

We are committed to taking **climate action**

Determined to help **limit global warming to below 1.5°C**, we have set ambitious climate action targets in our operations and beyond.

Being **carbon-neutral** in our operations

We are committed to being **carbon-neutral** in our entire operations from 2020 onwards. We focus our carbon-reduction efforts on our sites, business travel and logistics, and compensate all unavoidable emissions.

Focus areas

Sites

Business travel

Logistics

- 100% of our sites' electricity consumption will come from renewable sources by 2020
- Over 75% of our sites' energy consumption will come from renewable sources by 2025

Driving action **beyond our operations**

Teaming up with our customers and suppliers to drive emission reductions throughout our value chain, magnifying our impact.
