## *Forward-looking statements*

This document and the related oral presentation, including responses to questions following the presentation, contain certain forward-looking statements with respect to the financial condition, results of operations and business of Philips and certain of the plans and objectives of Philips with respect to these items. Examples of forward-looking statements include statements made about our strategy, estimates of sales growth, future EBITA and future developments in our organic business. By their nature, these statements involve risk and uncertainty because they relate to future events and circumstances and there are many factors that could cause actual results and developments to differ materially from those expressed or implied by these statements.

These factors include, but are not limited to, domestic and global economic and business conditions, developments within the euro zone, the successful implementation of our strategy and our ability to realize the benefits of this strategy, our ability to develop and market new products, changes in legislation, legal claims, changes in exchange and interest rates, changes in tax rates, pension costs and actuarial assumptions, raw materials and employee costs, our ability to identify and complete successful acquisitions and to integrate those acquisitions into our business, our ability to successfully exit certain businesses or restructure our operations, the rate of technological changes, political, economic and other developments in countries where Philips operates, industry consolidation and competition. As a result, Philips' actual future results may differ materially from the plans, goals and expectations set forth in such forward-looking statements. For a discussion of factors that could cause future results to differ from such forward-looking statements, see the Risk management chapter included in our Annual Report 2012.

## *Third-party market share data*

Statements regarding market share, including those regarding Philips' competitive position, contained in this document are based on outside sources such as specialized research institutes, industry and dealer panels in combination with management estimates. Where information is not yet available to Philips, those statements may also be based on estimates and projections prepared by outside sources or management. Rankings are based on sales unless otherwise stated.

## *Use of non-GAAP Information*

In presenting and discussing the Philips Group financial position, operating results and cash flows, management uses certain non-GAAP financial measures. These non-GAAP financial measures should not be viewed in isolation as alternatives to the equivalent IFRS measures and should be used in conjunction with the most directly comparable IFRS measures. A reconciliation of such measures to the most directly comparable IFRS measures is contained in our Annual Report 2012. Further information on non-GAAP measures can be found in our Annual Report 2012.

## *Use of fair-value measurements*

In presenting the Philips Group's financial position, fair values are used for the measurement of various items in accordance with the applicable accounting standards. These fair values are based on market prices, where available, and are obtained from sources that are deemed to be reliable. Readers are cautioned that these values are subject to changes over time and are only valid at the balance sheet date. When quoted prices do not exist, we estimated the fair values using appropriate valuation models, and when observable market data are not available, we used unobservable inputs. They require management to make significant assumptions with respect to future developments, which are inherently uncertain and may therefore deviate from actual developments. Critical assumptions used are disclosed in our 2012 financial statements. Independent valuations may have been obtained to support management's determination of fair values.

All amounts in millions of euro's unless otherwise stated; data included are unaudited. Financial reporting is in accordance with the accounting policies as stated in the Annual Report 2012, unless otherwise stated.

# Development of Return on Invested Capital (ROIC)

- Excluding the European Commission fine on CRT<sup>1</sup>, ROIC improved to 9.2% in Q2 2013, from 7.0% in Q1 2013 and from 6.7% in Q2 2012 mainly due to:
  - Improved earnings in all sectors
  - Improved working capital management resulting in a lower average Net Operating Capital
- ROIC in Q1 2012 was impacted by impairment charges of 2011. Excluding these charges, ROIC was 6.6%
- **Discount rate** is 8.9%

Notes:

EBIAT are earnings before interest after tax

Philips calculates ROIC % as: EBIAT/ NOC

Quarterly ROIC % is based on LTM EBIAT and average NOC over the last 5 quarters

Reported tax used to calculate EBIAT

<sup>1</sup> CRT=Cathode-Ray Tubes, a business divested by Philips in 2001. Philips has appealed the decision. Charges were taken in Q4 2012.

# Philips' debt has a long maturity profile

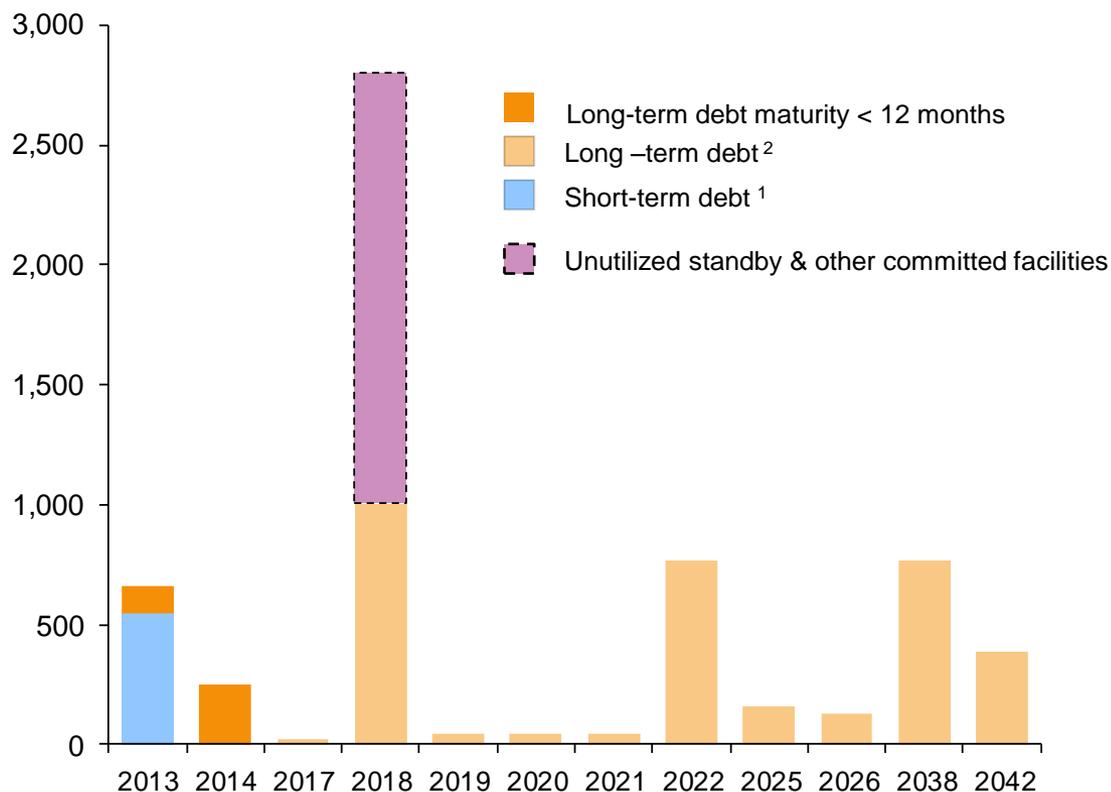

## Debt maturity profile as of June 2013

Amounts in EUR millions

### Characteristics of long-term debt

- Maturities up to 2042
- Average tenor of long-term debt is 12.5 years
- No financial covenants

In January 2013 Philips extended the maturity of its EUR 1.8 billion standby facility to February 2018

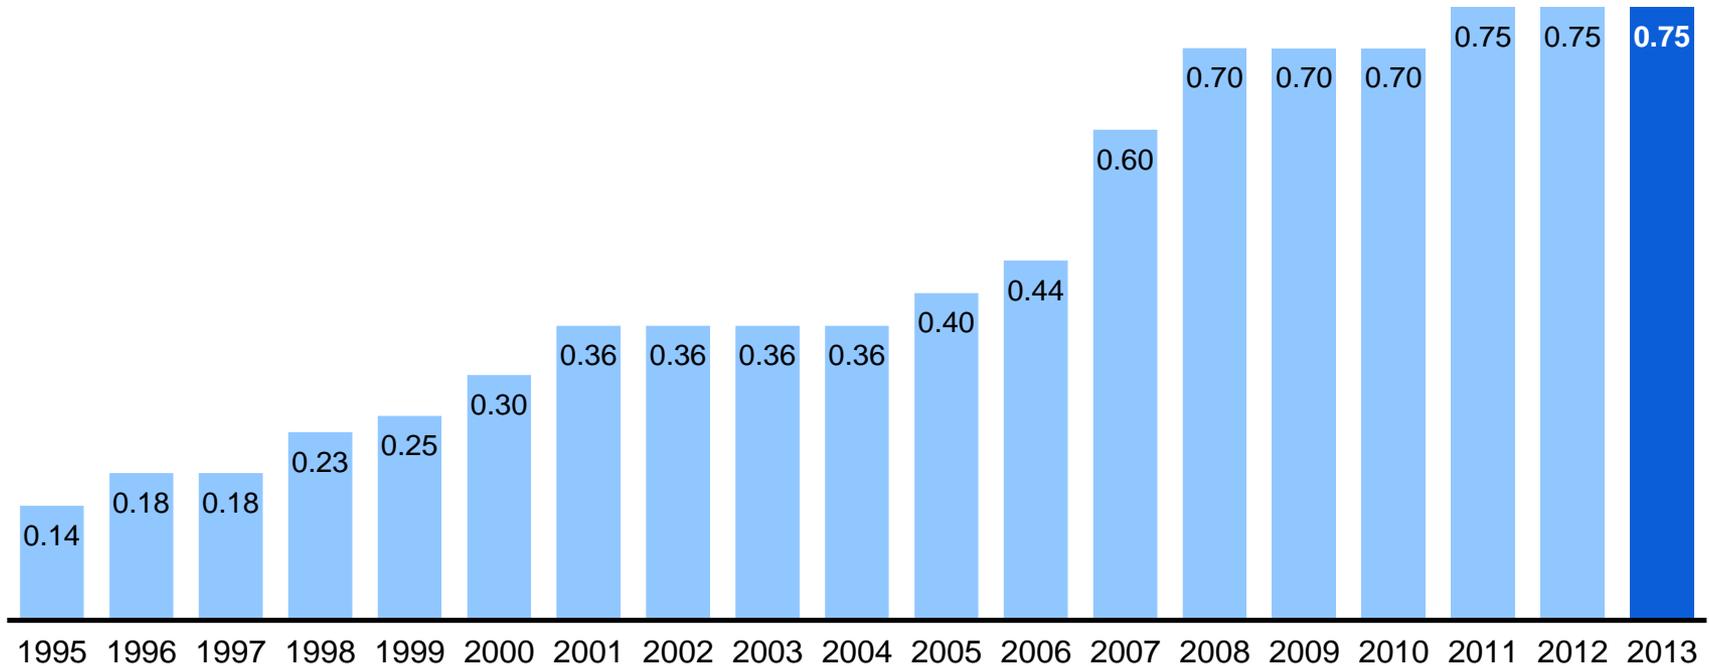

<sup>1</sup> Short term debt consists mainly of local credit facilities that are being rolled forward on a continuous basis

<sup>2</sup> In March 2012 Philips issued USD 1,000M 10 years at 3.75% and USD 500M 30 years at 5%. On Apr 10<sup>th</sup> 2012, Philips early redeemed USD 500M originally maturing in March 2013

# A history of sustainable dividend growth

“We are committed to a stable dividend policy with a 40% to 50% pay-out of continuing net income.”

# Update funded status pension plans (IFRS basis)

*EUR million*

	December 31, 2012 (re-stated for IAS19R)		June 30, 2013 (not reported)	
	Funded Status	Balance sheet position	Funded Status	Balance sheet position
Netherlands Pre-paid pension asset	777	0	801	0
Other major plans	<u>(1,237)</u>	<u>(1,823)</u>	<u>(826)</u>	<u>(1,490)</u>
Major plans	(460)	(1,823)	(25)	(1,490)
Minor plans	<u>(202)</u>	<u>(199)</u>	<u>(198)</u>	<u>(198)</u>
Total	(662)	<u>(2,022)</u>	(223)	<u>(1,688)</u>

- In Q2 2013, the funded status improved due to a gain of EUR 78 million for past-service pension costs in the US as well as favorable discount rates for the main DB<sup>1</sup> plans and equity markets. The Netherlands plan's funded status was adversely affected however from increasing Eurozone credit spreads
- Funded status 2012 has been restated to reflect the exclusion of accrued pension administration costs from the DBO<sup>2</sup> as required by IAS19R (positive impact of EUR 224 million)
- Balance Sheet: surplus in the Netherlands, UK and Brazil are not recognized (asset-ceiling test)

<sup>1</sup> DB= Defined Benefit

<sup>2</sup> DBO= Defined Benefit Obligation

# Disciplined Capital Use

- Our objective is to have an A3/A- rating
- We will drive higher capital efficiency and cash flow yields through improved working capital turns and CAPEX discipline
- We are committed to a stable dividend policy with a 40% to 50% pay-out of continuing net income
- Cash will be used to:
  - Invest in value creating growth (both organic and through acquisitions)
  - Mitigate risk
  - Return capital to shareholders over time
- We will exercise stringent discipline and return criteria (including ROIC hurdles) in our end-to-end acquisition process in line with the nature of the transaction

## Market impact of improvement actions

### Managed Healthcare services: USA

Philips and Georgia Regents Medical Center (GRMC) entered into a 15-year alliance for a first-of-its-kind healthcare delivery model in the United States. Philips will provide GRMC with strategic planning, technology innovation and operational support to achieve improved patient outcomes under a single, consistent payment structure.

### Oral Healthcare: Germany

Solid topline growth with an increase in market share for the Airfloss and Sonicare toothbrushes was achieved through intensive BMC<sup>1</sup> collaboration and local marketing investments focusing on innovative products coupled with an awareness campaign endorsed by dental professionals.

### Consumer LED Lamps

In Germany LED lamps revenues have grown by 240%, making us the market leader. This was enabled by our deep consumer insights combined with the redesign of our End2End processes which simplified our product portfolio, increased common components and lowered costs.

### Multicooker: Russia

Our locally relevant Multicooker in Russia was developed with deep market insight from retailers and consumers. This has resulted in gaining a leadership position in a new product category that is demonstrating rapid growth. In the 12 months since the launch we have sold > 700k units.

# Cost reduction program targeting overhead & indirect costs will bring EUR 1.1 billion in savings

■ Cost reduction scope

## Clear design principles

- Taking out overhead and support cost
  - *All overheads, layers and support functions*: IT, Finance, HR, Real Estate, Management, etc
  - Indirect business functions not directly involved in the *customer value chain*
  - *Single added value layer* (no duplication) and *reduce complexity*
- All savings against H1 2011 baseline
- Focus on sustainable structural savings instead of “variable” costs

# EUR 1.1 billion cost reduction program

The plan for 2014 includes gross savings for the Audio, Video, Multimedia and Accessories business of EUR 57M and a headcount reduction of 99 employees

# Overhauling our business model architecture

From 70+  
business models

To 4 End2End  
business models

- All Philips businesses to adopt one of four standardized business models
- Investments being made to standardize processes, data, and new IT backbone
- A single planning, performance and reward cycle across Philips
- Investing to create a culture for such a major change

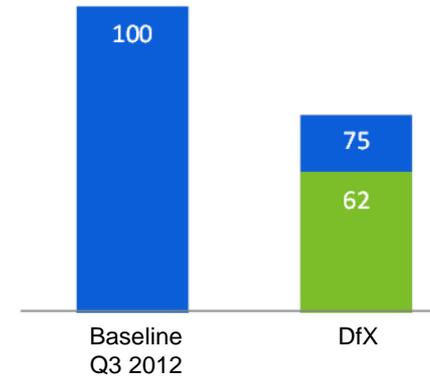

# Applying DfX\* in the product creation process

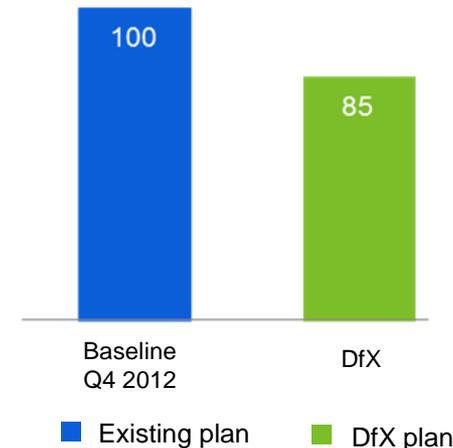

\*Design for X; X = cost, quality, manufacturing etc.

- End2End approach to product creation, with one integrated team of procurement, supply chain, R&D, marketing, finance and the supplier upfront to drive breakthrough cost savings through:
  - Value engineering
  - Re-design the purchasing value chain
  - Leveraging global spend
- Early successes show that significant cost savings can be achieved in mature products, i.e. products being manufactured over 5 years, as well as new product introductions
- Currently building a funnel of opportunities targeting additional cumulative savings of EUR 1 billion over the period 2014 to 2016

## Growth Geographies<sup>1</sup>

## Financial performance

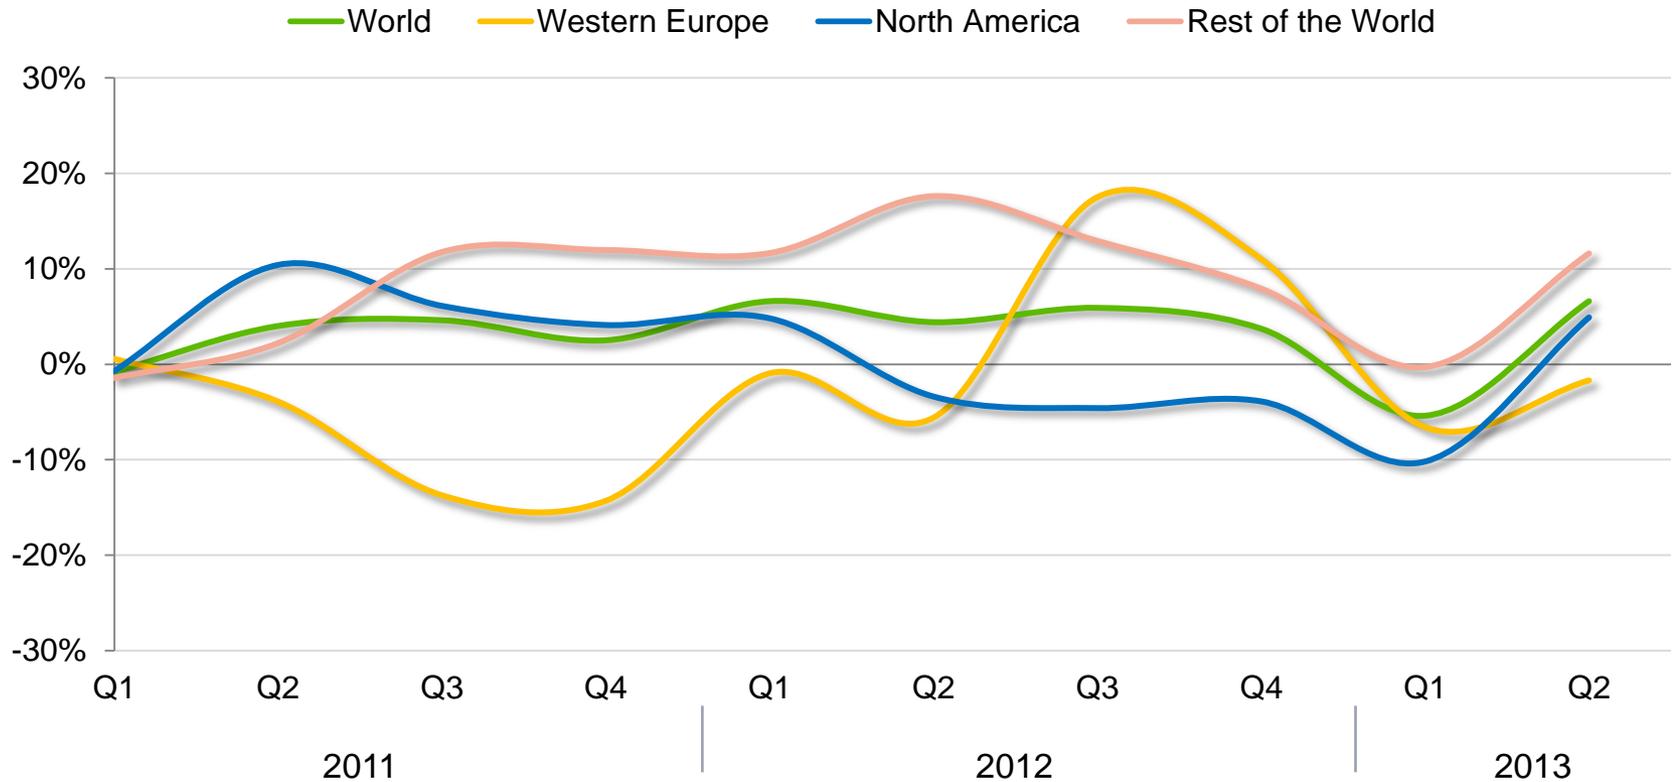

- Currency-comparable equipment order intake grew 7% year-on-year. Double-digit growth was recorded at Patient Care & Clinical Informatics, while low-single-digit growth was seen at Imaging Systems. Equipment order intake in North America showed mid-single-digit growth, while orders in growth geographies increased by 19% compared to Q2 2012. Western Europe equipment order intake saw a low-single-digit decline.
- Healthcare comparable sales remained flat year-on-year. Customer Services recorded mid-single-digit growth, while Patient Care & Clinical Informatics and Home Healthcare Solutions achieved low-single-digit growth. Imaging Systems saw a high-single-digit decline. From a regional perspective, comparable sales in growth geographies increased by 10% year-on-year, with strong growth in China and Latin America. Sales in mature geographies declined 3% year-on-year, with North America and Western Europe showing mid-single-digit and low-single-digit declines respectively.
- EBITA was EUR 420 million, or 17.8% of sales, compared to EUR 308 million, or 12.8% of sales, in Q2 2012. Excluding restructuring and acquisition-related charges and other gains, EBITA amounted to EUR 338 million, or 14.3% of sales, compared to EUR 316 million, or 13.1% of sales, in Q2 2012. EBITA in the quarter included a EUR 61 million past-service pension cost gain in the US and a EUR 21 million gain on the sale of a business.
- Net operating capital, excluding a currency translation impact of EUR 466 million, decreased by EUR 392 million to EUR 7.7 billion. This decrease was largely driven by improved working capital and lower fixed assets. Inventories as a % of sales improved by 2.6 percentage points year-on-year, with improvements seen across all businesses. Compared to Q2 2012, the number of employees decreased by 617, as a result of reductions in NA and Europe.

## Financial performance

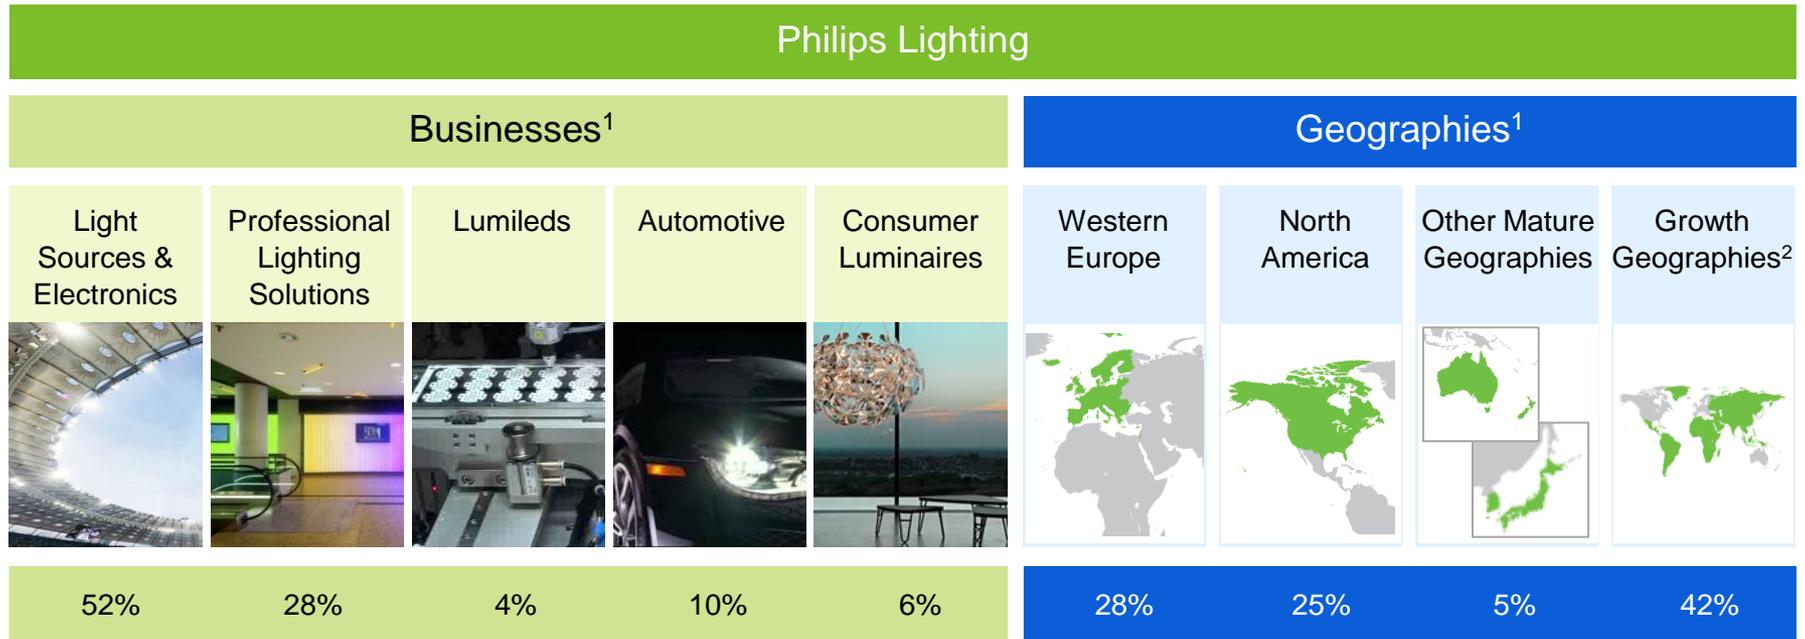

- Consumer Lifestyle comparable sales increased by 13%. Strong double-digit comparable growth was seen at Domestic Appliances and Personal Care, while Health & Wellness recorded mid-single-digit growth. From a regional perspective, Consumer Lifestyle achieved a strong double-digit comparable sales increase in growth geographies and mid-single-digit growth in Western Europe and North America.
- EBITA amounted to EUR 82 million, an increase of EUR 42 million compared to Q2 2012. EBITA in Q2 2013 included EUR 3 million of restr. & acq.-related charges and a EUR 1 million past-service pension cost gain in the US, compared to EUR 8 million of restr. & acq.-related charges in Q2 2012.
- Excluding restructuring and acquisition-related charges and the US past-service pension cost gain, EBITA was EUR 84 million, or 7.8% of sales, compared to EUR 48 million, or 5.0% of sales, in Q2 2012. The 2.8 percentage points improvement was largely attributable to higher sales and improved gross margins across all businesses. EBITA included EUR 7 million of costs formerly reported as part of the Audio, Video, Multimedia and Accessories business in Consumer Lifestyle (Q2 2012 included EUR 9 million of costs related to the Audio, Video, Multimedia and Accessories business and EUR 9 million of costs related to the Television business).
- Net operating capital, excluding a currency translation impact of EUR 66 million, decreased by EUR 266 million year-on-year. The decrease was largely driven by lower working capital. The number of employees decreased by 126 year-on-year, largely due to the seasonal outflow of temporary workers, mainly in the Domestic Appliances business and the Asian region.

## Sales per region

## Growth Geographies<sup>1</sup>

## Financial performance

- Comparable sales were 2% higher year-on-year, led by high-single-digit growth at Automotive and mid-single-digit growth at Lumileds and Consumer Luminaires. Light Sources & Electronics achieved low-single-digit growth, while Professional Lighting Solutions' sales were slightly below the level of Q2 2012. From a geographical perspective, comparable sales showed a double-digit increase in growth geographies (8% increase in comparable sales excluding the OEM Lumileds sales), which was partly offset by a mid-single-digit decrease in mature geographies. LED-based sales grew 28% compared to Q2 2012 and now represent 25% of total Lighting sales.
- EBITA amounted to EUR 153 million, compared to EUR 78 million in Q2 2012, and included restr. & acq.-related charges of EUR 23 million (Q2 2012: EUR 38 million), as well as a past-service pension cost gain in the US of EUR 10 million.
- Excluding restructuring and acquisition-related charges and the past-service pension cost gain in the US, EBITA was EUR 166 million, or 8.1% of sales, compared to EUR 116 million, or 5.7% of sales, in Q2 2012. The year-on-year EBITA increase was driven by revenue growth and gross margin improvements. All businesses contributed to the EBITA improvement.
- Net operating capital, excluding a currency translation impact of EUR 185 million, decreased by EUR 370 million year-on-year. The decrease was largely driven by an increase in provisions and improved working capital. Inventories as a % of sales improved by 1.2 percentage points year-on-year. Compared to Q2 2012, the total number of employees decreased by 3,601, mainly driven by the rationalization of the industrial footprint.

## Financial performance

- Sales decreased from EUR 171 million in Q2 2012 to EUR 161 million in Q2 2013, mainly due to lower license income.
- EBITA amounted to a net cost of EUR 52 million, including a EUR 6 million past-service pension cost gain in the US. The EBITA net cost of EUR 87 million in Q2 2012 included a past-service cost gain on a medical retiree benefit plan of EUR 25 million. Net restructuring charges in Q2 2013 were close to zero, while restructuring charges in Q2 2012 were EUR 40 million. EBITA excluding restructuring charges and past-service pension cost gains improved by EUR 14 million compared to Q2 2012, mainly related to the remeasurement of environmental provisions due to changes in discount rates.
- EBITA of Service Units and Other included EUR 13 million of net costs formerly reported as part of the Audio, Video, Multimedia and Accessories business in Consumer Lifestyle (Q2 2012 included EUR 9 million related to the Audio, Video, Multimedia and Accessories business and EUR 9 million related to the Television business).
- Net operating capital increased by EUR 444 million year-on-year, mainly due to an increase in the value of currency hedges held at Group level as well as the reclassification of real estate assets from the sectors to Service Units.
