

Policy Influence Philips 2022

Acting with integrity is at the heart of our culture, and is part and parcel of our company's mission and vision.

While pursuing our business objectives, we aim to be a responsible partner in society, acting with integrity towards our employees, customers, business partners and shareholders, as well as the wider community in which we operate.

The Philips [General Business Principles](#) set the standard for acting with integrity at Philips. They govern all our decisions and actions throughout the world and apply equally to our group actions and to our conduct as individuals. Article 2.5 of the General Business Principles states:

"We comply with public procurement rules that apply to government projects or contracts. We do not make any contribution, in money or in kind, to political parties or organizations, or to individuals engaged in politics."

Our contributions in 2022

The focus and monetary amount of our contributions to trade and business associations of which we are a member, such as the World Economic Forum, the World Business Council for Sustainable Development, the Ellen MacArthur Foundation and the Dutch Sustainable Growth Coalition, are reported in the below table. We participate in such organizations to accelerate positive change in regulations towards sustainable growth, an inclusive society, and scale up action on the UN Sustainable Development Goals, for example related to access to care in underserved healthcare communities.
