Board of Management**") and certain key officers) under the supervision of the supervisory board ("**Supervisory Board**"). The Executive Committee operates under the chairmanship of the Chief Executive Officer ("**CEO**") and shares responsibility for the deployment of the Group's strategy and policies, and the achievement of its objectives and results.

In September 2014, the Issuer announced its plan to sharpen its strategic focus by establishing two stand-alone companies focused on the HealthTech and Lighting opportunities respectively. A standalone structure was established for lighting activities within the Group, effective 1 February 2016. On 27 May 2016, Philips Lighting (renamed Signify in 2018) was listed and started trading on Euronext in Amsterdam under the symbol 'LIGHT'. Following the listing of Signify, the Issuer retained a 71.23 per cent. stake.

In 2017, the Issuer successfully completed three accelerated bookbuild offerings to institutional investors of 65.35 million shares in Signify, reducing the Issuer's stake in the issued share capital to 29.01 per cent. by the end of 2017. The first two transactions in February and April 2017 involved 48.25 million shares. In April 2017, the Issuer concluded that a "loss of control" from an accounting perspective could occur due to the further sell down of the remaining shares within one year. Accordingly, from that date the lighting activities (substantially representing Signify shares) were presented as a discontinued operation.

In November 2017, by selling another 17.1 million shares, the Issuer lost control, resulting in the deconsolidation of Signify. The position of 29.01 per cent. as of 31 December 2017 was a temporary position, which fitted in the Issuer's overall single coordinated plan to sell Signify in its entirety. Consequently, any future results related to the retained interest, like value adjustments, results upon disposal and dividends, were reflected in Discontinued operations. The Signify shares were presented as an asset classified as held for sale.

In February 2018, the Issuer successfully completed a fourth accelerated bookbuild offering to institutional investors of 16.22 million shares in Signify. During that year, the Issuer sold Signify shares in the open market, reducing its shareholding to 16.5 per cent. of Signify's issued share capital as of 31 December 2018. As from that date, the Issuer no longer had board representation in the Supervisory Board of Signify. The remaining shares were reclassified to Other current financial assets, with fair value changes recognised through Other comprehensive income.

The Issuer's existing long-term debt is rated Baa1 (with stable outlook) by Moody's, A- (with stable outlook) by Fitch and BBB+ (with stable outlook) by S&P.

The Issuer's website can be accessed at: <https://www.philips.com/a-w/about/investor.html>. The information on the website does not form part of this Base Prospectus except to the extent that information is incorporated by reference into this Base Prospectus.

Business of the Group

As of 1 January 2019, the Group's reportable segments were the Diagnosis & Treatment businesses, Connected Care businesses, and Personal Health businesses, each responsible for the management of its business worldwide. Additionally, the Issuer identifies the reportable segment Other.

Diagnosis & Treatment Businesses

Overview

The Group's Diagnosis & Treatment businesses are foundational to its health technology strategy, delivering on the promise of precision diagnosis and image-guided therapies. The Group enables its customers to realise the full potential of the "quadruple aim": an improved patient experience, better health outcomes, an improved staff experience and lower cost of care.

The Group is focused on solutions (consisting of artificial intelligence ("AI") enabled suites of systems, smart devices, software and services) that help healthcare providers to meet their most pressing clinical, operational and financial goals. By integrating multiple sources of information across imaging, pathology and genomics to create a comprehensive single patient view. The Group supports clinicians to realise a precision diagnosis for each patient: disease-specific, personalised and predictive.

Informatics is central to everything the Group does. In 2019, the Issuer expanded its Enterprise Diagnostic Informatics portfolio with the acquisition of Carestream Health's Healthcare Information Systems business. Adding an innovative cloud-based informatics platform, the Group's offering now includes advanced vendor neutral archive solutions, diagnostic and enterprise viewers, interactive multimedia reporting, AI-enabled clinical, operational and business analytics tools, as well as tele-radiology and diagnostic patient management services.

The Group continues to expand the applications for image-guided therapies and improve workflow and integration. In 2019, less than three years on from its launch, the one-millionth procedure was carried out on Philips' Azurion image-guided therapy platform. In 2019, the Group also launched Azurion in China, following clearance from the country's National Medical Products Administration.

The Group's Diagnosis & Treatment businesses' value proposition to customers is based on combining the Group's extensive clinical experience with its broad portfolio of technologies, making the Group capable of providing meaningful solutions that can ultimately improve the lives of the patients the Group serves while lowering the cost of care delivery for the Group's customers.

Through the Group's various businesses, Diagnosis & Treatment is focused on growing market share and profitability by leveraging:

- industry-leading clinical applications and excellent image quality to drive growth in the core subspecialties as well as attractive adjacencies in Ultrasound;
- the Group's suite of innovative procedural solutions to support delivery of the right therapy in real-time in Image-Guided Therapy;
- intelligent, AI-enabled applications combined with successful innovations in the Group's systems platforms in Diagnostic Imaging; and
- enhanced offerings in oncology, cardiology and radiology, and expanding the Group's solutions offering, which comprises systems, smart devices, software and services.

In 2019, the Diagnosis & Treatment segment consisted of the following areas of business:

- Diagnostic Imaging: Magnetic Resonance Imaging, Computed Tomography, Advanced Molecular Imaging, Diagnostic X-Ray, as well as integrated clinical solutions, which include radiation oncology treatment planning, disease-specific oncology solutions and X-Ray dose management.

- **Image-Guided Therapy:** interventional X-ray systems, encompassing cardiovascular, radiology and surgery, and interventional imaging and therapy devices that include Intravascular Ultrasound, fractional flow reserve and instantaneous wave-free ratio, and atherectomy catheters and drug-coated balloons for the treatment of coronary artery and peripheral vascular disease.
- **Ultrasound:** imaging products focused on diagnosis, treatment planning and guidance for cardiology, general imaging, obstetrics/gynaecology, and point-of-care applications, as well as proprietary software capabilities to enable advanced diagnostics and interventions.
- **Enterprise Diagnostic Informatics:** a suite of integrated products and services that deliver a comprehensive platform designed to connect clinical capabilities and optimise workflows around every step in the patient's journey across a range of diagnostic (radiology, point-of-care, laboratory) and clinical (oncology, cardiology, neurology) service lines.
- In 2019, Digital & Computational Pathology was moved out of the segment Other into Diagnosis & Treatment to enable better access to downstream capabilities. Digital & Computational Pathology digitizes diagnosis in anatomic pathology and uses Artificial Intelligence to aid detection of disease and progression to reduce inter-observer variability and improve outcomes.

For the year ended 31 December 2019, in the Diagnosis & Treatment segment, Diagnostic Imaging represented 40 per cent. of total sales, Image Guided Therapy represented 32 per cent. of total sales, Ultrasound represented 21 per cent. of total sales and Enterprise Diagnostic Informatics represented 7 per cent. of total sales.

Revenue is predominantly earned through the sale of products, leasing, customer services fees, recurring per-procedure fees for disposable devices and software licence fees. For certain offerings, per-study fees or outcome-based fees are earned over the contract term.

Sales channels are a mix of a direct sales force, especially in all the larger markets, third-party distributors and an online sales portal. This varies by product, market and price segment. The Group's sales organisations have an intimate knowledge of technologies and clinical applications, as well as the solutions necessary to solve problems for the Group's customers.

Sales at the Group's Diagnosis & Treatment businesses are generally higher in the second half of the year, largely due to the timing of new product availability and customer spending patterns.

As of 31 December 2019, Diagnosis & Treatment had approximately 31,000 employees worldwide.

Connected Care & Health Informatics Businesses

Overview

Spanning the entire health continuum, the Connected Care businesses aim to improve patient outcomes, increase efficiency and enhance patient and care-giver satisfaction, thereby driving towards value-based care. The Group's solutions build on its strength in monitoring and analytics, sleep and respiratory care, therapeutic care, population health management and connected care informatics to improve clinical and economic outcomes in all care settings, within and outside the hospital.

The Group has a deep understanding of clinical care and the patient experience that, when coupled with its consultative approach, allows the Group to be an effective partner for transformation, both across the enterprise and at the level of the individual clinician. The Group delivers services that take the burden off hospital staff with optimised patient and data flow, predictive analytics, improved workflow, customised training and improved accessibility across the Group's application landscape.

This requires a secure common digital platform that connects and aligns consumers, patients, payers and healthcare providers. The Group's platforms aggregate and leverage information from clinical, personal and historical data to support care providers in delivering first-time-right diagnoses and treatment.

The Group delivers personalised insights by applying predictive analytics and AI across its solutions. For example, the Group is able to support healthcare professionals caring for elderly patients living independently at home in making clinical decisions and alerting medical teams to potential issues. The Group's integrated and data-driven approach promotes seamless patient care, helps identify risks and needs of different groups within a population and provides clinical decision support.

In 2019, the Connected Care segment consisted of the following areas of business:

- **Monitoring & Analytics:** integrated patient monitoring systems for all price levels, wearable biosensors, advanced intelligence platforms for real-time clinical information at the patient's bedside; patient analytics, including diagnostic electrocardiogram data management; maintenance, clinical and IT services, as well as consumables.
- **Sleep & Respiratory Care:** the Group's Sleep offerings span from consumer sleep solutions, including those for disease-state sleep such as obstructive sleep apnea, to end-to-end solutions that encompass consumer engagement, diagnostics, people-centric therapy, cloud-based connected propositions and care management services. Respiratory offerings include chronic obstructive pulmonary disease care management with digital and connected solutions; hospital respiratory care provides invasive and non-invasive ventilators for acute and sub-acute hospital environments; home respiratory care supports the home care environment.
- **Therapeutic Care:** Emergency care & resuscitation solutions for both inside and outside the hospital, including cardiac resuscitation and emergency care solutions (including devices, services, and digital/data solutions); consumables across the patient monitoring and therapeutic care businesses; customer service, including clinical, IT, technical and remote customer propositions.
- **Population Health Management:** Data, analytics and actionable workflow products are leveraged for solutions to improve clinical and financial results and increase patient engagement, satisfaction and compliance. These solutions include: technology-enabled monitoring and intervention support outside the hospital (telehealth, remote patient monitoring, personal emergency response systems and care coordination) to improve the experience of elderly people and those living with chronic conditions; actionable programmes to predict risk (including medication and care compliance, outreach, and fall prediction); and cloud-based solutions for health organisations to manage population health.
- **Connected Care Informatics** was created in 2019 to drive cohesive informatics innovations across the health continuum. Connecting people, technology and processes, Connected Care Informatics' capabilities include a fully integrated electronic medical record business called Tasy. Connected Care Informatics also offers an advanced electronic intensive care unit/tele-intensive care unit programme, an informatics solutions business under the umbrella of IntelliSpace Enterprise Edition, Command Center solutions and integration services (Enterprise Integrated Solutions/IntelliBridge Enterprise).

For the year ended 31 December 2019, in the Connected Care segment, Monitoring & Analytics represented 41 per cent. of total sales, Sleep & Respiratory Care represented 47 per cent. of total sales, Therapeutic Care represented 5 per cent. of total sales, Population Health Management represented 4 per cent. of total sales and Connected Care Informatics represented 3 per cent. of total sales.

In most of the Connected Care businesses, revenue is earned through the sale of products and solutions, customer services fees and software licence fees. Where bundled offerings result in solutions for the Group's customers, or offerings are based on the number of people being monitored, the Group sees more usage-based earnings models. In Sleep & Respiratory Care, revenue is generated both through product sales and through rental models, whereby revenue is generated over time.

Sales channels include a mix of a direct sales force, partly paired with an online sales portal and distributors (varying by product, market and price segment). Sales are mostly driven by a direct sales force with an intimate knowledge of the procedures that use the Group's integrated solutions' smart devices, systems, software and services. The Group works with customers and partners to co-create solutions, drive commercial innovation and adapt to new models such as "monitoring-as-a-service".

Sales at the Group's Connected Care businesses are generally higher in the second half of the year, largely due to customer spending patterns.

As of 31 December 2019, Connected Care had approximately 15,000 employees worldwide.

Personal Health Businesses

Overview

The Group's Personal Health businesses play an important role on the health continuum, in the healthy living, prevention and home care stages, delivering integrated, connected and personalised solutions that support healthier lifestyles and those living with chronic disease.

Leveraging its deep consumer expertise and extensive healthcare know-how, the Group enables people to live a healthy life in a healthy home environment, and to proactively manage their own health.

Supported by meaningful innovation and high-impact marketing, the Group is focused on three key objectives:

- growing the Group's core businesses through geographical expansion and increased penetration;
- unlocking business value through direct digital consumer engagement, leading to higher brand preference and recurring revenues; and
- extending the Group's core businesses with innovative solutions and new business models to address unmet consumer needs.

In 2019, the Personal Health segment consisted of the following areas of business:

- Oral Healthcare: power toothbrushes, including Sonicare app; brush heads/interdental/whitening.
- Mother & Child Care: infant feeding (breast pumps, baby bottles, sterilisers), digital parental solutions (Pregnancy and Baby apps)
- Personal Care: male grooming (shavers, OneBlade, groomers, trimmers), beauty (skin care, hair care, hair removal).
- Domestic Appliances: kitchen appliances (juicers, blenders, Airfryer, food processors), home care (vacuum cleaners, air purifiers), garment care (irons, steam generators), coffee (appliances and accessories)

For the year ended 31 December 2019, Oral Healthcare represented 21 per cent. of total sales in the Personal Health segment; Mother & Child Care represented 7 per cent. of total sales; Personal Care represented 32 per cent. of total sales; Domestic Appliances represented 40 per cent. of total sales.

Through its Personal Health businesses, the Group offers a broad range of solutions in various consumer price segments, always aiming to offer and realise premium value. The Group continues to rationalise its portfolio of locally relevant innovations and increase its accessibility, particularly in lower-tier cities in growth geographies. The Group is well positioned to capture further growth in online sales and continue to build its digital and ecommerce capabilities.

The Group is leveraging connectivity to offer new business models, partnering with other participants in the health ecosystem with the goal of extending opportunities for people to live healthily, prevent or manage disease. The Group is engaging with consumers in their health journey in new and impactful ways through social media and digital innovation. For example, the Philips Sonicare app acts as a ‘virtual hub’ for personal oral healthcare, helping users to manage their complete oral care on a daily basis and share brushing data with their dental practitioners, putting personalised guidance and advice at their fingertips.

The Group also offers solutions that support babies and parents on every step of their journey so that they can more fully enjoy those precious early moments. Philips Pregnancy+ is a pregnancy tracker app that allows mothers to follow their baby’s development with 3D fetal imagery. The app offers mothers customised information at every stage of their pregnancy and enables them to share their pregnancy journey with family and professionals.

The Group’s wide portfolio of connected consumer health platforms, such as its Sonicare dental solutions, leverages Philips HealthSuite, a cloud-enabled connected health ecosystem of devices, apps and digital tools that enable personalised health and continuous care.

The revenue model is mainly based on product sale at the point in time the products are delivered to the end-user or wholesalers or distributors. As with the Direct to Consumer transformation, the Group sees good traction to further diversify the revenue model with new business models (including subscriptions and services).

The Group’s Personal Health businesses experience seasonality, with higher sales around key national and international events and holidays.

As of 31 December 2019, Personal Health employed approximately 16,000 people worldwide.

Material Contracts

Royal Philips Revolving Credit Facility

On 12 April 2017, the Issuer entered into a €1 billion revolving credit facility (“**RCF**”) with a consortium of international banks. The interest rate under the RCF will be partially dependent on the Issuer’s year-on-year sustainability performance improvement. This innovative construction was created by the Issuer in collaboration with ING as the ‘Sustainability Coordinator’ of the RCF and supported by the banks in the consortium.

The RCF has a maturity date of 21 April 2024, and can be used for general corporate purposes. As of 31 December 2019, the Issuer has no amounts outstanding under the RCF.

Recent Developments

On 28 January 2020, the Issuer announced that it will review options for future ownership of its Domestic Appliances business belonging to Personal Health. The Issuer will start the process of creating a separate legal structure for this business within the Group, which is expected to be completed in the course of 2021. The Domestic Appliances business had EUR 2.3 billion sales in the fiscal year ended 31 December 2019. Following the separation of the

Domestic Appliances business, the retained Personal Health businesses will continue to play an important role in the Issuer's integrated health continuum approach through connected products and solutions to support the health and wellbeing of people.

In addition to its EUR 1.5 billion share repurchase program, which was announced on 29 January 2019, the Issuer announced on 27 January 2020 that it will repurchase up to 6 million shares to cover certain of its obligations arising from its long-term incentive and employee stock purchase plans. At the share price on the date of the announcement, the shares represent an amount of up to approximately EUR 265 million. The repurchases will be executed through one or more individual forward transactions, to be entered into in the course of the first half of 2020, in accordance with the Market Abuse Regulation and within the limits of the authorisation granted by the Issuer's General Meeting of Shareholders held on 9 May 2019.

The impact of the coronavirus outbreak on public life and the industry in China is also affecting the demand for the Group's consumer portfolio in the country and the Group's global supply chain. While this is expected to have a negative impact on the financial performance of the Group in the first quarter of 2020, the Issuer cannot quantify the magnitude and duration of such impact as of the date of this Base Prospectus given the fluidity of the situation.

TAXATION

Taxation in the Netherlands

This section outlines the principal Dutch tax consequences of the acquisition, holding, settlement, redemption and disposal of the Notes. It does not present a comprehensive or complete description of all aspects of Dutch tax law which could be of relevance to Noteholders. For Dutch tax purposes, a Noteholder may include an individual, or an entity, that does not hold the legal title of the Notes, but to whom nevertheless the Notes, or their income, are attributed based either on this individual or entity owning a beneficial interest in the Notes or based on specific statutory provisions. These include statutory provisions under which Notes are attributed to an individual who is, or who has directly or indirectly inherited from a person who was, the settlor, grantor or similar originator of a trust, foundation or similar entity that holds the Notes.

This paragraph is intended as general information only. A prospective Noteholder should consult his own tax adviser regarding the tax consequences of any acquisition, holding or disposal of Notes.

This paragraph is based on Dutch tax law as applied and interpreted by Dutch tax courts and as published and in effect on the date of this Base Prospectus, including, for the avoidance of doubt, the tax rates applicable on that date, without prejudice to any amendments introduced at a later date and implemented with or without retroactive effect.

Any reference in this paragraph made to Dutch taxes, Dutch tax or Dutch tax law must be construed as a reference to taxes of whatever nature levied by or on behalf of the Netherlands or any of its subdivisions or taxing authorities or to the law governing such taxes, respectively. The Netherlands means the part of the Kingdom of the Netherlands located in Europe.

Any reference made to a treaty for the avoidance of double taxation concluded by the Netherlands includes the Tax Regulation for the Kingdom of the Netherlands (*Belastingregeling voor het Koninkrijk*), the Tax Regulation for the country of the Netherlands (*Belastingregeling voor het land Nederland*), the Tax Regulation the Netherlands Curacao (*Belastingregeling Nederland Curacao*), the Tax Regulation for the Netherlands Saint Martin (*Belastingregeling Nederland Sint Maarten*) and the Agreement between the Taipei Representative Office in the Netherlands and the Netherlands Trade and Investment Office in Taipei for the avoidance of double taxation.

This section does not describe the possible Dutch tax considerations or consequences that may be relevant to a Noteholder:

- (i) who is an individual and for whom the income or capital gains derived from the Notes are attributable to employment activities, the income from which is taxable in the Netherlands;
- (ii) which has a substantial interest (*aanmerkelijk belang*) or a fictitious substantial interest (*fictief aanmerkelijk belang*) in the Issuer within the meaning of chapter 4 of the Dutch Income Tax Act 2001 (*Wet inkomstenbelasting 2001*). Generally, a Noteholder has a substantial interest in the Issuer if the Noteholder, alone or, in the case of an individual, together with a partner for Dutch tax purposes, or any relative by blood or by marriage in the ascending or descending line (including foster-children) of the Noteholder or the partner, owns or holds, or is deemed to own or hold, certain rights to shares, including rights to directly or indirectly acquire shares, directly or indirectly representing 5 per cent. or more of the Issuer's issued capital as a whole or for any class of shares or profit participating certificates (*winstbewijzen*) relating to 5 per cent. or more of the Issuer's annual profits or 5 per cent. or more of the Issuer's liquidation proceeds;
- (iii) that is an entity which under the Dutch Corporate Income Tax Act 1969 (*Wet op de vennootschapsbelasting 1969*) (the "CITA"), is not subject to Dutch corporate income tax or is in full or in part exempt from Dutch corporate income tax (such as a qualifying pension fund); or
- (iv) that is an investment institution (*beleggingsinstelling*) as described in Section 6a or 28 CITA.

Withholding Tax

Any payments made under the Notes will not be subject to withholding or deduction for, or on account of, any Dutch taxes.

Taxes on Income and Capital Gains

Residents of the Netherlands

The description of certain Dutch tax consequences in this paragraph is only intended for the following Noteholders:

- (i) individuals who are resident or deemed to be resident in the Netherlands (“**Dutch Individuals**”); and
- (ii) entities or enterprises that are subject to the CITA and are resident or deemed to be resident in the Netherlands (“**Dutch Corporate Entities**”).

Dutch Individuals engaged or deemed to be engaged in an enterprise or in miscellaneous activities

Dutch Individuals engaged or deemed to be engaged in an enterprise or in miscellaneous activities (*resultaat uit overige werkzaamheden*) are generally subject to income tax at statutory progressive rates with a maximum of 49.50 per cent. with respect to any benefits derived or deemed to be derived from the Notes, including any capital gains realised on their disposal, that are attributable to:

- (iii) an enterprise from which a Dutch Individual derives profits, whether as an entrepreneur (ondernemer) or pursuant to a co-entitlement (medegerechtigde) to the net worth of this enterprise other than as an entrepreneur or a shareholder; or
- (iv) miscellaneous activities, including, without limitation, activities which are beyond the scope of active portfolio investment activities (*meer dan normaal vermogensbeheer*).

Dutch Individuals not engaged or deemed to be engaged in an enterprise or in miscellaneous activities

Generally, the Notes held by a Dutch Individual who is not engaged or deemed to be engaged in an enterprise or in miscellaneous activities, will be subject annually to an income tax imposed on a fictitious yield on the Notes. The Notes held by this Dutch Individual will be taxed under the regime for savings and investments (*inkomen uit sparen en beleggen*). Irrespective of the actual income or capital gains realised, the annual taxable benefit of the assets and liabilities of a Dutch Individual that are taxed under this regime, including the Notes, is set at a percentage of the positive balance of the fair market value of these assets, including the Notes, and the fair market value of these liabilities. The percentage increases:

- (i) from 1.80 per cent. of this positive balance up to €72,797;
- (ii) to 4.22 per cent. of this positive balance of €72,797,01 up to €1,005,572; and
- (iii) to a maximum of 5.33 per cent. of this positive balance of €1,005,572 or higher.

No taxation occurs if this positive balance does not exceed a certain threshold (*heffingvrij vermogen*). The fair market value of assets, including the Notes, and liabilities that are taxed under this regime is measured, in general, exclusively on 1 January of every calendar year. The tax rate under the regime for savings and investments is a flat rate of 30 per cent.

Dutch Corporate Entities

Dutch Corporate Entities are generally subject to corporate income tax at statutory rates up to 25 per cent. with respect to any benefits derived or deemed to be derived from the Notes, including any capital gains realised on their disposal.

Non-residents of the Netherlands

The description of certain Dutch tax consequences in this paragraph is only intended for the following Noteholders:

- (i) individuals who are not resident and not deemed to be resident in the Netherlands (“**Non-Dutch Individuals**”); and
- (ii) entities that are not resident and not deemed to be resident in the Netherlands (“**Non-Dutch Corporate Entities**”).

Non-Dutch Individuals

A Non-Dutch Individual will not be subject to any Dutch taxes on income or capital gains in respect of the purchase, ownership and disposal or transfer of the Notes, unless:

- (i) the Non-Dutch Individual derives profits from an enterprise, whether as entrepreneur or pursuant to a co-entitlement to the net worth of this enterprise other than as an entrepreneur or a shareholder, which enterprise is, in whole or in part, carried on through a permanent establishment (*vaste inrichting*) or a permanent representative (*vaste vertegenwoordiger*) in the Netherlands, to which the Notes are attributable;
- (ii) the Non-Dutch Individual derives benefits from miscellaneous activities carried on in the Netherlands in respect of the Notes, including (without limitation) activities which are beyond the scope of active portfolio investment activities; or
- (iii) the Non-Dutch Individual is entitled to a share in the profits of an enterprise, other than by way of securities, which enterprise is effectively managed in the Netherlands and to which enterprise the Notes are attributable.

Non-Dutch Corporate Entities

A Non-Dutch Corporate Entity will not be subject to any Dutch taxes on income or capital gains in respect of the purchase, ownership and disposal or transfer of the Notes, unless:

- (i) the Non-Dutch Corporate Entity derives profits from an enterprise, which enterprise is, in whole or in part, carried on through a permanent establishment or a permanent representative in the Netherlands, to which the Notes are attributable; or
- (ii) the Non-Dutch Corporate Entity is entitled to a share in the profits of an enterprise or a co-entitlement to the net worth of an enterprise, other than by way of securities, which enterprise is effectively managed in the Netherlands and to which enterprise the Notes are attributable.

Under certain specific circumstances, Dutch taxation rights may be restricted for Non-Dutch Individuals and Non-Dutch Corporate Entities pursuant to treaties for the avoidance of double taxation.

Dutch Gift Tax or Inheritance Tax

No Dutch gift tax or inheritance tax is due in respect of any gift of the Notes by, or inheritance of the Notes on the death of, a Noteholder, unless:

- (i) at the time of the gift or death of the Noteholder, the Noteholder is resident, or is deemed to be resident, in the Netherlands;
- (ii) the Noteholder dies within 180 days after the date of the gift of the Notes while being, or being deemed to be, resident in the Netherlands at the time of his death but not at the time of the gift; or

- (iii) the gift of the Notes is made under a condition precedent and the Noteholder is resident, or is deemed to be resident, in the Netherlands at the time the condition is fulfilled.

Other Taxes and Duties

No other Dutch taxes, including taxes of a documentary nature, such as capital tax, stamp or registration tax or duty, are payable by the Issuer or by, or on behalf of, the Noteholders by reason only of the issue, acquisition or transfer of the Notes.

Residency

A Noteholder will not become resident, or deemed resident, in the Netherlands by reason only of holding the Notes. Subject to the exceptions above, a Noteholder will not become subject to Dutch taxes by reason only of the Issuer's performance, or the Noteholder's purchase (by way of issue or transfer to the Noteholder), ownership or disposal of the Notes.

The proposed financial transactions tax

On 14 February 2013, the European Commission published a proposal (the "**Commission's Proposal**") for a Directive for a common financial transactions tax ("**FTT**") in Austria, Belgium, France, Germany, Greece, Italy, Portugal, Slovakia, Slovenia, Spain (the "**participating Member States**") and Estonia. However, Estonia has since stated that it will not participate.

The Commission's Proposal has very broad scope and could, if introduced in its current form, apply to certain dealings in the Notes (including secondary market transactions) in certain circumstances. Primary market transactions referred to in Article 5(c) of Regulation (EC) No. 1287/2006 are expected to be exempt.

Under the Commission's Proposal, the FTT could apply in certain circumstances to persons both within and outside of the participating Member States. Generally, it would apply to certain dealings in the Notes where at least one party is a financial institution, and at least one party is established in a participating Member State. A financial institution may be, or be deemed to be, "established" in a participating Member State in a broad range of circumstances, including (a) by transacting with a person established in a participating Member State or (b) where the financial instrument that is subject to the dealings is issued in a participating Member State.

The Commission's Proposal remains subject to negotiation among the participating Member States. It may therefore be altered prior to any implementation, the timing of which remains unclear. Additional EU Member States may decide to participate and/or certain of the participating Member States may decide to withdraw.

Prospective holders of the Notes are advised to seek their own professional advice in relation to the FTT.

SUBSCRIPTION AND SALE

Notes may be issued from time to time by the Issuer to any one or more of the Dealers specified under “*Overview of the Programme*”, and any additional Dealer appointed under the Programme from time to time by the Issuer (each, a “Dealer” and together, the “**Dealers**”). The arrangements under which Notes may from time to time be agreed to be issued by the Issuer to, and subscribed by, Dealers are set out in a dealer agreement dated 9 March 2020 (the “**Dealer Agreement**”) and made among the Issuer and the Dealers. Any such agreement will, *inter alia*, make provision for the form and terms and conditions of the relevant Notes, the price at which such Notes will be subscribed by the Dealers and the commissions or other agreed deductibles (if any) payable or allowable by the Issuer in respect of such subscription. The Dealer Agreement makes provision for the resignation or termination of appointment of existing Dealers and for the appointment of additional or other Dealers either generally in respect of the Programme or in relation to a particular Tranche of Notes.

Each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that it will not offer, sell or deliver Notes, (i) as part of their distribution at any time or (ii) otherwise until 40 days after the later of the issue date and completion of the distribution of all the Notes comprising the relevant Tranche, as certified to the Principal Paying Agent or the Issuer by such Dealer (or, in the case of a sale of a Tranche of Notes to or through more than one Dealer, by each of such Dealers as to the Notes of such Tranche purchased by or through it, in which case the Principal Paying Agent or the Issuer shall notify each such Dealer when all such Dealers have so certified) within the United States or to, or for the account or benefit of, U.S. persons, and that such Dealer will send to each dealer to which it sells any Notes during the distribution compliance period relating thereto a confirmation or other notice setting forth the restrictions on offers and sales of the Notes within the United States or to, or for the account or benefit of, U.S. persons. Terms used in this paragraph have the meanings given to them by Regulation S under the Securities Act.

In addition, until 40 days after the commencement of the offering of Notes comprising any Tranche, any offer or sale of Notes within the United States by any dealer (whether or not participating in the offering) may violate the registration requirements of the Securities Act.

Prohibition of Sales to EEA and UK Retail Investors

Unless the Final Terms in respect of any Notes specifies “Prohibition of Sales to EEA and UK Retail Investors” as “Not Applicable”, each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that it has not offered, sold or otherwise made available and will not offer, sell or otherwise make available any Notes which are the subject of the offering contemplated by this Base Prospectus as completed by the Final Terms in relation thereto to any retail investor in the EEA or in the UK. For the purposes of this provision:

- (a) the expression “retail investor” means a person who is one (or more) of the following:

- (i) a retail client as defined in point (11) of Article 4(1) of MiFID II; or
- (ii) a customer within the meaning of the Insurance Distribution Directive, where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; and
- (b) the expression an “offer” includes the communication in any form and by any means of sufficient information on the terms of the offer and the Notes to be offered so as to enable an investor to decide to purchase or subscribe the Notes.

If the Final Terms in respect of any Notes specifies “Prohibition of Sales to EEA and UK Retail Investors” as “Not Applicable” in relation to each Member State of the EEA and the UK (each a “**Relevant State**”), each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that it has not made and will not make an offer of Notes which are the subject of the offering contemplated by this Base Prospectus as completed by the Final Terms in relation thereto to the public in that Relevant State, except that it may make an offer of such Notes to the public in that Relevant State:

- (a) at any time to any legal entity which is a qualified investor as defined in the Prospectus Regulation;
- (b) at any time to fewer than 150 natural or legal persons (other than qualified investors as defined in the Prospectus Regulation) subject to obtaining the prior consent of the relevant Dealer or Dealers nominated by the Issuer for any such offer; or
- (c) at any time in any other circumstances falling within Article 1(4) of the Prospectus Regulation,

provided that no such offer of Notes referred to in (a) to (c) above shall require the Issuer or any Dealer to publish a prospectus pursuant to Article 3 of the Prospectus Regulation or supplement a prospectus pursuant to Article 23 of the Prospectus Regulation.

For the purposes of this provision, the expression an “offer of Notes to the public” in relation to any Notes in any Relevant State means the communication in any form and by any means of sufficient information on the terms of the offer and the Notes to be offered so as to enable an investor to decide to purchase or subscribe the Notes and the expression “**Prospectus Regulation**” means Regulation (EU) 2017/1129.

- (a) (i) it is a person whose ordinary activities involve it in acquiring, holding, managing or disposing of investments (as principal or agent) for the purposes of its business and (ii) it has not offered or sold and will not offer or sell the Notes other than to persons whose ordinary activities involve them in acquiring, holding, managing or disposing of investments (as principal or as agent) for the purposes of their businesses or who it is reasonable to expect will acquire, hold, manage or dispose of investments (as principal or agent) for the purposes of their businesses where the issue of the Notes would otherwise constitute a contravention of Section 19 of the FSMA by the Issuer;
- (b) it has only communicated or caused to be communicated and will only communicate or cause to be communicated an invitation or inducement to engage in investment activity (within the meaning of Section 21 of the FSMA) received by it in connection with the issue or sale of any Notes in circumstances in which Section 21(1) of the FSMA does not apply to the Issuer; and
- (c) it has complied and will comply with all applicable provisions of the FSMA with respect to anything done by it in relation to any Notes in, from or otherwise involving the United Kingdom.

- (b) *Compliance with Dutch Savings Certificates Act*: Each Dealer has represented, covenanted and agreed that Zero Coupon Notes (as defined below) in definitive form and other Notes which qualify as savings certificates as defined in the Dutch Savings Certificates Act (*Wet inzake spaarbewijzen*) of 21 May 1985 (as amended) may only be transferred and accepted, directly or indirectly, within, from or into The Netherlands through the mediation of either the Issuer or a member firm of Euronext Amsterdam N.V. admitted in a function on one or more of the markets or systems operated by Euronext Amsterdam N.V. (Euronext Member) in full compliance with the Dutch Savings Certificates Act (*Wet inzake spaarbewijzen*) of 21 May 1985 (as amended) and its implementing regulations. No such mediation is required: (a) in respect of the transfer and acceptance of rights representing an interest in a Zero Coupon Note in global form, or (b) in respect of the initial issue of Zero Coupon Notes in definitive form to the first holders thereof, or (c) in respect of the transfer and acceptance of Zero Coupon Notes in definitive form between individuals not acting in the conduct of a business or profession, or (d) in respect of the transfer and acceptance of such Zero Coupon Notes within, from or into The Netherlands if all Zero Coupon Notes (either in definitive form or as rights representing an interest in a Zero Coupon Note in global form) of any particular issue of Notes are issued outside The Netherlands and are not distributed into The Netherlands in the course of initial distribution or immediately thereafter. In the event that the Savings Certificates Act applies, certain identification requirements in relation to the issue and transfer of, and payments on, Zero Coupon Notes have to be complied with. Interest of natural and legal persons

Any such short

positions could adversely affect future trading prices of Notes issued under the Programme. The Dealers and their affiliates may also make investment recommendations and/or publish or express independent research views in respect of such securities or financial instruments and may hold, or recommend to clients that they acquire, long and/or short positions in such securities and instruments. or the creation of short positions in securities, including potentially the Notes issued under the Programme.
